CFR Citation: 8 CFR 204

Legal Deadline: None

Abstract: This rule reinstates and clarifies procedures which determine

when it becomes invalid and ceases to convey a priority date. It also reinstates and revises procedures relating to a petitioner's appellate rights by extending the period in which an appeal may be filed from 15 to 30 days. This will standardize the filing period given petitioners who file appeals with the Board by conforming them with the 30-day filing period given applicants who appeal with the Administrative Appeals Unit.

Abstract: This section prohibits discrimination on the basis of national origin and citizenship status. The existing regulations implementing the antidiscrimination provisions of section 274B of the Immigration and Nationality Act, 8 U.S.C. 1324b, need to be modified to incorporate the Immigration Act of 1990 amendments. As currently written, portions of the existing regulations conflict with the amended statute. This conflict creates a significant problem in the enforcement and the comprehension of the antidiscrimination provisions. In addition, as the case law develops under this new statute, two issues have arisen. First, many issues have not been addressed or defined by the statute or regulations. Second, while it is possible for these issues to be decided on a case by case basis, the case law is not reported by any service. This has created a significant problem in the comprehension of the

antidiscrimination provisions. The main objectives of this rulemaking will be to eliminate contradictions, to incorporate additions, to promote a better understanding of the antidiscrimination provisions, and to determine whether additional clarification of the (cont)

Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Labor.

ACTION: Semiannual agenda of regulations selected for review or development.

SUMMARY: This document sets forth the Department's semiannual agenda of regulations that have been selected for review or development during the coming year. The agenda complies with the requirements of both Executive Order 12291 and the Regulatory Flexibility Act. The agenda lists all regulations that are expected to be under review or development between October 1993 and October 1994, as well as those completed during the past 6 months.

FOR FURTHER INFORMATION CONTACT:
Roland G. Droitsch, Acting Assistant Secretary, Office of the Assistant Secretary for Policy, U.S. Department of Labor, 200 Constitution Avenue NW., Room S-2312, Washington, DC 20210, (202) 219-9058.

Note: Information pertaining to a specific regulation can be obtained from the agency contact listed for that particular regulation.

SUPPLEMENTARY INFORMATION: Executive Order 12291 and the Regulatory Flexibility Act require the semiannual publication in the Federal Register of an agenda of regulations. The Regulatory Flexibility Act became effective on January 1, 1981, and applies only to regulations for which a notice of proposed rulemaking was issued on or after that date. It requires the Department of Labor to publish an agenda listing all the regulations it expects to propose or promulgate that are likely to have a "significant economic impact on a substantial number of small entities" (5 U.S.C. 602). Executive Order 12291 became effective February 17, 1981, and in substance, requires the Department of Labor to publish an agenda listing all the regulations it expects to have under active consideration for promulgation, proposal, or review during the coming 1-year period.

As permitted by law, the Department of Labor is combining the publication of its agendas under the Regulatory Flexibility Act and Executive Order 12291.

The Department is committed to issuing and enforcing all regulatory actions necessary to protect workers and others, as well as to carry out its responsibilities under the many statutes and Executive order programs it administers. However, in order to allow me and my staff to have a sufficient opportunity to review the regulatory plans of the Department, many of the dates for next action are not shown and the nature of the next action to be taken may be undetermined. For example, more than half of the safety and health standards on which OSHA has been working fall into this category.

All interested members of the public are invited and encouraged to let departmental officials know how our regulatory efforts can be improved and, of course, to participate in and comment on the review or development of the regulations listed on the agenda.

Robert B. Reich,
Secretary of Labor.

2106. COORDINATED ENFORCEMENT OF FARM LABOR PROTECTIVE STATUTES

Legal Authority: 29 USC 49 et seq; 29 USC 201 et seq; 29 USC 651 et seq; 29 USC 1801 et seq; 8 USC 1188(g)(2); 5 USC 301

CFR Citation: 29 CFR 42

Legal Deadline: None

Abstract: The Department intends to revise its regulations for coordinated enforcement of farm protective statutes. The rule will clarify existing regulatory language and update the regulations by making nomenclature and other technical amendments. The sections also will be reorganized for clarification. These regulations were first promulgated in 1980 to coordinate the farm labor enforcement activities of the Department's Employment and Training Administration, the Employment Standards Administration, the Occupational Safety and Health Administration, and the Office of the Solicitor of Labor (45 FR 39489). The regulations establish a National Farm Labor Coordinated Enforcement Committee, which meets quarterly, consisting of the heads of the above

DOL agencies, to oversee that coordination. A Regional Farm Labor Coordinated Enforcement Committee, which meets quarterly, is established in each DOL regional office. The Regional Committee is made up of the head of each of the above Agencies' regional offices. Each Regional Committee holds at least one annual public meeting to discuss farm labor issues.

Additional Information: Since 1980, a number of changes have taken place in DOL's farm labor activities, such as: The Farm Labor Contractor Registration Act has been replaced by the Migrant and Seasonal Agricultural Worker Protection Act; the title of the head of the National Committee has been

changed from Under Secretary to Deputy Secretary; the Immigration Reform and Control Act of 1986 has amended the Immigration and Nationality Act, authorizing DOL to enforce work contracts executed by employers of alien (H-2A) farmworkers; the role of States in operating the Employment Service under the Wagner-Peyser Act was enhanced in 1982; regional offices of the Employment Standards Administration no longer exist and the regional farm labor enforcement role is now coordinated by the Regional Administrator for Wage Hour; and the Assistant Secretary for Policy has assumed a role in farm labor programs at the national level. These and other changes necessitate updating the coordinated enforcement regulations.

Abstract: The Department's Office of Administrative Law Judges is proposing to adopt regulations that would permit the use of a settlement judge to mediate

settlement negotiations. The settlement judge process (a form of alternative dispute resolution) provides the parties with an assessment of the relative merits of their cases and thereby encourages a settlement. Any party could veto the use of the procedure.

Abstract: Section 3(1) of the Fair Labor Standards Act requires the Secretary of Labor to issue regulations with respect to minors between 14 and 16 years of age ensuring that the periods and

conditions of their employment do not interfere with their schooling, health, or well-being. The Secretary also is directed to designate occupations that may be particularly hazardous for minors 16 and 17 years of age. Child Labor Regulation No. 3 sets forth the

permissible industries and occupations in which 14- and 15-year olds may be employed. In addition, this regulation specifies the number of hours in a day and in a week, and time periods within a day that such minors may be employed. The nonagricultural hazardous occupations orders which prohibit the employment of minors in such occupations are also contained in 29 CFR 570. Changes in technology and job content over the years require a review of the regulations to ensure the safety and health of such minors and at the same time avoid unnecessary restrictions on their employment opportunities. Revisions to HOs 2, 10, and 12 were published in final on 11/20/91 (cont)

Significance: Regulatory Program

Legal Authority: 29 USC 213(a)(1)

CFR Citation: 29 CFR 541

Legal Deadline: None

Abstract: These regulations set forth the criteria used in the determination of the application of the Fair Labor Standards Act exemption for "executive," "administrative," "professional" and "outside sales employees" from the minimum wage and overtime requirements of the Act. The existing regulation was targeted for review by the President's Task Force on Regulatory Relief. A final rule increasing the salary test criteria was published on 01/13/81 (46 FR 3010) and was scheduled to become effective on 02/13/81. On 02/12/81 (46 FR 11972) an indefinite stay of the final rule was published. On 03/27/81 (46 FR 18998) a proposal to suspend the final rule indefinitely was published with comments due by 04/28/81. As a result of numerous comments and petitions received from industry groups regarding the duties and responsibilities tests as set forth in the regulations, as well as recent case law developments, the Department concluded that a more comprehensive review of these regulations was needed and decided to reopen the comment period and broaden the scope of the review to include all aspects of the regulations. An ANPRM was published on 11/19/85 and its comment period was (cont)

2110. STANDARDS FOR WAIVERS UNDER SECTION 503 OF THE REHABILITATION ACT

Significance: Regulatory Program

Legal Authority: 29 USC 706; 29 USC 793, as amended by PL 99-506; PL 100-630; PL 100-259; PL 101-336; PL 102-569; EO 11758

CFR Citation: 41 CFR 60-741

Legal Deadline: None

Abstract: OFCCP is planning to issue regulations that will set forth standards for waivers (from provisions of Section 503 of the Rehabilitation Act) sought by federal contractors for facilities that they deem totally separate from and not involved in government contract work. OFCCP is required to issue these regulations by the 1992 Rehabilitation Act amendments.

CFR Citation: 29 CFR 507

Legal Deadline: Final, Statutory, October 1, 1991.

Abstract: The Employment Standards Administration (ESA) and the Employment and Training Administration (ETA) promulgated regulations governing the filing and enforcement of labor condition applications filed by employers seeking to use aliens in specialty occupations on H-1B visas. Under the Immigration and Nationality Act as amended by the Immigration Act of 1990, an employer seeking to employ an alien in a specialty occupation on an H-1B visa is required to file with the Department of Labor, and receive approval therefor, a labor condition application before the Immigration and Naturalization Service may approve an H-1B visa petition. The labor condition application process is to be administered by ETA and complaints and investigations regarding labor condition applications will be the responsibility of ESA. An interim final rule was published on October 22, 1991, effective October 1, 1991 (56 FR 54750). On December 12, 1991, Congress enacted the Miscellaneous and Technical Immigration and Naturalization Amendments of 1991. On January 13, 1992, the Department published conforming changes to these regulations.

Significance: Agency Priority

Legal Authority: 41 USC 351 et seq; 79 Stat 1034, as amended in 86 Stat. 789; 90 Stat 2358; 41 USC 38; 41 USC 39; 5 USC 301

CFR Citation: 29 CFR 4

Legal Deadline: None

Abstract: The Service Contract Act (SCA) applies to Federal contracts principally for the furnishing of services through the use of service employees and, on contracts over \$2,500 where the predecessor contract was not subject to a collective bargaining agreement, requires the Department of Labor to determine prevailing wages and fringe benefits in the locality to be paid to various classifications of workers on the contract. Prevailing wage determinations issued by the Department, which become part of the Federal contract, establish the minimum compensation for employees performing on that contract.

Additional Information: The proposed rule would reflect the Department's practice of issuing fringe benefit amounts derived from data collected on a nationwide basis. Among other things, the proposed rule would also provide for a variance from the Act's requirement for locality-based fringe benefit determinations pursuant to

Section 4(b) of SCA, which permits variances from the Act's requirements in "special circumstances" where the Secretary determines the variance is "necessary and proper in the public interest or to avoid serious impairment of government business, and is in accord with the remedial purpose of this Act to protect prevailing labor standards." The proposal would also include minor technical amendments to update and clarify the regulations.

Abstract: Section 13(a)(15) of the Fair Labor Standards Act (FLSA) provides an exemption from minimum wage and overtime compensation for domestic service employees engaged in providing companionship services. Section 13(b)(21) of the FLSA provides an exemption from overtime compensation for live-in domestic service employees. The Department intends to revise section 552.109 of regulations, 29 CFR Part 552, Application of the Fair Labor Standards Act to Domestic Service, to clarify that these exemptions are applicable to third-party employers or temporary help agencies only where the domestic service worker is jointly employed by the third-party employer or temporary help agency and the family or household using their services.

Abstract: The Energy Policy Act of 1992, Public Law 102-486, was enacted on October 24, 1992. Among other provisions, this law amended the employee protection provisions for nuclear whistleblowers under former Section 210 of the ERA. The amendments affect only ERA whistleblower complaints and do not extend to the procedures established in 29 CFR Part 24 for handling employee whistleblower complaints under the Federal statutory employee protection provisions other than the ERA. The legislative amendments to ERA apply

to whistleblower claims filed under section 211(b)(1) of the ERA as amended (42 USC section 5851(b)(1)) on or after October 24, 1992, the date of enactment of section 2902 of the Energy Policy Act of 1992 (section 2902, Public Law 102-486; 106 Stat. 2776). The Department proposes to establish modified procedures and time frames for handling ERA complaints under 29 CFR Part 24 to implement the statutory amendments.

Other deadline is for interim final rule.

