Troubled Real Estate Asset Growth Rates	15
Real Estate Assets as a Percent of Total Assets and Real Estate Loan Growth Rates	16
Noncurrent Real Estate Loan Rates by Region	17
Troubled Real Estate Asset Rates by Region	18
Noncurrent Commercial and Industrial Loan Rates by Region	19
Consumer Loans and Consumer Loan Delinquency Rates	20
Quarterly Return on Assets (ROA) and Return on Equity (ROE)	21
Return on Assets (ROA) and State Rankings by ROA Improvement	22
Annual Return on Assets (ROA), Return on Equity (ROE), and Net Income	23

FDIC-Insured Savings Institutions

Quarterly Net Income and Margins	24
Troubled Real Estate Asset Rates by State	25
Troubled Real Estate Asset Growth Rates	26
Annual Return on Assets and Quarterly ROA's of Stock and Mutual Institutions	27
Assets and Number of Mutual and Stock Savings Institutions	28
Noncurrent Real Estate Loan Rates by Region	29
Troubled Real Estate Asset Rates by Region	30
Return on Assets (ROA) and State Rankings by ROA Improvement	31
Annual Return on Assets (ROA), Return on Equity (ROE), and Net Income	32

All FDIC-Insured Institutions

Number and Assets of FDIC-Insured "Problem" Institutions	33
Capital Category Distribution and Definitions	34
Number of Failed FDIC-Insured Institutions	35
Assets of Failed FDIC-Insured Institutions	36
Total Liabilities and Equity Capital	37

Notes to Users	38
-----------------------	----

FOURTH-QUARTER AND FULL-YEAR HIGHLIGHTS

- **COMMERCIAL BANKS EARN \$11.1 BILLION IN FOURTH QUARTER**

Fourth-quarter net income of \$11.1 billion is the second-highest quarterly total ever, after the \$11.5 billion banks earned in the third quarter of 1993. The average return on assets in the fourth quarter was 1.21 percent, marking the fourth quarter in a row that commercial banks' ROA has averaged over one percent.

- **FULL-YEAR EARNINGS OF \$43.4 BILLION SET NEW RECORD**

Full-year net income of \$43.4 billion was more than one-third higher than the previous record of \$32.0 billion, set in 1992. The average ROA for the year was 1.21 percent, well above the 0.93 percent average for 1992. This is the first year that commercial banks' ROA has exceeded one percent.

- **LOAN-LOSS PROVISIONS DECLINE TO 10-YEAR LOW IN 1993**

The most important source of earnings strength in 1993 was lower loan-loss provisioning, reflecting continued improvement in asset quality. Banks set aside \$16.6 billion in provisions for future losses in 1993; this is the smallest annual total since 1984 and is \$9.5 billion less than they set aside in 1992. Net loan losses in 1993 totaled \$17.5 billion, the lowest amount in six years.

- **EQUITY CAPITAL RISES ABOVE 8 PERCENT OF ASSETS AT YEAR-END**

Equity capital growth remained strong in the fourth quarter, as commercial banks' equity-to-assets ratio surpassed 8 percent for the first time since 1963. Almost \$3 billion of the \$8.2 billion increase in equity capital in the fourth quarter resulted from the adoption by some banks of a new accounting rule that changes the way they report certain securities holdings.

- **LOAN GROWTH CONTINUES TO GAIN MOMENTUM IN FOURTH QUARTER**

Total loans grew by \$52.9 billion in the fourth quarter, the largest quarterly increase since the last quarter of 1986, when total loans and leases grew by \$73.5 billion. All major loan categories except real estate construction and development loans increased in 1993, with the largest growth in residential mortgage loans. Commercial and industrial loans grew by \$2.8 billion in 1993, the first time in four years that they have increased.

