## FDIC ISSUES REVISED FIRST QUARTER CRA EXAMINATION SCHEDULE

### FOR IMMEDIATE RELEASE

The FDIC has issued a revised public list of its institutions (154kb PDF file - PDF Help or hard copy) to be examined under regulations implementing the Community Reinvestment Act (CRA). The updated list covers the first quarter of 1998. The listing has been amended to include 19 additional institutions from the Kansas City Region that were inadvertently omitted from the original listing published in PR-86-97 on November 26, 1997.

In May 1995, the Federal bank and thrift regulators published revised CRA regulations that require each regulator to publish a quarterly CRA examination schedule at least 30 days before the beginning of each quarter, beginning January 1, 1996.

The regulators encourage public comment on the institutions to be examined under the CRA. Comments about FDIC-supervised institutions should be directed to the institutions themselves or to the Regional Director of the appropriate FDIC regional office (a list of those locations is attached). All public comments received prior to completion of a CRA examination will be considered.

The schedule of institutions to be examined January 1, 1998, through March 31, 1998, is based on the best information now available. Examination schedules may change. For example, unanticipated supervisory issues could arise that may necessitate examination of an institution that is not on the published list. Such issues may arise as the result of a CRA protest, a consumer complaint, or other significant events. Additionally, some institutions may require more time and resources than originally allotted, thus delaying completion of an examination and delaying other scheduled

Congress created the Federal Deposit Insurance Corporation in 1933 to restore public confidence in the nation's banking system. It promotes the safety and soundness of these institutions by identifying, monitoring and addressing risks to which they are exposed. The FDIC receives no federal tax dollars — insured financial institutions fund its operations.