Abstract: Public Law 103-3, the Family and Medical Leave Act of 1993, which became effective on August 5, 1993,

requires employers with 50 or more employees to provide up to 12 weeks of unpaid leave for "eligible employees" to use for the care of a newborn or newly adopted child, for the care of a family member with a serious medical condition, or for their own illness. It also requires employers to maintain health insurance coverage and job protection for the duration of the leave, and sets minimum length of service and hours of work requirements before employees become eligible. The Department of Labor issued interim final regulations to implement Title I of the Act as it applies to private sector and certain governmental employers on June 4, 1993, and will issue final regulations after evaluation of public comments received and a period of experience with the new law after it becomes effective. OPM will issue regulations to implement similar provisions of the Act which have application to Federal sector employees within its jurisdiction.

Abstract: The Labor-Management Reporting and Disclosure Act of 1959, as amended (LMRDA) requires covered labor organizations to file an annual financial report with the Department of Labor. On October 30, 1992, final rules were published in the Federal Register which revised the detailed annual

financial reports (Form LM-2 or LM-3) and issued a new abbreviated annual financial report (Form LM-4). The effective date of the October 30, 1992 final rules is December 31, 1993. This revision proposed to extend the effective date from December 31, 1993 to December 31, 1994 because of problems encountered by labor organizations and the Department in connection with efforts to implement the revised reporting forms and because further study of the revisions may be necessary, including evaluating whether modification or rescission of some or all of the revisions may be appropriate.

Significance: Agency Priority

Legal Authority: 49 USC 1552

CFR Citation: 20 CFR 618

Abstract: These regulations are being developed to implement the monetary provisions contained in Sec. 43 of the Airline Deregulation Act of 1978. The Act requires the Secretary of Labor to specify the percentage of prior salary which an "eligible protected employee" would receive as a benefit payment under the Act. An eligible protected employee is a person who has had at least 4 years of employment with a certificated air carrier as of October 24,

1978 and who loses his or her job during the ten years following such date in a bankruptcy or major employment contraction if and only if the Department of Transportation determines that the principal causes of such job loss was deregulation. On May 17, 1984 the U.S. District Court for the District of Columbia held that Section 43 of the Airline Deregulation Act was unconstitutional. On July 16, 1985, the U.S. Court of Appeals decided that the employee protection provisions of Section 43 were severable from the legislative veto provisions. The U.S. Supreme Court ruled on March 25, 1987 that the legislative veto provisions were unconstitutional but the first right-to-hire provisions were

constitutional, therefore, rulemaking can proceed on the (cont)

Abstract: Since 1981, Congress has enacted major changes in the Federal Unemployment Tax Act (FUTA) and Social Security Act (SSA) with respect to advances to States for the payment of unemployment insurance and the repayment of such advances and interest thereon. Promulgation of comprehensive regulations is being

undertaken in two phases. The proposed rule will replace instructions contained in several Unemployment Insurance Program Letters approved under OMB No. 1205-0199 expiring November 30, 1993. This action represents the second phase, governing States receiving and voluntarily repaying advances to their unemployment funds and paying interest on such advances. The final rule for the first phase, governing relief from automatic repayment and interest charges, was published in the Federal Register on September 26, 1988 (RIN 1205-AA14).

Abstract: Before the Department of State (DOS) and the Immigration and Naturalization Service (INS) may issue visas and admit certain immigrant aliens to work permanently in the United States, the Secretary of Labor pursuant to Section 212(a)(5)(A) of the Immigration and Naturalization Act (INA) must certify to the Secretary of State and to the Attorney General that: (a) There are not sufficient United States workers who are able, willing, qualified and available at the time of the application for a visa and admission into the United States and at the place where the alien is to perform work; and (b) the employment of the alien will not adversely affect

the wages and working conditions of similarly employed U.S. workers (8 USC 1182(a)(5)(A)). The Department of Labor (DOL) has promulgated regulations at 20 CFR Part 656 pursuant to and to implement section 212(a)(5)(A) INA 212(a)(5)(A)). Abstract: ETA has undertaken a review of the Apprenticeship system to determine the role of apprenticeship in meeting America's future needs for a skilled work force. The Apprenticeship 2000 review, through research, review of existing materials and related programs, is considering alternative ways to strengthen and expand apprenticeship and related training programs. Existing regulations governing apprenticeship programs may be revised to: 1) improve the existing

Abstract: This rule is necessary to implement certain revisions to the nonimmigrant H-1B visa category made by Public Law 101-649. The law provides that no alien may be admitted or provided status under this category unless the petitioning employer attests to the Secretary of Labor that the employer is offering prevailing wages and working conditions and that there is not a strike or lockout in the course of a labor dispute in the occupational classification at the place of employment. The law also directs the employer to notify the bargaining representative at the place of employment of the filing of an H-1B petition. If there is no bargaining representative, the employer must post a notice in conspicuous locations at the place of employment. The law provides a procedure for any aggrieved person or organization to challenge the employer's attestation.

Abstract: It is the purpose of title IV, section 402, of the Job Training Partnership Act to provide job training, employment opportunities, and other services for those individuals who suffer chronic seasonal unemployment and underemployment in the agriculture industry. These conditions have been substantially aggravated by continual advancements in technology and mechanization, resulting in displacement, and contribute significantly to the Nation's rural employment problem. This problem is Federal in scope. No alternative solutions are under consideration at this time. Benefits include fuller rural employment. Over \$70 million is appropriated annually by Congress for this program.

Legal Authority: 42 USC 1302

CFR Citation: 20 CFR 602

Legal Deadline: None

Abstract: The regulation will provide explicit authority for the Revenue Quality Control (RQC) program to assess the quality of State unemployment compensation tax program operations, including the extent to which employers comply with the laws regarding the reporting and payment of unemployment insurance taxes (contributions) due. The alternatives considered were to implement the program under existing nonregulatory authority or to allow the States to develop such programs voluntarily. The costs of the program is the one or two staff years per State needed to conduct the RQC assessments, plus some time to program new data items. The benefits are more effective and efficient tax operations and better service to the system's customers, in this case the employer community. These benefits accrue as better performance information is developed for both States and Federal staff, leading to improved operations.

Abstract: This regulation amends 20 CFR parts 626 and 638, Job Corps Regulations under Title IV-B of the Job Training Partnership Act (JTPA). These amendments are required so that the Job Corps regulations will conform to the Job Training Reform Amendments of 1992 (Amendments). Amending its regulations enables Job Corps to implement related portions of the Amendments, which become effective July 1, 1993. It should be noted that no major changes in Job Corps policy or program content/design are necessitated by the Amendments. The proposed rulemaking involves changes in (1) language related to income eligibility, (2) definition of "family" and "family of one," (3) language defining eligibility for Job Corps through receipt of food stamps, (4) provision for a portion of the total Job Corps enrollment to come from persons who are age 22 through 24, and (5) establishment of annual performance standards for centers and other program components. 2146. PERMANENT LABOR CERTIFICATION PROGRAM: PILOT LABOR MARKET INFORMATION PROVISIONS

Significance: Regulatory Program

Legal Authority: PL 101-649

CFR Citation: 20 CFR 656

Legal Deadline: NPRM, Statutory, October 1, 1991. Final, Statutory, April 1, 1992. Other, Statutory, September 30, 1994.

The law becomes effective on October 1, 1991, and is effective until September 30, 1994.

Abstract: This rule is necessary to implement section 122 of Public Law 101-649, the Immigration Act of 1990. This section requires the Secretary of Labor to establish a pilot which provides for a determination of labor

shortages or surpluses in up to 10 occupational classifications. The occupation may then be used in lieu of an individual, case-by-case labor certification. The pilot program is effective during the 3-fiscal year period beginning with FY 92.

Significance: Regulatory Program

Legal Authority: PL 101-649

CFR Citation: 20 CFR 655; 29 CFR 508

Legal Deadline: Other, Statutory, October 1, 1991.

Other deadline is for interim final rule.

Abstract: This rule is necessary to implement section 221 of the Immigration Act of 1990, Public Law 101-649, which regards off-campus work authorization for students under the F-1 visa. In order to employ an F-1 student, the employer must provide the Secretary of Labor with an attestation that it has recruited for at least 60 days for the position, and that it will pay the greater of the prevailing or actual wage. The Secretary also has enforcement responsibility under this new law.

Significance: Regulatory Program

Legal Authority: 29 USC 1579(a); 29 USC 1662e(i)

CFR Citation: Not yet determined

Legal Deadline: Final, Statutory, May 14, 1991.

Abstract: Regulatory action is necessary to provide specific requirements and guidelines for programs designed to assist workers dislocated as a consequence of compliance with the Clean Air Act of 1990 (S. 1630). Under the Act, grants may be made to States, certain substate grantees, employers, employer associations and representatives of employees -- to provide training, adjustment assistance and employment services to eligible individuals, and to make needs-related payments to such individuals in accordance with the requirements of the Act. These provisions are being promulgated to implement the amendment to the Job Training Partnership Act (JTPA) enacted as part of the Clean Air Act which added a new Section 326 to Title III of JTPA.

Additional Information: PWBA is considering the publication of proposed regulations under section 206(d)(3) of ERISA and related provisions contained in section 414(p) of the Internal Revenue Code which would clarify the statutory requirements pertaining to Qualified Domestic Relations Orders (QDROs). Under amendments effected by the Retirement Equity Act of 1984 (REA) to the anti-assignment and alienation provisions of ERISA and the Code, benefits under a pension plan may be assigned or alienated pursuant to a domestic relations order only if the order constitutes a QDRO. This Request for Information is intended to facilitate early public participation in the development of regulations, in the event that regulations are proposed.

Abstract: Regulation 29 CFR 2510.3-3(d)(2)(ii) describes the circumstances under which a plan participant receiving a distribution of benefits ceases to be a participant covered under the plan. Under the existing regulation, a participant covered under a pension plan loses his status as such

where he receives an annuity contract guaranteeing his benefits from an insurance company licensed to do business in a state. PWBA will solicit suggestions from the public with respect to development of a proposed amendment of this regulation that would provide that a participant covered under a pension plan would not automatically lose his status upon purchase of an annuity.

Abstract: The Department believes it is appropriate to undertake a comprehensive review of the current disclosure requirements to ensure that participants and beneficiaries are provided meaningful information and that such requirements take into account technological developments that result in more effective and timely communication of benefit and plan information. In this regard, the Department intends, as an initial step in this review, to solicit comments, recommendations and information from the public concerning the current disclosure requirements and changes thereto, taking into account the experience of the past 19 years and changes in communication techniques and types of plans. The public input received in response to this solicitation should enable the Department to review the current disclosure framework and to develop meaningful proposals for changes based on up-to-date information concerning current plan practices.

Significance: Agency Priority

Legal Authority: 29 USC 1021

CFR Citation: 29 CFR 2520.101

Legal Deadline: None

Abstract: Section 101(d) of ERISA provides that when an employer maintaining a plan other than a multiemployer plan fails to make a required installment or other payment required to meet minimum funding standards under section 302 to a plan

before the 60th day following the due date, the employer shall notify each participant and beneficiary of such failure. Section 101(d) also provides that the notice shall be made at such time and in such manner as the Secretary shall provide. Because OBRA 1989 added section 502(c)(3) to permit the imposition of substantial penalties upon employers who fail to give the notice required by section 101(d), there will be an increased need for regulatory guidance by the Secretary as to the time and manner in which notice under section 101(d) must be provided.

Abstract: The Labor-Management Reporting and Disclosure Act of 1959, as amended (LMRDA), requires covered labor organizations to file annual financial reports with the Department

Significance: Regulatory Program

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 56; 30 CFR 57; 30 CFR 70; 30 CFR 71

Legal Deadline: None

Abstract: Hearing impairment is a serious occupational hazard in the mining industry. Many miners are consistently exposed to noise levels that are near maximum levels currently permitted by MSHA. As a result, miners may be suffering hearing impairment, notwithstanding existing MSHA noise standards. MSHA is developing a proposed rule which

DOL—MSHA

would establish noise standards to apply to all mining.

2168. WATERLINES IN BELT CONVEYOR ENTRIES

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 75, subpart L

Legal Deadline: None

Abstract: MSHA currently requires waterlines to be installed along all belt conveyors in underground coal mines. Potential firefighting problems exist whenever air used to ventilate belt conveyor entries moves in an outby direction. Waterlines located in these entries are susceptible to severe damage caused by the spread of fire to the outby areas where the water is needed to fight the fire. Heat from the fire could melt or otherwise damage the waterline, necessitating the installation of a separate waterline around the fire, delaying the firefighting effort. MSHA is evaluating the need to revise this regulation so that waterlines are located to effectively fight all fires, regardless of the direction of air flow.

