Mutual of Omaha Bank, Omaha, Nebraska, Assumes All of the Deposits of Marco Community Bank, Marco Island, Florida

Marco Community Bank, Marco Island, Florida, was closed today by the Florida Office of Financial Regulation, which appointed the Federal Deposit Insurance Corporation (FDIC) as receiver. To protect the depositors, the FDIC entered into a purchase and assumption agreement with Mutual of Omaha Bank, Omaha, Nebraska, to assume all of the deposits of Marco Community Bank.

The sole branch of Marco Community Bank will reopen on Saturday as a branch of Mutual of Omaha Bank. Depositors of Marco Community Bank will automatically become depositors of Mutual of Omaha Bank. Deposits will continue to be insured by the FDIC, so there is no need for customers to change their banking relationship to retain their deposit insurance coverage. Customers should continue to use their existing branch until they receive notice from Mutual of Omaha Bank that it has completed systems changes to allow other Mutual of Omaha Bank branches to process their accounts as well.

This evening and over the weekend, depositors of Marco Community Bank can access their money by writing checks or using ATM or debit cards. Checks drawn on the bank will continue to be processed. Loan customers should continue to make their payments as usual.

As of December 31, 2009, Marco Community Bank had approximately \$119.6 million in total assets and \$117.1 million in total deposits. Mutual of Omaha Bank will pay the FDIC a premium of 1.5 percent to assume all of the deposits of Marco Community Bank. In addition to assuming all of the deposits of the failed bank, Mutual of Omaha Bank agreed to purchase essentially all of the assets.

Congress created the Federal Deposit Insurance Corporation in 1933 to restore public confidence in the nation's banking system. It promotes the safety and soundness of these institutions by identifying, monitoring and addressing risks to which they are exposed. The FDIC receives no federal tax dollars — insured financial institutions fund its operations.

FDIC press releases and other information are available on the Internet at www.fdic.gov, by subscription electronically (go to www.fdic.gov/about/subscriptions/index.html) and may also be obtained through the FDIC's Public Information Center (877-275-3342 or 703-562-2200). PR-31-2010

The FDIC and Mutual of Omaha Bank entered into a loss-share transaction on \$104.8 million of Marco Community Bank's assets. Mutual of Omaha Bank will share in the losses on the asset pools covered under the loss-share agreement. The loss-share transaction is projected to maximize returns on the assets covered by keeping them in the private sector. The transaction also is expected to minimize disruptions for loan customers. For more information on loss share, please visit: <http://www.fdic.gov/bank/individual/failed/lossshare/index.html>.

Customers who have questions about today's transaction can call the FDIC toll-free at 1-800-822-9247. The phone number will be operational this evening until 9:00 p.m., Eastern Standard Time (EST); on Saturday from 9:00 a.m. to 6:00 p.m., EST; on Sunday from noon to 6:00 p.m., EST; and thereafter from 8:00 a.m. to 8:00 p.m., EST. Interested parties also can visit the FDIC's Web site at <http://www.fdic.gov/bank/individual/failed/marco.html>.

The FDIC estimates that the cost to the Deposit Insurance Fund (DIF) will be \$38.1 million. Mutual of Omaha Bank's acquisition of all the deposits was the "least costly" resolution for the FDIC's DIF compared to all alternatives. Marco Community Bank is the 17th FDIC-insured institution to fail in the nation this year, and the third in Florida. The last FDIC-insured institution closed in the state was Florida Community Bank, Immokalee, on January 29, 2010.
