509. FIPS FOR POSIX SYSTEM ADMINISTRATION

Legal Authority: PL 100-235

CFR Citation: None

Legal Deadline: None

Abstract: This standard will adopt a set of specifications on an interim basis to provide functional system administration requirements for POSIX operating system implementations. Actual utility names and options for system administration will be specified in a future revision to this FIPS. This standard will facilitate the interchange of computer programs among different vendor systems and architectures.

Abstract: The National Institute of Standards and Technology (NIST) will propose to establish the National Voluntary Conformity Assessment System Evaluation (NVCASE) Program. The program will enable the Department of Commerce, acting through NIST, to evaluate and recognize competently conducted conformity assessment activities. The results of NIST evaluations will provide a basis for the U.S. Government to assure foreign governments that qualified conformity assessment bodies are competent to satisfy their regulatory requirements. The program is complementary to those of other Federal agencies and is intended, together with those programs, to provide the basis for U.S. Government negotiations with foreign governments to gain their recognition of U.S.-based conformity assessment bodies as providing results acceptable for regulatory purposes. The program is intended to cover organizations engaged in product sample testing, product certification, and quality system registration and, most especially, their accreditors. NIST will offer its evaluations, based on publicly developed requirements, on a fee-for-service basis and will provide those meeting the requirements (cont)

517. PROPOSED REVISION OF FIPS 173, SPATIAL DATA TRANSFER STANDARD (SDTS)

Legal Authority: PL 100-235
CFR Citation: None
Legal Deadline: None

Abstract: This proposed revision to FIPS 173, Spatial Data Transfer Standard (SDTS), adds a Topological Vector Profile (TVP). The TVP is a limited subset of SDTS specifications for the transfer of vector data. FIPS 173 currently consists of three parts and provides specifications for the organization and structure of digital spatial data transfer, definition of spatial features and attributes, and data transfer encoding. The purpose of this standard is to promote and facilitate the transfer of digital spatial data between dissimilar computer systems. This proposed revision will supersede FIPS PUB 173 in its entirety.

Abstract: This rule will implement the Fastener Quality Act. In 1990, Congress enacted the Fastener Quality Act (the Act) to protect public safety, deter introduction of nonconforming fasteners into commerce, improve traceability of fasteners used in critical applications, and provide customers with greater assurance that fasteners meet stated specifications. The Act requires that certain fasteners sold in commerce conform to the specifications to which they are represented to be manufactured; provides for accreditation of laboratories engaged in fastener testing; and requires the

inspection, testing, and certification (in accordance with standardized methods) of fasteners used in critical applications.

Legal Authority: 15 USC 278n

CFR Citation: 15 CFR 295

Legal Deadline: None

Abstract: The American Technology Preeminence Act of 1992 (Public Law 102-245), made changes in the legal authority for the Advanced Technology Program that must be incorporated into the ATP program procedures. Changes address: (1) participation by foreign companies in ATP; (2) the establishment of a patent policy different from the governmentwide policy set out by the Bayh-Dole Act; and (3) a new requirement that "joint research and development ventures" be industry-led. Further, requirements for royalty-sharing by ATP recipients with the Federal Government for inventions funded under ATP have been repealed by the Act and are thus to be removed from the regulations. Similarly, ATP authority to provide direct funding to independent research organizations has been repealed, and appropriate revisions to the regulations are needed. Also, changes not required by the Act will be proposed, including changes to simplify and clarify the selection criteria and to streamline the internal operations of ATP, including the selection process.

Legal Authority: PL 100-235

CFR Citation: None

Legal Deadline: None

Abstract: This revised FIPS adopts the redesignated version of the CGM standard, known as ANSI/ISO 8632-1-4:1992, and adds a requirement for the use of profiles. A profile defines the options, elements, and parameters of ANSI/ISO 8632 necessary to accomplish a particular function and to maximize the probability of interchange between systems implementing the profile. The revised FIPS adopts MIL-D-28003A, Computer-Aided Acquisition and Logistics Support (CAL), as the first CGM Application Profile.

Legal Authority: 16 USC 1853(f)

CFR Citation: 15 CFR 904; 50 CFR 11; 50 CFR 12

Legal Deadline: None

Abstract: Problem: The National Marine Fisheries Service requires scientific data about the state of various fisheries in order to provide better management. In the past, much of this data has been collected by voluntary fishery data collectors placed aboard private vessels by NMFS. Owners and operators of these vessels have expressed concern that information collected by these voluntary fishery data collectors might be used against them in a subsequent enforcement proceeding, thereby affecting their willingness to take on these collectors. Solution: The newly enacted statute "restricts" the use of data obtained by voluntary fishery data collectors in subsequent enforcement proceedings brought pursuant to the Magnuson Fishery Conservation and Management Act, 16 USC 1801, the Marine Mammal Protection Act, 16 USC 1361, and the Endangered Species Act, 16 USC 1531.

Significance: Regulatory Program

Legal Authority: 16 USC 1533 et seq

CFR Citation: 50 CFR 227; 50 CFR 222

Legal Deadline: None

Abstract: NMFS is considering proposing regulations under the Endangered Species Act that would establish screening requirements for water diversions from the Sacramento River and Delta to protect a listed species, the winter-run chinook salmon. There are over 2,000 unscreened diversions along the River and Delta. NMFS is concerned that these unscreened diversions may cause substantial losses of juvenile salmon.

Significance: Regulatory Program

Legal Authority: 16 USC 1361 et seq, Marine Mammal Protection Act; 16 USC 1531 et seq, Endangered Species Act; 16 USC 1151 et seq, Fur Seal Act

CFR Citation: 50 CFR 216; 50 CFR 215; 50 CFR 222

Legal Deadline: None

Abstract: The National Marine Fisheries Service has recently concluded the first comprehensive examination of its permit program for scientific research and public display since passage of the Marine Mammal Protection Act of 1972 and Endangered Species Act of 1973 and the issuance of permit regulations in 1974 (50 CFR 216 and 222). The review encompassed all aspects of permit program policy, procedures, and management concerning protected species (i.e., marine mammals and endangered or threatened species) under the authority of the Marine Mammal Protection Act, the Endangered Species Act, and the Fur Seal Act. The National Marine Fisheries Service will issue proposed revised regulations governing permits for the taking, import, export, or conduct of an otherwise prohibited activity involving protected species for purposes of scientific research, public display, or enhancement.

Abstract: PL 101-627 (signed into law November 7, 1990) transferred full responsibility for the management of swordfish, including preparation of fishery management plans and amendments, from the regional fishery management councils to the Secretary of Commerce. The Secretary will prepare an amendment to the FMP for Atlantic swordfish that will reduce fishing mortality, prevent overfishing, rebuild an overexploited resource, and

be consistent with conservation measures recommended by the International Commission for the Conservation of Atlantic Tunas. The existing FMP management measures remain in effect until superseded by Secretarial actions.

558. AMENDMENT 7 TO THE FISHERY MANAGEMENT PLAN FOR THE PELAGIC FISHERIES OF THE WESTERN PACIFIC REGION

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 685

Legal Deadline: NPRM, Statutory. Final, Statutory.

NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This amendment will replace an existing moratorium on new entry into the longline fishery based in Hawaii. The amendment may include a new limited entry program for the Hawaii-based longline fishery, authority for the NMFS Regional Director to require longline vessels to carry observers to collect scientific data, and permit and reporting requirements for other tuna and billfish fishing vessels in the EEZ.

559. GENERAL PROVISIONS FOR DOMESTIC FISHERIES

Legal Authority: 16 USC 1801-81 Magnuson Act

CFR Citation: 50 CFR 620

Legal Deadline: None

Abstract: The amendments to the Magnuson Act of November 14, 1990, added several new prohibitions such as the ban on large-scale driftnet fishing and the prohibition on assaulting observers. The regulations at 50 CFR 620 contain the prohibitions that apply generally to domestic fishing regulated under the Magnuson Act. The regulations must be amended to reflect the recent amendments to the Magnuson Act and to update and improve current language generally. The alternative would be to leave the regulatory language as it is now. This would be unacceptable because it would leave the regulation out of date and inconsistent with the current statutory language. The benefits would be to improve the current regulations and to clarify the scope of the new statutory language. There are no potential costs identified.

Significance: Agency Priority
Legal Authority: 16 USC 1531 et seq
CFR Citation: 50 CFR 217; 50 CFR 222; 50 CFR 227

Legal Deadline: None

Abstract: NMFS proposes to protect sea turtles through the implementation of sea turtle conservation measures on nonshrimp fisheries. Bottom trawlers in the mid-Atlantic take sea turtles when not using turtle excluder devices (TEDs) and may jeopardize the continued existence of endangered sea turtles. NMFS proposes to require TEDs

in all bottom trawlers operating from North Carolina through Delaware. Other nonshrimp fisheries using tow lines, gill nets, or other gear probably take significant numbers of sea turtles. In order to better quantify that level of take, NMFS proposes to require observers in all fisheries suspected of taking turtles in all U.S. waters.

Legal Authority: 16 USC 1531 et seq, Endangered Species Act

CFR Citation: 50 CFR 227

Legal Deadline: None

Abstract: In response to a petition, the National Marine Fisheries Service is proposing to regulate the importation of certain fish from Mexico by requiring those fish to be imported with heads and tails intact. This action is being proposed in order to prevent the illegal importation of totoaba, an endangered scianid fish, which when in fillet form is indistinguishable from the other species. Preliminarily, NMFS has determined that this rule, if promulgated, will have a minimal economic impact on importers, as major importers require fish imports to retain heads in order to determine freshness.

Abstract: This action would consolidate provisions pertaining to permit-related activities for fisheries in the Northeast Region, NMFS. Fisheries impacted by this rule include summer flounder, bluefish, American lobster, Atlantic sea scallops, Northeast multispecies groundfish, Atlantic surf clams and ocean quahogs, and Atlantic mackerel, squid, and butterfish. This rule would also authorize fees to be collected as a requirement for fishing permits. The intent is to ensure more consistency and eliminate redundancy between permit-related activities of the fisheries of the Northeast Region.

Significance: Agency Priority

Legal Authority: 16 USC 1533

CFR Citation: 50 CFR 226

Legal Deadline: None

Abstract: The National Marine Fisheries Service (NMFS) has proposed that Johnson's seagrass be listed as threatened under the Endangered Species Act (ESA). Section 4(b)(2) of the ESA requires that critical habitat be designated for a listed species after taking into consideration the economic impact, and any other relevant impact, of specifying any particular area as critical habitat. Critical habitat is the specific area within the geographical range of the species that has physical or biological features essential to the conservation of the species and which may require special management

consideration or protection. Section 4(b)(6)(C) of the ESA requires that a regulation designating critical habitat be published concurrently with a final listing determination unless critical habitat is not then determinable. In that case a final designation of critical habitat may be extended for up to one year. NMFS intends to designate critical habitat concurrently with a final listing determination.

Legal Authority: 15 USC 4244; PL 102-555
CFR Citation: 15 CFR 960
Legal Deadline: None
Abstract: Pub. L. 102-555 amends the Land Remote Sensing Commercialization Act of 1984 to transfer the LANDSAT program from the Department of Commerce to a joint NASA/DOD office. However, title II retains the basic provisions of title IV of the previous act authorizing the Secretary of Commerce to license private operators of land remote

sensing space systems who are subject to U.S. jurisdiction. The Secretary is required to consult with the Secretaries of Defense and State, who are responsible for determining conditions to protect national security and foreign policy concerns, respectively. The recent Act removes a regulatory restriction which required operators to make the data available to all customers on the same terms and conditions.

Significance: Regulatory Program
Legal Authority: 33 USC 2706
CFR Citation: 15 CFR 990
Legal Deadline: Final, Statutory, August 18, 1992.
Abstract: Congress required the regulations to be promulgated no later than two years following the enactment of the Oil Pollution Act.
Abstract: In section 1006(e) of the Oil Pollution Act, Congress specified that the Federal Government, through NOAA, take the lead in developing natural resource damage assessment

regulations. A Federal approach will provide a consistent, uniform set of procedures specifically for use in oil spills. These procedures will be available to State, Indian, and foreign natural resource trustees. A single Federal solution will be more cost effective than having the individual States develop separate methodologies. It is expected that trustees will use the procedures contained in the regulations because any determination or assessment of damages made in accordance with the regulations shall have the force and effect of a rebuttable presumption on behalf of the trustee in an administrative or judicial proceeding under the Oil Pollution Act.

Legal Authority: 7 USC 1621 to 1630 Agricultural Marketing Act of 1946

CFR Citation: 50 CFR 265A

Legal Deadline: None

Abstract: The final rule will establish general quality grading standards for all nonbreaded forms of fresh or frozen shrimp. These grading standards will provide for the systematic differentiation of the quality of shrimp into categories -- U.S. grades A, B, and Substandard. The proposed standards will be applied to all commercial species of fresh or frozen shrimp in raw or cooked states in all nonbreaded market forms. The adoption of grading standards is expected to facilitate trade in shrimp of all commercial species, as consumers will be able to select shrimp on the basis of identified quality. Industry has shown great interest in and support for the standards.

634. ENDANGERED FISH AND WILDLIFE; APPROACHING HUMPBACK WHALES IN HAWAIIAN WATERS

Legal Authority: 16 USC 1382(a); 16 USC 1540(f)

CFR Citation: 50 CFR 222.31

Legal Deadline: None

Abstract: This rule will establish as regulation a previously published Notice of Interpretation regarding minimum distances that should be maintained in the presence of humpback whales in Hawaii. Establishing a 100-yard perimeter around any of the whales while in the Hawaiian Exclusive Zone as a regulation is considered necessary given a large increase in vessel traffic and other water use activities in areas where this species historically occurs. In response to comments received in the public record, NOAA is defining two specific sites as cow/calf areas in which an approach closer than 300 yards is prohibited. This addition creates a new subsection to the rule.

Legal Authority: 16 USC 1361 et seq

CFR Citation: 50 CFR 216.24(d)(2)(vii)(E)

Legal Deadline: Final, Statutory, April 1, 1990.

Abstract: In 1988, Congress amended the Marine Mammal Protection Act to prohibit the use of explosive devices in tuna purse seine operations that involve marine mammals. An exception to this prohibition was that Class C explosive pest control devices, approved by the Department of Transportation, could continue to be used when marine mammals are present. An interim final rule in this regard was published in the Federal Register (54 FR 411) and became effective January 1, 1989. Continued unrestricted use of the Class C explosive pest control devices was made contingent upon the outcome of a study mandated by Congress and undertaken by NMFS. The MMPA requires the Secretary to prescribe regulations to prohibit or restrict the use of Class C explosives by April 1, 1990, unless the Secretary, based upon the study, determines "...that the use of such devices does not result in physical impairment or increased mortality of marine mammals." Such a study was conducted by NMFS and the results were reviewed by experts in a workshop. The workshop participants determined that physical injuries to dolphins were caused by Class C explosives (cont)

because NMFS cannot show that Class C seal bombs do not result in physical impairment or increased mortality of dolphins, and because these devices have the potential to cause injuries and compromise the future survivability of the marine mammals affected, NMFS implemented an interim final rule.

638. SECRETARIAL FISHERY MANAGEMENT PLAN FOR SHARKS OF THE ATLANTIC OCEAN

Significance: Regulatory Program

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 678

Legal Deadline: NPRM, Statutory. NPRM 15 days after the beginning of a 60-day period for fishery management council's consideration and comment on the Secretarial Plan.

Abstract: The Secretarial Fishery Management Plan establishes a new management program intended to: (1) prevent overfishing of Atlantic Ocean sharks; (2) encourage management of sharks throughout their range; (3) establish a data collection, research and fishery monitoring program; (4) prohibit the practice of "finning"; and (5) optimize benefits and minimize wastes of shark resources. Proposed measures include: (1) annual commercial quotas; (2) recreational bag limits; (3) prohibition on "finning"; (4) commercial fishing permits; (5) prohibition on sale of recreational catch; (6) reporting of catch and effort information by commercial vessels and by those operating recreational fishing tournaments; (7) an annual fishing year beginning July 1 of each year; (8) a requirement for all fishermen to cut the fishing line for all sharks not taken as part of the quota or bag limit; and (9) commercial fishery closures after attainment of annual quotas.

Significance: Regulatory Program
Legal Authority: 16 USC 1801 et seq, Magnuson Fishery Conservation & Mgmt. Act

CFR Citation: 50 CFR 658

Legal Deadline: NPRM, Statutory. Final, Statutory.

NPRM 15 days and final action 110 days after receipt from the fishery management council.

Abstract: This FMP will establish management objectives and measures to

regulate and conserve the white shrimp resource in the EEZ off the South Atlantic coast. It proposes that, when North Carolina, South Carolina, Georgia, or Florida closes the fishery for brown, pink, and white shrimp in its waters following severe cold weather that results in an 80 percent or greater reduction in the population of white shrimp, such State may request, and NMFS may effect, a concurrent closure of the fishery in the EEZ adjacent to the closed State waters. Such closures would not preclude continued fishing for royal red shrimp, rock shrimp, or whiting in the closed portion of the EEZ.

Abstract: An agency process for implementing provisions of the Fishery Conservation Amendments of 1990 (Pub. NOAA will follow this process in preparing, amending, and implementing fishery management plans for Atlantic highly migratory species, including swordfish, billfishes, tunas, and oceanic sharks. The process identifies opportunities for involvement by the public, Regional Fishery Management Councils, and U.S. commissioners (and their advisers) to the International Commission for the Conservation of Atlantic Tunas.

Significance: Agency Priority

Legal Authority: 16 USC 1361 et seq

CFR Citation: 50 CFR 216.24

Legal Deadline: None

Abstract: This interim final rule will amend the current performance standards in the MMPA regulations to ensure that U.S. vessels can be legally prevented from making sets on tuna associated with dolphins in the eastern tropical Pacific Ocean once the vessels' dolphin mortality limit is reached. This rule also implements portions of the international Dolphin Conservation Act of 1992.

Legal Authority: 16 USC 1361 et seq

CFR Citation: 50 CFR 216; 50 CFR 247

Legal Deadline: None

Abstract: This rule will finalize the interim final rule implementing the Dolphin Protection Consumer Information Act. The interim final rule: (1) identified fish and fish products subject to importation requirements mandated by the Marine Mammal Protection Act, as amended by the DPC14; (2) specified the use and contents of a new NOAA form required to import into the United States certain fish and fish products potentially harvested with methods injurious to marine mammals; (3) required importers of certain fish and fish products harvested by nations that engage in high seas large-scale driftnet fishing to provide certification by a responsible government official of the harvesting nation that the items to be imported were not harvested with large-scale driftnets in certain areas of the high seas; and (4) regulated the use of labels suggesting that tuna products are "dolphin safe." This rule also implements portions of the High Seas Driftnet Fisheries Enforcement Act.

Legal Authority: PL 102-567
CFR Citation: 15 CFR 946

Legal Deadline: None

Abstract: Pub. L. 102-567, enacted on October 29, 1992, and not yet codified, establishes a process to guide the transition of the Weather Service from its current structure of approximately 250 field offices with varying responsibilities to 115 offices with uniform responsibilities using modern radars (NEXRAD), automated surface observing systems, and communications and processing equipment. The Act directs the NWS to contract with the National Research Council to assess the criteria for commissioning new observation systems, decommissioning old radars, evaluating staffing levels, and certifying that automating, consolidating,

relocating, or closing a field office will not result in a degradation of services. The Act establishes the broad requirements for these certifications as well as a number of consultation requirements with the FAA and with a Modernization Transition Committee, created by the Act to advise on the modernization.

Abstract: 1988 Amendments to the Marine Mammal Protection Act direct the Secretary of Commerce to establish within 240 days, a 5-year program for exempting commercial fishing operations within the U.S. Exclusive Economic Zone from the Act's prohibition on taking marine mammals. The exemption will require registration of vessels with the National Marine

Atlantic, the National Marine Fisheries Service (NOAA Fisheries) is considering the publication of a proposed rule designating this population stock as depleted under the Marine Mammal Protection Act (MMPA). This action is required by the MMPA when a species or population stock falls below its optimum sustainable population (OSP). If this population stock is designated as depleted, the MMPA requires the application of certain additional restrictions on taking and importation, and the preparation and implementation of a conservation plan to restore the stock to OSP. NOAA Fisheries is also requesting any additional scientific information on this action that may be available from interested parties, as required by the MMPA Amendments of 1988.

Abstract: This rule will establish a minimum distance for approaches to marine mammals by humans, vessels, aircraft, and thrillcraft. These regulations are considered necessary because of increasing activities around

marine mammals. Guidelines have not been effective in protecting marine mammals from these activities and from people who wish to view these animals too closely. An interim regulation regarding approaching humpback whales in Hawaii is working far better than previously used guidelines.

measures; (3) modifying size limits, bag limits, and mesh-size requirements; (4) initiating framework measures in the recreational fishery; (5) imposing a prohibition on the sale of summer flounder caught in the recreational fishery; and (6) authorizing application fee collection for vessel and dealer permits. This amendment also contains conservation measures designed to protect threatened and endangered sea turtles incidentally caught in the summer flounder trawl fishery. Two provisions in the amendment were disapproved and are being resubmitted as revised. Federal permits required under the FMP would be conditioned with restriction that the vessel may not land summer flounder in a State whose quota has been reached.

680. REGULATORY AMENDMENT PROHIBITING LANDING OF SURF CLAMS AND OCEAN QUAHOGS ON THE SAME TRIP AND REQUIRING TRIP NOTIFICATION

Legal Authority: 16 USC 1801 et seq
CFR Citation: 50 CFR 652

Legal Deadline: None

Abstract: This regulatory amendment would prohibit the landing of surf clams and ocean quahogs on the same trip under the Mid-Atlantic Surf Clam and Ocean Quahog FMP. For individuals holding individual transferable quotas (ITQs) for both surf clams and ocean quahogs, mixing of the harvest of these species on the same trip may lead to misreporting of the catch and overrun of individual quotas. The Regional Director would be authorized to require vessel operators to specify whether they intended to fish for surf clams or ocean quahogs on a specified trip. This amendment would also mandate certain trip notifications.

The shrimp industry in the southeast region of the United States is by far the leading cause of human-induced mortality to sea turtles in the water. A recent study by the National Academy of Sciences concluded that nonshrimp fisheries constitute the second largest source of mortality of juvenile to adult sea turtles. 713. PACIFIC COAST GROUND FISH FISHERY: RESTRICTION OF FISHING OPERATIONS IN THE PACIFIC WHITING FISHERY TO PROTECT SALMON OFF THE COASTS OF WASHINGTON, OREGON, AND CALIFORNIA

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 663

Legal Deadline: None

Abstract: This rule will restrict fishing operations in the Pacific whiting fishery to minimize the impact of the Pacific whiting fishery on Pacific salmon stocks. The rule will be issued under authority of Amendment 7 to the Pacific Coast Groundfish Fishery Management Plan. Restrictions on fishing operations to minimize the bycatch of Pacific salmon are necessary because many Pacific salmon stocks appear to be at record low levels, and some stocks may not meet escapement goals even in the absence of any commercial or recreational salmon harvest. This rule will also change the yearly start of the regular season in the Eureka subarea south of the Oregon border from April 15 to March 1 to allow small-scale harvest of whiting when the fish are in that area.

Significance: Regulatory Program
Legal Authority: 47 USC 901 et seq

Legal Deadline: None

Abstract: Pursuant to proposed legislation, "The Telecommunications and Information Infrastructure and Public Broadcasting Facilities Assistance Act of 1993," a new infrastructure grant program is expected to be established within NTIA, while the existing grant program for public broadcast services would be continued. The proposal for the new grant program is part of the President's plan for telecommunications infrastructure development. Under this proposal, matching grants would enable entities providing essential services to ordinary people -- such as schools and hospitals -- to take advantage of the capabilities provided by advanced telecommunications technologies. A wide range of demonstrations would be funded that provide the basis for connecting schools, libraries, health care facilities, museums, and other social and community services with interactive data, voice, and video telecommunications capabilities. Upon passage of such legislation, any statutory directives could be implemented by NTIA either through formal rulemaking or through guidelines, both of which have been used previously to implement other grant programs administered by NTIA. Significance: Regulatory Program
Legal Authority: The proposed Emerging Telecom. Technologies Act of 1993; (part of the budget package)
CFR Citation: None
Legal Deadline: None

Abstract: The Omnibus Budget Reconciliation Act of 1993 contains several provisions relating to reform of both Federal and private use of the electromagnetic spectrum. This reform includes authorization for the Federal Communications Commission (FCC) to use competitive bidding to assign radio licenses to private users, as well as reallocation of some spectrum currently used by the Federal Government to the FCC for licensing to private users. The reallocation will make more spectrum available for new technologies and services being developed by the private sector. As the agency responsible for

managing use of the Federal Government's spectrum, NTIA will oversee the withdrawal of incumbent Federal users from frequencies to be reallocated. Costs may include displacement of incumbent Federal users and their relocation to different frequencies. Following its customary practice, NTIA will address such spectrum issues at the Interdepartmental Radio Advisory Committee (IRAC), which will be given the opportunity to make a recommendation on these issues, although any final decision rests with the Secretary. The IRAC is comprised of representatives of various Federal Government (cont)

725. CHANGES IN COMPUTER PROGRAM LISTINGS FILED IN PATENT APPLICATIONS

Legal Authority: 35 USC 6
CFR Citation: 37 CFR 1.96
Legal Deadline: None

Abstract: Patent applications directed to computer program-related inventions often include numerous pages of computer program listings. The proposed modification in the regulations would specify a format for all computer program listings. This format would improve clarity and uniformity of the text and reduce the volume of printed pages of any patents which issue from these applications.

Legal Authority: 35 USC 6
CFR Citation: 37 CFR 1.121; 37 CFR 1.122; 37 CFR 1.124

Legal Deadline: None

Abstract: Amendments of patent applications are now presented in the form of instructions to change the written text at identified locations (e.g., page and line) in the application. A new practice would be adopted to require the submission of a replacement page containing the amendment. The new practice will reduce costs for the patent applicant and the Office by eliminating the need for the patent applicant to submit instructions and eliminating the need for the Office to amend the text of the application.

Legal Authority: 35 USC 6
CFR Citation: 37 CFR 1.131

Legal Deadline: None

Abstract: When an application and a patent are owned by the same party and claim the same patentable invention as defined in rule 601(n), applicant and the Office are placed in a difficult position. Applicant cannot use a rule 131 affidavit to overcome the prior art effect of the 35 USC 102(e) patent, and an interference is not normally declared by the Office between a pending application and a patent belonging to the same party. The amendment of rule 131 will permit applicant to overcome the prior art effect of the patent in these circumstances.

Legal Deadline: None

Abstract: Most papers filed in the Patent and Trademark Office (PTO) requiring a signature have to be submitted with an original signature. The modified regulations would permit, in most cases, the filing of photocopies or facsimile transmitted papers. Furthermore, the certificate of mailing procedures currently in effect would be extended to papers sent by facsimile transmission. These changes would reduce the burden currently faced by those submitting papers to the PTO and would make it easier to meet PTO deadlines.

736. ● PATENT INTERFERENCE PRACTICE; PATENTABILITY OF CLAIMS

Legal Authority: 35 USC 6

CFR Citation: 37 CFR 1

Legal Deadline: None

Abstract: The Patent and Trademark Office (PTO) is amending its rules of practice in patent interference cases. In re Van Geuns interpreted patent interference rules in a manner different from the manner in which the rules were interpreted by the Commissioner. The Federal Circuit held that the rules authorize a party to argue the separate patentability of claims that the PTO designates as corresponding to a single count. Under PTO rules, however, every claim designated to correspond to a count shall be directed to a single inventive concept. PTO is amending the interference rules to specifically overcome the Federal Circuit's interpretation of the rules in Van Geuns.

Abstract: The proposed modification would require the filing of a terminal disclaimer in patent applications abandoned for a period in excess of 6 months in both unavoidably and unintentionally abandoned applications. The current policy of granting exceptions, in certain limited circumstances, to the 1-year limit for reviving unintentionally abandoned applications is also incorporated into the proposed rules. These changes would incorporate current policy into the regulations and would reduce delays in filing petitions to revive patent applications.

739. PATENT INTERFERENCE PRACTICE; BURDEN OF PROOF

Legal Authority: 35 USC 6

CFR Citation: 37 CFR 1

Legal Deadline: None

Abstract: The Patent and Trademark Office plans to amend its rules of practice in patent interference cases. As a result of issues arising in some recent cases, it is apparent that parties in interference cases would be helped if the interference rules explicitly stated which party has the burden of proof when a motion is filed. PTO also plans to more clearly specify the nature of expert witness and factual witness evidence which must accompany a preliminary motion. Finally, PTO plans to add a definition of an interlocutory order, as contrasted with a final decision.

Semiannual Regulatory Agenda

DEPARTMENT OF DEFENSE (DOD)**DEPARTMENT OF DEFENSE****32 CFR Chs. I, V, VI, and VII****33 CFR Ch. II****36 CFR Ch. III****Improving Government Regulations;
Semiannual Agenda of Regulations****AGENCY:** Department of Defense (DoD).**ACTION:** Publication of the consolidated semiannual agenda of DoD regulatory documents.

SUMMARY: The Department of Defense is publishing this consolidated semiannual agenda of regulatory documents, including those that are procurement-related, for public information and comments under E.O. 12291 "Federal Regulation" and the Office of Federal Procurement Policy Act of 1988 (41 U.S.C. 402). This agenda incorporates the objective and criteria, when applicable, of the regulatory reform program under E.O. 12291, the Federal Procurement Policy Act, and other regulatory programs. It contains DoD issuances initiated by DoD components that may have economic and environmental impact on State, local, public, or private interests under the criteria of E.O. 12291. Although most DoD issuances listed in the agenda are of negligible public impact, their nature may be of public interest and, therefore, are published to provide notice of rulemaking and an opportunity for public participation in the internal DoD rulemaking process.

This agenda updates the report published on April 26, 1993, and includes regulations expected to be issued and under review over the next 12 months. The procurement-related agenda items included in this publication will also be used by the Office of Federal Procurement Policy to publish a "Procurement Regulatory Activity Report" as required by the Office of Federal Procurement Policy Act Amendments of 1988.

The next agenda is scheduled to be published in April 1994. In addition to this agenda, DoD components also publish rulemaking notices pertaining to their specific statutory administration requirements as required.

FOR FURTHER INFORMATION CONTACT: For information concerning the overall DoD regulatory improvement program and

for general semiannual agenda information, contact Mr. William P. Pearce, telephone 703-746-0933, or write to Directorate for Information Operations and Reports, Washington Headquarters Services, 1215 Jefferson Davis Highway, Suite 1204, Arlington, Virginia 22202-4302.

For specific agenda items, contact the appropriate individual indicated in each DoD component report.

SUPPLEMENTARY INFORMATION: This consolidated agenda is composed of the regulatory status reports, including procurement-related regulatory status reports from the Office of the Secretary of Defense and the Departments of the Army, Navy, and Air Force. Included also in this agenda is the regulatory report from the U.S. Army Corps of Engineers, whose civil works functions fall under the reporting requirements of E.O. 12291 and involve water resource projects and regulation of activities in waters of the United States. Their agenda will reflect these requirements with follow-on reporting actions taken as necessary.

DoD issuances range from DoD Directives (reflecting departmental policy) to implementing instructions and regulations (largely internal and used to implement Directives). The OSD agenda section contains the primary Directives under which DoD components promulgate their implementing regulations.