Legal Authority: 30 USC 957

CFR Citation: 30 CFR 12

Legal Deadline: None

Abstract: The use of carbon monoxide monitoring systems in underground coal mines can be effective in monitoring mine atmospheres to detect fires in the early stages of development. If mine operators depend on these systems for early fire detection, minimum performance criteria are necessary to ensure proper performance. MSHA intends to propose

approval requirements for these systems for use in underground coal mines.

Significance: Agency Priority

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 75.1101-23

Legal Deadline: None

Abstract: Currently 30 CFR 75.1101-23 requires each operator of an underground coal mine to adopt a program for mine evacuation in the event of an emergency, such as fire or explosion. However, the existing standard does not directly address heat sensing and carbon monoxide detection systems and the actions to be taken when such systems activate an alarm. In addition, regular review and update of firefighting and evacuation plans is not required by the existing standard. This rulemaking would address these issues.

Abstract: The advance notice of proposed rulemaking published in December 1991 requested comments on how to address the hazards of working in confined spaces. In mining operations, the majority of the fatalities associated with confined spaces occur in storage bins, hoppers, tanks, and stockpiles. The primary hazards to miners occur from being trapped by shifting piles of loose materials, falling into materials, and being struck by overhanging materials. Many toxic substances and physical hazards are identical to those confined space hazards that exist in general industry for which OSHA issued a final rule on January 14, 1993 (58 FR 4462).

Proposed Rule Stage

CFR Citation: Not yet determined

Abstract: During the past decade, diesel-powered equipment has been introduced into the underground coal mining industry in increasing numbers. MSHA does not have regulations that specifically address the health hazards associated with the particulate in the exhaust emitted by diesel-powered equipment in underground mines. In July 1990, the National Institute for Occupational Safety and Health issued an exploratory risk assessment for diesel particulate based on an animal study. The Agency is in the early stages of examining the appropriateness of developing a permissible exposure limit to control miners' exposure to diesel particulate. In January 1992, MSHA issued an advance notice of proposed rulemaking in which the Agency requested public comments on a series of issues relating to health effects, methods of monitoring to measure exposure, duration and frequency of exposure, and technological and economic feasibility. MSHA is continuing to review its available data and studies on the use of diesel equipment and the particulate emissions from diesel equipment.

Abstract: In June 1991, the Secretary established an advisory committee to make recommendations concerning the conditions under which air coursed through the belt entry could be safely used in the face areas of underground coal mines. A series of six public advisory committee meetings began in April 1992, with the final meeting held in September 1992. The committee reached its conclusion and issued its final report to the Secretary in November 1992. The advisory committee made consensus recommendations with respect to: (1) the conditions under which belt haulage entries could be safely used as intake air courses to ventilate working places; (2) minimum velocities in conveyor belt haulageways; and (3) ventilation of escapeways. MSHA is reviewing the recommendations to determine the most appropriate regulatory response.

2174. EXAMINATIONS OF SURFACE WORK AREAS

Legal Authority: 30 USC 811

CFR Citation: 30 CFR 77.1713

Legal Deadline: None

Abstract: Under 30 CFR 77.1713 coal mine operators are required to conduct examinations of each active working area of surface mines and active surface installations during each shift. Any hazardous conditions detected must be entered into a report of such examination along with a description of corrective actions taken. The Agency has interpreted this standard to exclude surface work areas of underground mines. The possibilities for hazards associated with such areas are numerous. The majority of the injuries and fatalities are a result of hazardous conditions not detected and corrected. This rulemaking would revise the standard to apply the on-shift examination requirement to surface areas of underground mines. By conducting an on-shift examination of hazardous conditions in these areas, the mine operator will better guarantee a safe working environment for the miners and a reduction in accidents.

Abstract: On January 18, 1991, MSHA published a final rule in the Federal Register (56 FR 2070) revising its safety standards for explosives at metal and nonmetal mines. On October 16, 1992 (57 FR 47524) MSHA published a proposed rule addressing certain stayed provisions of the January 18, 1991 final rule. MSHA's proposed rule addressed the following stayed provisions: definitions of "blast site," "magazine," and "storage facility," the requirements of storage of packaged blasting agents, the location of explosive material storage facilities, vehicles used to transport explosives, primer protection, loading and blasting, double trunklines

in nonelectric initiation systems, hazards of excessive temperatures and burning explosive material. A public hearing was held in April 1993. MSHA intends to promulgate a final rule addressing the stayed provision by December 1993.

Abstract: MSHA has an established mining equipment approval program which includes evaluation criteria and corresponding safety standards requiring the use and maintenance of approved equipment. However, existing

approval regulations do not generally apply to the diesel-powered equipment now being used in coal mines. In July 1988, an advisory committee convened by the Secretary of Labor made recommendations to the Secretary concerning standards for the use of diesel-powered equipment in underground coal mines. Based on those recommendations, MSHA published a proposed rule that addressed the approval and use of diesel equipment, including monitoring requirements for certain diesel emissions. Public hearings were held in February and March 1991.

Abstract: The primary purpose of this action is to provide miners with the means to receive necessary information on the hazards of chemicals to which they are exposed and the actions necessary to protect their safety and health. Abstract: MSHA's proposed rule incorporates permissible exposure limits which are applicable to the hazards encountered in metal and nonmetal mines and coal mines. The final rule will update permissible exposure limits and address methods of controlling such limits. Permissible exposure limits and standards for use of respiratory protective equipment will replace outdated incorporations by reference. The final rule also will update asbestos standards. Other issues being considered are: requirements for exposure monitoring; precautions for handling restricted-use chemicals; miner observation of monitoring; notification to workers of overexposures; miner access to exposure monitoring records; medical surveillance and transfer of miners required to use respirators and miners using certain carcinogens. MSHA may consider proceeding to final rulemaking with certain sections of the air quality proposal before others to address more immediate health hazards.

Abstract: MSHA proposed to amend the definition of "experienced miner" to mean a miner who has had one year of mining experience and, for new miners hired after October 13, 1978, has completed new miner training. MSHA proposed to strengthen the training requirements for experienced miners by adding course requirements. Also, MSHA proposed to delete the supervisory personnel exemption from the training requirements. The comments received by MSHA on its September 1991 proposed rule addressed such issues as the appropriate training for different types of mining, the need for training of contractors, training for construction workers, and other suggested training changes. MSHA reviewed these comments to determine the appropriateness of any further changes to the Agency's training regulations. Public hearings on the proposed rule were held in July 1992.

Significance: Regulatory Program

Legal Authority: 30 USC 811; 30 USC 957

Abstract: This rulemaking would apply to high-voltage longwall electric face equipment used in underground coal mines. Presently, 30 CFR 75.1002 precludes the use of high-voltage cables

within 150 feet of pillar workings. Therefore, mine operators have had to file petitions for modification so that they may use high-voltage longwall equipment. High-voltage longwall equipment would still be required to comply with the requirements of part 18, but this rulemaking would address additional safety requirements for the use of high-voltage longwall equipment, including trailing cables, motor, and shearer cables.

2186. • NONDISCRIMINATION ON THE BASIS OF AGE IN PROGRAMS AND ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE FROM THE DEPARTMENT OF LABOR

Legal Authority: 42 USC 6101 et seq Age Discrimination Act of 1975

CFR Citation: 45 CFR 90

Legal Deadline: NPRM, Statutory, September 10, 1979.

45 CFR 90 requires publication of the NPRM no later than 90 days after publication of government-wide rule, and submission to HHS of final rule within 120 days of NPRM.

Abstract: The proposed regulatory action is necessary to comply with the Department's statutory and regulatory obligations under the Age

Discrimination Act of 1975, as amended (the "Act"). The Act and the general, government-wide implementing rule issued by the Department of Health and Human Services (HHS) (45 CFR 90) require each Federal agency providing financial assistance to any program or activity to publish proposed regulations implementing the Act no later than 90 days after the publication date of the government-wide rule, and to submit final agency regulations to HHS no later than 120 days after publication of the NPRM. As a practical matter, while DOL has not issued proposed or final regulations under the Age Discrimination Act, it has complied with its enforcement obligations. Furthermore, discrimination on the

basis of age is prohibited under Section 167 of the Job Training Partnership Act of 1982, and the implementing regulations at 29 CFR 34.

Significance: Agency Priority

Legal Authority: OMB Circular A-110

CFR Citation: 29 CFR 97

Legal Deadline: None

Abstract: On March 11, 1988, a common final rule was published which implemented OMB Circular A-102, Administrative Requirements for Grants and Cooperative Agreements with State and local governments. OMB and DHS have prepared a proposed common rule and revised Circular A-110 to conform the grants management requirements for non-governmental grantees with government grants. The common rule already published on

governmental grantees will be amended to incorporate non-governmental grants.

Abstract: This rule is in response to section 319 of Public Law 101-121. Section 319 generally prohibits recipients of Federal contracts, grants, and loans from using appropriated funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a specific contract, grant, or loan. Section 319 also requires that each person who requests or receives a Federal contract, grant, cooperative agreement, loan, or a Federal commitment to insure or

Abstract: Section 6(b) of the Act requires, where appropriate, provisions for medical surveillance in each 6(b) rulemaking for a harmful substance. OSHA does not have medical surveillance provisions in the air contaminants standard (29 CFR 1910.1000). A generic standard for medical surveillance would satisfy the requirements of the Act, thus enabling the Agency to provide relevant protection for workers covered by the air contaminant standard as well as future standards promulgated under paragraph 6(b) of the Act. OSHA has collected considerable useful information as a result of the advance notice of proposed rulemaking published on September 27, 1988 (53 FR 37595). OSHA has also consulted with the Department of Health and Human Services, and is making full use of the expertise within the National Institute for Occupational Safety and Health to develop specific criteria to be used to determine when and what medical surveillance intervention may be appropriate.

Abstract: Section 6(b)(7) of the Act requires, where appropriate, provisions for exposure monitoring for substances regulated by OSHA. OSHA does not have exposure monitoring provisions in the air contaminants standards (29 CFR 1910.1000). A generic standard for exposure monitoring would satisfy the monitoring requirements of the Act, thus enabling the Agency to provide relevant protection for workers covered by the air contaminants standard as well as future standards promulgated under paragraph 6(b) of the Act. Significance: Regulatory Program

Legal Authority: 29 USC 655

CFR Citation: 29 CFR Not yet determined

Legal Deadline: None

Abstract: Health complaints related to indoor air quality (IAQ) have increased significantly following energy conservation measures instituted in the 1970's. Such measures have reduced the infiltration of outside air, allowing the build-up of indoor air contaminants. Adverse health effects associated with indoor air contaminants are classified as: (1) sick building syndrome which is characterized by general complaints that may include headaches, fatigue, nausea, mucous membrane (eye, nose, and throat) irritation, coughs, and muscle pain; and (2) building-related illness which describes those specific medical conditions of known etiology which can often be documented by physical signs and laboratory findings. These include respiratory allergies and Legionnaires' disease. A particular concern with matters dealing with indoor air quality is exposure to passive tobacco smoke (PTS). A wide range of health effects caused by PTS have been reported by the Surgeon General, the National Research Council, the Environmental Protection Agency (EPA), NIOSH, and private researchers, as well as by citizens reporting health effects due to PTS exposure while at work. Abstract: OSHA has long recognized the utility of comprehensive safety and health programs, and adopted non-mandatory guidance for safety and health program management on January 26, 1989 (54 FR 3904). These guidelines were based on a distillation of safety and health management practices used by employers that have implemented successful comprehensive programs. The major elements OSHA has identified in the guidelines for effective occupational safety and health programs are: (1) management commitment and employee involvement; (2) worksite analysis to anticipate and prevent harmful occurrences; (3) hazard prevention afforded employees; and (4) safety and health training. Successfully implemented programs generally have a lower incidence of occupationally-related illnesses and injuries. In particular, OSHA has found that companies that have implemented comprehensive safety and health programs and are participating in its Voluntary Protection Program have lost-workday case rates that range from one-fifth to one-third the rates experienced by average worksites within their industrial classification. Abstract: The present respiratory protection standards have been in place for more than 10 years and do not take into consideration the current state-of-the-art for respiratory protection. In addition, the general industry standard for respirators contains redundancies and includes several advisory

provisions which should be eliminated or changed. OSHA has reviewed the current standards and intends to propose revisions. In developing this proposal, OSHA has been working closely with the National Institute of Occupational Safety and Health (NIOSH) and the Mine Safety and Health Administration (MSHA).