- **SAVINGS INSTITUTIONS ENJOY RECORD EARNINGS IN 1993**

FDIC-insured savings institutions earned \$7 billion in 1993, the largest full-year total ever registered by the industry. Although almost 95 percent of all savings institutions reported positive earnings for the year, the results were not evenly distributed. Some of the largest savings institutions continue to struggle with asset-quality problems; four of the ten largest savings institutions were unprofitable in 1993. The average ROA for the year was 0.72 percent, reflecting continuing improvement in asset quality for the industry as a whole.

Assets of FDIC-Insured "Problem" Institutions 1990 - 1993

Amounts in Billions

Savings Institutions	298	291	274	245	223	184	167	128	103	92
Commercial Banks	342	528	535	495	488	408	377	326	281	242

Capital Category Distribution

December 31, 1993

BIF-Member Institutions

	Institutions		Assets	
	Number of	Percent of Total	In Billions	Percent of Total
Well Capitalized	11,065	98.0%	\$3,801.1	96.2%
Adequately Capitalized	176	1.6%	\$141.0	3.6%
Undercapitalized	18	0.2%	\$1.4	0.0%
Significantly Undercapitalized	22	0.2%	\$4.9	0.1%
Critically Undercapitalized	10	0.1%	\$1.4	0.0%

SAIF-Member Institutions

	Institutions		Assets	
	Number of	Percent of Total	In Billions	Percent of Total
Well Capitalized	1,822	94.4%	\$670.3	88.5%
Adequately Capitalized	97	5.0%	\$85.1	11.2%
Undercapitalized	9	0.5%	\$1.8	0.2%
Significantly Undercapitalized	1	0.1%	\$0.1	0.0%
Critically Undercapitalized	1	0.1%	\$0.1	0.0%

Note: These tables are based solely on Call Report and Thrift Financial Report data and do not reflect supervisory upgrades or downgrades. Of the 11 institutions categorized as Critically Undercapitalized, one institution with assets of \$603 million recapitalized, two institutions with assets of \$139 million merged, and one institution with assets of \$39 million was upgraded to significantly undercapitalized, between January 1 and March 9.