To ease identification and to clarify the differences among the variety of issuances reported, they are identified by their DoD internal numbering system, which denotes component level of authority and type of issuance, in addition to the required CFR number.

In addition, this agenda, although published under the reporting requirements of E.O. 12291, will continue to be the DoD single-source reporting vehicle, which will identify issuances that are currently applicable under the various regulatory reform programs in progress. Therefore, when applicable, DoD components will identify those rules which come under the criteria of the:

- a. Regulatory Flexibility Act;
- b. Paperwork Reduction Act;
- c. GATT International Trade Agreement; and
- d. Office of Federal Procurement Policy Act Amendments of 1988.

These DoD issuances, which are directly applicable under these statutes, will be identified in the agenda and their action status indicated. Generally, the reports in this agenda will contain four sections: (1) Prerule stage; (2) proposed rule stage; (3) final rule stage; and (4) completed actions.

Although not a regulatory agency, the Department of Defense will continue to

DOD

participate in regulatory initiatives designed to reduce economic costs and unnecessary environmental burdens upon the public. Comments and recommendations are invited on the rules reported and should be addressed to the DoD component representatives identified in each section.

Although sensitive to the needs of the public and regulatory reform, the Department of Defense reserves the right

to exercise the exemptions and flexibility permitted in its rulemaking process in order to proceed with its overall defense-oriented mission.

Note: The publishing of this agenda does not waive the applicability of the military affairs exemption in section 553 of title 5 and section 1 of E.O. 12291.

Dated: August 26, 1993.

Robert S. Drake,
Acting Director, Information Operations and Reports.

Abstract: This rule proposes to amend the Department of Defense regulation that implements 10 USC 1095. It would expand the number of inpatient billing categories from the 12 to approximately 40 to 50 and the single outpatient billing category to as many as 40 to 50. The rule would also expand the billing for outpatient services to include land ambulance service, air ambulance service and hyperbaric services.

Legal Authority: 31 USC 9701**CFR Citation:** 32 CFR 165**Legal Deadline:** None

Abstract: This final rule recognizes that requiring contractors to pay a fee to the Government for products and technologies sold to non-U.S. Government parties unnecessarily imposes a financial burden on U.S. industry and an administrative burden on both the Department of Defense and U.S. industry. This rule will assist the U.S. defense industry to be more competitive on a global basis by reducing contracting costs through economies of scale, pricing incentives, and reduced administrative burdens.

Significance: Agency Priority

Legal Authority: 33 USC 1344

CFR Citation: 33 CFR 323; 33 CFR 328

Legal Deadline: None

Abstract: The Corps of Engineers would clarify: 1) when excavation activities result in a discharge of dredged material; 2) when the placement of pilings results in a discharge of material; and 3) that prior croplands are not waters of the United States. A permit is required under section 404 of the Clean Water Act for discharges of dredged or fill material into waters of the United States. In the

last few years confusion over these issues has increased. The Environmental Protection Agency would include consistent changes to its Clean Water Act program regulations. The first two changes are being proposed in accordance with the settlement agreement in North Carolina Wildlife Federation v. Tulloch.

Completed Actions

Abstract: A final rule implementing ability-to-pay guidelines for flood control projects was published in the Federal Register (54 FR 40572, October 2, 1989). Section 305 of Public Law 101-640, as amended by section 201 of Public Law 102-580, directs amendment of these guidelines, as appropriate, and establishment of procedures for ability-to-pay determinations for agricultural water supply projects implemented by the Corps of Engineers. The amended

guidelines will establish the eligibility of sponsors of flood control and agricultural water supply projects to receive reductions in the non-Federal cost share requirements.

Legal Authority: 10 USC 2405

CFR Citation: 48 CFR 52

Legal Deadline: None

Abstract: The interim rule prescribes policies and procedures to restrict contract price adjustments under shipbuilding contracts, thus implementing by regulation the requirements of 10 USC 2405. The interim rule also defines the terminology of 10 USC 2405 and promulgates a solicitation provision and contract clause on price adjustments to shipbuilding contracts. This action is intended to clarify the meaning and ensure the consistent interpretation, implementation, and administration of the statute.

Abstract: This rule will assist replenishment spare parts contracting personnel in determining which competitive offer represents the best value to the Government. Vendor Rating System (VRS) will accomplish

this by providing a 12-month historical record of each contractor's quality and delivery performance on completed AFMC replenishment spare parts contracts as a numerical rating. This data will then be used to make a best-value decision in source selection awards. Pending coordination with the DOD Past Performance Coordinating Council and approval by USD(A)/DDP, the policy will be reissued for public comment.

Abstract: This final rule establishes a CHAMPUS benefit for partial hospitalization and makes corrections and clarifications on other mental health issues resulting from

implementation of recent legislative changes. The partial hospitalization benefit is being added at the request of Congress to improve the availability of mental health services under CHAMPUS. The intent is to provide a needed service at a lower cost than the full hospitalization rate, and allow more efficient use of resources for needed mental health care.

Semiannual Regulatory Agenda

DEPARTMENT OF EDUCATION (ED)

DEPARTMENT OF EDUCATION

Office of the Secretary

34 CFR Subtitles A and B

Unified Agenda of Federal Regulations

AGENCY: Office of the Secretary, Education.

ACTION: Publication of the semiannual agenda of Federal regulations.

SUMMARY: The Secretary of Education publishes a semiannual agenda of Federal regulations issued under the authority of section 6(b) of Executive Order 12291 "Federal Regulation." The purpose of the agenda is to encourage more effective public participation in the regulatory process by providing the public with early information about pending regulatory activities.

FOR FURTHER INFORMATION CONTACT:

Questions or comments related to specific regulations listed in this agenda should be directed to Kenneth C. Depew, Division of Regulations Management, Office of the General Counsel, Department of Education, Room 5125, FOB-6, 400 Maryland Avenue SW., Washington, DC 20202-2241; telephone: (202) 401-2884.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: Section 5 of Executive Order 12291, dated February 17, 1981, and the Regulatory Flexibility Act, 5 U.S.C. 602(a), require the Department of Education to publish, in October and April of each year, (1) an agenda of proposed regulations that the Agency has issued or expects to issue

and currently effective rules that are under Agency review and (2) a brief description of the subject area of any rule that the Agency expects to propose or promulgate that is likely to have a significant impact on a substantial number of small entities. The agenda includes both notices of proposed rulemaking (NPRMs) currently being drafted and pending final regulations.

For each set of regulations listed, the agenda provides the title of the document, the type of document, a citation of any rulemaking or other action taken since publication of the most recent agenda, and planned dates of future rulemaking. In addition, the agenda provides the following information:

- An abstract, which includes a description of the problem to be addressed, any principal alternatives being considered, and potential costs and benefits of the action.
- An indication of whether the planned action is likely to have significant economic impact on a substantial number of small entities as defined by the Regulatory Flexibility Act (5 U.S.C. 601(b)).
- A reference to where a reader can find the current regulations in the Code of Federal Regulations.
- A citation of legal authority.
- The name, address, and telephone number of the contact person at the Department from whom a reader can obtain additional information regarding the planned action.
- An indication if the action is a priority and the criteria used in determining the priority status.

If the "Abstract" section of an entry refers readers to the preamble, it means that amendments to those particular regulations would be designed (1) to effect regulatory relief, including

reducing paperwork and compliance burdens, improving cost effectiveness, and to the extent possible, vesting greater discretion in State and local agencies and (2), if necessary, to clarify and simplify requirements governing that program.

The Department also will review all regulations that will be published to ensure that, if appropriate, those regulations support the National Education Goals. These goals call for:

- All children starting school ready to learn;
- Increasing the high school graduation rate to at least 90 percent;
- U.S. students demonstrating competency in challenging subject matter, including English, mathematics, science, history, and geography;
- U.S. students becoming first in the world in science and mathematics achievement;
- Adult Americans becoming literate and possessing the knowledge and skills necessary to compete in a global economy and to exercise the rights and responsibilities of citizenship; and
- Freeing every school of drugs and violence so as to offer a disciplined environment conducive to learning.

This publication in the **Federal Register** does not impose any binding obligation on the Department with regard to any specific item on the agenda. Regulatory action in addition to the items listed is not precluded. Dates of future regulatory actions are subject to revision in subsequent agendas.

Dated: August 25, 1993.

Judith A. Winston,
General Counsel.

879. UNIFORM ADMINISTRATIVE REQUIREMENTS FOR GRANTS AND COOPERATIVE AGREEMENTS

Legal Authority: 20 USC 1221e-3(a)(1)

CFR Citation: 34 CFR 074; 34 CFR 080

Legal Deadline: None

Abstract: These regulations remove part 80 and revise part 74 to establish certain governmentwide administrative requirements for grants and cooperative agreements to State and local governments, institutions of higher education, hospitals, and nonprofit and commercial organizations. These regulations were based on an OMB proposal to combine OMB Circulars A-102 (Grants and Cooperative Agreements with State and Local Governments) and A-110 (Grants and Cooperative Agreements with Institutions of Higher Education, Hospitals and Other Nonprofit Organizations) into a single, unified grants management circular. On October 29, 1990, the Office of Management and Budget (OMB) published a notice in the Federal Register (55 FR 45289) that cancelled plans to merge OMB Circulars A-102 and A-110. Therefore, the Department does not intend to combine administrative requirements for grants and cooperative agreements for all types of recipients into 34 CFR part 74. The Department will revise the substance of the current part 74 if OMB issues a final version of OMB Circular A-110, which is currently under review.

885. FAMILY EDUCATIONAL RIGHTS AND PRIVACY

Legal Authority: 20 USC 1232g

CFR Citation: 34 CFR 099

Legal Deadline: None

Abstract: The regulations are needed to implement section 1555 of the Higher Education Amendments of 1992, P.L. 102-325, codified at 20 U.S.C. section 1232g(a)(4)(B)(ii). The provision amends the Family Educational Rights

and Privacy Act (FERPA) to exclude from the definition of "education records," and thereby from the restrictions of FERPA, records which are maintained by a law enforcement unit of an educational agency or institution that were created by that law enforcement unit for the purpose of law enforcement. Since the current regulations restrict access of law enforcement unit personnel to education records, provide that law enforcement unit records must be kept separately from education records, and restrict the disclosure of campus law enforcement unit records to law enforcement officials of the same jurisdiction, the regulations must be amended to conform to P.L. 102-325. The proposed amendment allows educational agencies and institutions to follow their own policy or applicable State law regarding the disclosure of campus law enforcement unit records in conformity with the amended statute.

899. SECRETARY'S PROCEDURE AND CRITERIA FOR RECOGNITION OF ACCREDITING AGENCIES

Legal Authority: 20 USC 1099b

CFR Citation: 34 CFR 602

Legal Deadline: None

Abstract: These regulations would implement certain provisions of the Higher Education Amendments of 1992 governing the criteria and procedures for the recognition of accrediting agencies by the Secretary. The regulations would link accreditation to eligibility to participate in Federal programs; allow the Secretary to exercise discretion in recognizing accrediting agencies; specify the procedures for recognition in greater detail; establish procedures for limitation, suspension, or termination of recognition and for requests for reconsideration and appeals; establish a new "separate and independent" requirement for accrediting agencies; establish required accreditation standards; and make other changes.

916. FEDERAL STAFFORD LOAN CANCELLATION DEMONSTRATION PROGRAM

Legal Authority: 20 USC 1078-10

CFR Citation: 34 CFR 682

Legal Deadline: None

Abstract: These regulations would implement provisions of the Higher Education Amendments of 1992 that require the establishment of a demonstration program for loan forgiveness for certain public service. The program provides for forgiveness

of portions of Federal Stafford Loans incurred by a student borrower who performs volunteer service or works in certain teaching or nursing areas. This is a limited demonstration program available only to new borrowers who, as of October 1, 1992, have no outstanding debt on a Federal Family Education Loan.

917. EXCEPTIONAL PERFORMANCE DESIGNATION IN THE FEDERAL FAMILY EDUCATION LOAN PROGRAM (FFELP) FOR LENDERS, SERVICERS, AND GUARANTY AGENCIES

Legal Authority: 20 USC 1071 to 1087

CFR Citation: 34 CFR 682

Legal Deadline: None

Abstract: These regulations implement certain provisions of the Higher Education Amendments of 1992. The proposed regulations would authorize the Secretary to recognize lenders, servicers, and guaranty agencies for their exceptional level of performance in collecting delinquent and defaulted Federal Family Education Loan Program loans and would encourage lenders, servicers, and guaranty agencies to provide a more detailed level of expertise in servicing student loan portfolios and strict monitoring of collection activities on delinquent defaulted loans.

921. FEDERAL PELL GRANT PROGRAM; PRESIDENTIAL ACCESS SCHOLARSHIP PROGRAM

Legal Authority: 20 USC 1070a

CFR Citation: 34 CFR 690; 34 CFR 691

Legal Deadline: None

Abstract: FEDERAL PELL GRANT PROGRAM: These proposed regulations would amend the Pell Grant Program regulations to incorporate statutory changes made by the Higher Education Amendments of 1992. These changes would alter how institutions administer the Federal Pell Grant program and incorporate new requirements that the Federal Pell Grants supplement and not supplant a State's postsecondary educational expenditures for incarcerated students within that State.

PRESIDENTIAL ACCESS SCHOLARSHIP PROGRAM: These proposed regulations implement the

Presidential Access Scholarship Program and provide the requirements that States, institutions, and students must follow to participate in and administer the Presidential Access Scholarship Program.

952. CLIENT ASSISTANCE PROGRAM

Legal Authority: 29 USC 732

CFR Citation: 34 CFR 370

Legal Deadline: None

Abstract: These regulations would implement changes in this formula grant program made by the Rehabilitation Act Amendments of 1992, including the expansion of the services provided by CAPs to include dissemination of information related to Title I of the Americans with Disabilities Act of 1990, and the implementation of due process requirements that apply if a Governor chooses to redesignate the agency designated to conduct the State's CAP.

953. REHABILITATION TRAINING: REHABILITATION LONG-TERM TRAINING

Legal Authority: 29 USC 711(c); 29 USC 774

CFR Citation: 34 CFR 386

Legal Deadline: None

Abstract: These regulations would implement changes in this discretionary grant program made by the Rehabilitation Act Amendments of 1992. The regulations would revise the "work or repay" provisions to ensure that grantees disburse awards only after required certifications and agreements, scholars receiving awards clearly understand their obligations, and grantees maintain adequate systems to verify that scholars have met their obligations.

Abstract: This action is needed to implement the technical amendments made to the Rehabilitation Act of 1973 by the Rehabilitation Act Amendments of 1992, and the Rehabilitation Act Amendments of 1993. These amendments include changes in terminology and definitions, a new provision covering all applicants for

funding under the Act concerning outreach to minorities, a new provision affecting all programs, projects, and community rehabilitation programs funded under the Act concerning advising individuals they serve on the availability of the access to client assistance programs, and various technical, statutory changes to certain programs. These regulations include the regulatory provisions listed under RIN 1920-AA47.

DEPARTMENT OF ENERGY (DOE)

DEPARTMENT OF ENERGY

10 CFR Chs. II, III, and X

48 CFR Ch. 9

Regulatory Agenda

AGENCY: Department of Energy.

ACTION: October 1993 regulatory agenda.

SUMMARY: The Department of Energy has prepared and today is publishing its October 1993 regulatory agenda pursuant to instructions of the Administrator, Office of Information and Regulatory Affairs, Office of Management and Budget, dated June 14, 1993.

FOR FURTHER INFORMATION CONTACT: For further information about any particular item on the regulatory agenda, please contact the individual listed under that item. For further information on the regulatory agenda in general, please contact: Theodore ("Ted") Wilson, Room 6B-256, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586-9507.

SUPPLEMENTARY INFORMATION: Entries appended to this notice reflect the status

of activities as of approximately August 15, 1993. They are divided into categories, first by subagencies and then according to their stage of rulemaking action: Prerule, proposed rulemaking, final rulemaking, or completed action.

Appended entries contain the following information: (1) The organizational unit responsible for the regulation; (2) the Regulation Identifier Number (RIN) assigned by OMB; (3) title; (4) significance (that is, whether the regulation appears in the Regulatory Program prepared under Executive Order 12498 and, if it does not, whether it is nevertheless a priority of the Agency); (5) the name, title, address, and telephone number of a person who is knowledgeable about the regulation; (6) effects on small business (that is, whether the action is likely to have a significant economic impact on a substantial number of "small entities" as defined by the Regulatory Flexibility Act) and effects on Federal, State, and local governments; (7) citation to the affected portion of the Code of Federal Regulations (CFR); (8) legal authority (that is, a citation to the section of the United States Code (USC), Public Law (PL), or Executive order (EO) that

authorizes the regulatory action); (9) abstract describing the particular regulatory action in progress or under consideration; (10) legal deadline (that is, the statutory or judicial deadline, if any); and (11) timetable (that is, the dates and citations, if applicable, for all past stages and the date for at least the next stage of the rulemaking). The timetable for completed actions (that is, regulations completed or withdrawn and reviews completed since the preceding regulatory agenda) gives the completion date and any related citation.

For each procurement-related regulatory action, additional information is provided on whether there is a statutory requirement for the action and whether there is a paperwork burden associated with the action.

A draft of this regulatory agenda has been transmitted to the Chief Counsel for Advocacy of the U.S. Small Business Administration for comment, if any, pursuant to 5 U.S.C. 602(b).

Issued in Washington, DC, on October 8, 1993.

Robert R. Nordhaus,
General Counsel.

EPCA requires DOE determinations on need to amend Federal appliance standards in a period from 07/01/89 to 01/01/94. The statute requires completion of a second reanalysis of all (cont)

Abstract: The Energy Policy and Conservation Act (EPCA), as amended, establishes initial energy-efficiency standards levels for most types of major appliances and generally requires DOE to undergo two subsequent rulemakings, at specified times, to determine whether the extant standard for a covered product should be

amended. These products are: refrigerators, refrigerator-freezers, and freezers; room air conditioners; central air conditioners and central air conditioning heat pumps; water heaters; pool heaters; direct heating equipment; furnaces; dishwashers; clothes washers; clothes dryers; kitchen ranges and ovens; and fluorescent lamp ballasts. Other appliances, including television sets, may be regulated by the Department. This rulemaking will review the statutory standards for central air conditioners and furnaces to determine whether those levels need to be amended. This is the second reanalysis of the standard levels for refrigerators, refrigerator-freezers and freezers.

Legal Authority: PL 96-185, Sec 18; PL 94-413, Sec 13(c); PL 94-163, Sec 503(a)(3)

CFR Citation: 10 CFR 474**Legal Deadline:** None

Abstract: The final rule on the inclusion of electric vehicles in the Corporate Average Fuel Economy (CAFE) program was issued by DOE on April 15, 1981. It established a methodology for determining the equivalent petroleum-based fuel economy of electric vehicles so that they could be included in a manufacturer's overall CAFE program. This methodology was based on several factors including the energy efficiency of the vehicle, the efficiency of electricity generation and transmission, the fuels used to generate electricity, and the driving patterns of electric vehicles. This rulemaking would update the factors in this methodology that are necessary for calculating the CAFE credits for electric vehicles.

Abstract: Title III of the Energy Conservation and Production Act as amended by the Energy Policy Act of 1992 (PL 102-486, October 24, 1992) provides that DOE establish Federal building energy standards that require in new Federal buildings those energy efficiency measures that are technologically feasible and economically justified. The standards for Federal buildings are intended to parallel closely the voluntary building energy codes of the Energy Policy Act for private sector construction. Interim energy performance standards which DOE had issued before enactment of the Energy Policy Act are to remain in effect for the Federal sector until the new Federal building energy standards become effective.

Abstract: Section 409 of the Energy Policy Act requires the Department of Energy (DOE) to issue regulations establishing guidelines for State alternative fuels and alternative fuel vehicles incentives and plans; invite

Governors to submit a plan on introducing alternative fuel vehicles in the State by the year 2000 (one year after regulations are effective); provide a State that has an approved plan with information, technical assistance and financial assistance to implement the plan and purchase alternative fuel vehicles; and annually report to the President and Congress on the operation of State and local alternative fuels incentives programs. The State technical assistance and financial assistance available through section 409 will allow States to implement incentive programs that foster development of an alternative fuel infrastructure, which is necessary to begin placement of alternative fuel vehicles into fleets, and critical to public acceptance of alternative fuel vehicles. Financial assistance distributed under the guidelines will be competitively distributed to the qualifying States.

Abstract: The Department of Energy (DOE) conducts a Personnel Assurance Program (PAP) under DOE 5610.11 "Program to Prevent Accidental or Unauthorized Nuclear Explosive Detonation." The PAP was created in order to assure the reliability and safety of individuals in certain critical positions and is a part of the DOE nuclear weapons and explosives safety program. To further minimize the potential risks to personnel, public health and safety, and national security, the Department now proposes this rule which describes the PAP and provides for testing for alcohol under certain circumstances and for possible use of illegal drugs by DOE Federal and contractor employees requiring PAP certification or recertification. The DOE employees under the PAP are part of the DOE Drug-Free Workplace Program

(DOE 3792.3). The DOE contractors under the PAP are a part of the Workplace Substance Abuse Programs at DOE Facilities (proposed 10 CFR 707).

Significance: Agency Priority

Legal Authority: 42 USC 2161; 42 USC 2165; 42 USC 2201

CFR Citation: 10 CFR 710, subpart B

Legal Deadline: None

Abstract: The Department of Energy (DOE) has established the Personnel Security Assurance Program (PSAP) through the publication of the revision to 10 CFR 710, "Criteria and Procedures for Determining Eligibility for Access to Classified Matter or Significant Quantities of Special Nuclear Material." The PSAP was created in order to assure the reliability of individuals in certain positions, defined in Section 710.50(a), and referred to as PSAP positions for purposes of this proposed rule. The Department now proposes to amend this rule to promulgate guidelines for DOE contractors for testing for possible

use of illegal drugs or alcohol by their PSAP-cleared employees. These guidelines will constitute a baseline PSAP substance abuse testing component.

This is a court-ordered action.

Abstract: On February 9, 1988, DOE Order 5632.7 "Protective Forces" was issued which updated the requirements for firearms qualifications for security inspectors at DOE facilities. In an order and judgment entered March 19, 1990, the U.S. District Court of Nevada granted summary judgment and invalidated DOE's order as it applied

to contractor personnel, due to the agency's failure to conduct an Administrative Procedure Act notice and comment rulemaking. The regulations would, inter alia, require that each contractor protective force officer have an appropriate access authorization and successfully complete formal basic and annual training in security skills and knowledge. The regulations also would require security inspectors to pass a firearms qualification test. Each security inspector would be required to demonstrate firearms proficiency at least semiannually, as indicated in the DOE requirements of the Standard DOE Qualification Courses, with all weapons reasonably expected to be used by the employee.

Abstract: Under the existing part 810 regulations, entitled Assistance to Foreign Atomic Energy Activities, assistance by U.S. persons to nuclear power reactor-related activities outside the United States is generally authorized for countries not listed in section 810.8. A main purpose of this revision is to establish a general authorization to enhance the operational safety of existing civilian nuclear power reactors in all countries that are on the section 810.8 list, eliminating the need for specific authorization by the Secretary of Energy for such assistance. In addition, the section 810.8 list of countries is being updated. Deletions from the list include countries that no longer exist and East European countries that were

listed solely for national security reasons that vanished with the disintegration of the Warsaw Pact. Added to the list are certain republics of the former Soviet Union.

The revision of part 810 would: (1) expedite safety-related assistance to civilian nuclear powerplants, particularly (cont)

Legal Authority: 42 USC 2165, Atomic Energy Act of 1954, sec 145

CFR Citation: Not applicable

Legal Deadline: None

Abstract: In response to a pressing need for more expeditious processing of access authorization (personnel security clearance) requests, the Department of Energy (DOE) established an Accelerated Access Authorization (AAA) program at the Albuquerque Field Office. DOE has determined that the AAA program was necessary because of the need to secure, on a timely basis, staff expertise to be applied to a variety of urgent environmental and defense issues. The AAA program does not take the place

of the current access authorization clearance process, but allows workers to perform their jobs while the full background investigation is being conducted. The AAA program will be offered to DOE contractor and Federal employees as an option.

Abstract: This is a review to determine what portion of Public Law 101-510 will require a program rule. Abstract: Section 5(f) of the Pacific Northwest Electric Power Planning and Conservation Act (Northwest Power Act), Pub. L. 96-501, provides that the Bonneville Power Administration (BPA) may sell or otherwise dispose of power which is surplus to the obligations of the Administrator under sections 5(b), (c), and (d) in accordance with that Act and other applicable provisions of the statute. Section 9(c) of the Northwest Power Act and the Act of August 31, 1964, Pub. L. 88-552 (the Northwest Preference Act), provide that the BPA may only sell power outside the Pacific Northwest that is surplus firm power, surplus nonfirm energy, or surplus capacity as defined in those Acts. Surplus firm power, surplus nonfirm energy or surplus capacity is defined as energy or capacity for which there is no market or demand in the Pacific Northwest at rates established for the disposition of such energy or capacity. In February 1990, BPA published for comment a proposal for adoption of policy and procedures for sales of surplus firm power, surplus nonfirm energy, and surplus capacity. To complete its effort to establish a formal policy on the disposal of this power, BPA will issue in the Federal Register a Notice (cont)

Abstract: This action would make additions to DOE's regulation 10 CFR 830 establishing a body of rules for DOE contractor and subcontractor activities that will form the basic requirement for ensuring nuclear safety at DOE facilities. These requirements stem from DOE's ongoing effort to strengthen the protection of health, safety and the environment from the nuclear radiological and chemical hazards posed by these facilities. Among other matters, the Phase II rules relate to safety concern management; reactor design criteria; seismic and environmental qualifications; fire protection; personnel training; emergency preparedness; safety responsibility; and contractor oversight.

STANDARD CONTRACT FOR THE DISPOSAL OF SPENT NUCLEAR FUEL AND/OR HIGH-LEVEL RADIOACTIVE WASTE****Significance:** Agency Priority**Legal Authority:** 42 USC 10222**CFR Citation:** 10 CFR 961**Legal Deadline:** None

Abstract: On April 18, 1983, DOE published a rule that established the Standard Contract for the Disposal of Spent Nuclear Fuel and/or High-Level Radioactive Waste (Standard Contract) to be used by DOE in furnishing disposal services to the owners and generators of spent nuclear fuel (SNF) and/or high-level radioactive waste (HLW) (48 FR 16590). The Standard

Contract represents the sole contractual mechanism for DOE acceptance and disposal of SNF. The Standard Contract establishes the requirements and operational responsibilities of DOE and the owners and generators of SNF regarding administrative matters, fees, terms of payment, waste acceptance criteria and waste acceptance procedures. Since 1987, DOE has worked cooperatively with representatives of the owners and generators on many of the issues that must be resolved in order to implement the terms and conditions of the Standard Contract. This rulemaking concerns changes and additions to the Standard Contract to address the first set of these issues. These changes and additions will provide sufficient detail and guidance to enable both the DOE and the owners and generators to carry out their respective contractual (cont)

Section 114 of PL 102-486 requires final regulations to be adopted by 10/24/93.

Abstract: Section 114 of PL 102-486 requires the Administrator of Western Area Power Administration (Western) to revise existing guidelines. New regulations, to be in place by 10/24/93, require each customer purchasing energy under a long-term firm power

service contract with Western to implement integrated resource planning (IRP) by 10/24/95. Western's proposed rule does not consider alternatives to IRP, due to statutory mandate, although alternatives are being evaluated in the draft EIS. As part of the same rulemaking, where permitted by law Western proposes to extend a major portion of long-term firm power sold to existing customers pursuant to contracts expiring over the next several years. Extensions of resource commitments will provide long-term resource stability necessary for effective IRP. Western is evaluating alternative lengths of contract extensions and amounts of resource commitments in the draft EIS, as well as a no-action alternative of using existing marketing criteria allocation processes for contract and resource extensions. Costs of compliance with these rules may be considerable, but utilities that have developed IRP have found the resulting (cont)

Significance: Regulatory Program

Legal Authority: 42 USC 2201; 42 USC 7191

CFR Citation: 10 CFR 834

Legal Deadline: None

Abstract: The Department of Energy (DOE) proposes the addition of a new part to its regulations establishing a body of rules for DOE contractor and subcontractor activities that will form the basic requirements for ensuring radiation protection of the public and environment at DOE facilities. These requirements stem from the Department's ongoing effort to strengthen the protection of health, safety, and the environment from the nuclear, radiological, and chemical hazards posed by these DOE facilities. The new part provides radiation protection requirements for the public and environment for DOE and DOE contractor operations. Major elements of the regulation include a dose limitation system for protection of the public; requirements for liquid discharges; reporting and monitoring requirements; and residual radioactive material requirements.

Significance: Regulatory Program

Legal Authority: 42 USC 2201; 42 USC 7191

CFR Citation: 10 CFR 835

Legal Deadline: None

Abstract: The Department of Energy (DOE) proposes the addition of a new part to its regulations establishing a body of rules for DOE contractor and subcontractor activities that will form the basic requirements for ensuring radiation protection of the occupational worker at DOE facilities. These requirements stem from the Department's ongoing effort to strengthen the protection of health and safety from the nuclear and radiological hazards posed by these DOE facilities. The new part provides radiation protection requirements for the occupational workers for DOE and DOE contractor operations. Major elements of the regulation include increased emphasis on as low as reasonably achievable (ALARA) exposure limits for the protection of workers and requirements for a written Radiation Protection Program.

1016. POLICY TO IMPLEMENT SECTION 6(C) OF THE NORTHWEST POWER ACT

Legal Authority: 16 USC 839d, Northwest Power Act, sec 6(c)

CFR Citation: Not applicable

Legal Deadline: None

Abstract: Under section 6(c) of the Northwest Power Act, Bonneville must hold a hearing on proposals to (1) acquire a major resource, (2) implement a conservation measure that is equivalent to a major resource, (3) pay or reimburse preconstruction and investigation costs to major resource sponsors, or (4) grant billing credits. As part of the hearing, the Administrator must determine whether the proposed actions are consistent with the Northwest Power and Conservation Planning Council's plan. Bonneville and the Council recently concluded a 5-year review of their respective 6(c) Policies, which establish the basis for holding a 6(c) hearing and the procedures governing the hearings. The scope of the policies was expanded to cover paying or reimbursing preconstruction and investigation expenses to sponsors of major resources, and providing billing credits or services involving a major resource. Bonneville also included a provision for expedited 6(c) hearing procedures under certain conditions.

Significance: Regulatory Program

Legal Authority: PL 102-486, sec 1101

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Under section 1101 of the Energy Policy Act of 1992, a fund for the decontamination and decommissioning (D&D) of uranium enrichment facilities is to be established in the Treasury of the United States. The Energy Policy Act requires deposits into the D&D fund of \$480 million a year. To support the D&D fund, DOE is required to collect from domestic utilities an amount not to exceed \$150 million annually (as adjusted for inflation); the remainder of annual deposits to the D&D fund is to be provided through Congressional appropriations. The annual collection of a "special assessment" from domestic utilities is to continue for a period of 15 years, or until the fund accumulates \$2.25 billion.

The fund is to be used to support (1) the D&D of DOE's uranium enrichment facilities and (2) the reimbursement of owners of active uranium and thorium processing sites for a portion of their mine-tailing remediation costs attributable to the production and sale of uranium or thorium to the Federal Government.