CFR Citation: 29 CFR 1910.16; 29 CFR 1918 (Revision); 29 CFR 1917 (Revision and Corrections)

Legal Deadline: None

Abstract: The purpose of this regulatory action would be to update and revise a standard first issued in 1960. The current language in many instances addresses the hazards of cargo handling involving methods long since abandoned, and fails to address the serious hazards of newer methods. Because much of the current standard is out of date, there are problems with compliance. These revised requirements will provide both employers and employees with a blueprint for effective and safe work practices in the cargo handling industry. No alternative other than revision is contemplated. The annual cost of the revision is expected to be minimal -- less than five million dollars. In conjunction with the above regulatory action, the Marine Terminal Standard, Part 1917, will be revised to conform with changes made to Part 1918). Corrections to Part 1917 will also be made at this time.

Abstract: In the December 29, 1992, Federal Register, OSHA announced its intention to form a Negotiated Rulemaking Advisory Committee to negotiate issues associated with a revision to the existing steel erection standard. Four of the primary issues to be negotiated include the need to expand the scope and application of the existing standard; construction specifications and workplaces; written construction safety erection plans; and fall protection. Comments on forming the committee and nominations for representation on the committee were due by March 29, 1993.

Abstract: OSHA proposes to revise and update its existing part 1910 and Part 1926 subparts covering welding, cutting and brazing operations, and to develop performance-oriented standards designed to reduce the number of deaths and injuries due to unsafe equipment and unsafe operations.

There has been no substantial revision to these subparts since their adoption in 1971. A complete and comprehensive revision is needed at this time to bring the standards into line with the current state-of-the-art and updated consensus standards. In developing its proposed revision for for welding provisions in Part 1910 (General Industry), OSHA has determined that similar revisions to the Part 1926 (Construction Industry) welding provisions are warranted.

Legal Deadline: Final, Statutory, November 15, 1991.

Abstract: Standards in 29 CFR part 1910, subpart H, which address the storage, handling and use of hazardous materials, such as compressed gases, acetylene, hydrogen, oxygen, liquefied petroleum gases, and flammable and combustible liquids, will be revised. This regulatory action will provide a new approach to the revision of Subpart H and will occur in four phases in an expanded timeframe. The four phases will be: (1) Process Safety Management, (2) Flammable and Compressed Gases, (3) Hazardous Liquids, and (4) Explosives. The first phase of the proposed action is intended to better protect employees from unexpected releases of significant quantities of dangerous substances, and this phase has been completed. The remaining phases are intended to simplify, clarify and consolidate standards on hazardous materials and assist employers and employees in

Abstract: This regulatory action will complete the consolidation and updating of Parts 1915 and 1910 by providing shipyard employees with coverage under one comprehensive OSHA standard. This revision effort will involve the promulgation of 20 maritime subparts. Its completion will

be done in stages and will relieve shipyard owners from the burden of having to comply with two sets of rules that are complex, prescriptive, confusing and, in some cases, conflicting. A previously identified project, Surface Preparation and Preservation (RIN 1218-AA96), will be included in this project.

Abstract: Concerns about the reliability and utility of injury and illness data have been raised by Congress, OSHA, NIOSH, BLS, the National Academy of Sciences, OMB, the General Accounting Office and representatives of business and labor. The revision of the regulations, forms, and associated interpretive material are being undertaken to simplify the injury and illness recordkeeping system. OSHA is currently working on this project and has not collected sufficient information to determine the effect on paperwork burden. Benefits will include: (1) A system that is easier for employers, employees and government personnel to use; (2) increased reliability and utility of the records; (3) comprehensive records of the injury and illness experience at a given site will be available; and (4) employee involvement and awareness in safety and health matters will be enhanced.

Significance: Regulatory Program

Abstract: The permissible exposure limits (PELs) promulgated by OSHA in 1971 do not reflect current knowledge of the health effects of many toxic substances. OSHA published a proposal on June 7, 1988 (53 FR 20960) to amend and expand the PELs for general industry. On January 19, 1989 OSHA set new PELs for the toxic substances originally covered in 1971 and covered new substances in a single rulemaking that applied to general industry. On June 12, 1992 (57 FR 26001) OSHA published a proposed rule that would provide more protective PELs on hundreds of toxic airborne substances for workers in construction, agriculture and maritime. On July 10, 1992 the Eleventh Circuit Court of Appeals overturned the PELs update for general industry. Accordingly on August 18, 1992 (57 FR 37125) OSHA published a notice delaying hearings and extending indefinitely the comment period on the Air Contaminants Rule for Construction, Agriculture and Maritime. The Acting Solicitor General determined not to appeal the court's decision. Consequently, OSHA must determine the appropriate action in light of the judicial decision.

Significance: Regulatory Program
Legal Authority: 29 USC 655(b)
CFR Citation: 29 CFR 1926
Legal Deadline: None

Abstract: Hazards at construction sites resulting from the absence of effective lockout/tagout procedures to control hazardous energy appear to be caused by several factors, all associated with the nature of the construction industry. These factors basically relate to such considerations as the types of machines and equipment found in construction; the makeup of the industry in which employment is relatively "short term," lasting only as long as the length of the current project; the presence of multiple employers having different employer/employee relationships and the temporary nature of the "in-the-field" maintenance activity. The Occupational Safety and Health Administration (OSHA) expects the proposal to address lockout-related hazards in those construction work-site areas in which the available data indicate these hazards to be significant. Regulatory options involve developing a comprehensive standard covering all potentially hazardous energy sources. OSHA will consider the use of the construction advisory committee to assist in the development of this standard.

2202. POWERED INDUSTRIAL TRUCK OPERATOR TRAINING

Legal Authority: 29 USC 655(b)
CFR Citation: 29 CFR 1910.178

Abstract: Nationally, fatalities due to unsafe operation of industrial vehicles and equipment account for approximately 12 percent of the private sector fatalities. This is the second leading cause of fatalities in the private sector, behind only highway vehicle fatalities. The present standard has proven to be ineffective in reducing the number of accidents involving powered industrial trucks. OSHA intends to revise the present standard to increase its effectiveness by requiring, in performance language, initial and refresher training as necessary. The frequency of the refresher training will be based upon the ability of the vehicle operator to retain the knowledge, skills and abilities to perform the job safely. OSHA will also give guidance as to what information the instruction should include. There will also be other amendments to the standard to increase its effectiveness.

Abstract: On November 14, 1978 (43 FR 52952), OSHA promulgated a standard that limited occupational exposures to lead. The standard also contained requirements for exposure monitoring, protective equipment, housekeeping and hygiene practices, medical surveillance, medical removal protection, posted areas and education and training. However, the scope of the standard did not include the construction industry. Lead exposures in the construction industry continued to be regulated by the air contaminants standard for construction (29 CFR 1926.55) which has no protective ancillary provisions such as those contained in the general industry standard. This standard adopted the 1970 American Conference for Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (200 ug/m3) which is four times the current standard for general industry. OSHA recognized that this level represents a potential for material impairment of health and is in the process of developing a proposal.

Additional Information: The Housing and Community Development Act (title IV, subtitle C, Section 1031) (October 28, 1992) requires the Secretary of Labor to adopt an interim final regulation (within 180 days) on occupational exposure to lead in the construction industry. Therefore, on May 4, 1993 (58 FR 26590), OSHA published an interim final rule for lead exposure in the construction industry. The regulation provides places of employment for employees which are as safe and healthful as those which would prevail under the Department of Housing and Urban Development Guidelines published on September 28, 1990. It is OSHA's intention to promulgate a permanent rule which will supersede the interim final rule.

Abstract: The Bureau of Labor Statistics (BLS) has reported the number of reported "disorders associated with repeated trauma" have more than tripled since 1984. These serious, potentially crippling disorders account for 60 percent of all occupational illnesses reported to OSHA in 1991. OSHA published an Advance Notice of Proposed Rulemaking (ANPR) on August 3, 1992 (57 FR 34192). A six-month comment period ended February 1, 1993. OSHA received about 266 comments. The Agency is currently in the process of analyzing these submissions, as well as available scientific literature and enforcement data. In addition, OSHA is conducting a telephone survey of firms to collect more information about current programs in industry addressing problems related to ergonomics. All information available to OSHA will be used to determine how to proceed in addressing these issues.

Abstract: The present crane regulations for construction and general industry have not been revised since being promulgated in 1971. They rely heavily on outdated 1968 ANSI standards. OSHA has received comments that the existing provisions are inadequate and need revision to reflect current conditions and equipment. It has also been suggested that there is need to establish additional crane installation and use provisions, including possible certification programs for crane operators and riggers. OSHA anticipates that this project will come about in several phases due to the magnitude of the project.

Abstract: A critical element of OSHA's comprehensive enforcement strategy under the Occupational Safety and Health act is assurance that employers have abated hazards cited during inspections. Currently, unless an

employer voluntarily complies with OSHA's request to submit documentation, OSHA has no proof of hazard abatement without conducting a followup inspection. From 1972 to the present, OSHA has implemented several administrative measures to induce employers to provide abatement documentation, but some 30 percent of cited employers still do not voluntarily do so. OSHA's internal audits, the Department of Labor's Inspector General, and the General Accounting Office have pointed out this deficiency. The regulation OSHA now proposes will require cited employers to provide hazard abatement documentation. The NPRM will address the kinds of evidence to be required, what notice to employees is needed, potential penalties for non-reporting, possible certification forms for compliance, and other questions. OSHA estimates that the economic impact of this regulation on employer products and product prices will be insignificant.

The Act clearly conveys the intent of Congress for a collaborative effort by the Secretaries of Labor, Transportation and Treasury to ensure that placards and labels required on packages or containers of hazardous materials and explosives be retained until such materials are removed to the extent they no longer pose a health or safety risk. The Agency has published a proposed rule that would require any employer who receives a package, container, rail car or similar receptacle containing hazardous materials that is required to be marked, placarded or labeled in accordance with regulations issued under the Hazardous Materials Transportation Act, to retain such labels until the hazards are removed. The proposed rule would apply to all employers covered by the OSH Act. Therefore, separate but identical standards are included for (cont)

Abstract: The Hazard Communication Standard (HCS) is a generic, performance-oriented rule which provides workers exposed to hazardous chemicals with the right-to-know about their hazards, identities, and ways to prevent exposure. The HCS requires chemical manufacturers and importers to evaluate the hazards of the chemicals they produce or import, and to develop container labels and more detailed technical bulletins called material safety data sheets (MSDSs) regarding those hazards and associated protective measures. On May 17, 1990 (55 FR 20480), OSHA published a request for comments and information (RFI) in the Federal Register to solicit public input on experiences regarding HCS implementation, and suggestions for improving the quality of information provided. Nearly 600 responses were received by OSHA in response to the RFI. By far the issue of greatest concern to the commenters was the standardization of the format or order of information for the MSDSs. Users of MSDSs believe that standardization will allow the MSDSs to be used more effectively; will make training easier; and will facilitate electronic (cont)

Abstract: On January 28, 1992, the White House imposed a 90-day moratorium on regulations and directed the heads of selected Executive branch, departments, and agencies, including the Department of Labor, to evaluate existing regulations to identify those imposing unnecessary regulatory burdens; those that have failed to keep pace with technological innovations; and those that contain unnecessarily prescriptive requirements. In response to the President's request, the Department of Labor initiated a Request for Public Comment on the moratorium (57 FR 6301, February 24, 1992). As a result, OSHA identified the medical surveillance is to identify health problems caused by occupational exposure when intervention is likely to be of value. In theory, early diagnosis by medical surveillance would lead to increasing rates of cure. However, medical surveillance under the Coke Oven Standard attempts to recognize workers who have already developed severe illness (i.e., cancer of the lung or kidney) that requires extensive medical and/or surgical intervention. It has been brought to OSHA's attention that sputum cytology (cont)

Abstract: OSHA's policy concerning the use of engineering controls and respirators was targeted for review by the President's Task Force on Regulatory Relief in 1981. Current OSHA regulations require that employers implement feasible engineering controls to maintain air contaminant concentrations in the workplace at or below the prescribed permissible exposure limits. The use of respirators is permitted only in those cases where engineering controls are not feasible, not yet installed, or not adequate. This policy has been criticized as being inflexible, not cost-effective, and often unnecessary for employee health protection. OSHA believes that any changes to the policy for use of engineering controls must be closely coordinated with revisions in the respiratory protection regulations (29 CFR 1910.134). This rulemaking does not address the assessment and reduction of any absolute existing risks, but rather addresses the possible change in risk abatement associated with the use of respirators instead of engineering controls. OSHA published a proposal on June 5, 1989 (54 FR 23991). Hearings were held on May 30-31, 1990, and continued on July 9-10, 1990. (cont)

Abstract: Logging is a very hazardous industry. It has an incidence rate nearly twice that of manufacturing, and reflecting the seriousness of the injuries incurred, a lost workday rate nearly four times as high. The purpose of the standard will be to protect workers from the ever-present hazards of chain saw operation, falling objects (trees, branches), rolling or sliding logs, falls from trees, and materials handling accidents. At present there is no OSHA standard specifically applicable to logging in general. There is a standard, 29 CFR 1910.266, applicable only to pulpwood logging; however, pulpwood logging is estimated to account for less than half of the logging activity in the United States. Development of a national OSHA standard addressing all

types of logging will provide coverage for those loggers not now protected. The new regulation will provide coverage where there is no approved state regulation and will set a minimum safety level for those states that chose to develop a state regulation.