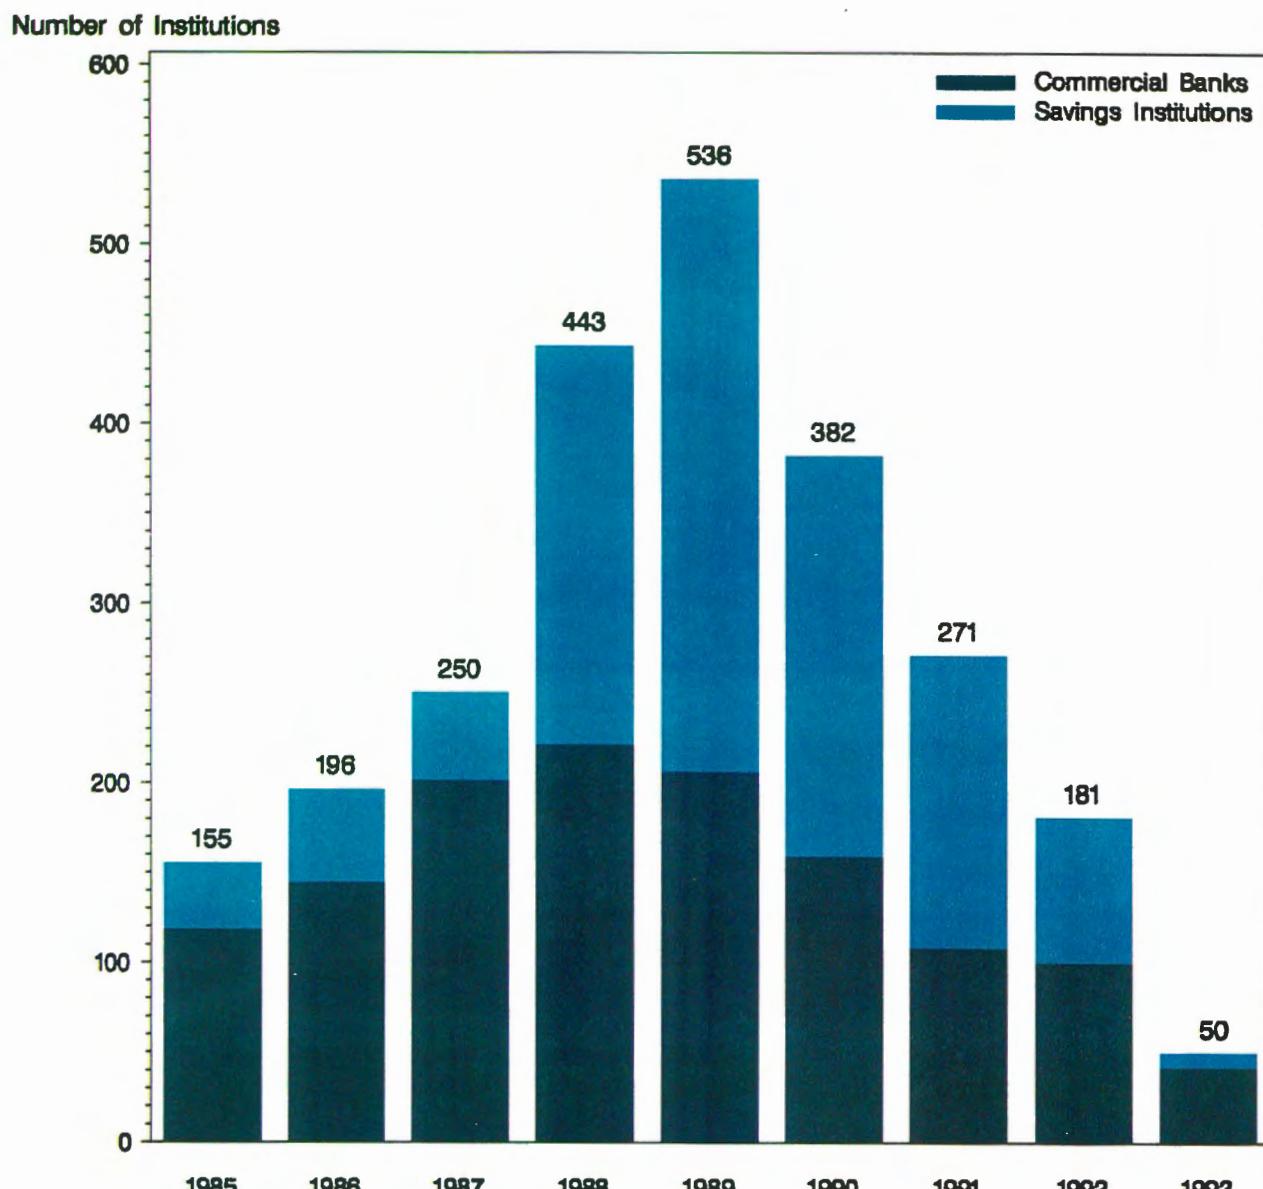

Capital Category Definitions

	Total Risk-Based Capital*	Tier 1 Risk-Based Capital*		Tier 1 Leverage	Tangible Equity
Well Capitalized	>= 10%	and	>= 6%	and	>= 5% ..
Adequately Capitalized	>= 8%	and	>= 4%	and	>= 4% ..
Undercapitalized	< 8%	or	< 4%	or	< 4% ..
Significantly Undercapitalized	< 6%	or	< 3%	or	< 3% ..
Critically Undercapitalized	--	--	--	--	<= 2%

* As a percentage of risk-weighted assets.

Note: Standards vary in some instances for the strongest banks, banks anticipating growth, and banks subject to supervisory agreements or directives.

NOTES TO USERS

This publication contains financial data and other information for depository institutions insured by the Federal Deposit Insurance Corporation (FDIC). These notes are an integral part of this publication and provide information regarding the comparability of source data and reporting differences over time. The information presented in the *FDIC Quarterly Banking Profile* is divided into the following groups of institutions.