Significance: Regulatory Program

Legal Authority: PL 102-486, sec 1001 to 1004

CFR Citation: 10 CFR 765

Legal Deadline: Final, Statutory, April 22, 1993.

PL 102-486, sec. 1002, requires DOE to "issue regulations 180 days after enactment."

Abstract: DOE is required to annually reimburse active uranium and thorium licensees up to \$5.50 per ton of remediated by-product material generated as an incident of uranium or thorium sales to the United States Government. Total reimbursement to all licensees is limited to \$310 million. DOE is required to issue regulations governing the reimbursement process. The rule establishes procedures for: (1) The determination of eligible licensees, by-product material quantities, and reimbursable costs; (2) claim submittal, review, and verification; (3) inflation adjustment; and (4) dispute resolution.

Significance: Agency Priority

Legal Authority: 42 USC 2012 et seq Atomic Energy Act of 1954

CFR Citation: 10 CFR 707

Legal Deadline: None

Abstract: This action will amend the Department's rule governing the use of illegal drugs at DOE sites to ensure that substance abuse programs include provisions that also address misuse and abuse of alcohol. DOE expects to mitigate the potential for harm to the environment and to the public health and safety at DOE sites by contractor employees and other individuals performing health or safety sensitive

functions. Cost incurred will affect primarily cost reimbursement type contracts for managing, operating, constructing, and servicing DOE facilities and certain other on-site contractors and subcontractors.

Legal Authority: 42 USC 2182; 42 USC 5908; PL 99-661

CFR Citation: 10 CFR 784

Legal Deadline: None

Abstract: The regulation provides procedures and standards for obtaining a waiver of the Government's rights in inventions made under DOE research

and development contracts with entities that are not small businesses or nonprofit institutions, and terms and conditions of such waivers. Currently, DOE waiver policy is provided in DOE Procurement Regulations (41 CFR 9-9.109-6). The proposed regulation places DOE patent waiver policy in a separate regulation, and also provides updates, revisions and clarifications to

waiver policy as contained in 41 CFR 9-9.109-6.

Unified Agenda of Regulations

AGENCY: Office of the Secretary, HHS.

ACTION: Publication of unified agenda of regulations.

SUMMARY: The President's February 17, 1981, Executive order (12291) and the Regulatory Flexibility Act of 1980 require the Department to publish an agenda of significant regulations being developed and an indication of those regulatory actions that are being analyzed for their effect on small businesses. The Department published its last agenda on April 29, 1993.

FOR FURTHER INFORMATION CONTACT: For further inquiries or comments related to specific regulations listed in the agenda, the public is encouraged to contact the appropriate responsible individual. Questions or comments on the overall agenda should be sent to: Ann White, Regulations Coordinator, Office of the Secretary, Department of Health and Human Services, 200 Independence Avenue SW., Washington, DC 20201; telephone: (202) 690-6824.

Claudia Cooley,

Executive Secretary to the Department.

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74, app E

Legal Deadline: None

Abstract: This action will revise the Department's current cost principles for research and development activities under grants and contracts with hospitals to make them compatible with cost principles issued by OMB for State and local units of government, educational institutions and nonprofit organizations.

Timetable: Next Action Undetermined

Small Entities Affected: Businesses, Organizations

Government Levels Affected: Local, State

Additional Information: The current OMB project to completely rewrite its Circular A-87, "Cost Principles for State and Local Governments" includes proposed revisions of the interest allowability provision. OMB is considering the possibility of adopting uniform provisions on interest in each of its Circulars on Cost Principles, A-87, A-21 for Educational Institutions and A-122 for Nonprofit Organizations. If this occurs, HHS will consider adopting the same provisions for interest costs incurred by hospitals under Federal research and training awards.

Abstract: This proposed rule would prohibit a hospital from knowingly making incentive payments to a physician as an inducement to reduce or limit services provided to Medicare or Medicaid beneficiaries who are under the direct care of that physician. The rule would also set forth standards governing the imposition of CMPs for each such individual for whom payments are made.

Abstract: Title VI of the Civil Rights Act of 1964 prohibits discrimination based on race, color, or national origin in programs and activities that receive Federal financial assistance. This addition as Subpart B to the Department's Title VI regulation will address a serious barrier to equal access to health and human services—the denial of services and other unequal or discriminatory treatment to persons of Limited English Proficiency (LEP). Persons of LEP tend to be disproportionately represented in certain national origin groups. The inability to communicate with persons of LEP therefore may have the effect of discriminating against certain persons on the basis of national origin. This regulation will establish standards for compliance by recipients and provide guidance to OCR Regional Offices in conducting complaint investigations and compliance reviews. Compliance with these regulations would improve access to services for persons regardless of national origin. The alternative would be to do nothing about the identified problem, which would be detrimental to national origin groups.

Abstract: This action will implement OMB Circular A-133 which was issued on March 8, 1990. The Circular provides governmentwide standards for non-Federal audits of colleges and universities and other nonprofit recipients of Federal grants and contracts and requires such audits for fiscal periods beginning on or after

January 1, 1990. The Circular exempts hospitals not affiliated with institutions of higher education. The HHS implementation of the Circular will contain a definition of affiliation on which the public will be afforded an opportunity to provide comments. The Circular and these amendments replace

Legal Authority: 5 USC 301

CFR Citation: 45 CFR 74; 45 CFR 92

Legal Deadline: None

Abstract: OMB is in the process of issuing updated fiscal and administrative guidance on requirements governing grants (including cooperative agreements). Separate guidance will be provided for grants awarded to governments and those awarded to colleges and universities and other nonprofit organizations. In separating grant rules for governments from those of other recipients, OMB recognizes the unique competence of States to administer grants and embraces the concept of Federalism. HHS regulations governing grants to these entities will have to be updated to accommodate these changes. HHS regulations governing grants to governments which implement OMB Circular A-102 are codified in 45 CFR part 92. Those governing grants to colleges and universities and other nonprofit organizations which implement OMB Circular A-110 are codified in 45 CFR part 74.

Abstract: The Equal Access to Justice Act generally requires agencies to pay attorney fees to parties prevailing against the Government in certain types of administrative proceedings. It requires each agency to issue rules implementing the Act as it applies to these proceedings. As originally

enacted, the Act had a sunset clause. A statutory amendment eliminated the sunset provision and made other changes in the Act. The instant regulation would amend 45 CFR part 13 (HHS's regulation implementing the Act) to eliminate the corresponding sunset provision and to make other changes conforming with the statutory changes.

Abstract: Sections 1.00 and 101.00 of appendix 1 to the Disability Regulations (404.1501 through 404.1599) describe those musculoskeletal impairments which are considered severe enough to prevent a person from doing any gainful activity

or, in the case of a child under age 18, age-appropriate activities. Abstract: Sec. 2615 of Pub. L. 98-369 amended sec. 1127 of the Social Security Act to eliminate windfalls that permitted some people who were paid Old-Age, Survivors and Disability Insurance (OASDI) and Supplemental Security Income (SSI) benefits retroactively to receive more in total benefits for the same period than if they had been paid the benefits when regularly due. The two main changes are: (1) SSI benefits will be reduced where retroactive OASDI benefits have been paid before the SSI benefits. Under prior law, reductions could be made only in retroactive OASDI benefits and only when the retroactive SSI had been paid first. (2) OASDI or SSI benefits payable upon reinstatement following a period of suspension or termination will be reduced by the amount of SSI benefits that would not have been paid if the OASDI benefits had been paid when regularly due. We will amend our regulations to conform to the statutory changes. Any costs/savings are associated with the legislation being implemented and not with the regulations themselves.

Legal Authority: 42 USC 402(x)(1); 42 USC 405

CFR Citation: 20 CFR 404.468; 20 CFR 404.469 (New)

Legal Deadline: None

Abstract: Existing regulations at 20 CFR 404.468(d) provide a vocational rehabilitation exception to the nonpayment of benefits to prisoners provision described at 20 CFR 404.468(a). Under the exception, the nonpayment provision does not apply if a prisoner who is entitled to benefits on the basis of disability is actively and satisfactorily participating in a rehabilitation program which has been specifically approved for the individual by a court of law. In addition, the Secretary must determine that the program is expected to result in the individual being able to do substantial gainful activity upon release and within a reasonable time. No benefits will be paid to the prisoner for any month prior to the approval of the program. The proposed regulations would set out more definitive criteria for applying the exception and would define terms, such as "rehabilitation program,"

"court of law," and "reasonable time," for purposes of applying the exception.

Abstract: These proposed regulations will implement statutory changes contained in sections 2 and 4 of PL 99-643. These provisions: (1) make section 1619 of the Social Security Act permanent; and (2) simplify the transitions among regular SSI status, special benefit status, and special Supplemental Security Income status for Medicaid purposes. The proposed regulations also will involve the statutory change contained in sections 5032 and 5033 of Pub. L. 101-508 which eliminate the age-65 limit for eligibility for special Supplemental Security Income status for Medicaid purposes and which liberalizes the impairment-related work exclusion of section 1612(b)(4)(B)(ii).

Abstract: These proposed regulations would place a limitation on the rates of payment a State may pay for laboratory tests purchased by State agencies. Under these proposed regulations a State agency would be required to limit the amounts it pays for laboratory tests to the maximum payment level contained in the Health Care Financing Administration's (HCFA) National Limitation Amounts for Laboratory Fee Schedules. Currently the only payment requirement is that the rates of payment not exceed the highest rates paid by Federal or other agencies in the State for the same or similar types of services.

recovery of an overpayment would be against equity and good conscience. Currently, regulations permit determinations that recovery of an overpayment would be against equity and good conscience under three specific conditions. The proposed regulations will provide for the "against equity and good conscience" determination to be based on an examination and consideration of a variety of factors such as cause and result of overpayment and fairness as they affect both the beneficiary and the Social Security Administration.

1105. OASDI AND SSI; TESTING MODIFICATIONS TO THE DISABILITY DETERMINATION PROCEDURES (359P)

Significance: Regulatory Program

Legal Authority: 42 USC 405(a); 42 USC 1302; 42 USC 1383

CFR Citation: 20 CFR 404.906; 20 CFR 416.1406

Legal Deadline: None

Abstract: We propose to add new rules which would establish authority to test modifications to the disability determination procedures that we follow under titles II and XVI of the Social Security Act. On a limited basis, we may test procedures designed to improve the disability claims process. These models are designed to provide us with comprehensive information regarding the effect of these procedures on the disability process. They would enable us to measure whether, and to what degree, the disability process may be improved, especially with respect to obtaining the correct decision earlier in the process and shortening aggregate processing times. We would measure costs and determine the feasibility of each model. The intended result of

testing these models would be to enable SSA to make recommendations for national implementation of improvements to the disability process.

Legal Deadline: None

Abstract: The regulation addresses the problem of appeals filed by supplemental security income recipients whose payments are reduced, suspended or terminated because of a decrease in the amount of federally administered State supplementary payments. The decrease results from a State-initiated across-the-board reduction in the amount of State supplementary payments due to legislative or executive action by a State. The Social Security Administration cannot change the State's decision to reduce the amount of State supplementary payments. Therefore, in cases where State-initiated changes in the amount of State supplementary payments cause a reduction, suspension or will be attended the right to administrative and judicial respect to the issue of the calculation of his or her State supplementary payment.

Abstract: Sections 7.00 and 107.00 (hemic and lymphatic system), and 13.00 and 113.00 (malignant neoplastic diseases) of appendix 1 to Subpart P of Part 404 of the Disability Regulations (404.1501 through 404.1599) describe those impairments which are considered severe enough to prevent a person from engaging in any gainful activity, or in the case of a child under age 18, age-appropriate activities. We are proposing revisions to these sections to ensure that the medical evaluation criteria are up-to-date and consistent with the latest advances in medical knowledge and treatment. The Supplemental Security Income program incorporates and uses the same medical criteria as the Old-Age, Survivors, and Disability Insurance program.

Abstract: These regulations will update our current regulations to reflect the procedures we use for handling employers' wage reports that lack a correct social security number. Additionally, the regulations will include our requirements for employers to file corrections of erroneous wage reports. The regulations will also include a description of our process for providing pension plan information under the Employee Retirement Income Security Act of 1974. There are no significant costs.

Abstract: Current regulations on the windfall elimination provision do not explain how SSA will treat the purchase of noncovered retroactive service, e.g., the purchase of coverage for military service. The regulations will state that we will accept such

service in determining whether an insured individual is exempt from the windfall provision because he or she became eligible before 1986 for a pension based on noncovered employment. The regulations will also include three technical amendments. First, we will delete a cross reference which erroneously indicates that a person otherwise eligible for an underpayment of benefits must be the parent of an insured individual. Second, we will change age 72 to age 70 regarding deductions for net earnings from self-employment. Third, we will delete the German Democratic Republic and Albania from the list of countries to which payment of benefits is restricted.

Abstract: Section 1143(c) of the Social Security Act requires that by not later than September 30, 1995, we must furnish a social security account statement to each eligible individual

who has attained age 60 by October 1, 1994, is not receiving social security benefits, and for whom we can determine a current mailing address. During fiscal year 1995 through 1999, we must furnish such a statement to eligible individuals attaining age 60 in the fiscal year they turn age 60. Similarly, beginning no later than October 1, 1999, we must provide such a statement annually to eligible individuals age 25 or over. In these regulations, we provide who will be sent a statement, who will not be sent a statement, how we will determine addresses, and the contents of the statements. We have not yet compiled all the costs. These regulations will benefit the public by implementing section 1143(c) which will help

individuals verify that we have entered their correct earnings into our records and by showing the benefits to which such individuals may become entitled.

Abstract: The proposed regulation reflects the provisions of the following statutes: (1) Pub. L. 97-458, enacted January 12, 1983, which provides that Indian judgment funds held in trust or distributed per capita pursuant to a plan prepared by the Secretary of Interior and not disapproved by a joint resolution of Congress are excluded from income and resources under the Supplemental Security Income Program; (2) Pub. L. 98-64 enacted August 2, 1983, which provides for the exclusion of all funds held in trust by the Secretary of the Interior for an Indian tribe and distributed per capita to a member of that tribe; and (3) Pub. L. 100-241, enacted February 3, 1988, which provides for the exclusion from income and resources of certain items received by an individual Alaskan native or descendant from an Alaskan native corporation. The program and administrative impact of these regulations are negligible, i.e., less than \$1 million and/or 30 workyears.

Abstract: Section 8 of Pub. L. 99-643 provides that effective for benefits payable for months after May 1986, an underpayment shall be paid to any surviving spouse of a deceased SSI recipient whether or not the spouse was eligible for SSI, if such spouse was living in the same household with the recipient at the time of death, or within the 6 months immediately preceding the month of death; or to the parent(s) of a deceased recipient who was a blind or disabled child at the time the underpayment occurred if the recipient was living with the parent(s) at the time of death or within the 6 months immediately preceding the month of death. These proposed regulations would also reflect a policy change that would continue the appeals process (versus automatic dismissal), at the Administrative Law Judge or Appeals Council level, for the survivors' entitlement to an underpayment if they meet certain conditions.

Abstract: Money borrowed (a loan) is not income for SSI purposes and therefore has no effect on a person's SSI benefits. These regulations will state that only cash transactions may be considered loans. These regulations will also provide that the one-third reduction rule which applies when a person who lives in another's household and receives in-kind support and maintenance will not apply if the SSI recipient pays his or her pro rata share in cash and no later than the month under consideration. Abstract: These regulations conform to statutory amendments which require continued payment for up to three months based on the full payment rate to certain persons eligible for SSI payments under sections 1619 or 1611 of the Social Security Act who enter certain medical or psychiatric institutions. Without the provisions, SSI benefits would be reduced or suspended.

Abstract: The final rules contain procedures for determining when a State agency has substantially failed to make disability determinations in accordance with applicable Federal law. If it is determined that a State agency has substantially failed to make disability determinations in a manner consistent with Federal regulations or other written guidelines, the Social Security Administration, in accordance with section 221 of the Social Security Act (42 USC 421), must assume the responsibility for making the disability determinations. The costs or savings likely to result from implementation of these regulations are not predictable.

Abstract: This regulation reflects a provision of Pub. L. 100-647 which extends the current law treatment of self-employed workers who may claim an exemption from Social Security coverage if they are members of a religious faith that is opposed to participation in Social Security programs to employees in cases where both the employee and the employer are members of a qualifying religious faith. It also reflects a provision of Pub. L. 101-649 which concerns the

suspension of Social Security benefits when an individual is deported.

Abstract: We propose to amend our regulations on redeterminations of Supplemental Security Income eligibility and benefit amounts. Our current rules do not include in the redetermination period the month of eligibility, the month of application, or the month of the last redetermination or eligibility update. The redeterminations omit these months and, as a result, we do not have an accounting of all living arrangements, income, resources, and other relevant factors for the period of eligibility. We propose to change our rules to include in the redetermination period all months from the first day of the month of first eligibility, application, or update for the first redetermination and all months from the first day of the month of the last redetermination for subsequent redeterminations.

1142. RELIABLE INFORMATION WHICH IS CURRENTLY AVAILABLE FOR DETERMINING BENEFIT AMOUNTS IN THE SUPPLEMENTAL SECURITY INCOME PROGRAM (382P)

Significance: Agency Priority**Legal Authority:** 42 USC 1302; 42 USC 1382(a) to 1382(c); 42 USC 1382(e); 42 USC 1382a; 42 USC 1382f; 42 USC 1383**CFR Citation:** 20 CFR 416.420**Legal Deadline:** NPRM, Judicial, March 16, 1993.

Abstract: Pursuant to the Court order in *Gould, et al. v. Sullivan*, No. C2-87-964 (S.D. Ohio, October 2, 1992), we are proposing a rule for determining benefits in the SSI program. Under section 1611(c)(4)(A) of the Social Security Act, if the Secretary determines that reliable information is currently available concerning the income and other circumstances of an individual for a month, the Secretary may use that information to determine an individual's SSI benefit amount for that month. This discretionary method of determining SSI benefit amounts is an exception to the use of information from a prior month, known as retrospective monthly accounting (RMA), as provided in section 1611(c)(1) of the Act. The proposed rule will explain that the Secretary has determined that no information exists which is reliable and currently available to use in computing SSI benefit amounts pursuant to section 1611(c)(4).

Abstract: The Department of Health and Human Services proposes to exempt a new system of records, 09-37-0021, "Public Health Service Records Related to Investigations of Scientific Misconduct" from certain requirements of the Privacy Act. The purpose of this exemption is to protect records compiled in the course of an allegation assessment and/or investigation and to protect the identity of the confidential source of information. There are no known costs associated with the NPRM. The benefits will be that the investigative files will not be disclosed inappropriately and promises to withhold identities of confidential sources will be honored.

Abstract: The proposed rule addresses three major problems of the current regulation by (1) substantially upgrading laboratory performance tests for certifying respirators; (2) adding quantitative face seal performance tests; and (3) replacing current certification tests that are design- or application-specific with tests that are performance-based. The first NPRM for revising 42 CFR part 84 was published in the Federal Register on August 27, 1987 (52

Additional Information: ABSTRACT CONT: for "Antimicrobial Products." NPRM for "Alcohol (Topical) Products" to be included in revised NPRM for "Antimicrobial Products." The NPRM for "Antimicrobial Products" is being revised because it is being updated and split into two sections: first aid products and health care products.

SMALL ENTITIES AFFECTED: The effects, if any, vary depending on the individual rulemaking. However, the agency anticipates that the rules would not have a significant economic impact on a substantial number of small entities as defined by the Regulatory Flexibility Act.

Abstract: Acceptable evidence and information exist to show that a subgroup of asthmatics is at moderate

to severe risk for a severe reaction upon exposure to sulfites. The agency's primary tool for handling a situation where population subgroups may be at increased risk from a food ingredient that is safe for most people is to use labeling to inform those persons who need or want to avoid the ingredient. The agency issued a final rule, effective January 7, 1987, that requires that when a sulfiting agent is present in a finished food at 10 parts per million or greater, the sulfiting agent must be declared on the label. In addition, FDA issued a final rule, effective August 8, 1986, prohibiting the use of sulfiting agents on raw fruits and vegetables intended to be served or sold raw to consumers (e.g., in salad bars). On December 10, 1987, FDA announced its tentative conclusion that there is no longer a basis to find that the use of sulfiting agents on "fresh" potatoes served or sold unpackaged to consumers is GRAS. On December 19, 1988, FDA proposed to affirm, with specific limitations, that certain other uses of sulfiting agents are GRAS (cont)

Additional Information: ABSTRACT CONT: and to establish labeling requirements for sulfiting agents in standardized foods.

On March 15, 1990 (55 FR 9826), FDA issued a final rule prohibiting the use of sulfiting agents on "fresh" potatoes

(55 FR 9826) and requested data and information concerning the use of sulfiting agents on frozen potatoes (55 FR 9834).

On August 3, 1990, the United States District Court for the Middle District of Pennsylvania declared the final rule concerning fresh potatoes to be "null and void" based on perceived procedural defects in the rulemaking proceeding. The Government appealed the district court's decision. On May 22, 1991, the U.S. Court of Appeals for the Third Circuit en banc affirmed, by an equally divided vote and without opinion, the decision of the district court invalidating on procedural grounds FDA's final rule revoking the GRAS status of the use of sulfiting agents on fresh potatoes.

FDA's repropoed rule will include the GRAS status of sulfiting agents on both minimally processed (formerly fresh) and frozen potatoes.

Abstract: The Prescription Drug Marketing Act of 1987 (PDMA) amended the Federal Food, Drug, and Cosmetic Act to: (1) require State licensing of wholesale distributors of prescription human drugs under Federal guidelines including minimum standards for storage, handling, and recordkeeping; (2) ban the reimportation of prescription human drugs produced in the United States, except when reimported by the manufacturer for emergency use; (3) ban the sale, trade, or purchase of drug samples; (4) ban trafficking in or counterfeiting of drug coupons; (5) mandate storage, handling, and recordkeeping requirements for drug samples; (6) require licensed practitioners to request drug samples in writing; (7) prohibit, with certain exceptions, the resale of prescription human drugs purchased by hospitals or health care facilities; and (8) set forth criminal and civil penalties for violations of these provisions. In the Federal Register of September 14, 1990 (55 FR 38012), FDA issued a final rule

Final, Statutory, November 28, 1992, for Medical Device T.

Abstract: The Safe Medical Devices Act of 1990 (SMDA), enacted November 28, 1990, was intended to assure marketed devices are safe and effective, FDA learns quickly of device problems, and has authority to remove defective devices from the market. The act directs or authorizes FDA to develop these regulations: Medical Device Reporting--This rule will require healthcare facilities and distributors to report deaths and serious injuries/illnesses related to medical devices. Medical Device Tracking--This regulation will require manufacturers to

track certain devices to the user. Classification of Transitional Devices--FDA issued a notice to require submission of adverse safety and effectiveness data on transitional devices. FDA will now propose to keep each device in class III, or reclassify it in class I or II. Good Manufacturing Practices for Medical Devices--FDA will propose to add preproduction design validation in existing CGMP regulations. Exemption of Humanitarian Devices--The proposed rule gives procedures for applications for certain premarket review exemptions for humanitarian devices. (cont)

Abstract: The Food and Drug Administration intends to issue requirements for the safe processing and importing of fish and fishery products in keeping with Hazard Analysis Critical Control Point (HACCP) principles. HACCP involves the identification and monitoring of "critical control points" in a processing or other operation the failure of which can render a product adulterated. HACCP has been strongly endorsed by the National Academy of Sciences for use by the seafood industry.

Abstract: In fulfillment of its mandate under the Safe Drinking Water Act, EPA is currently in the midst of reviewing and establishing standards for contaminants in public drinking water such as pathogenic bacteria, pesticides and organic chemicals. When EPA establishes such standards for public drinking water, FDA is required to take appropriate action to amend its regulations for bottled drinking water or state its reasons for not doing so. FDA also establishes identity standards for a food when it has determined that the standard will promote honesty and fair dealing in the interest of consumers.

CFR Citation: 21 CFR 600; 21 CFR 606**Legal Deadline:** None

Abstract: All licensed blood establishments are required to notify FDA promptly of errors or accidents in the manufacture of products that may effect the safety, purity, or potency of any biological product (21 CFR 600.14). The reporting of certain errors or accidents occurring in the manufacture of blood and blood components is necessary so that FDA can respond where the public health may be endangered and provide added assurance as to the continued safety, identity, quality, purported quality, and purity of blood and blood components. FDA has determined that errors and accidents that are detected and

corrected before a finished unit is removed from the unprocessed inventory and made available for release and distribution do not affect the safety of the blood supply and need not be reported to the agency. The proposed rule would require licensed establishments, unlicensed establishments, and transfusion services to report and keep records. The cost to licensed establishments would be minimal (cont)

Procurement: This is a procurement-related action for which there is no statutory requirement. There is a paperwork burden associated with this action.

Additional Information: ABSTRACT CONT: Since they already are required to report, licensed establishments would only have to make some changes in standard operating procedures. Unlicensed establishments are already required to keep records and conduct investigations. Under the proposed rule they would have to establish reporting procedures and report to FDA. The transfusion services would have to assure their recordkeeping and investigation procedures are sufficient and establish reporting procedures. Reporting by transfusions services is expected to be minimal.

Abstract: The agency proposes to revise its regulations pertaining to human drug product labeling. The proposed revisions would subject drug products whose labeling was based in whole or in part on false or fraudulent data or information to the statutory requirements in sections 502(f) (1) of the Federal Food, Drug, and Cosmetic Act. Significance: Regulatory Program

Legal Authority: 42 USC 271; 42 USC 264

CFR Citation: 21 CFR 1260

Legal Deadline: None

Abstract: FDA is proposing regulations intended to prevent the transmission of communicable disease through the use of human semen for artificial insemination. The proposed regulations would provide for the registration with FDA of establishments collecting, manufacturing, and distributing semen intended for artificial insemination. Registered facilities would be required to meet standards intended to ensure that semen donors are appropriately screened and tested, that the collected semen is not contaminated with an agent of communicable disease through errors or poor practices, and that records are kept documenting that the appropriate procedures have been followed. Registered facilities meeting these standards would receive a certification from FDA that would permit the continued distribution of semen intended for artificial insemination. Human semen collected from a donor who is the spouse or other sexually intimate partner of the intended recipient would not fall under the scope of the proposed regulations.

Abstract: The agency is considering several steps that could be taken to facilitate the early phases of clinical investigations of drug and biologic products, as part of the larger effort to speed the development and approval of promising new therapeutic products, without jeopardizing the safety of human study subjects or the quality of the data obtained. These steps are intended to eliminate the need for investigators to submit, and for FDA to review and approve, protocols that present minimal risk to subjects and do not require FDA involvement as part of an efficient drug development effort.

FDA is considering an amendment to 21 CFR Part 312 to exempt certain clinical investigations from the investigational new drug (IND) requirements, provided that specific requirements are met. The investigator would have to submit protocols for qualified studies to an institutional review board (IRB) rather than FDA.

Abstract: FDA is proposing a policy for determining when the likelihood/extent of migration of a component of a food contact article is so trivial as not to require regulation as a food additive. A substance considered under this Threshold of Regulation Policy would undergo an abbreviated review by FDA, as opposed to the extensive review and formal issuance of a regulation required for other food additives. This proposal lists the criteria which must be met for a food-contact material to be reviewed under this policy and identifies the types of data that FDA will need for

its review. This policy will reduce regulatory cost and delays and thereby bring important and innovative products to market faster.

Abstract: FDA is reviewing the manner in which it regulates dietary supplements, including products containing vitamins, minerals, amino-acids, herbs, and other similar nutritional substances. In an ANPRM on June 18, 1993, the FDA requested public comment on approaches, consistent with the requirements of the Federal Food, Drug, and Cosmetic Act (the act) for assuring the safety of such products offered as dietary supplements. FDA also announced the agency's intention to bring amino acid-containing dietary supplement products into compliance with the law and requests manufacturers of these products to submit any additional information that may be available on the safety and use of individual amino acids or combinations of amino acids as ingredients in dietary supplements. FDA also announced the availability of a report entitled "Dietary Supplements Task Force Final Report" and requested comment on the recommendations made in this report.

Significance: Agency Priority
Legal Authority: 21 USC 360j(g)
CFR Citation: 21 CFR 813; 21 CFR 812
Legal Deadline: None

Abstract: The rule would revoke the separate investigational device exemption regulation for intraocular lenses (IOLs). IOLs would then be subject to the same IDE regulation (21 CFR Part 812) as all other devices. The IOL-IDE regulation was originally created as an interim measure.

1181. MAMMOGRAPHY QUALITY STANDARDS ACT OF 1992

Significance: Regulatory Program
Legal Authority: PL 102-539
 Mammography Quality Standards Act of 1992

CFR Citation: Not yet determined
Legal Deadline: Final, Statutory, July 27, 1993.
 Standards for accreditation bodies are required by July 27, 1993.

Abstract: The purpose of the Mammography Quality Standards Act of 1992, enacted October 27, 1992, is to assure quality in all aspects of the practice of mammography. The primary mechanism for this is oversight of all mammography facilities through a certification and inspection program. Only facilities certified by the Secretary will be permitted to produce, process, or interpret mammographic images. The statute also requires the establishment of an advisory committee to set regulatory quality standards and also provides for the establishment of surveillance systems to evaluate breast cancer screening programs.

Regulations are required in several areas: Issuance and denial of certificates; standards for accreditation bodies; approval or withdrawal of approval of accreditation bodies; quality standards for facilities; certification of personnel, an inspection program, a user fee program, and an enforcement program. The statute mandates other activities for which regulations may also be necessary, although not specifically required.

Abstract: FDA will propose procedures for the safe processing, packaging, storage, and distribution of fish that are hot-process smoked, hot-process smoke-flavored, cold-process smoked, or cold-process smoke-flavored and salted. FDA is proposing these regulations in an effort to reduce the public health risk from Clostridium botulinum spore outgrowth and toxin production associated with the manufacture of smoked, smoke-flavored, or salted fish products, as well as to control Listeria monocytogenes and other microbiological hazards associated with these foods. Three factors heighten concern about these potential hazards: The smoked fish industry's recent increasing use of vacuum packaging, a key factor in the 1960's smoked fish botulism outbreaks (45 percent of the companies visited in a 1988-1989 FDA and New York State survey vacuum package these products); the fact that seven of nine recent inspections of smoked fish processing facilities in New York State have found L. monocytogenes in the environment or in products; and the failure or many in the smoked fish industry to follow necessary sanitary manufacturing procedures and safe processing parameters in production (cont)

Legal Authority: 21 USC 360b; 21 USC 371

CFR Citation: 21 CFR 514.1; 21 CFR 514.8

Legal Deadline: None

Abstract: On December 17, 1991, the agency published a proposed revision of the existing regulations that are consistent with the current procedural regulations for human drugs where appropriate. The New Animal Drug Application (NADA) revisions would articulate general requirements in regulations containing performance standards and would complement them through detailed guidelines on, among other matters, appropriate ways of meeting requirements for submission of chemistry, pharmacology, and statistical data that would better address the intricate scientific issues involved. A separate proposed rule for reporting requirements for marketed animal drugs also published on that date.

Significance: Agency Priority

Legal Authority: 21 USC 355 title I

CFR Citation: 21 CFR 10; 21 CFR 310; 21 CFR 314; 21 CFR 320

Legal Deadline: None

Abstract: Until the passage of title I of the Drug Price Competition and Patent Term Restoration Act of 1984, abbreviated new drug application (ANDA) procedures were only available for generic products equivalent to pioneer drugs approved before 1962. Title I opened up the ANDA policy to generic copies of products approved after 1962. On July 10, 1989 (54 FR 28872), FDA proposed regulations to implement Title I. The proposal provides for the submission of abbreviated new drug applications for generic versions of drug products first approved after 1962. These new provisions will benefit consumers by making generic drug products available more quickly.