Abstract: A major area of coverage not addressed in the current OSHA electrical standards for general industry (29 CFR 1910) involves the maintenance and operation practices associated with electrical transmission and distribution lines, substations and generating stations. It is intended that the proposed standard fill this void by establishing minimum requirements for electrical safety work practices for qualified employees working on or near installations whose purpose is the generation and distribution of electricity. The proposal also revises the standards for electrical protective equipment, which is used routinely for electrical power work.

Abstract: Existing standards for eye, face, head, and foot protection reference outdated national consensus standards which have been updated and improved. Consequently, criteria for personal protective equipment for eye, face, head, and foot would be revised to reflect improved developments in these types of equipment. This would allow the use of better personal protective equipment and would result in improved employee protection from eye, face, head, and foot hazards.

Abstract: On October 10, 1985, EPA referred 1,3-butadiene (BD) to OSHA for possible regulatory action under section 9(a) of the Toxic Substance Control Act. On April 11, 1986, OSHA responded to the EPA referral indicating that the Agency has preliminarily concluded that BD poses risk to the occupationally exposed population at the current OSHA permissible exposure limit and that the risk can be reduced or prevented

through the promulgation of a revised standard. On October 1, 1986 (51 FR 35003), OSHA published an ANPRM initiating regulatory action within the meaning of section 9(a) of TSCA. Comments were submitted to OSHA by December 30, 1986. Based on the comments received in response to the ANPRM OSHA developed a proposal which was published on August 10, 1990. Hearings were held in Washington, D.C. on January 15, 1991, and in New Orleans, Louisiana on February 20, 1991. Submission of the post-hearing comments and briefs were scheduled to end on June 22, and July 22, 1991 respectively; however, OSHA extended the dates to September 27, and October 28, 1991. The post-hearing comments and briefs were again extended and finally closed on (cont)

Abstract: On May 20, 1986, the Environmental Protection Agency (EPA) issued a report to OSHA, under Section 9(a) of the Toxic Substances Control Act, stating that EPA has reasonable basis to conclude that the risk of injury to worker health from exposure to four glycol ethers during their manufacture, processing and use is unreasonable, and that this risk may be prevented or reduced to a significant extent by OSHA regulatory action. EPA gave OSHA 180 days in which to respond to its report. OSHA published its response on December 11, 1986, stating that OSHA had preliminarily concluded that occupational exposures to the subject glycol ethers at the current OSHA permissible exposure limits may present significant risks to the health of workers. OSHA published an Advance Notice of Proposed rulemaking (ANPRM) on April 2, 1987, (52 FR 10586). OSHA used the information received in response to the ANPRM, as well as other information and analysis, and published a proposal, March 23, 1993 (58 FR 15526), that would reduce the permissible exposure limits for four glycol ethers and provide protection for approximately 46,000 workers exposed to the substances.

Abstract: In July 1985, OSHA was petitioned by the United Automobile, Aerospace and Agricultural Implement Workers of America (UAW) to issue a hazard alert; issue an emergency temporary standard; and to begin work on a new permanent standard for methylene chloride (DCM). This request was based on information obtained from the Environmental Protection Agency and the National Toxicology Program indicating that DCM is an animal carcinogen and may have the potential to cause cancer in humans. In November 1986, OSHA notified the UAW that its petition had been granted, in part, and denied, in part.

Specifically, OSHA issued a set of guidelines for controlling occupational exposure to DCM and OSHA denied that portion of the petition requesting the issuance of an emergency temporary standard. OSHA published an Advance Notice of Proposed Rulemaking on November 24, 1986 (51 FR 42257). After reviewing and analyzing the comments received in response to the ANPRM, OSHA published a proposal in the Federal Register on November 7, 1991 (56 FR 57036). The comment period closed on April 6, 1992. On June 9, 1992, OSHA published a notice of informal public hearings to be held in Washington, DC on (cont)

Abstract: OSHA promulgated a final rule on August 24, 1987, that extended

the protections of its Hazard Communication Standard (HCS) from the manufacturing sector to all other workplaces where employees are exposed to hazardous chemicals. The HCS requires covered employers to establish hazard communication programs for their employees, including labels on containers, material safety data sheets, and training programs. On August 8, 1988, OSHA published a NPRM to modify the final rule, and provide an opportunity for public comment. Public comments have been received, hearings have been held, and OSHA will prepare a final rule based on the public record for this standard, including the record developed in earlier rulemakings. OSHA published a request for information (RFI) on May 17, 1990, (55 FR 20580) to improve the quality and representation of the information provided on the MSDS's and labels and to consider a standardized format. OSHA will determine if the rule should be reopened after the comments and other relevant information are analyzed. The comment period for the RFI expired on August 15, 1990. A draft of the final rule for the 1988 proposal is being reviewed.

Abstract: On June 20, 1986, OSHA published revised standards governing occupational exposure to asbestos, tremolite, anthophyllite and actinolite in general industry and construction. In these standards, OSHA reduced the 8-hour time weighted average (TWA) permissible exposure limit (PEL) to 0.2 f/cc, and established other protective provisions. This standard was legally challenged, and as a result, the Court of Appeals for the District of Columbia upheld the standard except that the court held that OSHA must reconsider several of the standard's provisions to determine if more protective regulatory provisions are available to reduce risk. One of the issues to be reconsidered was the need for a short-term limit for

occupational exposure to asbestos in response to the Court's directive. This limit was established as 1 f/cc averaged over a 30-minute sampling period and a legal notification of this amendment was published on September 14, 1988, at 53 FR 35610. (cont)

Additional Information: ABSTRACT CONT: On December 20, 1989 (54 FR 52024) OSHA responded to the first three remand issues. OSHA deleted the ban on spraying asbestos containing materials; amended the regulatory text to clarify when construction employers must resume periodic monitoring; and explained why OSHA is not amending the regulatory text to clarify the limited exemption for "small-scale, short-duration operations" in the construction industry standard. OSHA published a notice of its resolution of Category II remand issues on February 5, 1990, and a notice of proposed rulemaking for Category III on July 20, 1990 (55 FR 29712). On September 20, 1990, the comment period was extended to December 3, 1990, and the public hearing was rescheduled to commence on January 23, 1991. The post-hearing comment period closed on April 26, 1991, and the briefing period was extended to July 24, 1991. On November 3, 1992 (57 FR 49657), OSHA reopened the record for 60 days to receive additional comments. The comment period for supplemental asbestos information closed on January 4, 1993.

Abstract: Public Law 99-499 established the criteria under which OSHA developed and promulgated 29 CFR 1910.120, Hazardous Waste Operations and Emergency Response (HAZWOPER). 29 CFR 1910.120 was published March 9, 1989, and became effective one year later. Section 126 of Public Law 99-499 was later revised to require OSHA to also develop a training accreditation program for the training programs required in paragraphs (e) and (p) of 1910.120. OSHA has been developing that accreditation program based upon the initial public record of comments on its proposed accreditation program and additional public comments received in response to a limited reopening of the public record in 1992. The limited reopening of the public record allowed additional public comment on an effectiveness of training study conducted by OSHA. OSHA continues to develop and refine the regulatory text for the final rule. We are also developing the logistics necessary for receiving and accrediting the large number of training programs expected to be submitted to the Agency for accreditation.

Abstract: OSHA has developed the regulatory text for this rule and is developing the preamble portion of the Final Rule. OSHA has slowed the development of this rule as a result of recent Congressional action on the Department of Labor's 1993 appropriation bill. Initial versions of the appropriation bill would have prevented OSHA from enforcing this rule if it were promulgated. Final Congressional action required OSHA to evaluate the impact of the rule on small business. OSHA has completed that evaluation.

Significance: Regulatory Program

Legal Authority: 29 USC 657; 29 USC 673

CFR Citation: 29 CFR 1904.8

Legal Deadline: None

Abstract: Concerns have been raised by Congress, OMB, OSHA, NIOSH, BLS, the National Academy of Sciences, GAO and representatives of business and labor about the reporting of fatalities and multiple hospitalizations. These include the procedures employers are required to follow, the length of time employers have to report the fatalities to OSHA, and the number of hospitalizations required before the employer must report the incident to OSHA. In particular, 48 hour reporting may allow too many workplace factors to change before OSHA can reach the

worksite to perform an adequate investigation of the incident. In addition, there are concerns that the current regulation may not adequately inform employers of the need to report all occupational fatalities, including those that occur extended periods of time after the employee was originally injured. Benefits will include more accurate employer reporting of fatalities and multiple hospitalizations, an improved ability for OSHA to respond to serious accidents while evidence is still "fresh," an improved count of fatalities and multiple hospitalizations and an upgraded data base for researchers and policy officials.

Abstract: The law under the Veterans' Reemployment Rights (VRR) statute, 38 USC sections 2021-2027, with subsequent amendments and judicial constructions, has become confusing and cumbersome. As a result, the Administration introduced legislation

to replace the existing VRR statute, it is expected that the Congress will enact a new law this session. The proposed legislation requires the Secretary of Labor to issue regulations implementing and interpreting the statute. The proposed law would seek to: (1) clarify the law; (2) determine the veteran's entitlement and eligibility requirement on duration of rather than category of service; (3) promote expedited resolution of claims; and sufficient membership in the Armed Forces, and to ensure the availability of citizen-soldiers.

Semiannual Regulatory Agenda

DEPARTMENT OF STATE (STATE)

DEPARTMENT OF STATE

22 CFR Ch. I

[Public Notice 1855]

Unified Agenda of Federal Regulations

AGENCY: Department of State.

ACTION: Semiannual publication of regulatory agenda.

SUMMARY: As required by Executive Order 12291 and the Regulatory Flexibility Act of 1980 (Pub. L. 96-354), the October 1993 agenda of regulations of the Department of State is set forth below. This agenda was prepared under the guidelines of OMB's memorandum of June 14, 1993. The purpose of the agenda is to provide information to the public on the Department's regulatory plans.

FOR FURTHER INFORMATION CONTACT:

Mary Beth West, Assistant Legal Adviser for Legislation and General Management, Department of State, Room 5425, 2201 C Street NW., Washington, DC 20520-6310; telephone (202) 647-5154.

Dated: September 14, 1993.

Richard M. Moose,
Under Secretary for Management.

PUBLIC LAW 101-232**

Legal Authority: PL 101-232, sec 302(b)(1)(5)

CFR Citation: 22 CFR 45.3(a)

Legal Deadline: None

Abstract: Miscellaneous and Technical Immigration and Naturalization Amendments of 1991, Pub. L. 102-232, was enacted on December 12, 1991, to make necessary technical corrections to the Comprehensive Immigration Act of 1990, Pub. L. 101-649. The Immigration and Nationality Act at section 104 (8 USC 1104) grants the Secretary of State general authority over the issuance and refusal of visas and to promulgate necessary regulations. That statutory provision constitutes the general authority to promulgate these regulations. Section 302(b)(1)(5) amends section 124 of the Immigration Act of 1990, relating to the transition

for employees of U.S. businesses operating in Hong Kong.