FDIC-Insured Commercial banks

This section covers commercial banks insured by the FDIC either through the Bank Insurance Fund (BIF) or through the Savings Association Insurance Fund (SAIF). Most institutions included in this publication are traditional full-service commercial banks. However, several types of more specialized institutions are also included, which under existing legislative definitions and regulatory practices are considered commercial banks. These institutions include banks primarily engaged in credit card operations, home equity lending or consumer-oriented activities, banks created primarily to benefit parent company operations, and banks that limit or restrict their activities or scope of operations. These institutions are regulated by and submit financial reports to one of the three federal commercial bank regulators (the Board of Governors of the Federal Reserve System, the FDIC or the Office of the Comptroller of the Currency).

FDIC-Insured Savings Institutions

This section covers savings institutions insured by either BIF or SAIF that operate under state or federal banking codes applicable to thrift institutions, except for one self-liquidating institution primarily funded by the FSLIC Resolution Fund (FRF). Savings institutions that have been placed in Resolution Trust Corporation conservatorship are also excluded from these tables while in conservatorship. The institutions covered in this section are regulated by and submit financial reports to one of two Federal regulators — the FDIC or the Office of Thrift Supervision (OTS).

All FDIC-Insured Institutions by Insurance Fund

Summary balance sheet and earnings data are provided for commercial banks and savings institutions according to insurance fund membership. BIF-member institutions may acquire SAIF-insured deposits, resulting in institutions with some deposits covered by both insurance funds. Also, SAIF members may acquire BIF-insured deposits. The insurance fund membership does not necessarily reflect which fund insures the largest percentage of an institution's deposits. Therefore, the BIF-member and the SAIF-member tables each include deposits from both insurance funds. Depository institutions that are not insured by the FDIC through either the BIF or SAIF are not included in the *FDIC Quarterly Banking Profile*. U.S. branches of institutions headquartered in foreign countries and non-deposit trust companies are not included. Efforts are made to include financial reports for all active institutions. However, in some cases, final financial reports are not available for institutions that are closed or converted their charter.

DATA SOURCES

The financial information appearing in this publication is obtained primarily from the Federal Financial Institutions Examination Council (FFIEC) *Call Reports* and the OTS *Thrift Financial Reports* submitted by all FDIC-insured depository institutions. This information is stored on and retrieved from the FDIC's Financial Time Series (FTS) data base.

COMPUTATION METHODOLOGY

Certain adjustments are made to the OTS *Thrift Financial Reports* to provide closer conformance with the reporting and accounting requirements of the FFIEC *Call Reports*. The detailed schedules of the *Thrift Financial Report* reflect the consolidation of the parent thrift with all finance subsidiaries. All other subsidiaries are reported as investments on an equity basis or a cost basis. Some accounting differences exist, such as asset sales with recourse,

for which the data necessary to reconcile these differences is not reported.

All year-to-date and quarterly income statement figures used in calculating performance ratios represent amounts for that period, annualized (multiplied by the number of periods in a year). Quarterly income figures from the *Thrift Financial Report* are accumulated for each reporting institution to obtain a year-to-date income statement. For institutions that file a *Call Report*, the reported year-to-date income statement figures for two periods are used to derive a quarterly income statement after making adjustments to account for "pooling-of-interest" mergers since they include year-to-date income for all merged institutions.

All asset and liability figures used in calculating performance ratios represent average amounts for the period (beginning-of-period amount plus end-of-period amount plus any interim periods, divided by the total number of periods). For "pooling-of-interest" mergers, the assets of the acquired institution(s) are included in average assets since the year-to-date income includes the results of all merged institutions. No adjustments are made for "purchase accounting" mergers. All asset and liability figures used in calculating the condition ratios represent amounts reported at the end of the quarter. Growth rates represent the percentage change over a 12-month period in totals for institutions in the base period to totals for institutions in the current period. Tables III and IV do not provide growth rates for the "Asset Size Distribution" since many institutions migrate between the size groups.