The agency is reviewing the public comments submitted in response to the proposed rule and preparing the final rule in two segments. The first segment will establish requirements for format and content of an ANDA, suitability

petitions, and certain administrative actions. The second segment will establish requirements for patent certification and exclusivity.

Abstract: The agency currently requires that all blood and blood components intended for the manufacture of any product be tested for antibody to human immunodeficiency virus (HIV). In instances when the blood of a donor is found to contain antibodies to HIV, some blood centers have initiated a program of voluntary "look-back" to notify consignees of blood and blood components obtained from the donor's prior donations. Consignees may withdraw or destroy such blood and blood products, and may trace and notify recipients. A well-conducted look-back program can provide an effective mechanism for identifying, testing, and counseling transfusion recipients who are at increased risk of HIV infection—those who receive blood from a donor later found to be infected with HIV. The agency is considering a proposal to establish a mandatory look-back program. The proposal would require blood collection facilities to develop a procedure to notify consignees promptly whenever a blood donor who has previously donated blood or source plasma is found to be positive for the antibody to HIV; and to keep appropriate records (cont)

Abstract: In light of the public health concerns raised by continuing findings concerning the effects of low levels of exposure to lead, particularly exposure by pregnant women, infants, and children, the agency is undertaking a comprehensive effort to further reduce lead levels in food where controllable or avoidable sources of lead addition to food can be identified. The goal of FDA is to reduce consumer's exposure to lead in the diet to the lowest level that can be practicably obtained. FDA has identified several potential sources of dietary lead exposure that it intends to address in proposed rules in its initiatives to reduce exposure to lead in the diet. The agency is also considering rulemaking concerning lead glazed ceramic foodware based upon a June 1, 1989 NPRM (54 FR 23485).

Abstract: In the Federal Register of October 21, 1988 (53 FR 41561), FDA issued an interim rule, effective upon date of publication, with opportunity for public comment, that set forth procedures designed to speed the availability of new therapies to desperately ill patients, while preserving appropriate guarantees for safety and effectiveness. These procedures are intended to facilitate the development, evaluation, and marketing of such products, especially where no satisfactory alternative therapies exist. These procedures reflect the recognition that physicians and patients are generally willing to accept greater risks or side effects from products that treat life-threatening and severely-debilitating illness. These procedures also reflect the recognition that the benefits of the drug need to be evaluated in light of the severity of the disease being treated. The procedures apply to life-threatening or severely debilitating illnesses. The agency is reviewing the public comments submitted in response to the interim rule and preparing a Federal Register document that will respond to these comments. The (cont)

Abstract: In the Federal Register of October 4, 1991 (56 FR 50248), FDA issued an interim rule effective on November 4, 1991 with opportunity for public comment, revising the fee schedule for insulin certification services. The fees are intended to recover the full costs of operation of FDA's insulin certification program, including the unfunded liability of the Civil Service Retirement Fund and appropriate overhead costs of the Public Health Service and Department of Health and Human Services. FDA is also considering similar amendments to the regulations governing fees for the color additive certification program.

Abstract: In the Federal Register of October 16, 1992 (57 FR 47423), the agency proposed to amend its regulations pertaining to the specific content and format of prescription drug

labeling by revising the current "Pediatric Use" subsection of professional labeling to provide for the inclusion of more complete information about use of a drug in children and about hazards associated with this use. This regulatory action is intended to respond to concerns in FDA and elsewhere that current prescription drug labeling does not contain adequate information about the use of drugs in children. Abstract: FDA has become aware through various sources of numerous reports of complications including permanent physical injuries, severe psychological disabilities, other serious injuries and deaths that have been attributed to incorrect supervision, handling or application of protective restraint devices by medical or paramedical personnel. Complications associated with protective restraint devices frequently result from misuse of the devices. To address potential misuse, manufacturers should include specific directions for use, to the extent that such directions are not currently available or not attached to or kept with the garment. Revocation of the premarket notification exemptions will allow FDA to collect information about the current availability and actual employment of directions for use and to monitor the introduction into commerce of new and changed protective restraints. Revocation of the exempting Current Good Manufacturing Practice regulation will allow FDA to require the necessary controls over labeling. FDA is also considering educational programs to address this problem. FDA anticipates total first year costs of \$930,000 for this regulation. (CONT)

Abstract: The Nutrition Labeling and Education Act of 1990 (NLEA) requires that most foods bear nutrition labeling. In developing the final rules that were published on January 6, 1993, the agency identified three areas that should be the subject of additional rulemaking: a definition for the nutrient content claim "healthy"; a definition for "nonfunctional slack-fill"; and requirements for the identification of certain ingredients on food labels. Proposed regulations addressing these issues were published on January 6, 1993. On May 12, 1993, FDA announced that, in accordance with the NLEA, the regulation it proposed on January 6, 1993, on nonfunctional slack-fill was considered final rule. The proposed regulation defines the circumstances in which the slack-fill within a package is nonfunctional and, therefore, misleading. FDA will issue a final rule that responds to the comments received to the January 6, 1993, proposal and separate the requirements of the proposed rule. FDA also proposed on June 15, 1993, to amend its January 6, 1993 final rules on nutrient content and health claims to have the provisions that exempted restaurant menus from the requirements for how nutrient (cont)

If final regulations on labeling of Dietary Supplements are not published by 12/31/93, the proposed regulations shall be considered the final regulations.

Abstract: With the publication of various final rules on January 6, 1993, the agency completed action on its food labeling initiative under the Nutrition Labeling and Education Act of 1990. Rulemaking on nutrition labeling of dietary supplements was delayed due to requirements of the Dietary Supplement Act of 1992 (DSA), which amended the law to provide that the agency would issue proposed regulations for dietary supplements by June 15, 1993, and final regulations by December 31, 1993. Three proposed regulations were developed and published on June 18, 1993; Health Claims for Dietary Supplements, Nutrient Content Claims for Dietary Supplements, and Mandatory Nutrition Labeling for Dietary Supplements. Final regulations will be published to implement the provisions of the DSA.

Abstract: FDA is amending the regulations to require manufacturers, packers, and distributors (hereafter referred to as LICENSED MANUFACTURERS of licensed biological products to report to FDA within 15 working days all adverse experiences associated with the use of a biological product that are both serious and unexpected; any significant increase in the frequency of a serious, but expected adverse experience; periodically all other adverse experiences; and product distribution and disposition data. FDA is taking this action to provide a mechanism under which LICENSED MANUFACTURERS would inform the agency, on a timely basis, of any unanticipated safety problems with marketed biological products.

Abstract: The National Health Service Corps (NHSC) Revitalization Amendments of 1990, PL 101-597, amends Section 338B of the PHS Act which authorizes the NHSC Loan Repayment Program. These Amendments also revise the State Loan Repayment Program at Section 338I of the PHS Act. The interim rule relating to both these programs as published April 3, 1989, will be revised to reflect the 1990 amendments. Regulations governing the Special Repayment Program established under PL 100-177 were published on 11/6/91 in final form under RIN: 0905-AD58, separate from this NPRM (RIN: 0905-AC65). The amended NHSC Loan Repayment Program (RIN: 0905-AD57) removes the provision which limits the Secretary's loan repayment to one month in advance of services.

Medicaid participating hospitals that perform organ transplants to be members of and abide by the rules and requirements of the Organ Procurement and Transplantation Network (OPTN) as established by section 372 of the Public Health Service Act. Section 1138 also requires that for organ procurement costs attributable to payments to an Organ Procurement Organization (OPO) to be paid by Medicare or Medicaid, the OPO must be a member of and abide by the rules and requirements of the OPTN. No other entity (for example, a histocompatibility laboratory) is required to be a member of or abide by the rules of the OPTN under the provisions of the statute. It is the Department's position that no rule, requirement, policy, or other issuance of the OPTN will be considered to be a "rule or requirement" of the Network within the meaning of section 1138 unless the Secretary has formally approved that rule. The OPTN is currently in operation and these rules will impose no further cost or provide any benefit other than that which now exists.

Abstract: The proposed rule would revise the rules currently governing how certain health care facilities, assisted under titles VI and XVI of the Public Health Service Act, fulfill the assurance given in their applications for assistance that they would provide a reasonable volume of services to persons unable to pay. Public comment on the current rules and operational experience with them has indicated the need to revise the current requirements with respect to nonprofit facilities that provide substantial amounts of free or below-cost care under their own programs but are unable, under current requirements, to credit such care toward fulfillment of their assurance. The intended effect of these proposed rules is to allow qualified facilities to satisfy their uncompensated services assurance through their continued provision of free or below-cost health services.

Section 312 of PL 99-660 requires the Secretary to propose regulations to amend the Vaccine Injury Table, based on the findings of the Institute of Medicine (IOM) study, (cont)

Abstract: The National Vaccine Injury Compensation (NVIC) Program, administered by the Secretary, and governed by subtitle 2 of title XXI of the Public Health Service Act, as enacted by the National Childhood Vaccine Injury Act of 1986 (the Act), provides a system of no-fault compensation for certain individuals who have been injured by specific childhood vaccines. The nature of the injuries, disabilities, illnesses, conditions, and deaths which will be presumed to result from the administration of specific vaccines, and the time period in which the first symptom or manifestation of onset

must occur for this presumption to apply, are outlined in section 2114 of the Act in what is known as the Vaccine Injury Table. This Final Rule makes refinements to the Vaccine Injury Table to more accurately reflect current scientific knowledge about the conditions that result from vaccines which will result in appropriate compensation for injuries related to vaccines.

Procurement: This is a procurement-related action for which there is a statutory requirement. There is a paperwork burden associated with this action.

Additional Information: 1. The Act (P.L. 100-472) provides that except for construction contracts, the Office of Federal Procurement Policy Act and Federal Acquisition Regulations shall not apply to self-determination contracts. Therefore, implementing regulations for the Indian Self-Determination Act amendments will include a subpart on construction contracts which, unlike other self-determination awards, will be made subject to certain procurement rules (e.g., FARS, HSARS, FSARS). 2. There is a statutory requirement to implement P.L. 93-638 regulations. 3. There is a paperwork burden associated with the action. It will be included with the overall clearance package.

1218. INDIAN HEALTH SERVICE CATASTROPHIC HEALTH EMERGENCY FUND PROGRAM

Legal Authority: PL 100-713

CFR Citation: 42 CFR 36

Legal Deadline: None

Abstract: Public Law 100-713, enacted November 23, 1988, authorized a new program establishing a catastrophic health emergency fund. The Secretary is directed to establish the program by regulations consistent with provisions of the Law including a definition of a catastrophic disease.

1219. REVISION OF INDIAN SELF-DETERMINATION REGULATIONS

Significance: Regulatory Program

Legal Authority: PL 93-638; PL 100-202; PL 100-446; PL 100-472; PL 100-581; PL 101-301; 25 USC 450

CFR Citation: 42 CFR 36; 48 CFR 380.4; 48 CFR 352.280-4

Legal Deadline: NPRM, Statutory, May 5, 1989. Final, Statutory, August 5, 1989.

Abstract: Public Law 93-638 passed in 1975, requires the IHS to turn over administrative responsibility for services delivery programs to tribes so requesting, using the mechanism of contracting. Public Law 93-638 also authorizes the IHS to make grants to tribe(s) for the planning, development, and or operations of health programs. Public Law 100-472, enacted October 5, 1988, made significant changes to the statute and required that regulations implementing the amendments be promulgated in final within ten months of enactment. The law provides for tribal consultation and participation in the development of the regulations.

1221. • ACQUISITION UNDER THE BUY INDIAN ACT

Legal Authority: 25 USC 47

CFR Citation: 48 CFR ch 3, app A

Legal Deadline: None

Abstract: This regulation will update and standardize existing regulations for the Buy Indian Act to coincide with the Department of Interior regulations at 48 CFR Chapter 14. There are no costs associated with these revised regulations. These revisions will increase competition among Indian economic enterprises and facilitate economic development of Indian reservations by increasing opportunities for Indian businesses.

Legal Deadline: None

Abstract: This regulation would implement section 9505 of PL 99-272 by establishing eligibility and coverage requirements, payment procedures and conditions of participation for optional Medicaid coverage of hospice care. It would also implement section 9435(b) of PL 99-509 regarding payment for hospice care for individuals residing in a nursing facility or intermediate care facility in a State that has not elected to cover hospice services. It also would implement sections 4705 and 4717 of PL 101-508 which further clarifies conditions for payment and the scope of benefits.

Abstract: This final rule implements section 9403 of PL 99-272; section 9353(c) of PL 99-509; section 4096(a) of PL 100-203; and section 4205 of PL 101-508. In accordance with these statutory provisions, Peer Review Organizations (PROs) are authorized to deny Medicare payment to a physician or hospital for services furnished that are of substandard quality. Beneficiaries are protected from liability for the cost of the services where payment is denied because services were of substandard quality.

1241. PAYMENT FOR THE COST OF MALPRACTICE INSURANCE FOR HOSPITALS EXCLUDED FROM THE PROSPECTIVE PAYMENT SYSTEM (BPD-437-P)

Legal Authority: 42 USC 1395x(v)(1)(A)

CFR Citation: 42 CFR 413.56

Legal Deadline: None

Abstract: This rule would revise the method Medicare uses to determine payment for the costs of malpractice insurance incurred by a hospital. A hospital would receive payment for its malpractice insurance costs based on the utilization formula adopted by the Secretary at the beginning of the Medicare program. That is, malpractice insurance costs will be included in the general and administrative cost center, along with other provider overhead costs, to be apportioned to the Medicare program based on the hospital's Medicare patient utilization.

Abstract: This rule proposes to establish optional prospective payment rates for routine services furnished by certain skilled nursing facilities. The prospective rate would be on a per diem basis and would include payment for the cost of furnishing general inpatient routine services and associated capital-related costs. Ancillary services will be paid on the basis of reasonable cost. This rule would propose instructions for determining eligibility for payment under this system, and the methodology for calculating the prospective payment rates. Freestanding SNFs electing to be paid under this prospective payment system may file a simplified cost report.

Abstract: These regulations would conform the Medicaid regulations to section 1917(c) of the Social Security Act, which was entirely revised by section 303(b) of the Medicare Catastrophic Coverage Act of 1988 (PL 100-360) as amended by section 608(d)(16)(B) of the Family Support Act

(PL 100-485) and section 6411(e)(1) of OBRA '89 (PL 101-239). Section 1917(c) now requires that State Medicaid agencies provide individuals with a period of ineligibility for nursing facility services or home and community based services for up to 30 months if these individuals or their spouses made transfers of assets for less than fair market value during a prohibited period. The period of ineligibility applies if the individual or spouse made a transfer of assets for less than fair market value at any time during or after the 30-month period immediately before (1) the date the individual became institutionalized, if he or she was entitled to Medicaid on that date, or (2) the date he or she applied for Medicaid while institutionalized. Abstract: This rule would organize and codify in regulations the statutory changes to Medigap provisions made in 1987, 1988, 1989, and 1990. It will contain specific procedures for review of State regulatory plans (and individual policies) as required in the Omnibus Budget Reconciliation Act of 1990. These procedures are needed to permit Medigap insurance sales to continue uninterrupted as the program phases in during 1992 and 1993. The new standards were enacted by OBRA '87, and '90, the Medicare Catastrophic Coverage Act of 1988 and the Medicare Catastrophic Coverage Repeal Act of 1989.

Abstract: These rules would propose to require States to include in their State plans payment of Medicare cost-sharing for specified low-income Medicare beneficiaries (SLMBS), Qualified Medicare Beneficiaries (QMB) and Qualified Disabled and Working Individuals (QDWI). The territories have the option to do the same. We would define cost-sharing, specify criteria for determining QMB status, propose requirements and options for payment amounts and limitations, and provide for Federal financial participation in State payments for Medicare cost-sharing on behalf of QMBs. For QDWIs Federal financial participation would be limited to Medicare, Part A premium. The changes would implement provisions of the Medicare Catastrophic Coverage Act of 1988 as modified by the Family Support Act of 1988, the Technical and Miscellaneous Revenue Act of 1988, the Omnibus Budget Reconciliation Act of 1989, and the Omnibus Budget Reconciliation Act of 1990. Abstract: Section 6403 of the Omnibus Budget Reconciliation Act of 1989 defines in new section 1905(r) of the Social Security Act the following EPSDT services: screening services, vision services, dental services and hearing services. It also extends EPSDT services to include such other necessary health care, diagnostic services, treatment, and other measures described in section 1905(a) of the Act to correct or ameliorate defects and illnesses and conditions discovered by the screening services whether or not the services are covered under the State plan. Section 6403 also amended section 1902(a)(43) of the Act to require States to report to the Secretary certain information about EPSDT services provided under the plan during each fiscal year. This rule would set forth requirements to implement these statutory provisions.

1257. MEDICARE COVERAGE AND PAYMENT OF CLINICAL PSYCHOLOGIST, OTHER PSYCHOLOGIST, AND CLINICAL SOCIAL WORKER SERVICES—MEDICARE (BPD-706-P)

Significance: Agency Priority

Legal Authority: 42 USC 1395l(c); 42 USC 1395x(hh)(2); 42 USC 1395x(ii)

CFR Citation: 42 CFR 410; 42 CFR 417; 42 CFR 424

Legal Deadline: None

Abstract: This rule would address provisions of section 6113 of the Omnibus Budget Reconciliation Act of 1989 (OBRA '89) and section 4157 of the Omnibus Budget Reconciliation Act of 1990 (OBRA '90). Section 6113 of

HHS—HCFA

Proposed Rule Stage

OBRA '89 provides coverage for the services of clinical psychologists (CPs) and clinical social workers. It requires CPs to agree to consult with the patient's primary care or attending physician. Also, it eliminates the dollar limitation that previously applied to mental health services although the 62.5 percent limitation still applies. OBRA '89 also provides coverage for clinical social worker services, but places two limitations on separate payment, which apply to services provided to inpatients of hospitals and skilled nursing facilities that are Medicare participating. Section 4157 of OBRA '90 unbundled CP services from the definition of "inpatient hospital services."

Legal Authority: 42 USC 1396a(k)

CFR Citation: 42 CFR 435; 42 CFR 436

Abstract: This rule would implement section 1902(k) of the Social Security Act by defining Medicaid Qualifying Trusts (MQT); establishing rules for counting as available income or resources the maximum amount that could be paid to or on behalf of a Medicaid applicant or recipient from the body of the MQT, from income to the trust, or from both; and permitting States to waive the application of the rule in situations in which its application would result in undue hardships.

The purpose of the rule is to prevent individuals who have sufficient income and resources to pay for medical care from sheltering that income and resources through MQTs so that they can then become eligible for Medicaid.

Abstract: This regulation would allow retroactive enrollment of up to 90 days for individuals enrolling with an eligible organization (which has a risk-sharing contract under section 1876 of the Social Security Act) under a health benefit plan operated, sponsored, or contributed to, by the individual's employer or former employer (or the employer or former employer of the individual's spouse). The regulation would implement section 4204(e) of the Omnibus Budget Reconciliation Act of 1990, PL 101-508. In addition, the rule would permit the Secretary to authorize retroactive disenrollment in specific cases.

Abstract: This rule would specify that Medicare Part B Coverage includes the services of a certified nurse-midwife furnished independent of the supervision of a physician (if that

practice is allowed under the State law of the State in which the service is furnished). Section 4073 of the Omnibus Budget Reconciliation Act of 1987, as amended by Section 411(h)(4) of the Medicare Catastrophic Coverage Act of 1988 established separate Medicare Part B coverage of certified nurse-midwife services furnished after June 30, 1988.

1281. CHANGE IN PROVIDER AGREEMENT REGULATIONS RELATED TO FEDERAL EMPLOYEE HEALTH BENEFITS (BPD-748-P)

Legal Authority: 5 USC 8904(b)
CFR Citation: 42 CFR 489
Legal Deadline: None

Abstract: Existing Medicare conditions of participation and provider agreements do not require that hospitals accept the Medicare Prospective Payment System (PPS) rate as payment in full when issued by a Federal Employee Health Benefit (FEHB) plan for an enrollee not entitled to Medicare Part A. Section 7002(f) of Pub. L. 101-508 requires that FEHB plans limit their inpatient payment for retired FEHB enrollees who are age 65 and older, but who are not entitled to receive hospital insurance benefits under Medicare, to rates that would have been paid by Medicare under PPS. It also requires the Secretary to consider termination of the Medicare provider agreement when a hospital knowingly and willfully attempts to collect, on a repeated basis, from the patient the difference between the Medicare payment rates and the hospital's charge, less any deductible or coinsurance obligation. This rule will bring our regulations into accord with 5 USC 8904(b).

Significance: Regulatory Program

Legal Authority: 42 USC 1301

Abstract: This rule concerns the steps that HCFA intends to take to streamline Medicaid claims processing by developing and requiring the use of a universal Medicaid claims processing form, as well as electronic data transmission standards. These steps are part of a strategy developed by the Department to reduce administrative costs and burden throughout the health care system. We anticipate that the increased use of electronic claims will help reduce administrative costs by eliminating the need for burdensome paperwork and duplication of effort.

Abstract: This rule would implement sections 9313(a)(1) and 9341 of PL 99-509. Section 9313(a)(1) permits providers, physicians or suppliers to represent beneficiaries, with certain limitations, in pursuing appeals of adverse determinations regarding claims for benefits under Medicare Part A or Part B. Section 9341 extends to Medicare Part B claimants the right to

a hearing before an administrative law judge if the amount in controversy is at least \$500 and to judicial review, provided the amount in controversy is at least \$1,000. Section 9341 also limits the review of national coverage determinations and prohibits judicial review of any regulation or instruction, initially issued before January 1, 1981, relating to a method of determining the amount of payment under Part B.

Significance: Agency Priority

Legal Authority: 42 USC 1320c-9

CFR Citation: 42 CFR 1320c-9

Abstract: This rule would allow Peer Review Organizations (PROs) to disclose confidential information to researchers without the consent of the individuals who would be identified. Currently, PROs can only disclose to the public nonconfidential aggregate data where no one is specifically identified. The Statute, however, provides for limited disclosure in case there are circumstances the Secretary shall by regulations provide to assure adequate protection of the rights and interest of patients, health care practitioners, or providers. HCFA is now emphasizing the sharing of PRO data for educational and research purposes as evidenced by the implementation of the Uniform Clinical Data Set and the Health Care Quality Improvement Initiative. This regulatory revision will make confidential PRO information accessible to researchers while still protecting the identities of beneficiaries and practitioners from unwarranted disclosure. PRO flexibility to share information with researchers is comparable with the revised requirements in the PRO's Fourth Scope of Work contract.

Legal Authority: 42 USC 1395x; 42 USC 1395y

CFR Citation: None

Legal Deadline: None

Abstract: Intermittent positive pressure breathing (IPPB) machine therapy is currently covered under Medicare as

durable medical equipment for patients whose ability to breathe is severally impaired. Based on a Public Health Service recommendation, we propose to place limitations on Medicare coverage of IPPB machine therapy.

Legal Authority: 42 USC 1395y

CFR Citation: None

Legal Deadline: None

Abstract: This notice announces the Medicare program's intent to exclude from coverage electrostimulation of the salivary glands in the treatment of xerostomia secondary to Sjogren's Syndrome. Public Health Service (PHS) studies show that there is insufficient data to establish the clinical utility of electrostimulation to evaluate its long-term effectiveness, or to identify those xerostomia patients who would benefit from this procedure. Also, PHS reports that electrostimulation is not widely accepted as a treatment for xerostomia secondary to Sjogren's Syndrome.

1304. • MEDICARE PROGRAM: CHANGES TO THE INPATIENT HOSPITAL PROSPECTIVE PAYMENT SYSTEMS AND FISCAL YEAR 1995 RATES (BPD-785-P)

Significance: Agency Priority

Legal Authority: 42 USC 1395ww

CFR Citation: 42 CFR 412; 42 CFR 413

Legal Deadline: NPRM, Statutory, May 1, 1994. Final, Statutory, September 1, 1994.

Abstract: This rule will make revisions to the inpatient hospital prospective payment systems for operating costs and capital-related costs. It also will include changes in the methods, amounts, and factors used to determine the prospective payment rates applicable to discharges occurring during FY 1995. In addition, the final rule sets forth the rate-of-increase limits for hospitals and hospital units excluded from the prospective payment systems.

Significance: Agency Priority

Legal Authority: 42 USC 1395w-4

CFR Citation: 42 CFR None

Legal Deadline: Other, Statutory, January 1, 1995.

Abstract: This notice would announce new geographic practice cost index (GPCI) values reflecting updated data and methodological refinements. The statute requires HCFA to comprehensively review and update the GPCI values at least every 3 years. Since the initial GPCI values went into effect in 1992, this proposed notice represents the first triennial overhaul of the GPCIs. The final notice would be published later in 1994, and the values effective January 1, 1995.

In addition, the notice will announce changes that HCFA proposes to make to the physician fee schedule.

Abstract: This rule would amend regulations on provider agreements to clarify the effect a change of ownership has on penalties and sanctions incurred by Medicare providers and suppliers. It would state that all Medicare penalties and sanctions are automatically assigned to a new owner unless otherwise stated in the change of ownership. It would also extend the same principle to overpayments; i.e., we would amend the regulations on provider overpayments to require the new owner of a provider or a supplier to be liable for any Medicare overpayments paid to the previous owner unless otherwise stated in the change of ownership. Finally, we would clarify the effect of a leasing arrangement has on a provider agreement and on supplier approval.

Abstract: This final rule with comment period will formally implement statutory requirements that require Medicare participating hospitals with emergency departments to provide upon request medical examinations and treatments for individuals with emergency medical conditions and women in labor. A participating hospital that has specialized capabilities or facilities (such as burn, shock trauma, or neonatal intensive care units) must accept an appropriate transfer if they have the capacity to treat the individual. Hospitals failing to meet those requirements may have their Medicare provider agreements terminated, and hospitals and responsible physicians may be subject to civil money penalties. Under section

9122 of PL 99-272, Medicare participating hospitals are required to accept CHAMPUS and CHAMPVA payment as payment in full for services provided to CHAMPUS and CHAMPVA beneficiaries. These regulations will also implement section 9305(b) of PL 99-509, which requires Medicare hospitals to give patients a notice of their discharge rights.

Final Rule Stage

Abstract: This final rule will require hospitals, as a condition of participation, to provide a discharge planning process for Medicare patients in accordance with section 9305(c) of PL 99-509. Revisions will also implement section 6025 of PL 101-239 to allow a doctor of dental surgery or dental medicine to be a hospital medical director if the laws of the State in which the hospital is located permit. The preamble to this final rule withdraws proposed regulations for the qualifications of laboratory directors under section 9339(d) of PL 99-509. The information collection burden of several end-stage renal disease regulations is reduced.

Abstract: These regulations will implement sections 9343(c)(1), (c)(2), and (c)(3) of the Omnibus Budget Reconciliation Act of 1986, as amended by section 4157 of the Omnibus Budget Reconciliation Act of 1990. This rule, issued jointly by HCFA and OIG, will prohibit Medicare payment for most nonphysician services furnished to a hospital outpatient by a provider or supplier other than the hospital, unless the services are furnished under an arrangement with the hospital. The hospital will be obligated by its provider agreement to furnish the

services directly or under an arrangement. These regulations also authorize OIG to impose a civil money penalty, not to exceed \$2,000, against any individual who knowingly and willfully presents, or causes to be presented, a bill or request for payment for a hospital outpatient service under Part B of Medicare in violation of an arrangement.

Legal Deadline: Final, Statutory, October 1, 1989.

Abstract: This regulation implements section 1915(d) of the Social Security Act, which allows a State to obtain a waiver of certain Medicaid requirements to permit Federal financial participation for home and community based services provided to individuals age 65 or older who are shown by an evaluation to be likely to require the level of care provided in a skilled nursing facility (SNF), intermediate care facility (ICF), a nursing facility (NF) effective October 1, 1990, the cost for which could be paid by Medicaid. The statute allows for waivers of statewideness, comparability, and income deeming. Under the waiver provisions, the total amount expended by the State for home and community based services, SNF services, and ICF services (NF effective October 1, 1990) for individuals over age 65 may not exceed a "projected amount," determined under the methodology provided in these regulations. For States electing this option the waiver would replace home and community based waivers available under section 1915(c) of the Act, for individuals in this age category.

1339. MEDICARE, MEDICAID, AND CLIA PROGRAMS: REGULATIONS IMPLEMENTING THE CLINICAL LABORATORY IMPROVEMENT AMENDMENTS OF 1988 (CLIA '88) (HSQ-202-F)

Significance: Regulatory Program

Legal Authority: 42 USC 263a

CFR Citation: 42 CFR 493

Legal Deadline: None

Abstract: Historically the Department regulated laboratories by "location," rather than by types of tests they perform. The Clinical Laboratory Improvement Amendments of 1988 (CLIA) changed this approach. CLIA requires that the Department "regulate by test," using what is commonly referred to as the "complexity model." A final rule with comment period was published February 28, 1992, that set forth standards for all laboratories based on complexity and responds to public comments on the proposed standards. The regulation was revised by a rule with comment period published on January 19, 1993, 56 FR 5215. The comment period for this rule ended March 22, 1993. A final rule, which will respond to public comments on the February 28, 1992 rule and the January 19, 1993 rule, will also be issued.

Legal Authority: 42 USC 1395x

CFR Citation: 42 CFR 485; 42 CFR 405; 42 CFR 482

Legal Deadline: Final, Statutory, November 16, 1991.

Abstract: This final rule sets forth changes to the conditions of coverage for organ procurement organizations (OPOs). It deals with the definition of an OPO service area, expansion of the qualifications for the Board of Directors, OPO assistance to be provided to hospitals in establishing and implementing protocols governing organ procurement activity, establishing criteria for allocating organs, and organ testing for AIDS.

1341. PREADMISSION SCREENING AND ANNUAL RESIDENT REVIEW (BPD-661-F)**Significance:** Regulatory Program**Legal Authority:** 42 USC 1395r**CFR Citation:** 42 CFR 483**Legal Deadline:** NPRM, Statutory, March 19, 1990.

Abstract: The final rule with comment period published November 30, 1992, (57 FR 56450) implemented sections 4211 of the Omnibus Budget Reconciliation Act of 1987 (OBRA '87), section 6901 of the Omnibus Budget Reconciliation Act of 1989 and section 4801 of the Omnibus Budget Reconciliation Act of 1990 (OBRA '90). The provisions included: (1) State requirements for preadmission screening and annual resident review of individuals with mental illness or mental retardation who are applicants to or residents of nursing facilities that are certified for Medicaid; and (2) appeals systems for persons who may be transferred or discharged from facilities or who wish to dispute a determination made in the preadmission screening and annual review process. The changes in this rule included OBRA '90 provisions defining "severe mental illness" and "specialized services" which will reduce State review workloads and clarify Medicaid matching payment for the States. Following analysis of the public comments, we may issue a final rulemaking document.

1342. RESIDENT ASSESSMENT IN LONG-TERM CARE FACILITIES (HSQ-180-F)**Legal Authority:** 42 USC 1395i-3; 42 USC 1396r**CFR Citation:** 42 CFR 483**Legal Deadline:** Final, Statutory, January 1, 1989.