Legal Deadline: None

Abstract: These additions and amendments to the CFR will allow officers other than commissioned Foreign Service Officers to perform notarial acts (excluding authentications), to adjudicate citizenship cases, to administer oaths for passport purposes, and to issue passports. The extension of this responsibility for these administrative acts to these officers will allow Foreign Service consular officers to concentrate on managing the consular functions of the post.

REGISTRY IN THE DEPARTMENT OF
STATE FOR INFORMATION ABOUT
EXECUTION OF INTERNATIONAL
WILLS**

Legal Authority: See Abstract.

CFR Citation: 22 CFR 92.81(b)(3)

Legal Deadline: None

Abstract: By resolution of the international diplomatic conference that adopted the final text of the

Convention, there was a recommendation that the Department of State establish an internal system to permit the optional registration of information to facilitate the discovery of international wills. The President transmitted the Convention to the Senate on July 2, 1986, with the recommendation that the Senate give its advice and consent to U.S. ratification of the Convention, and information about the intention to

establish the Registry in the Department of State (Senate Treaty Doc. 99-29). The Senate gave advice and consent to ratification on August 2, 1991. The President signed the instrument of ratification on December 2, 1991. The U.S. has not deposited its instrument of ratification pending enactment of implementing legislation, the International Wills Act, required before the United States can take further action to ratify the Convention.

Legal Authority: 22 USC 2658

CFR Citation: 22 CFR 135

Legal Deadline: None

Abstract: In August 1992 OMB prepared a revised Circular A-102 (dealing with grants and cooperative agreements to State and local governments). The Department of State has prepared a preamble to the proposed revised circular, endorsing it. When OMB publishes the revised circular as a proposed rule in the Federal Register, the Department's preamble will be published as well. OMB advises that it has discontinued plans to combine Circular A-102 and Circular A-110 (dealing with grants and cooperative agreements with other nonprofit organizations) into a single circular, and that Circular A-110 will follow a similar, but separate, course in revision.

Deadline has been extended to May 1993.

Abstract: The ITAR were first published in their current form in 1955 and have been periodically amended to reflect statutory enactments and to implement foreign policy. The July 1993 revision of the ITAR was the first substantial revision since December 1984. In May 1992, the State Department office which administers the ITAR, the Office of Defense Trade Controls, published a proposed revision of the ITAR. The final rule was published on July 22, 1992. The amended ITAR clarifies and updates these regulations and adds exemptions for certain types of exports.

Legal Authority: 8 USC 1288(d)

CFR Citation: 22 CFR 89

Legal Deadline: Final, Statutory, December 31, 1993.

Legal deadline reflects the statutory requirement that the list be updated on an annual basis.

Abstract: The above-mentioned statute requires the Secretary of State to compile, and update annually through Notice-and-Comment rulemaking procedures, a list, by particular longshore activity, of countries where performance of such activity is prohibited by law, regulation, or in practice in the country concerned. According to the statute cited above, the Attorney General will use this list for enforcing restrictions on work performed by crewmembers of vessels from such countries. Compilation of the list itself does not involve any significant costs and is based upon information being provided to the Department of State by U.S. diplomatic missions overseas as well as by the public. Questions regarding the policy

justification for the list and its use are best directed to the Departments of Labor, Transportation, and Justice.

Significance: Regulatory Program

Legal Authority: PL 102-138, sec 128(e)

CFR Citation: 22 CFR 40

Legal Deadline: NPRM, Statutory, October 28, 1991.

Abstract: The Foreign Relations Authorization Act, Fiscal Years 1992 and 1993, Pub. L. 102-138, enacted October 28, 1991, also modified certain provisions of the Immigration Act of 1990. Section 128(e) provides that the Secretary of State may enter into, or retain in, the visa lookout system names of aliens who have not been formally found to be ineligible to receive visas only for specified reasons and directs the Secretary to establish regulations and procedures for this purpose. This regulation would respond to that statutory requirement.

Significance: Regulatory Program
Legal Authority: PL 101-649
CFR Citation: 22 CFR 4233 (New)
Legal Deadline: NPRM, Statutory, October 1, 1994.

Abstract: Section 131 of the Immigration Act of 1990, Pub. L. 101-649, amended the INA by adding section 203(c). This section creates a new immigrant visa diversity program which differs from previous diversity

programs. The implementing regulation will have to address: (1) the identification of countries to be included in the program by applying the numbers of aliens granted permanent resident status in the United States as computed by the INS to the statutory equations; (2) the operational scheme that will assess the educational and work experience requirements of the applicant with necessary precautions for the prevention of fraud; (3) the establishment of a mail-in registration program; and (4) the development of an application form for the implementation of the diversity program.

Significance: Regulatory Program
Legal Authority: 31 USC 1352; 22 USC 2658
CFR Citation: 22 CFR 138 (New)
Legal Deadline: None

Abstract: This interim final rule establishes a uniform regulation for nonprocurement Federal transactions among 29 Federal agencies. The regulation adopts and implements guidance published by the Office of Management and Budget (see 54 FR 52306, December 20, 1989), pursuant to section 319 of the Interior and Related Agencies Appropriations Act for Fiscal Year 1990. Section 319 added section 1352, "Limitation on use of appropriated funds to influence certain Federal contracting and financial transactions," to title 31, United States Code. The interim final rule, published February 26, 1990, establishes semiannual reporting requirements. There has been no final action on the interim final rule, because new legislation has been proposed by Senator Levin which, if enacted, would rescind the current requirement for semiannual reporting and add a provision requiring registration by all lobbyists with the Department of Justice.

Abstract: Section 313 amended the Immigration and Nationality Act by adding section 217 which established the nonimmigrant Visa Waiver Pilot Program (WWPP). This program waives the nonimmigrant visa requirements, to facilitate the admission of certain nonimmigrant alien visitors under the WWPP. Section 217, as amended by PL 101-649 and PL 102-232, revises from time to time the list of countries designated by the Secretary of State and the Attorney General, acting jointly, to participate in the Visa Waiver Pilot Program. Brunei has been added to that list.

Department Regulations Agenda;
Semiannual Summary

AGENCY: Office of the Secretary, DOT.

ACTION: Department regulations agenda.

SUMMARY: The regulations agenda is a semiannual summary of all current and projected rulemakings, reviews of existing regulations, and completed actions of the Department. The agenda provides the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of and allow it to more effectively participate in the Department's regulatory activity. The public is also invited to submit comments to continuously open regulatory review dockets, suggesting items for consideration as part of the Department's ongoing review of existing regulations.

ADDRESSES: The mailing address for the initiating offices of the Department which appear in the agenda is 400 7th Street SW., Washington, DC 20590; except for the Federal Aviation Administration, which is located at 800 Independence Avenue SW., Washington, DC 20591, and the U.S. Coast Guard, which is located at 2100 2nd Street SW., Washington, DC 20593.

Agenda

SUPPLEMENTARY INFORMATION:

Background

Improvement of Government regulations is a prime goal of the Clinton Administration. There should be no more regulations than necessary, and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department of Transportation (Department) achieve these goals and in accordance with Executive Order 12291 "Federal Regulation" (46 FR 13193; February 19, 1981) and the Department's Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), the Department prepares a semiannual regulations agenda for publication in the *Federal Register*. The agenda summarizes all current and projected rulemaking, reviews of existing regulations, and completed actions of the Department. These are matters on which action has

begun or is projected during the succeeding 12 months or such longer period as may be anticipated or for which action has been completed since the last agenda.

The agendas are based on reports submitted by the initiating offices in January and July each year. After these reports are consolidated for and reviewed by the Department Regulations Council, the Department's regulations agenda is prepared and published in the *Federal Register*. The Department's last agenda was published in the *Federal Register* on April 26, 1993 (58 FR 24618). The next one is scheduled for publication in the *Federal Register* in April 1994.

Regulatory Flexibility Act

In 1980, Congress passed the Regulatory Flexibility Act (RFA), Public Law 96-354, which requires the designation of those regulations for which a Regulatory Flexibility Analysis will be prepared; i.e., those regulations that would have a significant economic impact on a substantial number of small entities. A Regulatory Flexibility Analysis is required for a rulemaking which, in the heading "Small Entities Affected," indicates an effect on small businesses, governmental jurisdictions, or organizations. If a Regulatory Flexibility Analysis will be prepared for a particular rulemaking, that fact also will be noted under the heading "Analysis."

The RFA also requires that, each year, the Department publish a list of those regulations that have a significant economic impact on a substantial number of small entities and are to be reviewed under the Act during the succeeding 12 months. The agenda includes those regulations to be reviewed under the RFA or those for which review has been concluded since the last agenda. However, it should be noted that, after a preliminary assessment of the regulations listed for RFA review, it may be found that the regulations, in fact, do not have a significant economic impact on a substantial number of small entities, and a full RFA review will be unnecessary.

Regulatory Impact Analysis

A preliminary and final Regulatory Impact Analysis is required for each proposed and final regulation, respectively, that

DOT

(1) is likely to result in:

(a) An annual effect on the economy of \$100 million or more;

(b) a major effect on the general economy in terms of costs, consumer prices, or production;

(c) a major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions;

(d) significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets; or

(2) the Secretary or head of the initiating office has determined requires such an analysis.

Definitions

The agenda covers all rules and regulations of the Department, including those that establish conditions for financial assistance. The following definitions are provided for ease in understanding the information in this document.

(1) *Initiating office* means an operating administration or other organizational element within the Department, the head of which is authorized by law or delegation to issue regulations or to formulate regulations for issuance by the Secretary.

(2) *Significant regulation* means a regulation that is not an emergency regulation and that, in the judgment of the head of the initiating office or the Secretary or the Deputy Secretary,

(a) is a major regulation;

(b) concerns a matter on which there is substantial public interest or controversy;

(c) has a major impact on another operating administration or other parts of the Department or other Federal agency;

(d) has a substantial effect on State and local governments;

(e) has a substantial impact on a major transportation safety problem;

(f) initiates a substantial regulatory program or change in policy;

(g) is substantially different from international requirements or standards; or

(h) otherwise involves important Department policy.

(3) *Major regulation* means a significant regulation for which a Regulatory Impact Analysis is required to be prepared.

(4) *Emergency regulation* means a regulation that, (a) in the judgment of the head of the initiating office, circumstances require to be issued without notice and opportunity for public comment or made effective in less than 30 days after publication in the Federal Register or (b) is governed by short-term statutory or judicial deadlines.

(5) *Nonsignificant regulation* means a regulation that, in the judgment of the head of the initiating office, is neither a significant nor an emergency regulation.

Explanation of Information on the Agenda

The format for this agenda is required by Office of Management and Budget memorandum of June 14, 1993.

First, the agenda is divided by initiating offices. Then, in accordance with the OMB memorandum, for each initiating office, the agenda is divided into four categories: (1) Prerule stage, (2) proposed rule stage, (3) final rule stage, and (4) completed actions. For each entry, the agenda provides the following information: (1) The "significance" of the action (i.e., whether it is significant because it is on the Regulatory Program or because of agency priority or whether it is nonsignificant or routine and frequent); (2) a short descriptive title; (3) the legal basis for the action being taken or the regulation being reviewed; (4) the related regulatory citation in the Code of Federal Regulations; (5) an indication of any legal deadline and, if so, for what type of action (e.g., NPRM, final rule); (6) an abstract of the review or the proposed or final regulation; (7) a timetable, including the earliest expected date for a decision, on whether to issue the proposed or final regulation or complete the review and determine the corrective action to be taken. (The action taken can be revocation or revision of the regulation, or it can be a determination that no regulatory action is necessary because the regulation is found to be achieving its goals and the goals and objectives of Executive Order 12291 and the Department's Regulatory Policies and Procedures.); (8) an indication as to whether the rulemaking will affect small entities and/or levels of government and which categories of small entities or governments will be impacted; (9) if

there is information that does not fit in the other categories, it will be included under a separate heading entitled "Additional Information"; (10) a listing, where determined, of any analyses an initiating office will prepare or has prepared for the rulemaking document; e.g., a Regulatory Impact Analysis or Evaluation, an Environmental Impact Statement (EIS), a Regulatory Flexibility Analysis, or an Urban Impact Analysis. (It should be noted that, even though a Regulatory Impact Analysis is not required for some items on the agenda, the Department requires an economic analysis for all of its regulations. This economic analysis is contained in the Regulatory Evaluation, if a Regulatory Impact Analysis is not prepared.); (11) an agency contact office or official who can provide further information, including advice on how to obtain documents referenced in the agenda; and (12) a Regulation Identifier Number (RIN) assigned to identify an individual rulemaking in the agenda and facilitate tracing further action on the issue in the Federal Register which may occur between agenda publications.