DEFINITIONS (in alphabetical order)

Capital Category Distribution — each institution's capital category is calculated or estimated from its financial report and does not reflect supervisory upgrades or downgrades:

	Total	Risk-Based Capital*	Risk-Based Capital*	Tier 1 Leverage	Tangible Equity
Well capitalized	$\geq 10\%$	$\geq 6\%$	$\geq 6\%$	$\geq 5\%$	—
Adequately capitalized	$\geq 8\%$	$\geq 4\%$	$\geq 4\%$	$\geq 4\%$	—
Undercapitalized	$< 8\%$	$< 4\%$	$< 4\%$	$< 4\%$	—
Significantly undercapitalized	$< 6\%$	$< 3\%$	$< 3\%$	$< 3\%$	—
Critically undercapitalized	—	—	—	—	$\leq 2\%$

*As a percentage of risk-weighted assets.

Investment securities — excludes securities held in trading accounts where possible.

Loans secured by real estate — includes home equity loans, junior liens secured by 1-4 family residential properties and all other loans secured by real estate.

Loans to individuals — includes outstanding credit card balances, and other secured and unsecured consumer loans.

Mortgage-backed securities — certificates of participation in pools of residential mortgages and collateralized mortgage obligations issued or guaranteed by government-sponsored or private enterprises.

Net interest margin — the difference between interest and dividends earned on interest-bearing assets and interest paid to depositors and other creditors, expressed as a percentage of average earning assets. No adjustments are made for interest income that is tax exempt.

Net operating income — income excluding discretionary transactions such as gains (or losses) on the sale of investment securities and extraordinary items. Income taxes subtracted from operating income have been adjusted to exclude the portion applicable to securities gains (or losses).

Noncurrent assets — the sum of loans, leases, debt securities and other assets that are 90 days or more past due, or in non-accrual status. Noncurrent debt securities and other assets were not included prior to March 1991.

Noncurrent loans & leases — the sum of loans and leases 90 days or more past due, and loans and leases in nonaccrual status.
Other real estate owned — primarily foreclosed property. Direct and indirect investments in real estate ventures are excluded. The amount is reflected net of valuation allowances. For institutions that file a Thrift Financial Report (TFR), the valuation allowance subtracted also includes allowances for other repossessed assets. Also, for TFR filers the components of other real estate owned are reported gross of valuation allowances.

"Problem" Institutions — Federal regulators assign a composite rating to each financial institution, based upon an evaluation of financial and operational criteria. The rating is based on a scale of 1 to 5 in ascending order of supervisory concern. "Problem" institutions are those institutions with financial, operational, or managerial weaknesses that threaten their continued financial viability. Depending upon the degree of risk and supervisory concern, they are rated either a "4" or "5". For all BIF-member institutions, and for all SAIF-member institutions for which the FDIC is the primary federal regulator, FDIC composite ratings are used. For all SAIF-member institutions whose primary federal regulator is the OTS, the OTS composite rating is used.

Regions

Northeast — Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Puerto Rico, Rhode Island, Vermont, U.S. Virgin Islands

Southeast — Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, West Virginia

Central — Illinois, Indiana, Kentucky, Michigan, Ohio, Wisconsin

Midwest — Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota

Southwest — Arkansas, Louisiana, New Mexico, Oklahoma, Texas

West — Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, Oregon, Pacific

Return on assets — net income (including gains or losses on securities and extraordinary items) as a percentage of average total assets. The basic yardstick of bank profitability.

Return on equity — net income (including gains or losses on securities and extraordinary items) as a percentage of average total equity capital.

Risk-weighted assets — assets based on risk-based capital definitions which include on-balance-sheet as well as off-balance-sheet items multiplied by risk weights that range from zero to 100 percent. A conversion factor is used to assign a balance sheet equivalent amount for selected off-balance-sheet accounts.

Troubled real estate asset rate — noncurrent real estate loans plus other real estate owned as a percent of total real estate loans and other real estate owned.