Abstract: Sections 1819(b)(3) and 1919(b)(3) of the Social Security Act, as amended by PL 100-203, require skilled nursing facilities in the Medicare program and before October 1, 1990, as nursing facilities in the Medicaid program, to conduct a comprehensive, standardized assessment of each resident's capability to perform daily life functions. The assessment must also describe significant impairments in the resident's functional capacity and be based on a uniform minimum data set specified by the Secretary. Sections 1819(f)(6)(A) and 1919 (f)(6)(A) of the Act require the Secretary to specify a minimum data set of core elements and common definitions for use by nursing facilities in conducting the assessments. This rule would specify this minimum data set and establish guidelines for using it.

Section 6205(b)(2) of PL 101-239 required that a proposed rule be published before July 1, 1990 and that a final rule not be effective before 10/01/90.

Abstract: This rule will set forth our policy for the payment of the costs of approved nursing and allied health science programs, an action directed by section 6205(b)(2) of PL 101-239. For the most part, the provisions set forth in this rule restate or clarify our current policies governing these costs, which have been previously set forth in the provider reimbursement manual and other documents, but have never been included in the regulations. In addition, we are amending the list of approved programs and clarify payment rules for certified registered nurse anesthetist programs. This rule will also implement section 4004 of PL 101-508, which provides that, effective with cost reporting periods beginning on or after October 1, 1990, under certain

Abstract: This rule amends the fire safety standards for hospitals, long term care facilities, and intermediate care facilities for the mentally retarded and affects only those facilities. It deletes references to the 1967 and 1973 editions of the Life Safety Code of the National Fire Protection Association and requires compliance with either the 1981 or 1985 editions depending on the date when the facility was first certified to participate in Medicare or Medicaid. This rule creates a uniform policy for all types of facilities that participate in the Medicare and Medicaid programs. The revision of the 1967 and 1973 editions of the Life Safety Code is intended to ensure that Medicare and Medicaid beneficiaries and recipients have the benefit of the most current fire protection standards.

Legal Deadline: None

Abstract: This final rule with comment period amends the Medicare and Medicaid regulations by removing obsolete long-term care survey forms, guidelines, and procedures used by State agencies when they evaluate a Medicare skilled nursing facility or a Medicaid nursing facility for compliance with Federal certification requirements. Effective October 1, 1990, the application of new Federal participation requirements for these facilities with an increased focus on actual or potential resident outcomes has made the survey forms and process in existing regulations outdated. Retention of the outdated items could cause confusion in connection with directions State survey agencies must follow in determining facility compliance.

Abstract: The final rule with comment period (57 FR 36006) updated the Medicare regulations to add or conform them to certain self-implementing provisions on coverage of services and payment requirements under the Omnibus Budget Reconciliation Act of 1990 (OBRA '90). In some cases, certain self-implementing provisions of the Omnibus Budget Reconciliation Act of 1989 and the Medicare Catastrophic Coverage Repeal Act of 1989 were included so that the OBRA '90 provisions could be accurately reflected in the regulations.

The final rule with comment period removed conflicts between the regulations and the statute, thus preventing possible public confusion. We are publishing this notice following our analysis of the public comments.

Abstract: This rule would incorporate section 4401 of the Omnibus Budget Reconciliation Act of 1990 which concern reimbursement for prescribed drugs. Section 4401 amended title XIX of the Social Security Act to add specific requirements for payment for covered outpatient drugs. In general, the requirements concern: denial of Federal financial participation unless rebate agreements and drug use review are in effect; prohibiting some State plan drug access limitations for drugs covered under a rebate agreement; and the content of the rebate agreements. The drug rebate agreement was previously published in the Federal Register on February 21, 1991 (56 FR 7049). This rule will also reflect statutory revisions mandated by OBRA '93.

Abstract: The final rules will make minor changes in the interim rule, which implemented statutory provisions effective in December, 1991. They will amend the Medicare and

Medicaid regulations governing provider agreements and contracts to establish requirements for States, hospitals, nursing facilities, skilled nursing facilities, providers of home health care or personal care services, hospice programs and prepaid health plans concerning advance directives. An advance directive is a written instruction, such as a living will or durable power of attorney for health care, recognized under State law, relating to the provision of health care when an individual's condition makes him or her unable to express his or her wishes. The intent of these provisions is to enhance an individual's control over medical treatment decisions. These rules implement sections 4206 and 4751 of the Omnibus Budget Reconciliation Act of 1990.

Abstract: This rule provides for Medicare coverage of the drug erythropoietin (EPO) when used at home by ESRD patients who dialyze at home. This makes it more convenient for home dialysis patients, who previously had to go to a dialysis facility or a physician's office to have the drug administered. The rule establishes requirements to ensure that only patients found capable of home use of the drug are approved for it, and that those patients are properly

monitored during home use of the drug. Section 4201(d)(1)(C) of the Omnibus Budget Reconciliation Act of 1990 provides for Medicare coverage of home use of EPO effective July 1, 1991, subject to methods and standards established by the Secretary in regulations for the sale and effective use of the drug. It will also reflect a statutory revision mandated by OBRA '93.

Abstract: This rule modifies Medicare regulations to establish provision for the designation of regional carriers to process claims for durable medical equipment, prosthetics, orthotics, and supplies. These revisions are made under authority provided in sections 1834(a)(12), 1834(h)(3), and 1842(a) of the Social Security Act. We expect more efficient and economical administration of the Medicare program to result.

Abstract: This interim final rule would allow States to choose to provide home and community care for functionally disabled elderly as a State plan option. Rather than imposing a cost-neutrality component, as is the case in home and community based care waiver programs under section 1915 of the Social Security Act, this rule imposes two cost "caps" which are applied independently. One cap prohibits States from spending more than 50 percent of the amount Medicare would pay for certain nursing facility care, the second cap is an aggregate limit on the amount of Federal funding. This rule would implement section 4711 of the Omnibus Budget Reconciliation Act of 1990.

Abstract: This rule would allow States to choose the option of a variation of the spenddown for medically needy individuals. Under the regular spenddown program a medically needy individual becomes eligible for Medicaid by spending down income in excess of the medically needy income standard until the standard is reached. Under the optional program, an applicant could choose to pay an amount equal to their excess income to the State instead of becoming eligible only after incurring expenses. This option was provided by section 4723 of the Omnibus Budget Reconciliation Act of 1990.

Abstract: This rule would amend the regulations governing federally qualified health maintenance organizations (HMOs) and competitive medical plans (CMPs) contracting with the Medicare program, and certain HMOs and health insuring organizations (HIOs) contracting with States under the Medicaid program, by implementing changes made by sections 4204(a) and 4731(a) of the Omnibus Budget Reconciliation Act of 1990 concerning physician incentive plans. The changes are intended to allow HMOs, CMPs, and HIOs the flexibility to provide reasonable financial incentives to their physicians and physician groups in order to eliminate unnecessary care and protect enrollees from reduced quality of care or access to care.

used to evaluate the performance of "fiscal intermediaries" (FIs) and "carriers" in the administration of the Medicare program. ("Intermediaries" and "carriers" are the contractors that process Medicare claims and bills under Part A (Hospital Insurance) and Part B (Supplementary Medical Insurance) of the Medicare program, respectively.) Under the Medicare program the performance of intermediaries and carriers is measured by using a Contractor Performance and Evaluation Program (CPEP) that evaluates activities against established performance criteria and standards. The criteria and standards vary from year to year to reflect shifting program emphases and statutory changes. The revisions will update and remove outdated material from the regulations, which will improve administration of the program.

The purpose of these laws is to improve the oversight and procedures governing the disclosure of personal information used in computer matching programs and to protect the privacy and due process rights of individuals whose records are exchanged. Under these laws, State Medicaid agencies would have to verify all information received from Federal agencies through the income and eligibility verification system unless independent verification requirements are waived under an alternative procedure by the data integrity board of the Federal Agency.

Abstract: This rule revises the Medicare regulations governing the procedures for replacing checks issued by our fiscal intermediaries and carriers that are lost, stolen, defaced, mutilated, destroyed, or paid on forged endorsements. Since States have established legal processes for pursuing claims for check replacement and recovery under these circumstances, it is inefficient to maintain duplicative Federal requirements. Our revised regulations would provide that any replacement or reclamation proceedings will be carried out in accordance with applicable State banking laws. We will continue to reissue only checks that have not been negotiated.

Legal Authority: 42 USC 1395w-4

CFR Citation: 42 CFR 405; 42 CFR 414

Legal Deadline: None

Abstract: The rule will revise the fee list of services under Medicare to be included in the schedule for payment for physicians' services that was effective January 1, 1992, and the payment amounts for those services. The fee schedule was established by Section 5102(a) of the Omnibus Budget Reconciliation Act of 1989, as amended by the Omnibus Budget Reconciliation Act of 1990. It will also include the relative value units used for the payment of physician Medicare services furnished in calendar year 1994. In addition, it will reflect changes mandated by OBRA '93.

ATTESTATION REQUIREMENTS (BPD-

Legal Authority: 42 USC 1395ww

CFR Citation: 42 CFR 412.46(c)

Legal Deadline: None

Abstract: This final rule with comment period will revise the Medicare regulations that require a hospital to obtain on an annual basis, from each physician who has admitting privileges, a signed acknowledgement that the physician understands the penalty for misrepresenting the information on an attestation statement relating to principal and secondary diagnoses and major procedures performed on patients. These regulations will eliminate the requirement for an annual acknowledgement statement and instead require that a physician sign an acknowledgement statement only upon being granted admitting privileges at a hospital. The purpose of this change is to reduce the paperwork burden associated with processing claims under Medicare.

Abstract: This notice announces the Medicare program's intent to withdraw coverage for diagnostic nocturnal tumescence (NPT) testing in the sleep disorder clinic and to exclude coverage for nocturnal penile tumescence testing by plethysmography and other monitoring devices in all settings. 1412. REVISIONS TO AUDIT REGULATIONS AS A RESULT OF THE CHILD SUPPORT PROVISIONS OF THE FAMILY SUPPORT ACT OF 1988
Significance: Agency Priority**Legal Authority:** 42 USC 603(h); 42 USC 604(d); 42 USC 652(a)(1); 42 USC 652(a)(4); 42 USC 1302**CFR Citation:** 45 CFR 301; 45 CFR 305**Legal Deadline:** None

Abstract: This regulation revises existing audit procedures as a result of changes to program regulations to implement the child support provisions of the Family Support Act of 1988. These changes establish timeframes and standards for providing child support enforcement services, and require use of guidelines to establish support orders among other things. Audit regulations are being revised for consistency with new program requirements.

1415. BLOCK GRANT PROGRAMS (LOW-INCOME HOME ENERGY ASSISTANCE PROGRAM—LIHEAP)—FY 93 AND FY 94 PROVISIONS

Legal Authority: 42 USC 8621 et seq

CFR Citation: 45 CFR 96

Legal Deadline: None

Abstract: This notice of proposed rulemaking (NPRM) will amend the HHS block grant regulations to implement changes to the Low Income Home Energy Assistance Program (LIHEAP) statute which were made by the Augustus F. Hawkins Services Reauthorization Act (HRSA) of 1990 (Pub. L. 101-501) and language in the fiscal year 1993 appropriations statute (Pub. L. 102-394) that will affect grantee administration of the LIHEAP program in fiscal years 1993 and 1994. The major changes effective FY 93 and FY 94 are: -- Providing funding for the LIHEAP program on a new program year basis of July 1 - June 30 (forward funding) -- Ending of authority to transfer LIHEAP funds to other block grant programs. This NPRM also contains proposed requirements for an application completion date in order for Indian tribes and tribal organizations to receive Community Service Block Grant program. Finally, this NPRM, includes certain submission and completion dates for States and Territories applying for Community Services, Social Services and LIHEAP block grant funds to cover requirements under the Cash Management Improvement Act of 1990, P.L. 101-453.

Significance: Agency Priority

Legal Authority: 42 USC 1302

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: The Administration for Children and Families will amend existing regulations which govern the administration of child care programs under Title IV-A of the Social Security Act (AFDC Child Care, Transitional Child Care, At-Risk Child Care) and the Child Care and Development Block Grant. Based on recent legislative changes, as well as comments from state and tribal program administrators, child care advocates and other interested parties, we are examining a number of specific regulatory provisions. The purpose of this regulatory package will be to implement legislative changes, reduce program differences, and promote better program coordination. We do not expect these changes to result in significant program costs; administrative savings may result.

Abstract: This final rule, which implements section 20 of the Child Support Enforcement Amendments of 1984 (Pub. L. 98-378), specifies that in any case where the collection or increased collection of support under title IV-D of the Social Security Act contributes in whole or part to a family's ineligibility for AFDC, the family is deemed, but only for the purpose of Medicaid eligibility, to be receiving AFDC for a period of four calendar months after the last month of AFDC eligibility. This applies only to families who receive AFDC in three of the six months immediately preceding the month of ineligibility. "Received" includes those individuals denied an AFDC payment solely because of a payment under \$10, the recoupment of an overpayment, or because the payment is determined to be zero as a result of rounding.

1430. TECHNICAL CHANGES TO THE AFDC PROGRAM AS REQUIRED BY OBRA 90**Legal Authority:** 42 USC 602**CFR Citation:** 45 CFR 205; 45 CFR 233**Legal Deadline:** None

Abstract: These interim final rules implement three minor changes to the AFDC program as required by the new statutory provisions in sections 5053, 5054, and 5055 of OBRA 90. They would eliminate deeming of income from legal guardians in minor parent cases, expand State agency responsibility for reporting child abuse and neglect, and authorize disclosure of information about AFDC cases to title IV-E programs.

1431. BLOCK GRANT PROGRAMS (LOW-INCOME HOME ENERGY ASSISTANCE PROGRAM—LIHEAP) FY 91 AND FY 92 PROVISIONS**Legal Authority:** 42 USC 8621 et seq**CFR Citation:** 45 CFR 96**Legal Deadline:** None

Abstract: This final rule amends the Department's regulations governing the administration of block grant programs; this rule applies to the Low-Income Home Energy Assistance Program (LIHEAP). The rule implements changes to the LIHEAP statute which were made by the Augustus F. Hawkins Human Services Reauthorization Act of 1990 (Pub. L. 101-501) and which affect grantee administration of the LIHEAP program in fiscal years 1991 and 1992. These changes involve the Department's response to formal complaints, a reduction in the percent of LIHEAP funds that grantees may carry forward from one fiscal year to the next, waiver authority to increase the percent of LIHEAP funds that grantees may use for weatherization from 15% to 25%, a requirement for additional outreach and intake service

under certain circumstances, and new leveraging incentive program. This final rule also implements a change regarding conditions for reallocation of LIHEAP funds.

Abstract: This regulation would remove any reference to a specified eligibility period for the RCA/RMA program and would establish a procedure whereby the Director of ORR could determine the RCA/RMA eligibility period for a given fiscal year based on the appropriation level for RCA/RMA for the fiscal year, and then notify States of the eligibility period through a letter of notification to States without the delay of a time-consuming regulatory clearance.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

24 CFR Subtitles A and B

[Docket No. N-93-3662; FR-3570-N-01]

Semiannual Agenda of Regulations

AGENCY: Department of Housing and Urban Development.

ACTION: Semiannual agenda, under Executive Order 12291 and the Regulatory Flexibility Act, of regulations expected to be issued and under review.

SUMMARY: In accordance with section 5 of Executive Order 12291 "Federal Regulation," the Department is publishing its agenda of proposed regulations already issued or expected to be issued and of currently effective rules that are under review. Also, under section 602 of the Regulatory Flexibility Act, the Department has prepared a regulatory flexibility agenda of regulations expected to be proposed or promulgated, which are likely to have a significant economic impact on a substantial number of small entities. As permitted by Executive Order 12291 and the Regulatory Flexibility Act, the two agendas are combined for publication.

FOR FURTHER INFORMATION CONTACT: Myra L. Ransick, Assistant General Counsel for Regulations, Department of Housing and Urban Development, Room 10276, 451 Seventh Street SW., Washington, DC 20410, (202) 708-3055. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation," issued on February 17, 1981 (46 FR 13193), requires each agency to publish semiannually an agenda of regulations that the agency has issued or expects to issue and of currently effective regulations that are under agency review.

The Regulatory Flexibility Act, 5 U.S.C. 601-612, requires each agency to publish semiannually a regulatory

flexibility agenda of rules expected to be proposed or promulgated, which are likely to have a significant economic impact on a substantial number of "small entities," meaning small businesses, small organizations, or small governmental jurisdictions.

Executive Order 12291 and section 605 of the Regulatory Flexibility Act each permits incorporation of the agenda required with any other prescribed agenda. Accordingly, the agenda set out below combines the information required by the Executive order and by the Regulatory Flexibility Act. In addition, the agenda contains certain information not required by either the Executive order or by the Act which the Department considers useful, both better to inform the public and to enhance the Department's own inventory control over its body of regulations.

For purposes of Executive Order 12291, "regulation" or "rule" is defined as "an agency statement of general applicability and future effect designed to implement, interpret, or prescribe law or policy or describing the procedure or practice requirements of an agency" subject to certain exceptions. The agenda published below concentrates upon regulatory material contained or expected to be contained in the Code of Federal Regulations (CFR) (or incorporated therein by reference) following publication in the *Federal Register*. As appropriate, however, issuances in the nature of general statements of policy may be published in the *Federal Register* but not for coordination in the CFR.

The Department also is subject to certain requirements involving congressional review of rulemaking action, including publication of an agenda. Section 7(o) of the Department of Housing and Urban Development Act (42 U.S.C. 3535(o)) requires that the Secretary transmit to the congressional committees having jurisdictional oversight (the Senate Committee on Banking, Housing and Urban Affairs and

the House Committee on Banking, Finance and Urban Affairs) a semiannual agenda of all rules or regulations which are under development or review by the Department. A rule appearing on the agenda cannot be published for comment before or during the first 15 calendar days after transmittal of the agenda. If, within that period, either committee notifies the Secretary that it intends to review any rule or regulation which appears on the agenda, the Secretary must submit to both committees a copy of the rule or regulation, in the form it is intended to be proposed, at least 15 calendar days before it is published for comment. The semiannual agenda published today is the agenda transmitted to the committees in compliance with the foregoing requirement.

The agenda items are divided first by program office. Within each program office, the agenda items are divided into four groups: (i) Prerulemaking actions, (ii) publication or other implementations of notices of proposed rulemaking, (iii) publications or other implementations of final rules, and (iv) completed actions. Within each grouping, rules are listed in chronological order by the part number of the CFR affected. Where a rule affects multiple parts of the CFR, the rule is listed by the first affected part number. Priority rules include all regulations designated for priority development by the Department.

Items listed in this agenda are from the following offices within the Department: Office of the Secretary; Office of Housing; Office of Public and Indian Housing; Office of Community Planning and Development; Office of Fair Housing and Equal Opportunity; Government National Mortgage Association; and Office of Administration.

Dated: August 17, 1993.

Nelson A. Diaz,
General Counsel.

Office of the Secretary (HUDSEC)**

Proposed Rule Stage

1442. NONDISCRIMINATION IN PROGRAMS AND ACTIVITIES RECEIVING ASSISTANCE UNDER TITLE I OF THE HCD ACT OF 1974 (FR-3079)

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 6

Legal Deadline: None

Abstract: This proposed rule would create a new part 6 which would implement section 109 of Title I of the Housing and Community Development Act of 1974. Section 109 requires that no person in the United States shall, on the ground of race, color, national origin, religion or sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program activity funded in whole or in part with community development funds. The

rule will set forth the procedures and policies to assure nondiscrimination under section 109 in programs and activities receiving assistance from HUD under Title I of the HCD Act of 1974.

1443. STANDARDS OF CONDUCT (FR-3331)

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 10

Legal Deadline: None

Abstract: This rule would be based on the Office of Government Ethics' Standards of Ethical Conduct for Employees of the Executive Branch. (To be published at 5 CFR part 2635.) The rule would establish standards relating to the receipt of gifts, whether from prohibited sources, because of official position, or between employees. The rule would also restrict certain financial holdings and outside activities, and set standards regarding the use of official position and time, Government property, and nonpublic information.

Legal Authority: 5 USC 552a; 42 USC 3535(d)

CFR Citation: 24 CFR 16.15

Legal Deadline: None

Abstract: This rule would create exemptions from disclosure requirements for a new system of records entitled "Tenant Eligibility Verification Files." The records referenced in the new system previously were included in the investigative files of the Office of the Inspector General. The Assistant Secretary for Public and Indian Housing will be adding records to the new system based on computer matching results and verification of those results with tenant case files and records supplied by Federal agencies and private employers.

CFR Citation: 24 CFR 24

Legal Deadline: None

Abstract: This proposed rule would amend existing 24 CFR 24.305, a part

of the HUD Debarment Regulation. A recent United States District Court decision, involving an appeal of a debarment action taken by the Department, has greatly reduced the effectiveness of Section 24.305(d). The purpose of this rule is to correct the effect of the District Court's decision, and to clarify the Department's established and unchanged policy regarding causes for debarment.

Abstract: This rule would consolidate the specific requirements for implementing a Residential Antidisplacement and Relocation Assistance Plan (sec. 104(d) of the Housing and Community Development of 1974) under the HOME, CDBG, and UDAG programs. By consolidating the requirements in a new part, the Department will ensure consistency in the terminology and applicability of the requirements among the affected programs. This rule will make it easier for participating jurisdictions in the HOME program to implement the requirements of section 220(b)(1) of the Housing and Community Development Act of 1992.

Abstract: This rule proposes to address the new HUD Secretary's interpretation of HUD's mission, namely "helping people create communities of opportunity" by promoting good design, public amenities, and quality environments within HUD's process of environmental review and decisionmaking. The rule will take account of legislative changes to the authorizations for established programs. It will include any changes as may be required under new authorizations, including those programs of the National Affordable Housing Act of 1990 for which HUD retains environmental review responsibility. In addition, the rule will clarify existing provisions based on HUD experience with those rules; reduce regulatory burdens and procedural details consistent with environmental laws and other authorities; and assure policy consistency with Part 58 on matters common to both rules.

Abstract: This rule proposes to revise existing environmental procedures that implement the statutory provisions providing for the assumption by program recipients of responsibilities for environmental review, decision making and action pursuant to the National Environmental Policy Act of 1969, as amended (NEPA), and other related provisions of law specified by the Secretary of HUD. The rule will take account of legislative changes to

the authorizations for established programs and will clarify existing provisions. It will reduce regulatory burdens and procedural details consistent with environmental laws and authorities, and assure policy consistency with Part 50 on matters common to both rules. This rule proposes also to address the new HUD Secretary's interpretation of HUD's mission, namely "helping people create communities of opportunity" by promoting good design, public amenities, and quality environments within the recipient's process of environmental review and decision making under this part.

Significance: Agency Priority

Legal Authority: 12 USC 1451; 12 USC 4589

CFR Citation: 24 CFR 81

Legal Deadline: Final, Statutory, April 28, 1994.

Abstract: This rule is needed to revise HUD's present regulations concerning the Secretary's authority over the Federal National Mortgage Association (FNMA) and the Federal Home Loan Mortgage Corporation (FHLMC) because of the enactment of the Federal Housing Enterprises Financial Safety and Soundness Act of 1992 ("the New Act"), Title XIII of the Housing and Community Development Act of 1992. Under the New Act, the Secretary has new specific statutory duties concerning: new program approval; fair housing; establishing goals for mortgage purchases of low- and moderate-income housing, special affordable housing, and underserved areas; FOIA procedures, reporting and all other regulations needed to ensure that purposes of the New Act, the FNMA Charter Act, and the FHLMC Act are accomplished. The New Act confers authority on an independent Director to ensure the financial safety and soundness of the enterprises which necessitates modifications to the Secretary's regulations as well as regulations implementing the Director's responsibilities.

Abstract: Section 3 of the Housing and Urban Development Act of 1968, as amended by the Housing and Community Development Act of 1992, requires that economic opportunities generated by HUD financial assistance shall, to the greatest extent feasible, be given to low- and very low-income persons. HUD is publishing, under separate rulemaking, a rule that would make comprehensive amendments to HUD's section 3 regulations in 24 CFR part 135 to bring these regulations into conformity with the changes made by the 1992 Act. This rule would make conforming amendments to several parts in 24 CFR that include reference, or should include reference, to the part 135 regulations.

Legal Deadline: Final, Statutory, April 26, 1993.

Abstract: This rule implements changes made by the Housing and

Community Development Act of 1992 and the National Affordable Housing Act in the way the Federal preferences are applied in several project-based assisted housing programs. The revised statute provides that the Federal preferences for assisting families that occupy substandard housing, who pay more than 50% of income for rent, or who are involuntarily displaced, apply not to admission to all the units during a one-year period but to at least 50% of the public housing units and at least 70% of units in Indian housing and project-based programs. Preference in admission with respect to the remaining units is to be given to applicants who qualify for a local preference. The local preferences are to be adopted by a housing authority to respond to local housing needs and priorities after a public hearing. The rule also prohibits individuals evicted from housing under the U.S. Housing Act because of drug-related criminal activity from having a Federal or local preference for three years.

Abstract: This rule would make the repayment of disallowed costs, as determined under the Departmental Audits Management System, a threshold requirement to be met in all of HUD's Discretionary Assistance Programs.

As such, this rule would provide an additional important tool for the Department to collect moneys

expended for ineligible purposes under HUD programs. This is particularly true with respect to State and local governments, which are not subject to administrative offset under the Federal Claims Collection Act.

There is no administrative or programmatic cost under the proposal. The potential for recovering disallowed costs, by establishing such a precondition for discretionary program assistance, lies in the millions of dollars.

Abstract: This rule adopts procedures to implement Executive Order 11988, Floodplain Management, and Executive Order 11990, Protection of Wetlands. These procedures provide direction for compliance for all HUD programs (except those explicitly excluded) with the Executive Orders by HUD or by certain State and local grant recipients before their respective decisions to approve a proposed action that (1) involves HUD financial assistance and (2) would affect a floodplain or wetland. The rule is designed as a balanced rule and implements the Executive Orders while cutting costs and review time for HUD-related housing and other actions by reducing or eliminating processing steps where appropriate. In addition to the implementation procedures, HUD is revising 24 CFR 200.926d(c)(4) of the Department's Minimum Property Standards for One-and-Two Family Dwellings to accord with Executive Order 11988 WRC Guidelines, FEMA regulations for the National Flood Insurance Program, and current HUD mortgage underwriting practices. HUD environmental review regulations at 24 CFR Parts 50 and 58 are also being revised to refer to the decisionmaking process under this rule. (cont)

Abstract: This rule will require regulations under the CDBG, PIH, Section 8 lower-income housing, and Section 202 elderly and handicapped housing programs to implement Section 955 of the Cranston-Gonzalez National Affordable Housing Act, which exempts volunteer workers from the Davis-Bacon or HUD-determined prevailing wage requirements under these programs. The provision eliminates the necessity for a HUD waiver to allow volunteers under the Section 202 program, and under the other programs cited.

Abstract: This rule implements the HOME Investment Partnership Act, as enacted by Title II of the Cranston-Gonzalez National Affordable Housing Act. This program among other purposes is intended to expand the supply of decent, safe, and sanitary affordable housing. Under the HOME Program, HUD provides formula allocations to participating jurisdictions to be used for specified eligible housing uses in accordance with the jurisdiction's approved comprehensive

housing affordability strategies. A portion of these allocations may be used for investment in housing developed, sponsored, or owned by community housing development organizations. HUD may also provide technical assistance to develop the capacity of participating jurisdictions and will develop model programs designed to carry out the purposes of the Act.

Legal Deadline: None

Abstract: This rule will implement section 214 of the Housing and Community Development Act of 1980, as amended in 1981, 1986, and 1988. That Act prohibits the Secretary from providing financial assistance to substantially all illegal aliens as well as to most classes of aliens admitted for temporary purposes. The restriction applies to the Public and Indian Housing programs, the Section 8 Housing Assistance Payments programs, the Rent Supplement program, the Section 236 program, and the Section 235 homeownership assistance program.

This new rule will provide that alien status must be verified with the Immigration and Naturalization Service by the entity responsible for tenant selection (or for approval of a Section 235 mortgage application).

Abstract: This rule implements part of section 106(a) of the Fire Administration Authorization Act of 1992, which prohibits use of housing assistance unless specific fire safety requirements have been implemented. The FHA single family mortgage insurance programs and the homeownership assistance program under section 235 of NHA are explicitly exempted from these fire safety requirements. Newly constructed multifamily properties receiving housing assistance must be protected by an automatic sprinkler system and hard-wired smoke detectors. Rebuilt (substantially rehabilitated) multifamily properties must comply with the fire safety requirements of the chapter on existing apartment buildings of National Fire Protection Association Standard 101. All other units receiving housing assistance must be protected by hard-wired or battery operated smoke detectors.

Abstract: Section 802 of the Cranston-Gonzalez National Affordable Housing Act establishes a revised congregate housing services program which supersedes the Congregate Housing Services Program under the Congregate Housing Services Act of 1978. The new statutory provisions authorize provision of supportive services to enable frail elderly persons and persons with disabilities to live independently and also the provision of assistance for the retrofitting of dwelling units and common space to meet the special physical needs of residents. HUD and the Department of Agriculture are directed by Section 802(m) to jointly issue any necessary regulations within 180 days after enactment. No funds were appropriated for this program for FY 1991.

Abstract: This rule would amend HUD's regulations governing the location of assisted housing projects (site and neighborhood standards) to establish a quantitative standard by which HUD determines whether the location contains an undue concentration (high proportion) of poverty-level population. The existing regulations do not specify how an undue concentration determination will be made. The rule would require projects to be located only in census tracts in which the percentage of people with incomes below the poverty level is less than a stated, fixed percentage, with certain exceptions. The purpose of this rule is to provide for a more objective standard for determining undue concentration of lower-income households.

Abstract: The provisions of this regulation ease the rent burden for working families and provide needed incentives for residents to improve their economic situations. These provisions assist families who are making the transition from welfare to gainful employment and encourage higher income working families (who are candidates for homeownership) to remain in public housing. This regulation removes several of the structural disincentives that exist in current regulations, encourages families

to become more self-sufficient and fosters long-term upward mobility.

This regulation includes implementation of: ceiling rents; an exclusion from income of benefits received to families participating in a job training program; an exclusion for deferred periodic payments of supplemental security income and social security benefits that are received in a lump sum and several HUD discretionary income exclusions.

This regulation implements:

Abstract: This rule would codify the Department's policies and procedures with regard to HUD and PHA responsibilities concerning HUD-determined prevailing wage rates for maintenance, nonroutine maintenance and technical workers under section 12(a) of the U.S. Housing Act of 1937, as amended. The rule establishes procedures for determining maintenance wage rates as prevailing based on collective bargaining agreements or other compensation-setting methods, and for adopting State- or locally-determined prevailing wage schedules. Additionally, the rule provides a procedure for the setting of technical wage rates as well as wage rates for special employment programs, and apprentices and trainees.