(Departmental rulemaking documents published in the Federal Register now contain RIN numbers.)

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules), to keep those requirements operationally current, only the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations are included; individual regulations are not listed.

If a regulatory docket number has already been established, it may be provided under the "Additional Information" heading. If a member of the public desires further information regarding a particular proposal or regulation, reference should be made to this docket number.

In the "Timetable" column, abbreviations are used to indicate the particular documents being considered for issuance by that date. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, NPRM for Notice of Proposed Rulemaking, and FR for Final Rule. Listing a future date in this column is not an indication that a proposed or a final rule will be issued

DOT

on that date; it is the earliest date on which a decision is expected to be made on whether to issue the document listed. Submittal of any proposed or final rule to the Office of Management and Budget for review under Executive Order 12291 must follow such a decision. For major rules, this review could take 60 days or more. If any document is issued, publication in the *Federal Register* would follow within a few days. In addition, these dates are based on current schedules. Information received subsequent to the issuance of this agenda could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

Finally, a dot (•) preceding an entry indicates that the entry appears in the agenda for the first time.

Mailing Lists for Regulatory Documents

To assist the public in obtaining regulatory documents issued within the Department of Transportation, an Appendix A has been included in this document. The appendix contains instructions on how to be placed on mailing lists for, or to obtain copies of, specific regulatory documents, including the Department's semiannual regulations agenda issued by the operating administrations of the Department and the Office of the Secretary. There is no charge for this service; however, because of the costs involved, the number of copies of a document forwarded to an individual requestor may be limited. Persons already on mailing lists for particular documents within the Department will remain on those lists and should not reapply.

By following the instructions specified in the appendix, a person can be placed on a mailing list for future copies of the Department's regulations agenda, which will be updated and published in the *Federal Register* every year during April and October. By using the agenda, individuals can determine which notice or advance notice of proposed rulemaking, to be issued by elements of the Department, is of interest to them. Then, using the instructions in the appendix, such persons also can be placed on a mailing list to ensure that, after the document of interest is issued, a copy will be mailed

to them for their review and comment. In this way, individuals will be relieved of the burden of having to review the *Federal Register*, perhaps on a daily basis. The Department expects that this process will ensure that those people placed on mailing lists will receive early notice so that their views on the document can be adequately prepared and presented within the established comment period.

General Rulemaking Contact Persons

To assist persons desiring to obtain general information concerning the rulemaking process within the Department's operating administrations, an Appendix B has been added to the agenda. This appendix sets forth the addresses and the telephone numbers of the persons who can respond quickly to requests for general rulemaking information. Please note, however, that questions related to particular rulemaking actions should still be referred to the contact person listed with the particular rulemaking on the agenda.

Public Rulemaking Dockets

To facilitate the inspection of docket files and the submission of comments by the public, an Appendix C sets forth the addresses and working hours for the Rules Docket for each operating administration.

Request for Comments

Agenda

Our agenda is intended primarily for the use of the public. Since its inception, we have made modifications and refinements that we believe provide the public with more helpful information, as well as make the agenda easier to use. We would also like you, the public, to make suggestions or comments on how the agenda could be further improved. For example, do you find the information presented in an easily understandable manner? Do you find it easy to follow a regulation's development from agenda to agenda? Do you find that the format for setting out the information enables you to use the agenda easily? Do you find that the presentation of the information in the agenda is clearly explained in the preamble to the agenda? Your responses to these questions or any other comments or suggestions you may have should be sent to Neil R. Eisner, whose address appears above.

Reviews

In an effort to comply further with the spirit of Executive Order 12291 and the Regulatory Flexibility Act, we are also seeking suggestions on existing regulations that should be included in our review of existing regulations; that is, which existing regulations issued by an operating administration of the Department or the Office of the Secretary do you believe need to be reviewed to determine whether they should be revised or revoked? The Department is particularly interested in obtaining information on requirements that have a "significant economic impact on small entities" and, therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please send them, along with your explanation of why they should be reviewed, to the concerned operating administration or the Office of the Secretary. To ease the process for submission of suggestions of regulations warranting review by departmental entities, each operating administration and the Office of the Secretary maintains a continuously open regulatory review docket. Suggestions should be submitted to the docket section of the relevant modal administration or Office of the Secretary, attention "Regulatory Review Docket," with the following specific rulemaking docket numbers:

Federal Aviation Administration, Docket 26768;

Federal Highway Administration, Docket 92-12;

Federal Railroad Administration, Docket RSS-1-92-1;

Federal Transit Administration, Docket 92A;

Maritime Administration, Docket R-141;

National Highway Traffic Safety Administration, Docket 92-04;

Office of the Secretary, Docket 47978;

Research and Special Programs Administration, Docket RR-1;

Saint Lawrence Seaway Development Corporation, Attn: Marc Owen, Chief Counsel;

United States Coast Guard, Docket 92-005.

The addresses of the docket sections are contained in Appendix C. Multiple copies of the suggestions would be appreciated but are not required.

DOT

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that are targeted for review under the RFA. Those comments should be addressed to the "contact" person of the operating administration involved.

Purpose

The Department is publishing this regulations agenda in the **Federal Register** to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity. Knowledge of the nature and scope of this activity, as well as the specific proposals and reviews being considered, should result in more effective public participation in the Department's regulatory activity. For example, awareness of the dates when notices may be issued seeking public comment should allow appropriate planning and more efficient use of the comment period. By providing the expected date for a decision on whether to issue a final rule, the Department expects that more appropriate planning by those concerned with the regulation will also be possible. This publication in the **Federal Register** does not impose any binding obligation on the Department or any of the offices within the Department with regard to any specific item on the agenda. Regulatory action, in addition to the items listed, is not precluded. If further information is desired on any of the items listed in the agenda, the public is encouraged to contact the individual listed for the particular item. Additional information concerning the agenda in general or the Department's Regulatory Policies and Procedures may be obtained from Neil R. Eisner, whose address and telephone number appear above.

Issued in Washington, DC, on August 27, 1993.

Federico Peña,

Secretary of Transportation.

Appendix A - Instructions for Obtaining Copies of Regulatory Documents

Some Administrations within the Department differ in procedures or as to inclusion on a mailing list. For the offices listed below, persons desiring to obtain a copy of a specific regulatory document to be issued that is listed in this agenda should communicate, either by telephone or by letter, with the

contact person listed with the regulation at the addresses below.

United States Coast Guard (USCG)

(Name of contact person), United States Coast Guard, 2100 2nd Street SW., Washington, DC 20593.

Federal Highway Administration (FHWA)

(Name of contact person), Federal Highway Administration, 400 7th Street SW., Washington, DC 20590.

Abstract: Donald L. Pevsner petitioned the CAB to institute a rulemaking proceeding to ban use of the term "direct flight" because it is deceptive, and to declare use of the term to be

a prima facie violation of section 411 of the Federal Aviation Act of 1958. The Department is now considering what action to take in response to the petition.

Legal Authority: 49 USC 1371; 49 USC 1381

CFR Citation: 14 CFR 380.30(e); 14 CFR 399.84

Legal Deadline: None

Abstract: The DOT rules cited above state that any price stated for air transportation, a tour or a tour component must be the entire price for that transportation, tour or component. In this petition, Mr. Donald Pevsner complains that some tour operators advertise prices which do not include additional features which must be purchased and which cost extra. He asks that the rules be amended to state that such additional features may only be priced separately if they may be purchased separately, i.e., if they are optional rather than mandatory. The petition is under consideration.

Abstract: This action would incorporate the latest amendments to the Equal Access to Justice Act (EAJA or "Act"), 5 USC 504, into OST's EAJA regulations, 49 CFR 6. The EAJA provides for the award of attorneys' fees and other expenses to eligible individuals and entities who prevail over the Government in administrative proceedings, unless the position of the Government was substantially justified. The latest amendment made certain technical and substantive amendments to the EAJA, as well as made the Act, as so amended, permanent. This rulemaking is undertaken at the Department's initiative in response to the statutory changes in the EAJA.

Significance: Regulatory Program
Legal Authority: PL 98-575; PL 100-656, sec 15(c) to 16 Commercial Space Launch Act
CFR Citation: None
Legal Deadline: None
Abstract: Persons authorized to conduct commercial launch activities by a license issued by the Office of Commercial Space Transportation (OCST) are required to obtain insurance or demonstrate financial responsibility, in amounts and on terms prescribed by OCST, to protect against third-party or government property damage claims resulting from the licensed activities. Licensees and other launch participants are also required to enter into reciprocal waivers of claims arising out of licensed activities. In addition, persons engaged in commercial launch operations must provide proof of financial responsibility, or offer other assurances, adequate to protect the government when its property or personnel are involved in such operations. This rulemaking codifies the procedures by which OCST sets appropriate levels and terms of insurance and financial responsibility required to be carried by persons subject to its authority. This action is significant because of substantial public interest.

Significance: Regulatory Program

Legal Authority: 49 USC app 2601 to 2623

CFR Citation: 14 CFR 400 to 415

Legal Deadline: None

Abstract: The Commercial Space Launch Act of 1984, as amended, grants the Department of Transportation's Office of Commercial Space Transportation authority to license and otherwise regulate commercial launches and the commercial operation of launch sites. The Office must ensure that commercial space launch activities are conducted in a manner that does not jeopardize public health and safety, and the safety of property without,

however, imposing unnecessary regulatory burdens on the commercial launch industry. The industry has grown in size and complexity since the original regulations were published in 1988, and the Office's licensing program continues to evolve to reflect these changes. This rulemaking would modify the current regulations to reflect a streamlined and more mature licensing regime developed over the past few years. Such changes would benefit the industry by reducing regulatory burdens, thus reducing costs.

This rulemaking is significant because of substantial public interest.

Abstract: An ANPRM requested comments on lifts and other boarding equipment for use in regional and commuter aircraft and air taxis, and accessible lavatories for narrowbody and smaller aircraft. It also sought comments on additional accommodations for hearing-impaired persons. This rulemaking is significant because of substantial public interest. An Advisory Committee has been established to determine a feasible specification for accessible lavatories in narrowbody airplanes. Abstract: This action would amend portions of the rule implementing section 504 of the Rehabilitation Act of 1973 concerning federally assisted airport facilities to comport with 14 CFR 382, implementing the Air Carrier Access Act of 1986. The proposed rule would also apply the section 504 rule to air carriers receiving Federal financial assistance under the essential air service program. In addition, this action would amend 14 CFR 382 to implement the Air Carrier Access Act with respect to lifts for small commuter aircraft and airport facility accessibility. This rulemaking is considered significant because of substantial public interest.

Abstract: This action would implement recent changes to the Airport and Airway Improvement Act to allow airport sponsors to count new forms of disadvantaged business enterprise (DBE) participation toward the overall goals of a DBE concession plan. These new forms include purchases from DBEs of goods and services used in operating a concession, as well as management contracts and subcontracts with DBEs. This action is significant because of substantial public interest.

Abstract: This regulation will implement the provisions of a new section 1352 to title 31, United States Code, that prohibits the use of appropriated funds to influence certain Federal contracting and financial transactions. Organizations that use their own funds to pay for lobbying activities are required to disclose such

activity. The rule will be issued as a common rule based on guidance issued by the Office of Management and Budget on December 20, 1989 (54 FR 52305). Final action is awaiting OMB resolution of comments received on the interim final rule and possible changes to legislation restricting lobbying activities.

CFR Citation: 14 CFR 399.80; 14 CFR 399.85

Legal Deadline: None

Abstract: The Department is proposing to provide formal notice to the public of its enforcement policy concerning the rebating of international air fares by adopting that policy as a Policy Statement in the regulations. No change in the substance of that policy is intended. The Department also proposes to revoke an existing Policy Statement on the advertising of rebates that is contrary to DOT's current enforcement policy. The proposal responds to a request for such action by the American Society of Travel Agents. The proposed regulation is

significant because it involves important departmental policies and substantial industry interest.

