

Regulatory Relief

FIL-17-98 February 20, 1998

TO: CHIEF EXECUTIVE OFFICER

SUBJECT: Steps to Help Rebuild Areas Affected by the Pacific Storms

The Federal Deposit Insurance Corporation (FDIC) has announced a series of steps intended to facilitate the process of rebuilding areas in California damaged by recent storms.

As noted in the attached guidelines, the FDIC is encouraging state-chartered banks to work constructively with borrowers who are experiencing difficulties due to conditions beyond their control. The guidelines suggest that extending repayment terms, restructuring existing loans or easing terms for new loans, if done in a manner consistent with sound banking practices, can both contribute to the health of the community and serve the long-term interests of the lending institution. The guidelines also address other types of regulatory relief.

For guidance on these and related matters, please contact the FDIC's San Francisco Regional Office at (415) 546-0160.

Nicholas J. Ketcha Jr. Director