Proposed Rule Stage

1496. PRE-FORECLOSURE SALE OPTION (FR-2682)

Legal Authority: 12 USC 1710

CFR Citation: Not yet determined

Legal Deadline: None

Abstract: Section 1064 of the Stewart B. McKinney Homeless Assistance Amendments Act of 1988 authorizes HUD to add pre-foreclosure sales to its roster of servicing options, as a means of saving the Department money and of assisting qualified mortgagors to avoid foreclosure of their FHA-insured mortgages. The Department is now able to pay a claim to a mortgagee to "bridge the gap" between the proceeds of a sale of the property to a third party buyer at current fair market value, and the original owner's indebtedness under the note. Until the Department received the authorization to pay these claims, such pre-foreclosure sales (or "short sales," as they are also known) were impracticable. At this time, a six to twelve month demonstration of pre-foreclosure sales is being conducted in five local HUD offices; subsequently, full implementing regulations will be issued to introduce the pre-foreclosure sale option throughout the Department.

Abstract: Section 643 requires HUD to convene a Task Force to study occupancy policies for federally assisted housing and issue recommendations to revise such standards, regulations, and administrative guidelines. Once new guidelines are established through this process, sections 641 and 642 mandate compliance by owners as condition of Federal assistance and compliance with criteria for occupancy as requirement for tenancy.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 100.325

Legal Deadline: NPRM, Statutory, April 28, 1993.

Abstract: The Fair Housing Act of 1988, 42 USC sections 3601-19, prohibits discrimination on the basis of familial status. The Act does, however, exempt "housing for older persons" from its prohibition of discrimination based on familial status. 42 USC section 3607(b)(1). Three types of housing are defined as exempt under

the Act, including housing that is intended and operated for the occupancy of at least one person per unit who is age 55 years or older, 42 USC section 3607(b) (2)(C); 24 CFR section 100.304.

To establish that housing is exempt housing for persons age 55 or older, housing providers must demonstrate (as one means among others) that at the time they discriminate against families with children under the age of eighteen, the housing had significant facilities and services specifically designed to meet the physical or social needs of older persons. In accordance with section 903 of the Housing and Community Development Act of 1992, this rule will provide further definition of the term "significant facilities and services."

Legal Deadline: None

Abstract: Currently, section 203.402(g) authorizes mortgagees to be reimbursed 100% for all allowable expenses made for preservation and protection of properties until conveyance to HUD. There is little incentive for mortgagees to keep costs down. HUD has experienced problems with mortgagees exceeding established limits without approval and submitting claims for inappropriate expenditures. Placing a two-thirds cap on reimbursements will provide a financial incentive for the mortgagees to cooperate in reducing expenses. 24 CFR 203.402(g) would be changed to reflect a two-thirds reimbursement limitation.

Tighter internal controls within a mortgagee's own operation ideally would improve due to the sharing of expenses and this would decrease demands on HUD's insurance funds.

Legal Authority: 42 USC 3535(d); 12 USC 1715(b)

CFR Citation: 24 CFR 204

Legal Deadline: None

Abstract: This rule would terminate the section 244 Single-Family Coinsurance Program. The program is neither cost effective for the Department to continue, nor will its termination result in reduction of avenues to mortgage credit for first-time and low- and moderate-income homebuyers. Its elimination would free up staff resources for more productive tasks without adversely affecting the homebuying clientele the Department is mandated to serve.

The Department endorses approximately 150 coinsured single-family mortgages per month. The combined volume for FYs 1990, 1991, and the first five months of 1992 was only about 4300 loans nationwide with the bulk coming from one lender doing business in Illinois. The remainder of coinsured loans (less than 40% of total coinsurance volume from four additional lenders) were from New York and Texas.

Abstract: Section 8(c)(2)(B) of the United States Housing Act of 1937 permits HUD to adjust contract rents covering Section 8 assisted units to reflect increases in certain specified costs of owning and maintaining. Section 542 of the Cranston-Gonzalez National Affordable Housing Act amended Section 8 (c)(2) to provide the Secretary with the authority (subject to the availability of appropriations) to provide for rent adjustments where a project's operating, maintenance, and capital repair expenses have been substantially increased primarily as a result of the prevalence of drug-related activity. This section limits the rent adjustments to a level no greater than 120% of the project rents, to cover the costs of maintenance, security, capital repairs and reserves required for the owner to carry out a strategy acceptable to the Secretary for addressing the problem of drug-related criminal activity.

This proposed rule would implement the provisions of Section 542.

Abstract: HUD solicited public
comments on certain changes to the
structure of the monitoring program
used to enforce the manufactured
housing construction and safety
standards required by Manufactured

Housing Construction and Safety
Standards Act of 1974. HUD proposed
alternative regulatory structures which
would change the current third party
design and inspection program and
system of monitoring and enforcement.
These alternative monitoring
procedures will provide a more
efficient and effective regulatory
enforcement program which will assure
protection of the consumers, while
lessening the burden on the
manufactured housing industry. The
final rule will propose revisions.

Abstract: The Housing and Community

to develop a new standard for
hardboard siding taking into account
durability, longevity, and consumer's
costs for maintenance. This mandate
also requires the Department to consult
with the National Commission on
Manufactured Housing and the
National Manufactured Home Advisory

performance standard developed to
ensure the durability of hardboard
siding for at least the normal life of

a mortgage with minimum

1523. CHANGES TO THE MINIMUM PROPERTY STANDARDS (FR-2599)

Significance: Regulatory Program

Legal Authority: 12 USC 1701 to 1715z-18

CFR Citation: 24 CFR 200

Legal Deadline: None

Abstract: The major component of this revision is the adoption of the Model Energy Code (MEC). Section 101 of the Energy Policy Act of 1992 states that if HUD does not issue a final rule adopting the MEC by October 24, 1993, then the MEC and the American Society of Heating, Refrigerating and Air Conditioning Engineers (ASHRAE) standards 90.1-1989 shall go into immediate effect. This rule would amend 24 CFR Part 200 by (1) referencing the latest editions of private sector standards presently in the MPS; (2) standardizing requirements to control termites and wood decay; (3) revising the time for periodic changes to the MPS; and (4) making technical changes to section 100-1.2 and 100-1.3 Housing for the Elderly and Requirements for Accessibility to Physically Handicapped People in HUD Handbook 4910.1.

Abstract: This rule would adopt Use of Materials Bulletins (UM) No. 101 Exterior Finish and Insulation Systems, which is a new UM. This new UM would reference related national voluntary consensus standards. In accordance with 24 CFR 200.935, this UM would also provide a labeling and third party certification program to meet the appropriate national voluntary consensus standards. In addition, it provides for a third party inspection at the job site. The rule would also supplement the HUD Building Product Standards and Certification Program by requiring that additional information be included on the label, tag, or mark that each manufacturer would affix to a certified product. It would also specify the frequency with which products must be tested in order to be acceptable to HUD. Finally it requires an inspection report regarding installation.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 207

Legal Deadline: None

Abstract: Current regulations require a mortgagee to furnish a survey and a policy of title insurance or its equivalent as a prerequisite to the closing of an insured multifamily housing loan. If a mortgagee subsequently chooses to exercise its right to assign a mortgage to HUD, it must submit an owner's title policy in favor of HUD that is effective on the date that the project is conveyed to the Secretary. This rule would amend HUD regulations deleting the phrase "it will become an owner's policy running to the mortgagee or the Secretary as the case may be," and substituting "it will continue to provide the same coverage as the original policy, and will run to the mortgagee or the Secretary, as the case may be." This will allow HUD to decide on a case-by-case basis to either purchase an owner's policy at its own expense, or self-insure the time period between assignment and foreclosure.

Abstract: Section 223(a)(7) of the National Housing Act authorizes the Department to insure mortgages given to refinance existing HUD-insured mortgages under the Act. Current regulations provide that refinanced loans may not exceed 90% of the Federal Housing Commissioner's estimate of value. This limitation has prevented some insured projects that have sufficient net income to cover the new debt service from refinancing at lower rates and improving their financial condition. Because refinanced loans are already limited by statute, deletion of the 90 percent-of-value criterion would help to prevent defaults and claims against the Department's Insurance Funds.

Legal Authority: 42 USC 3435(d); 12 USC 1715(b)

CFR Citation: 24 CFR 280

Legal Deadline: None

Abstract: The Nehemiah Housing Opportunity Grants Program authorizes HUD to make grants to nonprofit organizations to enable them to provide loans to families purchasing homes that are constructed or substantially rehabilitated in accordance with a HUD-approved program. The loans to the family; May not exceed \$15,000; bear no interest; are secured by a second mortgage held by the Secretary; and are repayable to the Secretary upon the sale, lease or transfer of the property.

Section 183 of the Housing and Community Development Act of 1992 provides for a distribution schedule (between the Secretary and homeowner) for any proceeds from the sale or transfer of a Nehemiah home

that remain after repaying the first mortgage. This rule implements section 183.

1550. UPDATE TO THE MANUFACTURED HOME CONSTRUCTION AND SAFETY STANDARDS (HUD CODE) (FR-2622)

Legal Authority: 42 USC 5401

CFR Citation: 24 CFR 3280

Legal Deadline: None

Abstract: This rule updates and amends various subparts of part 3280 to reflect recommendations from industry, the Council of American Building Officials Manufactured Home Committee, and the Department's staff. These recommendations were received prior to March 1, 1990. Reference standards would also be updated. In addition, the rule implements the Manufactured Energy Conservation Standards in section 586 of the 1987 Housing and Community Development (HCD) Act.

Section 104(c) of the Energy Policy Act of 1992 states that if HUD does not issue a final rule implementing section 568 of the 1987 HCD Act by October 24, 1993, then the States may establish thermal insulation and energy

efficiency standards for manufactured housing located in their jurisdictions that are at least as stringent as those contained in the Second Public Review draft of BSR/ASHRAE 90.2P entitled "Energy Efficient Design of Low-Rise Residential Buildings."

Abstract: This proposed rule would amend the regulations governing the CDBG grant program to require compliance with the structural accessibility standards promulgated under the Architectural Barriers Act of 1966 (ABA). The proposed rule, through amendments to 24 CFR parts 570 and 571 (the CDBG regulations), would provide that any building or facility designed, constructed or altered with grants made available under the CDBG Program, and which meets the ABA's definition of "building" is subject to the requirements of the ABA. The requirements of the ABA would apply to entitlement grants and nonentitlement grants under the CDBG Program, the Indian CDBG Program, and to the section 108 Loan Guarantee Program. The purpose of the rule is to bring the CDBG Program into compliance with the requirements of the ABA.

Legal Authority: 42 USC 3535(d)

CFR Citation: 24 CFR 570.200; 24 CFR 570.203

Legal Deadline: None

Abstract: Section 804 of the 1992 Act authorizes HUD to exempt from program rules any income that is so small that HUD determines it would

not be worth the administrative costs of assuring compliance. HUD will propose rules and get comments before establishing the amount of income for this purpose.

Section 806(e) of the 1992 Act allows grantees to assume that a person is low/moderate income for certain purposes if the person resides in a census tract that meets the Federal Enterprise Zone criteria. HUD will publish proposed criteria and get comments before establishing the criteria that will be used for this purpose.

Section 807(a) establishes a new eligibility category for the funding of certain services needed to carry out housing activities that are eligible under the CDBG or HOME programs. This provision also states that such costs are to be subject to any ceilings established by law on administrative expenses. Since many of these costs have, by regulation, been deemed for years to be eligible under the CDBG program without this new provision and are not subject to the statutory cap on CDBG (cont)

HUD intends to propose rules that will govern which expenses and which housing units may be assisted under this authority.

Legal Authority: PL 100-242, Sec 101; 42 USC 5300 to 5320

CFR Citation: 24 CFR 570.202

Abstract: A recent IG audit finding involving a sample of CDBG grantees revealed that general improvements were being undertaken in CDBG-assisted rehabilitation properties while leaving health and safety violations uncorrected. As a result of this finding, CDBG regulations need to be amended to incorporate a provision that would require the correction of all health and safety violations in CDBG-assisted rehabilitated properties before any general improvements to these properties can be undertaken. The proposed rule will also include an exception that will allow properties with uncorrected health and safety violations to still take part in rehabilitation programs that grantees have established to expressly address significant community housing needs,

such as energy conservation through weatherization programs and improving the exterior appearance of deteriorating buildings through painting programs. Moreover, the proposed rule will make clear that grantees will still have the flexibility to continue to provide funding for the general improvement of properties that are free and clear of health and safety violations.

Significance: Agency Priority

Legal Authority: 12 USC 1721(g); 12 USC 1723a(a)

CFR Citation: 24 CFR 390.3; 24 CFR 300; 24 CFR 310

Legal Deadline: None

Abstract: This rule would revise GNMA's standards for issuer approval by amending current net worth requirements and implementing new integrity requirements that would more accurately reflect an issuer's ability to participate in the GNMA mortgage-backed securities program. The proposal would also allow the acceptance of FHLMC approval in lieu of FNMA approval in GNMA's issuer application process.

Legal Authority: 42 USC 3601
CFR Citation: 24 CFR 151
Legal Deadline: None

Abstract: The Department intends to publish an Advance Notice of Proposed Rulemaking with several suggestions on defining the term "area of minority concentration" (AMC). Through work of a Departmental Task Force on this subject, the Department has identified a numerical formula as one way to define the term. However, the

Department wants to solicit additional views from the public. The advance rulemaking approach will provide an opportunity to the public to express their views on how the term should be defined. The Department intends to publish a proposed rule defining the term and will indicate that this definition will be applicable for all of its housing and community development programs. Additionally, the Department intends to coordinate the development of the AMC proposed rule with the development of a final rule regarding affirmatively furthering fair housing.

CFR Citation: 24 CFR 91.15(l); 24 CFR 570.904(c); 24 CFR 91.20(l)
Legal Deadline: None

Abstract: This regulation will provide guidance on the minimum content of State and local efforts to satisfy the CHAS certification to Affirmatively Further Fair Housing. The rule will make mandatory the "Analysis of Impediments to Fair Housing Choice" currently described in 24 CFR 570.904(c) (the Entitlement Block Grant regulation) for all jurisdictions submitting a CHAS, will describe the components of such an Analysis, and will provide guidance on the types of actions HUD deems acceptable. It will also codify the definition of "areas of minority concentration" used by HUD

in accordance with a longstanding HUD Office of Housing issuance.

Abstract: This rule would implement section 113 of the Housing and Community Development Act of 1992. The rule would implement statutory provisions for the solicitation of competitive proposals from public housing agencies and private entities with experience in construction management in the eventuality that such agencies may be needed to oversee the implementation of assistance; allow residents of a troubled public housing agency to petition the Secretary in writing to take action in remedying the situation; and provide procedures for the assessment of resident management corporations.

CFR Citation: 24 CFR 945; 24 CFR 960

Legal Deadline: NPRM, Statutory, January 28, 1993. NPRM, Judicial, May 28, 1993.

Abstract: This rule would amend title 24 CFR to create a new part 945, which would implement section 622(a) of the Housing and Community Development Act of 1992. Section 622(a) authorizes public housing agencies to design public housing developments or portions of public housing development for occupancy solely by (1) elderly families; (2) disabled families; or (3) elderly and disabled families. This rule also would make certain conforming amendments to 24 CFR Part 960, subpart D (which pertains to preference for elderly families and discretionary preference for near elderly families in public housing projects for the elderly) to reference the new program, and to reflect the new terminology introduced by section 622(a).

Abstract: This rule established the Public Housing Management Assessment Program (PHMAP) in accordance with Section 502 of the National Affordable Housing Act of 1990 (approved Nov. 28, 1990, PL 101-625, 104 Stat. 4079). Section 502 requires HUD to assess the management performance of Public Housing Agencies (PHAs) in all major areas of management operations and designation of troubled and mod-troubled PHAs. PHMAP uses a maximum of 12 indicators, including seven specifically mandated by the statute and five other indicators deemed appropriate by HUD. A PHA designated troubled or mod-troubled is required to enter into a memorandum of agreement (MOA) with HUD that sets

forth targets, strategies, incentives and sanctions for approving its management performance. In the event of a substantial default on an agreement, HUD may petition the appropriate State or Federal court of venue for the appointment of a receiver or make other management changes for the troubled PHA. HUD is also authorized to commend exemplary PHAs.

PHMAP is intended to foster a uniform, nationwide level of excellence in public housing.

CFR Citation: 24 CFR 905.210; 24 CFR 905.720

Abstract: This rule will implement section 122(a) of the Housing and Community Development Act of 1992 by exempting Assisted Housing for Indian and Alaskan Natives for the requirements of section 6(h) of the United States Housing Act, which required housing agencies to develop housing by the new construction method only if acquisition or acquisition with rehabilitation could be demonstrated to be more costly. Since section 905.210 also contains the preference for construction for large families which no longer is required by statute, the entire section is being removed.

This rule would also implement section 122(c) of the Housing and Community Development Act of 1992, which amends section 203 (b) of the 1937 Act. Section 122(c) requires the Secretary to make an annual payment from operating subsidy funding to municipalities that provide roads, water supply and sewage facilities and electrical and fuel distribution systems to Indian housing rental projects in an amount for each rental housing unit equal to (1) 10% of the applicable shelter rent minus the utility allowance or (2) \$150, whichever is greater.

Abstract: This rule establishes procedures for the approval of applications for demolition or disposition of public and Indian housing development. In addition, under this rule HUD may approve an application for demolition if the project is obsolete, making it unusable for housing purposes and if no reasonable program of modification is feasible to return the project to a useful life. The rule also provides that HUD, in allocating assistance for public housing acquisition or development or for Section 8 certificates, give consideration to providing housing that replaces demolished public housing units in accordance with an approved replacement plan. PHAs are prohibited from taking any action to demolish or dispose of public housing projects without obtaining HUD's approval and satisfying pertinent statutory requirements. Semiannual Agenda of Rules Scheduled for Review or Development

AGENCY: Office of the Secretary, Interior.

ACTION: Semiannual agenda of rules scheduled for review or development.

SUMMARY: This notice provides the semiannual agenda of rules scheduled for review or development between

October 1993 and April 1994. An agenda is required by the Regulatory Flexibility Act and Executive Order 12291.

ADDRESSES: Unless otherwise indicated, all agency contacts are located at the Department of the Interior, 1849 C Street NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: All comments and inquiries with regard to these rules should be directed to the appropriate agency contact. General comments relating to the agenda should be directed to the Office of Regulatory Affairs, Department of the Interior, at the address above or on (202) 208-5271.

SUPPLEMENTARY INFORMATION: With this publication, the Department satisfies the requirement of Executive Order 12291 that the Department publish, in April and October of each year, an agenda of rules that have been issued or are expected to be issued and of currently effective rules that are scheduled for review.

Simultaneously, the Department meets the requirement of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) that an agenda be published in April and October of each year identifying rules that will have significant economic effects on a substantial number of small entities. Rules that will have such effects are specifically identified in the agenda.

This agenda also identifies rules that are determined to be "significant" under Executive Order 12498 and that are included in this Department's 1993 regulatory program. A more comprehensive discussion of this program and the relevant rules are contained in the Regulatory Program of the United States Government, which is published by the Office of Management and Budget.

Dated: August 27, 1993.

1663. NATURAL RESOURCE DAMAGE ASSESSMENTS

Significance: Regulatory Program

Legal Authority: 42 USC 9651(c)

CFR Citation: 43 CFR 11

Legal Deadline: None

Abstract: The Department is currently revising its CERCLA type B procedures based on a court ruling. Section 301(c)(3) of CERCLA requires that the regulations be reviewed and revised, as appropriate, on a biennial basis. The Department will begin a review of the type B rule once it is revised. The Department will ask trustees, other interested parties, and members of the

public to draw upon their experience with the type B procedures and the general assessment process to advise the Department of areas where revisions to the process and the type B procedures may be desired. If these comments and suggestions show areas where revisions to the general process or to the type B procedures are needed, a notice of proposed rulemaking will be issued to revise the rule. This review will be closely coordinated with the rulemaking of the National Oceanic and Atmospheric Administration (Commerce), which has responsibility for natural resource damage assessment rulemaking under the Oil Pollution Act of 1990.

1664. NATURAL RESOURCE DAMAGE ASSESSMENTS**Significance:** Regulatory Program**Legal Authority:** 42 USC 9651(c)
CERCLA**CFR Citation:** 43 CFR 11**Legal Deadline:** None

Abstract: CERCLA allows natural resource trustees to bring a claim against a potentially responsible party for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c)(2)(A) calls for the promulgation of simplified assessment procedures. The Department has begun the development of a type A procedure for use in the Great Lakes environment. After a review of the natural resource damage assessment rule, the U.S. Circuit Court of Appeals for the District of Columbia remanded certain parts of that rule to the Department for revision. The court upheld the use of an interactive computer model, but stated that such a model should incorporate restoration or replacement costs and all reliably calculated lost use values in the damage calculations. The Department will revise its development of a type A procedure for Great Lakes environments to comply with the court's ruling.

Abstract: CERCLA allows natural resource trustees to bring a claim against a potentially responsible party for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c)(2)(A) calls for the promulgation of simplified assessment procedures. The first type A procedure for coastal and marine environments uses a computer model known as the natural resource damage assessment model for coastal and marine environments (NRDAM/CME). The U.S. Circuit Court of Appeals for the District of Columbia upheld the use of an interactive computer model, but stated that such a model should incorporate restoration or replacement costs and all reliably calculated lost use values in the damage calculations. The Department will revise the type A procedure for coastal and marine environments to comply with the court's ruling and will incorporate changes in response to the first biennial review of the type A procedure at the same time.

1667. NATURAL RESOURCE DAMAGE ASSESSMENTS**Significance:** Regulatory Program**Legal Authority:** 42 USC 9651(c)
CERCLA**CFR Citation:** 43 CFR 11**Legal Deadline:** None

Abstract: CERCLA allows natural resource trustees to bring a claim against a potentially responsible party

for resources that have been injured by a release of a hazardous substance or, under certain circumstances, a discharge of oil. Section 301(c)(2)(B) calls for the promulgation of a set of

alternative protocols for the testing, sampling, and determining compensation for natural resource damages, referred to as the type B procedures. Final rules for the assessment of damages were promulgated by the Department consistent with those requirements. In a review of those rules, the U.S. Circuit Court of Appeals for the District of Columbia held that restoration or replacement costs are the basic measure of natural resource damages under CERCLA, and all reliably calculated lost use values of injured natural resources should also be recoverable, with no required hierarchy of methodologies for conducting those valuations. The Department is considering revisions to the proposed rule based on comments received as of July 16, 1991. The required biennial review of the Type B rule will await completion of this revision implementing the court ruling.

1672. DEPARTMENT OF THE INTERIOR, NONPROCUREMENT DEBARMENT AND SUSPENSION REGULATION

Legal Authority: EO 12549; 5 USC 301; EO 12689

CFR Citation: 43 CFR 12

Legal Deadline: None

EO 12689 directed agencies to simultaneously publish proposed rules within 6 months after resolution of differences between procurement and nonprocurement rules.

Abstract: This action proposes a revision to the Department's regulation establishing a uniform system of nonprocurement debarment and suspension. This proposed rule would implement the requirements of paragraph (a)(1) of section 12.110, Coverage, of common final rule on Governmentwide Debarment and Suspension (Nonprocurement).

1673. DEPARTMENT OF THE INTERIOR ACQUISITION REGULATION; PATENT RIGHTS UNDER GOVERNMENT CONTRACTS AND SUBCONTRACTS FOR EXPERIMENTAL, DEVELOPMENTAL, OR RESEARCH WORK

Legal Authority: 35 USC 18

CFR Citation: 48 CFR 1400; 48 CFR 1427; 48 CFR 1452

Legal Deadline: None

Abstract: PL 98-620 amended 35 USC 18 dealing with patent rights in inventions made with Federal funding. On June 12, 1989, Federal Acquisition Regulation implementation of PL 98-620 was issued through FAC 84-48. Patent rights under Government contracts are covered in FAR subpart 27.3. FAR 27.304-5(b) requires agencies to establish and publish their respective appeals, administrative due process, and fact-finding procedures related to patent rights. The proposed Department of the Interior Acquisition Regulation coverage establishes Department of the Interior policy with regard to title rights, exception determinations, appeals, greater rights determinations, retention of rights by inventors, assignment of rights, exercise of march-in rights and licensing to third parties. It also identifies key Departmental points of contact in matters concerning

patent rights. The proposed coverage supplements FAC 84-48 and amends sections 14227 and 1452, as parts of 48 CFR, chapter 14.

Legal Authority: 5 USC 301; OMB Circular A-110

CFR Citation: 43 CFR 12

Legal Deadline: None

Abstract: This proposed rule will implement in a regulatory format the Department's implementation of OMB Circular A-110. Prior implementation has been limited to a reference to the applicability of the Circular. Since the revision currently under way provides an opportunity for executive agencies to use this format to facilitate the preparation of their regulations, the Department has decided to use this approach.

Legal Authority: 5 USC 301; OMB Circular A-102

CFR Citation: 43 CFR 12

Legal Deadline: None

Abstract: This proposed rule will amend the Department's implementation of the common rule which established consistency and uniformity among Federal agencies in the administration of grants and cooperative agreements to State, local and federally recognized Indian tribal governments and was previously published in the March 11, 1988, Federal Register (53 FR 8034). This action is necessary because of efforts underway to revise the common rule.

Abstract: DOI is considering a rule that would prohibit contractors, cooperators and grantees from using Government awards as the basis for commercial advertising. This will avoid the appearance of an improper preference

for a particular company, and would implement EO 12731's prohibition on the use of a public office for private gain.

Abstract: These regulations amend the Department's current regulations on employee testimony and response to subpoenas for documents. The current regulations do not provide enough guidance to allow appropriate decisions to be made as to whether testimony should be allowed or documents

released. Further, the current regulations do not have a centralized review to allow for consistent decisionmaking throughout the Department. These regulations provide guidance to those requesting testimony of employees or production of documents as to what the Department must consider to make a reasonable and just decision.

Abstract: The Title IX regulation is intended to address the problem of discrimination on the basis of sex in any education program or activity receiving or benefiting from Federal

financial assistance administered by the DOI.

No alternative for addressing problems of discrimination in DOI's education programs can be considered due to the fact that Title IX requires each Federal agency which extends Federal financial assistance to any educational program or activity, to issue rules and regulations implementing Title IX.

DOI's recipients are anticipated to incur expenses in two (2) areas: (1) Data collection and recordkeeping; (2) rectifying areas of noncompliance with Title IX. With respect to DOI, expenses will be incurred in three (3) areas: (1) Development and publication of the Title IX rule; (2) provision of technical

assistance; and (3) accomplishing compliance reviews and enforcement activities.

Abstract: The agency proposes to amend its regulations in 43 CFR 4.300 through 4.308 relating to Tribal Purchase of Interests Under Special Statutes in order to provide standard procedures for implementation of two

recent statutes expanding tribal purchase rights and escheat requirements, namely, Pub. L. 96-274, applicable to the Standing Rock Sioux Reservation in North and South Dakota, and Pub. L. 97-459, applicable to the Devils Lake Sioux Reservation of North Dakota. The Department's current regulations in 43 CFR 4.300 through 4.308 apply to the Yakima, Warm Springs and Nez Perce Reservations. The proposed amendments to these regulations will incorporate provisions necessary for consideration of cases arising under the two statutes cited above.

1691. SEASONS AND BAG LIMITS FOR SUBSISTENCE MANAGEMENT REGULATIONS**Significance:** Regulatory Program**Legal Authority:** 16 USC 3111 to 3126**CFR Citation:** 50 CFR 100**Legal Deadline:** None

Abstract: This rule amends management regulations for subsistence hunting, trapping, and fishing on Federal lands in Alaska. The regulations implement the subsistence priority provisions for rural residents for Alaska under the Alaska National Interest Lands Conservation Act and provide for issuance of subsistence hunting, trapping, and fishing seasons and bag limits. Due to a decision by State court, management responsibility for subsistence taking of fish and wildlife was assumed by the Federal land management agencies in 1990.

This rule also provides for the seasonal bag limits and dates for subsistence hunting, trapping, and fishing on Federal lands in Alaska. The seasons and bag limits are developed in cooperation with State and local governmental entities to ensure that fish and wildlife populations in the State are adequately protected.

Additional Information: ANILCA requires the Secretaries of Interior and Agriculture to implement a joint program to grant a preference in favor of subsistence uses of fish and wildlife resources on public lands unless the State of Alaska enacts and implements laws of general applicability consistent with ANILCA's requirements. The State implemented such a program; however, in December 1989, the Alaska Supreme Court ruled such program unconstitutional. As a result of that decision, the Departments of Interior and Agriculture were required to take over the implementation of title VII of ANILCA on Federal lands on July 1, 1990. On June 29, 1990, the temporary Subsistence Management Regulations for Public Lands in Alaska were published in the Federal Register. The Service proposes to extend the temporary subsistence managements regulations to June 1993 in a separate rulemaking action.

Significance: Agency Priority

Legal Authority: 16 USC 3954

CFR Citation: 50 CFR 84

Legal Deadline: None

Abstract: The National Coastal Wetland Conservation Grant Program was established through the Coastal Wetlands Planning, Protection and Restoration Act. Funding for this grant program is provided from a portion of the funds deposited in the Sport Fish Restoration Account of the Federal Aid program. The proposed rules for 50 CFR 84 will be used for uniform administration of this new grant program. Such rules are needed to establish procedures from the selection and uniform administration of grants funded under the Act. Since grantees are State agencies, the requirements contained in 43 CFR 12 are applicable to audits, costs, and administration of grants under this program.

Legal Authority: 16 USC 701 to 711

CFR Citation: 50 CFR 21.13; 50 CFR 21.14

Legal Deadline: None

Abstract: The Service is currently reviewing the regulations governing the release and harvest of captive-bred waterfowl on State-licensed shooting preserves. Considerable concern has been generated about these activities and their effects on the harvest and well-being of wild populations. The possibility for introduction of diseases into wild populations remains a serious concern. Current activities may be in conflict with prohibitions against live decoys (20.21f), and baiting (20.21i). After completing its review, the Service may propose to revise these regulations.

1697. MIGRATORY BIRD HUNTING: HUNTING REGULATIONS FOR RESTRICTION OF SHOTSHELL LENGTH, MAXIMUM SHOT SIZE, AND NONTOXIC SHOT COATINGS

Significance: Agency Priority

Legal Authority: 16 USC 703 et seq

CFR Citation: 50 CFR 20

Legal Deadline: None

Abstract: Before the passage of the Migratory Bird Treaty Act (MBTA), there were no restrictions on firearms or ammunition used in the taking of migratory birds. The MBTA gave rise to regulations that required shotguns used in the sport hunting of migratory birds to be not larger than 10 gauge. Recently, there has been a trend toward long shotshells, which defeats the intent of the present regulatory restriction to limit firepower to reduce crippling and unretrieved harvest of migratory birds. The 10 gauge 3 1/2 inch shotshell now in use has a larger payload than the 8-gauge, 3-inch shotshell outlawed for use earlier in this century. The intent is to limit shotshell length to the current maximum (3 1/2) to stop market competition for ever longer shells and to eliminate any waste of migratory gamebird resources that added shell length would induce. Additional Information: ABSTRACT CONT: Further, size "F" shot has been determined to be nonlethal on geese beyond 55 yards due to inadequate pattern density. This results in unacceptable crippling loss. The intent is to restrict the maximum shot size for hunting migratory birds to size "T," the largest size tested that has exhibited acceptable performance. Also, although the Service has a policy regarding regulating anti-corrosive coatings of

steel shot to ensure nontoxicity, the policy has not been codified. The Service will seek public comment on its regulation of shot coatings to prevent inadvertent toxicity problems for waterfowl and other migratory birds.

Significance: Agency Priority

Legal Authority: 16 USC 1531 to 1544

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service proposes to establish certain waterways within the

perimeter of Lake Woodruff National Wildlife Refuge, Volusia County, Florida. This activation will prevent the loss of manatees from boat collisions by imposing speed restrictions on boats in rivers, creeks, and lakes of known high manatee use within the perimeter of the refuge. An emergency rule, in conjunction with other required actions, establishes manatee protection areas on certain waterways within the perimeter of the refuge. The emergency action is effective for 120 days.

Significance: Agency Priority

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service proposes to revise the special rule regarding red wolves designated as experimental and nonessential in the Great Smoky Mountains National Park in North Carolina and Tennessee, and at the Alligator River National Wildlife Refuge and Pocosin Lakes National Wildlife Refuge in North Carolina. The proposal modifies take provisions and provides consistency of take provisions in the two reintroduced populations. The proposal also revises the current special rule for the experimental population at the Alligator River by adding two additional counties to the area of experimental population designation. In addition, the rule applies the experimental population provisions to

red wolves found outside the experimental population boundaries, except for reporting requirements.

Abstract: The Fish and Wildlife Service regulates certain activities involving non-native endangered or threatened wildlife species that are born in captivity in the United States. Currently, this is accomplished by requiring persons who wish to conduct otherwise prohibited activities with such wildlife to register with the Service to obtain a captive-bred wildlife or CBW registration. 1721. MIGRATORY BIRD PERMITS: DETERMINATION THAT KANSAS, RHODE ISLAND, AND MISSOURI MEET FEDERAL FALCONRY STANDARDS

Legal Authority: 16 USC 703 to 712

CFR Citation: 50 CFR 21

Legal Deadline: None

Abstract: The Service proposes to
revise 50 CFR 21 to add Kansas to the
list of States participating in the joint
Federal/State falconry permit system.
The Director has determined that the
falconry laws of the State meet or
exceed the minimum Federal standards
for the use of certain migratory birds
for falconry. The proposed rule would
permit the practice of falconry in that
State.

1725. FARM-RAISED FISH; EXEMPTION FROM FISH AND WILDLIFE EXPORT REQUIREMENTS**Significance:** Agency Priority**Legal Authority:** 18 USC 42**CFR Citation:** 50 CFR 14**Legal Deadline:** None

Abstract: The Service has determined that the export of live farm-raised fish and farm-raised fish eggs does not adversely affect the wild resources. This rulemaking would exempt exporters from licensing requirements, designated port requirements, and payment of user fees. This rule will relieve exporters of the requirement of obtaining an import/export license (\$125 per year), and of the payment of user fees (\$25 per shipment).

1728. ENDANGERED AND THREATENED WILDLIFE AND PLANTS: ESTABLISHMENT OF ADDITIONAL MANATEE SANCTUARIES IN KINGS BAY, CRYSTAL RIVER, CITRUS COUNTY, FLORIDA

Significance: Agency Priority**Legal Authority:** 16 USC 1531 to 1544**CFR Citation:** 50 CFR 17**Legal Deadline:** None**Abstract:** The Fish and Wildlife

Service proposes to establish four additional manatee sanctuaries (32 acres) in Kings Bay, Crystal River, Citrus County, Florida. All waterborne activities would be prohibited in these sanctuaries from November 15 through March 31 of each year. The proposed action would prevent the taking of manatees by harassment resulting from waterborne activities during the winter months. The number of sanctuaries in Kings Bay would be increased from three (10.7 acres) to seven (42.7 acres) to accommodate the increase in the number of manatees using the area each winter, and to offset the harassment from increasing public use.

Legal Authority: 16 USC 1361 et seq**CFR Citation:** 50 CFR 18.121**Legal Deadline:** None

Abstract: The Marine Mammal Protection Act allows for periods of up to 5 years the incidental, but not intentional, take in specified activities (other than commercial fishing) of marine mammals if it is determined, based on the best scientific evidence available, that the total of such taking for the 5-year period will have a negligible impact on the marine mammal species and will not have an

unmitigable adverse impact on the availability of these species for subsistence uses by Alaskan Natives. BP Exploration (Alaska) Inc., on behalf of itself and 14 other Petitioners, on December 17, 1991, submitted applications to the Service for promulgation of regulations to allow the incidental take of polar bears and walrus during year-round oil and gas exploration, development and production activities in Coastal Arctic Alaska and the Beaufort Sea.

Significance: Agency Priority
Legal Authority: 16 USC 1531 et seq
CFR Citation: 50 CFR 17
Legal Deadline: None
Abstract: The Service proposes to designate critical habitat for four species of endemic Colorado River Basin fishes: Razorback sucker, Colorado squawfish, Humpback chub, and Bonytail chub. These species are listed under the Endangered Species Act. Historically, these four species occurred throughout the Colorado River system from Wyoming to Mexico. The proposed critical habitat designation, when made final, would result in additional consultation and conference requirements under Section 7 of the Act with regard to Federal agency actions which are likely to destroy or adversely modify critical habitat.

1741. CONVENTION ON INTERNATIONAL TRADE IN ENDANGERED SPECIES OF WILD FAUNA AND FLORA (ENDANGERED SPECIES CONVENTION)

Significance: Agency Priority

Legal Authority: 16 USC 1531 to 1543

CFR Citation: 50 CFR 23

Legal Deadline: None

Abstract: The Service adds the saffron toucanet, chestnut-eared aracari, red-breasted toucan, and the spot-billed toucanet, at the request of Argentina, and the hill myna at the request of Thailand, to Appendix II of the Endangered Species Convention. The Convention regulates import, export, re-export, and introduction from the sea of certain animal and plant species. Species for which trade is controlled are listed in Appendices I, II, and III to the Convention. The countries participating in this treaty, including the U.S., recently adopted species amendments to Appendices I and II. The U.S. did not enter a reservation on any of the listing amendments approved at the recent eighth meeting of the Conference of the Parties. These amendments will be implemented in a separate rulemaking action.

Additional Information: The Convention on International Trade in Endangered Species of Wild Fauna and Flora (Convention) regulates international trade in certain species of animals and plants. Species for which trade is controlled are included in three appendices. Appendix I includes species threatened with extinction that are or may be affected by trade. Appendix II includes species that although not necessarily now threatened with extinction may become so unless trade in them is strictly controlled. It also lists species that must be subject to regulation in order that trade in other currently or potentially threatened species may be brought under effective control.

1742. PUBLIC ENTRY AND USE

Legal Authority: 16 USC 460k; 16 USC 668dd

CFR Citation: 50 CFR 26

Legal Deadline: None

Abstract: Regulations will be proposed which will simplify and reduce administrative costs related to the process by which special regulations relating to public access use and recreation are issued for units of the National Wildlife Refuge system. Special regulations will be used for public access use and recreation on individual national wildlife refuges.

1743. IMPLEMENTATION OF KLAMATH RIVER BASIN FISHERY RESOURCES RESTORATION ACT**Legal Authority:** 16 USC 460ss**CFR Citation:** 50 CFR 72**Legal Deadline:** None

Abstract: This rule implements the Klamath River Basin Fishery Resources Restoration Act. These include establishment of qualifications for volunteers, establishment of standards for determining the value of in-kind contributions and real and personal property provided by non-Federal sources to implement the conservation area restoration program, and establishment of the basis for determining whether matching funds will be provided in a timely and appropriate manner.

Abstract: The Service proposes to amend 50 CFR 23, subparts A and B, to consider the following proposals recommended by the Conference of the Parties to the Convention on International Trade in Endangered Species of Wild Fauna and Flora: (1) Whether or not to reduce the paperwork burden for trade in certain hybrid plants. Such reduction would

cause slight risks to wild plants, but a substantial reduction of administrative and public burdens. (2) Whether to require a fitness-to-travel checklist to reduce the high mortality/morbidity in the shipment of live animals. Processing such checklists would increase costs but would also increase awareness of live animals transport requirements/needs. (3) To allow innocent infractions of regulations to be cured by issuance of permits retroactively. While such action would increase costs slightly, there would be slight reductions in the cost of processing violations and such action would encourage voluntary compliance.

Abstract: This rulemaking would revise portions of 50 CFR 25, 26 and 29 to define and provide standards for the compatibility of permitted uses on the National Wildlife Refuge System. Congress has expressed concern that all uses permitted on national wildlife refuges be consistently "compatible" with the purposes for which the respective refuges were established. This rulemaking would provide a uniform definition for "compatible" use and, consequently, allow enhanced protection to the national wildlife refuge system.

1748. APPLICATION FEES FOR CONTROLLED HUNTS ON NATIONAL WILDLIFE REFUGES

Legal Authority: 16 USC 668dd

CFR Citation: 50 CFR 25

Legal Deadline: None

Abstract: The popularity of controlled hunts has increased greatly over the last several years. Consequently, the number of applications for hunting permits has increased proportionately to such an extent that individual national wildlife refuges have been overburdened financially, and in terms of personnel work hours, with their review of such applications for permit eligibility and issuance. The purpose of this rulemaking is to provide a regulation that will pertain to the establishment of application fees for controlled hunts on national wildlife refuges. The establishment of an application fee would defray the additional burden placed upon the individual national wildlife refuge managing a controlled hunt.

Significance: Agency Priority

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service proposes to remove 50 CFR 17.40 (b)(1)(i)(E), the special rule which allows take of grizzly bears through a special hunt in northwestern Montana. The Service further intends to review the Grizzly Bear Special Rule to address actions needed due to population pressure within a grizzly bear population. The proposed removal of the authorization for the special hunt in Montana is to allow time to review the regulation based on current biological information. The removal of the special rule will, in no way, change the remainder of the Grizzly Bear rule in 50 CFR 17.40(b).

1753. ENDANGERED AND THREATENED WILDLIFE AND PLANTS: POLICY ON THE TREATMENT OF HYBRIDS AND PROPOSED DEFINITIONS

Significance: Agency Priority

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: The Service proposes to issue a policy that will include within the scope of a listing for a specific taxon "hybrid" individuals that more closely resemble a listed species than they resemble individuals intermediate with another species. The proposed policy is intended to allow the Service to routinely protect and conserve intercross progeny. A second goal is to give the Service the ability to eliminate intercross progeny if their presence interferes with conservation efforts for a listed species. It also allows fostering of intercrossing when this would preserve remaining genetic material from a nearly extinct species. Under the policy, intermediate individuals or populations of direct hybrid origin would not ordinarily be protected or be eligible for listing.

Significance: Agency Priority

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Abstract: Recently published taxonomic studies have revealed that two listed species, the Kretschmarr Cave mold beetle and the Bee Creek Cave harvestman, each comprise two species. The next republication of the List of Endangered and Threatened Wildlife will include two additional entries, the Coffin Cave mold beetle and the Bone Cave harvestman, to ensure that recognition and protection to the originally listed taxa. This rule describes the technical basis for these changes to the list.

CFR Citation: 36 CFR 9

Legal Deadline: Final, Statutory, January 29, 1989.

Section 8 of the Big Cypress National Preserve Addition Act directs the Secretary of the Interior to promulgate regulations governing nonfederal oil and gas development by 1/29/89.

Abstract: Several sections of 36 CFR part 9, subpart B contain ambiguous language which has caused confusion in interpreting the existing regulations. The NPS wants to make technical revisions to clarify requirements for both applicants and the Service. Also, the existing regulations exempt two classes of operators from compliance. Because of these exemptions, the regulations apply to only 30% of the existing operations resulting in avoidable impacts to park resources and visitor values from unregulated operations. Finally, the Service intends to propose revisions to the existing regulations to incorporate congressionally mandated requirements and timetables governing nonfederal oil and gas development in the Big Cypress National Preserve Addition. Examples of such revisions include: making the regulations applicable to all oil and gas operations within all units of the National Park System; updating terms for consistency with existing policies, practices, and laws; and removing the monetary ceiling and floor on bonds and security deposits so that bonds may be calculated and posted commensurate with reclamation costs.

Significance: Agency Priority

Legal Authority: 16 USC 3

CFR Citation: 36 CFR 7.13

Legal Deadline: None

Abstract: The proposed regulation will exempt the section of U.S. 191 within Yellowstone National Park from the prohibition on the use of National Park Service roads by commercial vehicles when such use has in no way a connection with operation of the park; delete the special regulations establishing the speed limit on U.S. 191 within Yellowstone National Park; and restrict the amount and type of hazardous materials which may be transported on U.S. 191 within Yellowstone National Park. The special regulation establishing the present fee schedule for commercial traffic within Yellowstone will be eliminated and the Superintendent provided the discretion to establish and adjust fees for such use on an annual basis.

These actions will clearly define the management and regulation of commercial traffic on U.S. 191 through Yellowstone and assure a certain measure of protection against hazardous waste spills.

Abstract: The National Park Service proposed rule and policy statement with request for comments relates to special events in the National Capital Region. A variety of special events, such as festivals and private rented events have occurred on park land for some time. These events have increased in number and size and have caused a strain on limited park resources and on the National Capital Region budget. The proposed rule would limit the number and size of festivals and private rented events, limit sales at such events, and require sponsors of the events to bear any unbudgeted costs of the National Park Service.

Abstract: Rock climbing has long been an accepted recreational activity in many park areas. An explosive growth of rock climbing in recent years, along with increased impacts to park resources because of this activity, suggests that regulations and guidelines need to be developed to protect park resources while providing for a quality climbing experience. Information to address this issue will be sought from interested parties in an Advance Notice of Proposed Rulemaking.

Legal Authority: 16 USC 1901 et seq, Mining in the Parks Act of 1976; 16 USC 1 et seq, NPS Organic Act; 30 USC 21 et seq, Mining Law of 1872

CFR Citation: 36 CFR 9

Legal Deadline: None

Abstract: The existing regulations at 36 CFR part 9, subpart A, promulgated in January of 1977, contain a provision regarding the use of water in connection with mining claims within National Park System units that creates a "catch 22" for miners seeking to use water in connection with their claims. In order to use water in a park, a miner must have a perfected water right. However, to obtain a perfected water right, a miner must use water. Herein lies the "catch 22." The National Park Service would like to rectify this dilemma through a rule change that would eliminate the perfected water right language while at the same time preserve the Service's ability to protect water quality and quantity.

Legal Deadline: NPRM, Statutory, August 5, 1989. Final, Statutory, October 5, 1989.

Abstract: The primary purpose of the amendments to 93 USC 638 is to permit an orderly transition from Federal domination of programs for and services to Indians to effective and meaningful participation by the Indian people in the planning, conduct, and administration of those programs and services while maintaining the Federal Government's unique and continuing relationship with and responsibility to individual Indian tribes and to the Indian people as a whole. In addition to extensive consultation with the tribes and Native American groups, the Bureau of Indian Affairs is examining all of its planning administrative procedures from the perspective of maximizing tribal participation. The changes are one of process rather than increases or decreases in budget or program funding.

Abstract: This proposed rule establishes a new part containing requirements for determining whether plant conditions at Bureau-funded schools are an immediate hazard to health and safety. The Bureau is required to develop rules for a safety and health inspection program by PL

100-297, which states that schools may be closed or consolidated, or programs substantially curtailed, for plant conditions constituting an immediate hazard to health or safety only if a Bureau health and safety officer determines that such conditions exist. This rule is administrative in nature and outlines the responsibilities of the Division of Safety Management for conducting safety and health inspections.

1790. GENERAL FOREST REGULATIONS

Significance: Agency Priority

Legal Authority: 25 USC 2; 25 USC 301; 25 USC 406; 25 USC 407; 25 USC 413; 25 USC 466

CFR Citation: 25 CFR 163

Legal Deadline: Final, Statutory, May 28, 1992.

Abstract: The Bureau of Indian Affairs is revising 25 CFR part 163 to reflect those changes necessary to implement the National Indian Forest Resources Management Act, PL 101-630. This action includes revisions and amendments to existing regulations as well as the addition and deletion of sections affected by the Act. The regulations will provide uniform guidance for forest management and administration and implement Indian and Alaskan Native forestry education assistance programs.

1791. DEPOSIT AND EXPENDITURE OF INDIVIDUAL FUNDS OF MEMBERS OF THE OSAGE TRIBE OF INDIANS WHO DO NOT HAVE CERTIFICATES OF COMPETENCY

Legal Authority: 5 USC 301

CFR Citation: 25 CFR 117

Legal Deadline: None

Abstract: The Bureau of Indian Affairs is publishing a proposed rule to amend the regulations governing the deposit and expenditure of individual funds belonging to persons of Osage blood who do not possess a certificate of competency. The regulations are being amended to correspond to current administrative and economic conditions. The promulgation of these amendments will improve the management of the restricted funds of such persons and estates of such deceased persons.

CFR Citation: 25 CFR 294

Legal Deadline: None

Abstract: The purpose of these regulations is to formalize procedures and the approval process for the acquisition of sites, construction, or renovation (including all necessary equipment) for schools for Indian children under funds authorized and appropriated under Federal statutes for new school construction application evaluations and priority rankings. These appropriations include, but are not limited to, the following: facility structures that require new addition to an existing structure, new school facilities, dormitories, gymnasiums, cafeterias, libraries, and multi-purpose rooms. Because these are procedural regulations, they do not entail any additional costs; the benefits include a more effective program.

Abstract: The Bureau of Indian Affairs (BIA) is proposing to add a new part 296 to formalize the procedures applicable to the priority ranking process for Adult and Juvenile Detention Centers projects federally owned, leased, contracted or granted. The new part 296 will be added under a new subchapter P of title 25 of the Code of Federal Regulations entitled Facilities Management Program. The priority ranking process will result in the establishment of a priority listing of Adult and Juvenile Detention Center projects for possible funding as authorized and appropriated by Congress. Because these are procedural regulations, they do not entail any additional cost; the benefits include a more effective program.

Significance: Agency Priority

Legal Authority: 5 USC 301; 25 USC 29; 43 USC 1457

CFR Citation: 25 CFR 115

Legal Deadline: None

Abstract: This regulation will modify existing regulations governing the Individual Indian Monies Trust (IIM) Funds and establish guidelines on accepting new IIM accounts. The Federal Government has sole responsibility for the protection of Indian trust funds which have been either collected from receipts from Indian trust land or through judgment awards to tribes and/or individuals.

The Bureau of Indian Affairs has established the Office of Trust Funds Management to oversee Indian Trust Funds operations. The modified and new regulations will result in the added protection, and more efficient handling of the Indian trust funds.

Legal Authority: 5 USC 301; 25 USC 9; 25 USC 13

CFR Citation: 25 CFR 11

Abstract: On May 14, 1991, the Ute Mountain Tribal Council voted to retrocede the operation of the law enforcement services and tribal court programs citing ongoing problems which have hindered the fair and impartial administration of justice. This decision has created a jurisdictional void since neither State or Federal authorities have jurisdiction over minor offenses committed by Indians. To

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9; 25 USC 13; 25 USC 2417; 25 USC 2453; 25 USC 2802

Abstract: The Bureau of Indian Affairs is proposing a new part 10 in 25 CFR to establish standards for governing Indian adult and juvenile detention, holding and community residential facilities and programs. The current detention regulations in 25 CFR are over 20 years old and extremely limited. The proposed changes will cover all important issues governing detention and residential services. The standards will increase the bureau's capability to provide Indian tribes the direction to administer constitutionally sound detention and residential programs. It will also provide a preventative measure to potential litigation.

1800. NAVAJO PARTITIONED LANDS GRAZING REGULATIONS

Legal Authority: 25 USC 640(d)

CFR Citation: 25 CFR 161

Legal Deadline: None

Abstract: These regulations are necessary for implementation of the livestock and grazing control provisions of 25 USC 640(d). In 1982 the Federal District Court for Arizona abolished 25 CFR 153, Grazing Regulation for the Joint Use Administrative Area and ordered the Secretary to promulgate new regulations for the control of grazing and livestock for the former Joint Use Administrative Area. Due to a lack of tribal concurrence, regulations were not promulgated for lands partitioned to the Navajo Tribe. Navajo tribal concurrence has been recently obtained; therefore, the BIA needs to move forward with publication of these regulations. Any cost associated with the implementation of these regulations will be assumed within the BIA annual budget. Cost associated with compliance of the provisions of these regulations will be borne by the Navajo Tribe or its members. There is no associated cost to the general public.

1813. CRIMINAL AND CIVIL CODE OF OFFENSES AND PROCEDURES FOR THE COURTS OF INDIAN OFFENSE

Significance: Agency Priority
Legal Authority: 25 USC 2; 25 USC 9; 25 USC 13
CFR Citation: 25 CFR 11; 25 CFR 12

Abstract: The present regulations contain an incomplete criminal code that does not cover many areas of state law where the reservation is located. The current regulations also contain incomplete provisions for criminal and civil procedures. This rule will update the sections on criminal offenses and create new sections on criminal procedures, domestic relations and probate proceedings. Courts will have a six month period from the date of publication of the final rule in which to revise court codes. There will be no effect on the annual caseload, staffing, or costs.

Significance: Agency Priority
Legal Authority: 25 USC 2101 to 2108
CFR Citation: 25 CFR 225
Legal Deadline: None

Abstract: The purpose of these revisions is to reflect the enactment of legislation, court decisions, changes, and reorganization with the Federal government and the evolution of usual and common business practices. The existing rule does not adequately reflect the provisions of the Federal Oil and Gas Royalty Management Act or the Surface Mining Control and Reclamation Act.

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9
CFR Citation: 25 CFR 83
Legal Deadline: None

Abstract: The proposed revisions will improve existing regulations by clarifying and revising definitions, criteria, and administrative procedures and by adding a revised independent review of decisions. The revisions respond to issues raised by diverse parties concerning the interpretation of the regulations and the administration of the review process. The proposed changes are based upon 14 years of experience administering the acknowledgement process and upon public comments from the Congress, states, recognized tribes, unrecognized groups, other Federal agencies, and national Indian organizations.

Legal Authority: 5 USC 301; 25 USC 2; 25 USC 9; PL 101-227

CFR Citation: 25 CFR 67

Legal Deadline: None

Abstract: This final rule will add a new part 67 to provide procedures to govern the preparation, certification, and approval of a descendancy roll of independent Seminole Indians of Florida. The Act of April 30, 1990, provides for the use and distribution of funds awarded the Seminole Indians in dockets 73, 151, and 73-A of the Indian Claims Commission. Section 7 directs the Secretary of the Interior to compile a roll of independent individuals of Seminole descent. The descendancy roll will be used as the basis for a per capita distribution of a portion of the Seminole judgement funds.

Significance: Regulatory Program

Legal Authority: 25 USC 465; 25 USC 2202

CFR Citation: 25 CFR 151

Legal Deadline: None

Abstract: This final rule will provide stronger and more consistent guidelines for reviewing trust applications than the current case-by-case review, which uses general criteria. The Secretary of the Interior announced on July 19, 1990, a new policy for Indian Tribes acquiring in trust for gaming and non-gaming purposes lands contiguous to or outside the tribe's existing reservation boundaries. This proposed revision will add two new sets of criteria that will be used in evaluating tribal off-reservation acquisition for gaming and non-gaming purposes.

Significance: Agency Priority

Legal Authority: 25 USC 2101 to 2108

CFR Citation: 30 CFR 225

Legal Deadline: None

Abstract: This rule will add a new part 225 governing solid mineral, oil and gas, and geothermal mineral agreements entered into pursuant to the the Indian Mineral Development Act of 1982. The intent of the rule is to ensure that Indian mineral owners wishing to develop their mineral resources are able to do so in their best economic interests with a minimum of environmental or cultural impact. This rule will assist Indian mineral owners entering into minerals agreements by allowing for greater responsibility, oversight, and flexibility in the control and development of their own resources.

Legal Authority: 25 USC 465; 25 USC 2202

CFR Citation: 25 CFR 151

Legal Deadline: None

Abstract: As a result of the Indian Land Consolidation Act, PL 97-495, many of the current provisions within 25 CFR 151 require updating. These changes will have a major impact on the ability of tribes and individual Indians to manage their real estate more effectively and efficiently. In addition to those provisions that are affected by the Act, other provisions within existing regulations are in need of updating as well. The proposed changes will enhance the review and processing of land acquisition transactions for tribes and individual Indians.

1826. LEASING OF OSAGE RESERVATION LANDS FOR MINING FOR MINERALS OTHER THAN OIL AND GAS

Legal Authority: PL 59-321

CFR Citation: 25 CFR 214

Legal Deadline: None

Abstract: The BIA is proposing to revise the regulations at 25 CFR 214 governing management of non-oil and gas minerals on Osage Reservation Lands in Oklahoma. The proposed revisions eliminate specific royalties for minerals not found within the Osage Mineral estate and give authority to the Osage Tribal Council, with the approval of the Superintendent of the Osage Agency, to set applicable royalty rates. This revision also replaces outmoded methods of exchange with modern methods, and correctly designates those officials responsible for the management of non-oil and gas minerals within the Osage Mineral estate. The proposed revisions are intended to enhance the management ability of the Department over the production of these minerals, and to eliminate various inaccuracies in the current regulations.

Abstract: The Bureau of Indian Affairs has recently revised its regulations governing Courts of Indian Offenses to provide those courts with an updated code of laws and to clarify the jurisdiction of those courts and their relationships to tribal governments and the Department of the Interior.

New provisions concern drug abuse, abuse of psychotoxic substances, child abuse prostitution, domestic violence and increased maximum penalties for various offenses in the Code. Other added provisions include a change in the method of listing Indian reservations to which the Code applies, together with a repeal of the supersession provision by which tribal ordinances, inconsistent with the regulations, may override the Code's text. A clarifying provision on jurisdictional limitations is added, specifically excluding from jurisdiction under this part Federal employees acting within the scope of their employment.

Abstract: The Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) requires that the Secretary of the Interior establish a comprehensive inspection and auditing system to provide the capability to accurately determine royalties, interest, fines, penalties, fees, deposits, and other payments owed on Federal or Indian oil and gas leases. This responsibility has been delegated to MMS. However, performance of the required audits may be delegated to States or Indian tribes pursuant to sections 202 and 205 of FOGRMA or to independent certified public accountants under contract. The FOGRMA also requires the promulgation of regulations to establish audit standards and procedures, payor requirements and responsibilities, and authorities and responsibilities which may be delegated by MMS to a State, Indian tribe, or an independent certified public accountant. The purpose of this rulemaking action is to establish the regulations required by FOGRMA.

Abstract: Responsibilities of Minerals Management Service include the collection of royalties, bonuses, rentals, and related revenues from Federal and Indian mineral leases. These monies are, for the most part, collected from the current designated payor on the lease. However, if MMS is unable to collect from the current payor, it must pursue collections from a prior payor(s), the lessee, or an assignee of the lease. Existing regulations are unclear as to the responsibilities and liabilities of the parties involved. Therefore, MMS is proposing to amend its regulations to clarify payor, lessee, and assignee requirements and responsibilities.

1837. AMENDMENTS TO 30 CFR 250.67—HYDROGEN SULFIDE

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.67

Legal Deadline: None

Abstract: This rule will revise the requirements for warning systems, personnel protection, hydrogen sulfide (H₂S) and sulphur dioxide (SO₂) detection and monitoring, and the criteria for the activation of warning systems. These amendments are necessary to be consistent with the new personnel exposure limits for H₂S and SO₂ established by the Occupational Safety and Health Administration. Amending the rule would reduce personnel exposure limits, thereby decreasing the risks associated with hazardous environments. An NPRM was published in the Federal Register

on August 15, 1990 (55 FR 33326), soliciting comments. The comments received were reviewed and revisions were written. A recent equipment failure at an H₂S gas facility resulted in the flaring of gas containing high concentrations of H₂S, which resulted in the risk of exposure to high concentrations of H₂S and the discharge of large volumes of sulphur dioxide. As a result of this incident, the current regulations are being revised to adequately address the flaring of gas containing H₂S. Since the revisions are extensive, the rule is being reproposeed.

1838. AMENDMENT TO RULES GOVERNING INSTALLATION OF SHUTDOWN VALVES ON PIPELINES

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 250.154

Legal Deadline: None

Abstract: The development of this notice of proposed rulemaking resulted from the recommendation of a task force that examined many contributing causes to recent fatal accidents in the North Sea and the Gulf of Mexico. The task force identified areas where changes in regulations should be considered. This action considers changes to the regulations concerning better communication among personnel, protection of pipeline risers, safe fuel storage, fire survivability of the accommodation, and the placement of shutdown valves on pipelines as a means to isolate the pressurized hydrocarbons in the pipeline from potential danger that could result from a fire or other damage to the pipeline.

CFR Citation: 30 CFR 202

Legal Deadline: None

Abstract: The current gas valuation regulations provided that when the lessee of any gas lease committed to a federally approved unitization or communitization agreement does not take the full share of production under the terms of the agreement, the entitled, but not taken, production is still subject to royalty payment and reporting requirements. This rulemaking would eliminate the requirement that the actual disposition of any part of production to which a lessee was entitled but did not take governs the valuation of that part. Under the rulemaking, the regulations would be amended to allow lessees to value their entitled, but not taken, production at prices based upon information that is accessible to the lessee. This rule will reduce the administrative burden for payors and MMS so that there is certainty in the determination of royalty values. The adoption of these

rules would not affect the requirement in Indian leases and the current regulations for the performance of major portion analyses or dual accounting.

Abstract: Section 10 of the Outer Continental Shelf Lands Act (OCSLA), 43 USC 1339, requires that a lessee or payor under an offshore lease submit a request to Minerals Management Service (MMS) for recoupment or refund of an overpayment (credit adjustment) within 2 years of the date of the original payment. However, current law does not provide for a time limitation on credit adjustments under onshore Federal or Indian leases similar to that provided in the OCSLA. This rule would add a new provision entitled "Limitations on Credit Adjustments" which would restrict credit adjustments without prior authorization to payments due within 5 years before the date of the adjustments. The rule provides that MMS could authorize credit adjustments with respect to payments made more than 5 years but less than 10 years before the date of the adjustments. However, credit adjustments with respect to any payment made more than 10 years before the date of the adjustment would be prohibited.

Abstract: The Debt Collection Act of 1982 (DCA), 31 USC 3716, provides for a Federal Agency's exercise of administrative offset to collect claims of the United States Government. The DCA instructs each Agency to prescribe regulations before collecting a claim by administrative offset. In accordance with the requirements of the DCS, the Minerals Management Service (MMS) is proposing new regulations governing collection by administrative offset of royalties, interest, and other amounts due under Federal and Indian oil, gas, and other mineral leases. Under this rule, collection by administrative offset would only be used after other attempts to collect the debt had been attempted by MMS.

Significance: Agency Priority

Legal Authority: 33 USC 1321; EO 12777

CFR Citation: 30 CFR 250

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: Regulations are being developed to implement the authority of Minerals Management Service (MMS) under the Federal Water Pollution Control Act (FWPCA) as amended by the Oil Pollution Act of 1990. These regulations will address oil spill prevention and response in State submerged lands as well as in the Outer Continental Shelf. A nonregulatory alternative will not meet the mandate of the FWPCA as amended. The expected costs will depend on the extent to which existing practices in State and Federal waters meet the new mandated requirements. The expected benefits will be an assurance that oil spill prevention and response capability are being addressed on all facilities in both State and Federal waters.

Abstract: 30 CFR 216.40(b) and 218.40(b) authorize the Minerals Management Service (MMS) to assess an amount not to exceed \$10 for each report received by the designated due date but which is incorrectly

completed. The reports subject to this assessment are required to be submitted to MMS by royalty payors, lease operators, lessees, or other parties in accordance with statutes, regulations, contracts, orders, or terms of Federal or Indian mineral leases. The MMS regulations do not provide for an assessment for incorrect reports if the incorrect report is received after its designated due date. However, the administrative costs incurred by MMS to research and resolve reporting errors are identical whether or not the report is received timely or late. So that MMS may be compensated for all administrative costs incurred due to reporting errors, MMS is amending sections 216.40(b) and 218.40(b) to include as assessable, all reports that are submitted incorrectly regardless of whether or not the report was received by the designated due date or was received late.

Abstract: Because royalty payments are a major source of income to many Indian allottees, and the only source in some instances, it has been a longstanding Department of the Interior policy that overpayments made by lessees and other royalty payors to Indians cannot be recovered by refund. This policy was established to prevent an undue financial burden on Indian allottees who may have limited financial means to refund the overpayment. However, the adopted policy permits lessees and payors to recoup overpayments as a credit against future rental or royalty accruals due to Indian tribes or allottees. Lessees and operators were instructed to follow this recoupment policy in "Notice to Lessees and Operators of Indian Oil and Gas Leases No. 1A" (NTL-1A), issued by the Conservation Division of U.S. Geological Survey in 1977. The MMS published revised final oil and gas product valuation regulations at 30 CFR part 206 on January 15, 1988 (53 FR 1184 and 53 FR 1230), effective March 1, 1988. Section 206.150(e)(2) of the revised regulations terminated NTL-1A. Although the Indian lease overpayment recoupment policy has been the same for many years, MMS believes that its (cont)

Abstract: There is a conflict in MMS regulations at 30 CFR 220.030 with the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) as to the time period that an offshore net profit share lessee (NPSL) must maintain records and all other documentation pertaining to the NPSL capital account. Therefore, MMS is proposing to amend 30 CFR 250.030 to extend the time period to 6 years, from

36 months, consistent with the statutory requirement of FOGRMA. The MMS is also proposing to remove 30 CFR 220.033 which includes language that conflicts with the recordkeeping requirements of FOGRMA and MMS regulations at 30 CFR 212.50 and 212.51.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.18

Legal Deadline: None

Abstract: The rule is intended to remove apparent inconsistencies in current regulations concerning the release of data and information submitted to MMS on certain MMS forms. Section 250.18 specifies periods of time that certain geological and geophysical data will be protected from disclosure to the public when submitted on specific forms. The alternatives of providing guidance through an OCS order or through a Notice to Lessees and Operators on a region-to-region basis fail to ensure that information is uniformly available to the public. This rulemaking does not involve any significant additional costs. Its benefits are the removal of ambiguity in the current regulations and the clear identification of items of data and information that are made available for public information.

Abstract: The MMS Auditing and Financial System (AFS) matches and applies each payment received to its corresponding report or bill. If a payment cannot be automatically matched and applied by the AFS because of inadequate or erroneous information, it must be manually matched and applied by MMS personnel. The manual matching of payments to reports and bills results in MMS incurring substantial costs so that the AFS can operate properly to account for and distribute royalties. This situation also delays the payment application process and can result in delay in distribution of royalties and related information to States and Indian Tribes and allottees. To recover the costs, MMS is proposing to amend its regulations to add a new assessment amount not to exceed \$250 per incident. The new assessment would encourage payors to submit their payment, when required, together with the applicable report or copy of the bill and for the same amount as the report or bill. The new assessment would also encourage payors to adequately identify

1852. AMENDMENT TO THE REGULATIONS CONCERNING THE REQUIREMENT FOR SUBMISSION OF A CORPORATE SURETY BOND TO INDEMNIFY THE U.S. FROM DEFAULT BY A LESSEE ON THE CONDITIONS AND TERMS OF AN OCS LEASE

Legal Authority: 43 USC 1335

CFR Citation: 30 CFR 256

Legal Deadline: None

Abstract: This rulemaking would amend current regulations requiring lessee surety bonds. The monetary value of surety bonds designated in current regulations was established over 20 years ago and is seriously inadequate to protect the Government from loss due to lessee failure to meet the terms of the OCS lease for royalty payments, proper abandonment of wells, site cleanup, and ongoing lease operations. Bond requirements may be increased on a case-by-case basis, as an alternative to rule change. This might result in inconsistent requirements. The potential costs are whatever increase is incurred in obtaining a higher value bond. Benefits would be a reduced potential for Government loss and a greater protection of the public interest.

Legal Authority: 43 USC 1331 et seq; 42 USC 4332 et seq

CFR Citation: 30 CFR 251

Legal Deadline: None

Abstract: This rule is revised to reflect the current requirements and practices and to conform with new or changed laws and regulations. It expands the requirements for filing notice to include all geological and geophysical research not conducted pursuant to a permit. It clarifies that these regulations are applicable only to oil, gas, and sulphur, as all other mineral resources on the Outer Continental Shelf are covered by 30 CFR part 280. This rule will provide other pertinent information, such as current filing location addresses.

1854. REQUIREMENTS FOR CRANES INSTALLED ON FIXED PLATFORMS IN THE OUTER CONTINENTAL SHELF

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.20

Legal Deadline: None

Abstract: The rules at 30 CFR 250.22(c) are being evaluated to determine whether the requirements for the operation and maintenance of cranes installed on fixed platforms are adequate to promote safety on the Outer Continental Shelf. The advance NPRM will discuss current

maintenance, testing, and inspection requirements contained in the regulations through incorporation by reference of the American Petroleum Institute's Recommended Practice for Operation and Maintenance of Offshore Cranes (API RP 2D). Alternative rules will be discussed in the notice. The advance NPRM will also discuss training, crane operator qualifications, and the need for certifying crane operators. The oil and gas industry and general public will be requested to comment and make recommendations concerning regulation of cranes on offshore platforms.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250.153

Legal Deadline: Final, Statutory, May 18, 1992.

Abstract: Public Law 101-599 requires that the Secretary of Transportation establish standards to ensure continued burial of offshore pipelines lying between the mean high water mark and the point where the subsurface is under 15 feet of water as measured from mean low water. The Department of the Interior has jurisdiction over gathering pipelines on Federal offshore oil and gas leases. The Minerals Management Service will promulgate burial and inspection regulations for these pipelines. As of July 1992, there were 287 platforms on Federal leases in the Gulf of Mexico that were installed in water depths of between 7 and 16 feet.

1856. OIL AND GAS AND SULPHUR OPERATIONS IN THE OUTER CONTINENTAL SHELF, REPORTING FORMS

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250

Legal Deadline: None

Abstract: This final rule amends Minerals Management Service (MMS) regulations at 30 CFR part 250 that govern Outer Continental Shelf (OCS) reporting forms used for collecting information related to oil and gas and sulphur drilling and production in the OCS. The current OCS reporting forms are being updated and modernized as part of the effort to reduce the paperwork and respondent burden imposed on the public as required by the Paperwork Reduction Act of 1980 (Pub. L. 96-511, 44 USC 3501 et seq.). These revisions are a result of an analysis by an MMS task force and comments received from industry in response to several Federal Register notices published in August 1990 on the proposed forms. These changes will enable MMS to process the data submitted by industry more efficiently, reduce the reporting requirements for industry, and establish a consistent format and syntax to facilitate submission of information by electronic data transmission.

Legal Authority: 43 USC 1337(a)(3)

CFR Citation: 30 CFR 203.50; 30 CFR 256.57

Legal Deadline: None

Abstract: Existing regulations at 30 CFR 203.50 would be amended to cross reference 30 CFR 256.57. The substance of the existing regulations would be recodified at 30 CFR 256.57 and amended to broaden the rules to include enhanced oil recovery projects as recommended by the General Accounting Office as well as to encourage investment in economically borderline new production on existing producing leases. The rule would retain current incentives to continue production that has declined to its economic limit. The rule could result in a substantial increase in production of otherwise unrecoverable oil and gas. The alternative would be to leave the existing regulations in place.

1858. OUTER CONTINENTAL SHELF DEEPWATER PRODUCTION

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250

Legal Deadline: None

Abstract: The Minerals Management Service (MMS) is proposing to amend the regulatory program by establishing new requirements for the development and production of oil and gas leases located in deepwater. The proposed requirements address the installation and operation of floating production facilities and other deepwater production facilities, extended well tests for deepwater reservoirs, oil storage, and/or offloading systems, and

other associated deepwater production safety systems. This action serves to notify the public of the changes MMS is proposing and to solicit comments on the subject. The costs to lessees to implement these amendments are not expected to significantly increase over the costs of complying with the current program under 30 CFR 250.

1859. OUTER CONTINENTAL SHELF OIL AND GAS UNITIZED OPERATIONS

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 250

Abstract: Ambiguous and inadequate language will be revised by this rulemaking so that confusion is avoided and the intent of the regulation is achieved. The alternative is not to revise the regulations. There are no costs associated with this rulemaking as no substantive changes in the rules are being undertaken. The benefits of these revisions are the removal of possibilities for misinterpretation of the regulations and the amplification and clarification of the provisions affected.

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 250

Legal Deadline: None

Abstract: These revisions comprise some 15 minor changes and amendments to the regulations governing production rates and production measurement. The changes are being made to correct and alleviate several problems such as ambiguous language resulting in erroneous and undesirable interpretation, incorrect and outdated references, absence of provisions inadvertently dropped in previous revisions and the need to improve operational safety by adding minor requirements. The alternative is not to revise the regulations. Potential benefits include improved safety and environmental conditions, elimination of ambiguous provisions and correction of erroneous references.

Legal Authority: PL 101-380; EO 12777

CFR Citation: 30 CFR 253 (New)

Legal Deadline: None

Abstract: The Oil Pollution Act of 1990 (OPA) and its implementing Executive Order 12777 assigned offshore financial responsibility certification functions from the U.S. Coast Guard (USCG) to the Minerals Management Service (MMS). The existing financial responsibility regulations in 33 CFR 135 are being transferred to MMS' regulations and redesignated as 30 CFR 253. This action will result in no substantive change to the regulatory

requirements at this time (i.e., the \$35 million level of financial responsibility that exists in the regulations is retained). Rulemaking at a later date will address the new financial responsibility requirements set in the OPA.

Legal Authority: 43 USC 1334; 43 USC 1337

CFR Citation: 30 CFR 250; 30 CFR 256

Legal Deadline: None

Abstract: This rule would regulate unitization across the State and Federal jurisdictional boundary (revision of 8(g) of the Outer Continental Shelf Lands Act (OCSLA)) of the Consolidated Omnibus Budget Reconciliation Act of April 8, 1986. The rule would also revise the rules for prevention of waste caused by unrestrained competitive development (section 5(j) of the OCSLA). Revisions of parts 250 and 256 to implement sections 5(j) and 8(g) will not result in substantial increases in costs to industry. Successful completion of these revisions will clarify the questions raised as to the ramifications of these legislative actions. Nonaction will only continue the confusion regarding the ramifications of the mandate in section 5(j).

Legal Authority: 43 USC 1331 et seq; 42 USC 4332 et seq

CFR Citation: 30 CFR 280

Legal Deadline: None

Abstract: The rule would revise regulations governing prelease activities for minerals other than oil and gas to make modifications similar to those being proposed for oil and gas activities. These changes would include requiring a notice for geological and geophysical scientific research activities and modifying proprietary terms for geophysical data and information and permit terms. The alternative is not to change the present requirements. The costs to those conducting prelease activities are not expected to significantly increase over the costs of complying with the current requirements.

CFR Citation: 30 CFR 216

Legal Deadline: None

Abstract: On May 9, 1988, the Minerals Management Service (MMS) published a Notice of Final Rulemaking in the Federal Register (53 FR 18408) to amend its regulations to provide for lease operators to report onshore production data to MMS as a result of the transfer of accounting responsibility from the Bureau of Land Management (BLM). The transfer of responsibility from BLM to MMS has been completed. The MMS has also completed installation of a new computer system. As a result, certain sections of 30 CFR part 216 relative to reporting requirements require amendment. The amendments are administrative changes only and will result in a reduction of operator reporting burden by the elimination of certain reporting forms. The amendments also clarify existing operator responsibilities for reporting operations information to MMS.

Legal Authority: 43 USC 1334

CFR Citation: 30 CFR 250

Legal Deadline: None

Abstract: MMS currently incorporates by reference 68 documents that describe recommended practices or design criteria that must be followed in conducting specific offshore operations. Many of these incorporated documents have been revised and replaced with new editions; therefore, MMS needs to update the offshore operating regulations by incorporation of new editions of documents to those incorporated by reference. Most new editions reviewed would be adopted; however, in some cases it may no

longer be necessary to incorporate a specific document into the regulations. The costs to lessees to implement these amendments are not expected to significantly increase over the costs of complying with the current program under 30 CFR 250.

Abstract: This rule would define coal to mean combustible carbonaceous rock composed principally of consolidated and chemically altered plant remains. The rule would place all definitions related to coal in 30 CFR 700.5 and use the American Society for Testing and Materials ranking system to define different ranks of coal.

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 701

Legal Deadline: None

Abstract: The term "affected area" as defined in 30 CFR 701.5 excludes public roads, if, among other things, there is substantial public use. The rule was remanded by the Federal District Court because the definition excluded too broad a class of public roads. Suspension of that rule has caused confusion and left state regulatory authorities and OSM with imperfect guidance in a difficult area. Consistent with the Federal District Court ruling this rule will provide clarification and nationwide consistency concerning the extent to which public roads must be included in the affected area. There would be some increased costs to regulatory authorities and the coal industry since certain public roads that are not now regulated will need to be incorporated into the affected area of existing permits.

Significance: Agency Priority

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 880

Legal Deadline: None

Abstract: This rule revises mine fire control procedures in Appalachia to incorporate changes in the Energy Policy Act of 1992. The Act requires OSM to enter into cooperative agreements with states having approved Abandoned Mine Land Reclamation (AMLR) programs. Several provisions contained in the original law creating the program to extinguish or control coal outcrop fires were waived by the Act for states having approved AMLR programs. The Act authorizes cooperative agreements with states having approved AMLR programs for the purpose of planning and executing projects for controlling and extinguishing fires in coal formations. The Act provides that matching share contributions are waived for states with approved AMLR programs. Further, any cooperative agreement entered into under the Act with a state eligible to receive funds from the Appalachian Regional Development Commission is not subject to review by that Commission.

Abstract: This rule adds specific criteria an operator must use in determining an excess moisture allowance claimed under 30 CFR 870.12. These criteria will codify technical guidance contained in AML Payer Letters issued since June 1988. The rule will identify acceptable methods and procedures for estimating total and inherent moisture contained in low rank coal. The criteria are based upon OSM experience and industry practices.

Legal Authority: 30 USC 1201 et seq

Abstract: This rule will reestablish time and distance requirements for backfilling and grading areas and contour mines so that reclamation proceeds as contemporaneously as practical with the surface mining operation. The rule will require the completion of backfilling and grading within certain times or distances

following coal removal. The proposal allows that for mining methods other than area and contour mining a schedule may be established by the regulatory authority, or on a case-by-case basis, a time and distance variance may be approved by the authority.

Abstract: The proposed rule will establish standards for review and rebuttal of presumptions regarding ownership and control relationships between permit applicants and violators as well as between permittees and violators. The rule will also specify requirements for verifying whether the ownership and control information specified on a permit application is complete, require use of OSM's applicant violator computer system and other available data by regulatory authorities when conducting violation reviews and establish procedures for regulatory authorities to use in determining the status of outstanding violations. The rule will prescribe sanctions in cases where a permit applicant intentionally fails to provide complete or accurate ownership and control information. In addition, the rule will specify measures for OSM to take should a state regulatory authority fail to implement these new

requirements. Regulations which may be modified include 30 CFR 773, 774, 778, and 843.

1888. BASIS FOR COAL WEIGHT DETERMINATION

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 870

Legal Deadline: None

Abstract: Some processors purchase raw coal from operators on an estimated clean coal basis. The Office of Surface Mining Reclamation and Enforcement's rules require reclamation fee payment on the actual gross weight of the clean or raw coal at the time of sale, transfer or use. Records required to document the basis of a coal sale are not clearly defined. Legislative changes provide OSM the authority to audit coal preparation plants, tipples and loading facilities. Records a person operating a coal preparation plant must maintain on

coal purchases are not specified in regulation. A person operating a preparation plant is not liable for fee payment on coal sales that exceed purchases. This rule would allow an operator who sells coal to a processor, who actually cleans the coal, to pay fees on the same basis on which the operator is paid by the processor. The person who operates a coal preparation plant would be liable for reclamation fee payment on all coal sold that exceeds coal purchased. Records to be maintained to document the basis for coal sales would be defined in regulation.

1901. REGULATIONS FOR ADMINISTERING ENTITLEMENTS TO COLORADO RIVER WATER IN THE LOWER COLORADO RIVER BASIN

Legal Authority: 43 USC 617; 43 USC 391; 43 USC 485; 43 USC 390; 5 USC 552

CFR Citation: 43 CFR 415

Legal Deadline: None

Abstract: Colorado River water has been apportioned for consumptive use among water users with valid water rights within the States of Arizona, California, and Nevada. Future requests for delivery of this water are expected to exceed the amount that will be available. Formal rules will help ensure that water is put to beneficial use and that unauthorized uses are eliminated. The rules will provide a basis for the Secretary of the Interior to curtail unauthorized water use and establish a due process for water users to appeal adverse action decisions. Without formal rules and an appeals process, it is likely that the Secretary would be unable to enforce an action to curtail unauthorized water use and be subject to legal action by valid water users for not preventing unauthorized diversions of water. The initial cost of implementing the rule is estimated at \$125,000; annual costs thereafter - \$12,000, all costs in 1991 dollars. Costs are expected to be recovered from beneficiaries.

1902. RECLAMATION OF ARID LANDS BY THE UNITED STATES

Legal Authority: 43 USC 373

CFR Citation: 43 CFR 230

Legal Deadline: None

Abstract: This rule is proposed for rescission because current procedures for managing water rights conform to state requirements rather than procedures stated in this CFR part. Further, the Bureau's relationships are with organizations rather than individuals, and homesteading is no longer a primary consideration for reclamation projects.

Legal Authority: 43 USC 373; 43 USC 451

CFR Citation: 43 CFR 406

Legal Deadline: None

Abstract: This rule was written in the 1950s to help carry out the Farm Unit Exchange Act of 1953, which provides for the exchange of certain unpatented farm units or private land on a Federal irrigation project by certain classes of qualified applicants. All farm units that were eligible for exchange have been exchanged, and since the program is no longer active, the rule needs to be rescinded.

Legal Authority: PL 94-180; PL 94-400

CFR Citation: 43 CFR 419

Legal Deadline: None

Abstract: This rule provides for the payment of claims for damages, losses, injuries, or death directly resulting from the failure on June 5, 1976, of the Teton Dam. There is no need to continue this rule because all claims against the United States resulting from the failure of the Teton Dam have been settled.

Legal Authority: 43 USC 502

CFR Citation: 43 CFR 423

Legal Deadline: None

Abstract: This rule prescribes policies, procedures, and authority of the Bureau to mitigate losses and damages resulting from drought conditions in 17 western states in 1987 through 1989. This rule was promulgated upon passage of the Drought Assistance Act of 1988. Because activities under the Act terminated on December 31, 1989, the rule is no longer necessary.

Abstract: This rule will revise
 provisions exempting landholders
 (owners and lessees) in districts subject
 to the acreage limitation provisions of
 reclamation law from the information
 collection requirements of the
 Reclamation Reform Act of 1982 (RRA)
 if their reclamation project
 landholdings total 40 acres or less. The
 Bureau has determined that there may
 be ways to increase the exemption
 threshold that would reduce the public
 reporting burden and improve the
 Bureau's ability to administer the RRA.

Abstract: This rule will define
 requirements for the
 crediting/disposition of revenues. The
 rule notifies water districts of a review
 of legislation, repayment contracts, and
 amendments, and of current Bureau
 practice relating to collection and
 crediting/disposition. The rule also
 states that inappropriate direct
 crediting of revenues will be
 discontinued effective January 1, 1994,
 and that inappropriate direct credits
 received for calendar year 1993 must
 be repaid to the Bureau with interest
 of 7.040 percent. Since the Bureau does
 not have the option to dispose of
 revenues other than as required by law,
 the intent of this review is to ensure
 that revenue crediting follows the
 requirements of law.

Abstract: This proposed rule establishes guidelines for mining in certain military installations under the Mining Law of 1872, as amended, and for assuring the safe, uninterrupted, and unimpeded use of the lands for military purposes. The Military Lands Withdrawal Act of 1986 specifically provided for certain military lands previously withdrawn from mining to be considered for opening to the operation of the Mining Law of 1872, as amended, with certain special restrictions. Military lands identified as suitable for mining through the Bureau of Land Management's planning system are proposed to be opened on the effective date of an opening order that will be published in the Federal Register.

1970. NONDISCRIMINATION ON THE BASIS OF AGE IN PROGRAMS OR ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Legal Authority: 42 USC 6103

CFR Citation: 28 CFR 42, subpart I (New)

Legal Deadline: None

Abstract: This regulation will implement the Age Discrimination Act of 1975, as amended, in programs or activities assisted by the Department of Justice (DOJ). The statute requires that Federal agencies providing Federal

financial assistance promulgate implementing regulations consistent with the general regulations issued by the Secretary of Health and Human Services (HHS), and the statute provides that such agency regulations shall not be effective until approved by HHS. In 1980 the proposed rule was published for comment, modified, approved by the DOJ Office of Legal Counsel, and on November 10, 1980, a draft final rule was sent to HHS for approval. On July 13, 1984, HHS conditionally approved the draft regulation. On August 12, 1987, DOJ submitted to HHS a draft final

regulation. On August 3, 1991, HHS approved a DOJ draft final regulation.

Abstract: The Bureau of Prisons is issuing an interim rule on Voluntary Community Service Projects. A volunteer community service project is a project designed to provide for the public good which has been developed by local government or by a nonprofit charitable organization for approval by the Bureau. This rule provides for the voluntary participation by an inmate in a volunteer community service project. The intent of this rule is to promote the public interest and provide for the security and good order of the institution by reducing inmate idleness.

Legal Authority: 18 USC 4126

CFR Citation: 28 CFR 345

Legal Deadline: None

Abstract: The Bureau of Prisons is proposing to revise and reorganize its rule on UNICOR Inmate Work Programs. This proposed rule revises, and codifies into one part, the existing provision on inmate hiring procedures, pay, and scholarship and incentive awards programs. It updates Bureau policy by adding provisions on position classification and recruitment, physical and medical work limitations, inmate worker standards, performance appraisal, dismissal procedures, benefit retention, and training programs. The intent of this proposal is to enable the Bureau to continue to employ and train inmates in a manner that will assist the inmate in post-release employment.

Abstract: This rule reduces the number of INS-issued documents that are acceptable for purposes of completing the Employment Eligibility Verification Form, I-9. The rule will further simplify compliance with the employment eligibility verification requirements and address the concerns of employers who allege confusion created by the number of acceptable documents on the Form I-9. This rule should reduce any uncertainty on the part of employers, and thereby reduce potential employment discrimination based upon

misapplication of the employment eligibility verification requirements.

Abstract: This rule implements sections 601(a)(3) and 602(a)(4) of the Immigration Act of 1990 by permitting the Service to introduce under certain restrictions, relevant information that is classified under EO 12356 to be considered "in camera" and "ex parte" in exclusion, deportation and rescission hearings by a special inquiry officer.

This rule is necessary to aid in expelling alien terrorists from the United States and thus reduces the threat that such aliens pose to the national security and other vital interests of the United States.

Abstract: Presently international passengers pay a five dollar user fee to fund immigration inspection services at airports and some seaports. A legislative change is being sought to section 286 of the INA, to permit airport operators, bridge owners and local government or special governmental districts to contract with the INS to provide augmented levels of inspectional services at airport, seaport or land border ports of entry, beyond

that level available through the user fee or appropriations process. This rule would be promulgated after such change was made to the INA.

Abstract: This rule modifies two grounds for suspension or disbarment of attorney or nonattorney representatives by removing the restriction on attorneys or their representatives to advertise the availability of their services on immigration matters, and by removing the restriction to make and retain a copy of a record in a case without authorization.

Removal of these two outdated grounds for ethical standards should increase the respectful attention paid by attorney and nonattorney representatives to the serious obligations imposed by 8 CFR 292. The effect of these modifications will be that INS regulations regarding suspension and disbarment will conform with the current state of the law and everyday practice.

Abstract: This rule provides procedures to the States to transmit to the Immigration and Naturalization Service certified records of conviction of aliens who have been convicted of violating the criminal laws of the State.

The rule defines the term "record of conviction," and will provide a means of certifying records that are electronically transmitted to the Service by the States.

The rule also provides the States flexibility by permitting the use of abstracts of criminal conviction records, if that option makes providing the needed records easier.

The rule will help the States meet the requirements of Section 507 of the Immigration Act of 1990, and will help the Service in expelling from the United States, aliens who have been convicted of violating criminal laws of this country.

Abstract: This rule proposes to amend the regulations to allow the Immigration and Naturalization Service to require a fee for the issuance of specified documents at land border

Ports-of-Entry (POEs). The imbalance between workload and resources available to land border operations has necessitated the implementation of appropriate solutions to supplement the appropriate resources. The revenue generated by the collection of land border user fees will enable the Service to allocate additional resources to improve service to the public at land border POEs.

Abstract: The Immigration Reform and Control Act of 1986 (IRCA) imposes sanctions against employers who hire aliens not authorized to work. Since many of the nation's agricultural employers have become dependent upon such workers to meet production and harvesting needs, Congress created the Special Agricultural Workers (SAW) Program and the Replenishment Agricultural Workers (RAW) Program to grant permanent resident status to

certain agricultural workers. To clarify the process through which employers can employ nonimmigrant seasonal and temporary agricultural workers, Congress moved agricultural employment from H-2 classification into a separate H-2A class, and incorporated a labor certification process into the statute. This rule establishes special H-2A regulatory criteria. It supplements the Department of Labor's rules covering the temporary agricultural labor certification process. This rule amends Service regulations relating therefore to temporary alien workers seeking classification under section 101(a)(15)(H) of the Immigration and Nationality Act.

Abstract: This rule amends regulations by permitting service of a subpoena to be made by an immigration officer except when the subpoena is issued by a special inquiry officer on behalf of a party other than the Immigration and Naturalization Service.

The rule would permit an immigration officer to ask for a subpoena from an immigration judge. It deletes the Regional Director, Office of Professional Responsibility, as an official who may issue a subpoena and/or designate service of same. The new rule specifically permits the subpoenaing of demonstrative evidence. Finally, the rule authorizes specified Immigration Service officials as well as special inquiry officers, to issue subpoenas on behalf of the service subsequent to commencement of any proceeding.

Legal Authority: 8 USC 1356; 8 USC 1187; 8 USC 1103; 8 CFR 2

CFR Citation: 8 CFR 217

Legal Deadline: None

Abstract: INS Regulation No. 1406-91 amended 8 CFR 217 to enhance the Visa Waiver Pilot Program by permitting nationals of countries designated for the program to apply for admission at land border ports as well as at airports and seaports.

INS Regulation No. 1447-91 further amends 8 CFR 217 by permitting nationals of 13 additional designated countries, Andorra, Austria, Belgium, Denmark, Finland, Iceland, Liechtenstein, Luxembourg, Monaco, New Zealand, Norway, Spain, and San Marino to apply for admission for 90 days or less as nonimmigrant visitors for business or pleasure without first obtaining a nonimmigrant visa. INS Regulation No. 1628-93 revokes permission of nationals of Italy to apply for admission for 90 days or less as nonimmigrant visitors for business or pleasure without first obtaining a nonimmigrant visa. INS Regulation No. 1622-93 allows for the extension of the visa waiver pilot program to nationals of Brunei to apply for admission for 90 days or less as nonimmigrant

visitors for business or pleasure without first obtaining a non-immigrant visa.

Abstract: This rule revises the requirement that all supporting documents submitted by individuals applying for immigration benefits be accompanied by certified copies or that copies be certified by designated INS personnel at the time of receipt for retention with the petition(s) or application(s). Available data do not show a significant number of rescission/revocation actions based on fraudulent claims to warrant continuing to require that all documents in support of a request for an immigration benefit be certified. The public will be less burdened with having to produce and pay for certified copies. The public will also have to spend less time standing in line at an INS office waiting for their documents to be read and matched for certification.

Implementation date for TPS Program and for designation of El Salvador.

Abstract: This rule implements a new section 244A of the Immigration and Nationality Act, established by section 302 of the Immigration Act of 1990, IMMACT, Pub. L. 101-649, November 29, 1990. This rule sets forth procedures for making application for Temporary Protected Status and provides, in accordance with the act, an opportunity for eligible individuals to temporarily remain and work in the United States until it is safe for them to return to their homeland.

This regulation also provides for the designation of other countries for Temporary Protected Status and specifies when such designations are to expire and discusses fees for EAD Authorization Document.

Regulation also provides an exception to the registration deadlines for TPS for persons who were in valid immigrant or non-immigrant status during the initial registration period. The regulation also updated the application process to conform with current procedures and reflect changes made by IMMACT.

Abstract: This rule implements section 405 of the Immigration Act of 1990, Pub. L. 101-649, to allow for the naturalization of natives of the Philippines, based upon certain active-duty military service during WWI, who would not otherwise be eligible for naturalization. Approximately 50,000 persons will be eligible for naturalization as a result of the implementation of this regulation. (INS No. 1404-91)

This rule amends the existing fee schedule for the INS to recover the cost of providing special services which allow for the naturalization of natives of the Philippines, based upon certain active duty military service during World War II. (INS No. 1404F-92).

Abstract: The Immigration Act of 1990, Pub. L. 101-649, (IMMACT) conferred upon the Attorney General, as of October 1, 1991, the responsibility for making final determinations on applications for naturalization. This regulation provides for the implementation of the new administrative system and serves to codify those essential substantive and procedural requirements for naturalization provided by statute and previous judicial interpretations and precedent. The rule also makes those technical and administrative changes as are necessary to allow for more efficiency in administering the naturalization provisions, and provides additional guidance and clarification to Service officials. This rule also implements the Miscellaneous and Technical Amendments Act of 1991.

Abstract: This regulation implements provisions of the Immigration Act of 1990 (IMMACT), Pub. L. 101-649, as they relate to temporary alien workers seeking nonimmigrant classification and admission to the US under sections 101(a)(15)(H),(L),(O), and (P) of the Immigration and Nationality Act.

This rule also contains technical amendments which reflect the Service's operating experience under the H and L classifications.

This rule will conform Service policy to the intent of Congress as it relates to these classifications, implement new nonimmigrant classifications and requirements established by IMMACT, and clarify for businesses and the general public requirements for classification, admission, and maintenance of status.

INS Regulation 1452-92 alters some of the procedures required to petition for an H-1B nonimmigrant and also describes the eligibility criteria for foreign physicians. The rule clarifies new requirements for eligibility and admission.

INS Regulation 1454-92 implements provisions of Pub. L. 102-232 concerning aliens eligible for H-1B, O, and P classifications.

Abstract: The Immigration and Naturalization Service (Service) proposes to amend its regulations concerning valid evidence of lawful permanent residence. The proposed regulations would require all aliens in possession of Form I-151, or prior documents, to replace their card with the more secure, machine-readable Alien Registration Receipt Card, I-551. (INS No. 1381R-93)

On June 26, 1992 the Immigration and Naturalization Service (the Service) published a Notice in the Federal Register announcing the expiration of validity of Alien Registration Receipt Card, Form I-151 and all prior documentation such as Forms AR-3, and AR-103 on August 2, 1993.