Abstract: This rule governs the activities of public charter operators, a type of indirect air carrier that sells charter air transportation to consumers, and airlines that perform the direct air transportation. DOT is making major revisions to the rule, to remove unnecessary burdens on charter operators and airlines while updating, restructuring, and simplifying the necessary consumer protection provisions of the rules. The NPRM proposed simplified registration and financial procedures and would allow use of credit cards for payments to charter operators. Abstract: This action proposed to make direct air carriers responsible for returning charter passengers stranded by strikes or other service interruptions, by eliminating the force majeure clause from charter contracts. However, the CAB subsequently issued an interpretive rule (ER-1387, 49 FR 33436) which was affirmed in court. (Arrow Air, Inc. v. Dole, 784 F.2d 1118 (1986)). Significance: Nonsignificant

Legal Authority: 49 USC 1305

CFR Citation: 14 CFR 399

Legal Deadline: None

Abstract: The Civil Aeronautics Board in 1979 issued an interim Policy Statement on preemption. It discusses the policy of the Department with respect to three areas in which State law has been preempted by the Airline Deregulation Act of 1978: regulation of commuter air carriers and air taxis, the rights of airport proprietors, and general State authority as it directly or indirectly affects air transportation competition. The Supreme Court has recently ruled that section 105 of the ADA preempts even indirect State regulation that "has a connection with or reference to" airline rates, routes, or services. The Department is considering the effect of this holding on the Policy Statement.

Abstract: The CAB proposed to amend its rules requiring notice of contract terms for domestic travel to require that actual notice be given passengers of terms absolving carriers from any responsibility to transport a passenger to the destination named on the ticket, or to reimburse the passenger for expenses in reaching the airport noted on the ticket when a flight is diverted to another airport in the same metropolitan area. Alternatively, the Board proposed to declare it to be an unfair and deceptive practice to divert a passenger without arranging and paying for alternate transportation to the destination airport named on the passenger's ticket. The Board considered a final rule but did not decide what action to take. DOT is now considering what action to take.

Abstract: The American Association of Airport Executives, the Airport Operators Council International, and the Air Transport Association of America petitioned the CAB to simplify its counter-sign requirements. Presently, airlines are required to display four different consumer protection notices on their ticket counters. The petitioners alleged that the current notices are hard to read and, therefore, do not provide much notice to passengers. They proposed replacing the four notices with one simplified counter sign. The CAB adopted an NPRM that proposed a

Abstract: This final rule would provide that evidence and documents in formal hearing cases adjudicated within the Office of the Secretary (OST), and all of the Department of Transportation's modal administrations, except the Coast Guard and the Federal Aviation Administration, be filed and maintained in the OST Office of Documentary Services. The change would streamline operations and consolidate the documents used in formal hearing cases.

Legal Deadline: None

Abstract: Consistent with DOT
antidrug initiatives for DOT employees
and employees of regulated industries,
DOT was considering requiring its
contractors to establish antidrug
programs (including drug testing and
employee assistance programs) for
employees performing safety-sensitive
or security functions under DOT
contracts. Although initially considered
significant because of substantial public
interest, the Department is no longer
contemplating issuing such a rule.
Uniform, governmentwide regulations
to deter drug use among contractor
employees have been issued to
implement the Drug-Free Workplace
Act.

Abstract: This rulemaking would expand the length of the hull identification number (HIN) to include information about a vessel and function as a vessel identification number. The rulemaking would also require manufacturers to supply a Certificate of

Significance: Regulatory Program

Legal Authority: 46 USC 3703; PL 101-380

CFR Citation: 33 CFR 157

Legal Deadline: Final, Statutory, August 26, 1991.

Abstract: This rulemaking will address the interim measures existing vessels must take to provide substantial protection to the environment. The interim measures will apply to existing vessels until the vessel must comply with the double hull regulations beginning on January 1, 1995. No tank vessel without a double hull may operate after January 15, 2015. Interim measures are to include structural and operational standards to provide substantial protection to the environment that are economically and technologically feasible. This rulemaking is considered significant due to substantial public interest and environmental impact.

Significance: Agency Priority

Legal Authority: 33 USC 2712

CFR Citation: 33 CFR 133

Legal Deadline: NPRM, Statutory, February 18, 1991.

Abstract: Pursuant to the Oil Pollution Act of 1990 (OPA 90), this action will specify how the authority to obligate the pollution trust fund for oil spill response and cleanup efforts and to enter into agreements with the States will be exercised. OPA 90 provides for access to the liability trust fund at the request of a State governor or pursuant to agreement with a State. This project has been split into two rulemakings within this RIN. The interim final rule addresses immediate State access to the trust fund. A separate NPRM will address formal agreements with States to establish administrative procedures, recordkeeping, and auditing requirements. Legal Deadline: None

Abstract: This proposal will revise 46 CFR parts 42, 44, 45, and 46 and add parts 41, 43, 47, and 48 (subchapter E) to correct errors, replace previous omissions, incorporate new policies which have not been published, and implement provisions of the new Load Line Law enacted on October 21, 1986, and now in effect. This combines CGD 86-013 and 86-013(a).

CFR Citation: 46 CFR 31; 46 CFR 71; 46 CFR 91; 46 CFR 167; 46 CFR 176; 46 CFR 189

Legal Deadline: None

Abstract: Various laws, international agreements, and Coast Guard regulations require the posting of specific certificates, licenses, plans, operating instructions, and warnings onboard vessels. Some of these contain essential operational data which must be accessible at all times; others are primarily informational. This rulemaking project will seek to reduce posting requirements for nonessential operational data to reduce the burden on the public. Alternatives such as having items readily available rather than being posted are being considered.

Significance: Nonsignificant

Legal Authority: 33 USC 1233

CFR Citation: 33 CFR 100.15

Legal Deadline: None

Abstract: This proposal would amend current regatta and marine parade regulations to increase the lead time requirement for submitting regatta permit applications. The rulemaking will allow the Coast Guard adequate time to review regatta permit applications, conduct appropriate coordination, and provide necessary public notice relating to regattas and marine events. In view of comments received, an SNPRM will be issued.

Significance: Nonsignificant

Legal Authority: 49 USC 1803; 49 USC 1804; 49 USC 1808

CFR Citation: 46 CFR 148

Legal Deadline: None

Abstract: This proposal would incorporate into 46 CFR 148 the requirements for shipping certain frequently carried hazardous bulk solids. Putting these requirements into regulation would eliminate paperwork for both the Coast Guard and the shipping industry. This proposal would also incorporate requirements found in the International Maritime Organization's Code of Safe Practice for Solid Bulk Cargoes.

Significance: Nonsignificant

Legal Authority: 46 USC 7109

CFR Citation: 46 CFR 10; 46 CFR 12

Legal Deadline: None

Abstract: This action would provide the Coast Guard discretionary authority to review the criminal record of each applicant for a merchant mariner credential and require that each merchant mariner credential applicant make available information contained in the National Driver Register (NDR). The regulation would create procedures to allow an applicant or a holder of a license, Certificate of Registry, or merchant mariner document to request and comment upon any data received from the NDR. The data could be used against an individual's merchant mariner credential(s) under administrative procedures.

CFR Citation: 33 CFR 134; 33 CFR 137; 33 CFR 153

Legal Deadline: None

Abstract: This action will implement provisions of OPA 90 which govern payments to Federal agencies for removal costs and to initiate the assessments of natural resources damages. OPA 90 also consolidates into one Oil Spill Liability Trust Fund the 311(k) Fund, the Deepwater Port Liability Fund, and the Trans-Alaska Pipeline Liability Fund. This action was inadvertently classified as significant and has been downgraded.

Significance: Regulatory Program

Legal Authority: 46 USC 4202

CFR Citation: 46 CFR 165

Legal Deadline: Final, Statutory, August 18, 1992.

Abstract: The Oil Pollution Act of 1990 directs the President by August 18, 1992, to (1) require periodic inspection of discharge-removal equipment to ensure that it is available in an emergency, and (2) require carriage of discharge-removal equipment by vessels operating in the navigable waters of the U.S. and carrying oil or hazardous substances. This proposal would implement those provisions. This proposal is considered significant because of expected costs and substantial public interest.

Additional Information: The Oil Pollution Act of 1990 (OPA) repealed or superseded certain oil spill liability provisions under the Federal Water Pollution Control Act (33 USC 1321), title III of the Outer Continental Shelf Lands Act Amendments of 1978 (43 USC 1814), the Trans-Alaska Pipeline Authorization Act (43 USC 1653), and the Deepwater Port Act of 1974 (33 USC 1517). The financial responsibility provisions of those Acts were replaced by a single financial responsibility regime under OPA and keyed to the broader liability of OPA. In addition to financial responsibility requirements under OPA, which is limited to oil, this project would include financial responsibility requirements under the Comprehensive Environmental Response, Compensation, and Liability Act, which concerns hazardous substances. This consolidation would allow the issuance of a single, unified Certificate of Financial Responsibility for vessels, replacing separate certificates and financial responsibility regimes under the previously mentioned Acts.

Abstract: The Omnibus Budget Reconciliation Act of 1990 requires the Coast Guard to establish user fees for Coast Guard services related to the inspection and examination of U.S. and foreign vessels and issuance of Certificates of Inspection, Certificates of Compliance, and related documents. The proposed fees are based on the way the Coast Guard presently conducts vessel inspection activities. This proposal is intended to recover costs of providing certain vessel inspection services. Abstract: This rulemaking partially implements sections 4202(b)(4) and 5005 of the Oil Pollution Act of 1990, P.L. 101-30 (OPA-90), concerning tank vessel and facility response plans. Section 4202(b)(4) of the OPA-90 amends section 311(j)(5) of the Federal Water Pollution Control Act (FWPCA), which requires owners and operators of tank vessels and facilities to develop response plans for responding to worst-case discharges (or substantial threat thereof) of oil or hazardous substances. Section 5005 requires that response plans for tank vessels operating in Prince William Sound, Alaska, and facilities permitted under the Trans-Alaska Pipeline Authorization Act provide for additional measures of oil spill preparedness. This action is considered significant because of substantial public interest and environmental considerations. This rulemaking covers tank vessel requirements. Legal Deadline: None

Abstract: This project would implement the provisions of the 1983 amendments to SOLAS 1974 (Safety of Life at Sea) which came into force in July of 1986. It would also reorganize the lifesaving equipment regulations in order to simplify, clarify, and reduce redundancy. This rulemaking is significant because of substantial public interest.

CFR Citation: 46 CFR 10; 46 CFR 15

Legal Deadline: None

Abstract: This project makes provision for the licensing of officers on mobile offshore drilling units and establishes manning standards for these vessels. This action is considered significant because of substantial public interest. Based on comments received, two SNPRMs were issued and the interim final rule revised.

Additional Information: This project was split from Coast Guard Docket 81-059, Licensing of Maritime Personnel, which was completed under RIN 2115-AA64 (54 FR 125). The interim final rule effective date was suspended because the comments received indicated substantive revisions to the rule were necessary. The refined interim final rule of 04/18/90 withdrew the notice suspending the effective date and invited public comment through 06/18/90.

RIN: 2115-AB91

Legal Deadline: Final, Statutory, January 1, 1993.

Abstract: The Commercial Fishing Industry Act of 1988 requires the Secretary of Transportation to prescribe regulations for certain safety equipment and vessel operating procedures. Subjects addressed by the rulemaking include: navigation, radio, firefighting, and lifesaving equipment, as well as fuel, ventilation, and electrical systems. This rulemaking is considered significant because of substantial public interest.

Abstract: Rulemaking would redefine and establish more stringent qualifying criteria for individuals engaged in transporting and transferring various categories of oil and dangerous liquid cargoes. The Port and Tanker Safety Act of 1978 mandated the establishment of personnel qualification and manning standards for tank vessels. In addition, the International Convention on the Standards for Training, Certification, and Watchkeeping for Seafarers 1978 (STCW) has entered into effect and establishes international standards for tank vessel personnel qualifications. In view of the length of time since publication of the NPRM, a supplemental NPRM was issued.

Significance: Nonsignificant

Legal Authority: 33 USC 1223; 33 USC 1224

CFR Citation: 33 CFR 166; 33 CFR 167

Legal Deadline: None

Abstract: The Coast Guard has conducted the Port Access Route Study mandated by the Ports and Waterways Safety Act. As a result of the study, the Coast Guard will establish traffic separation schemes off the California coast. These schemes have been in use for some time, and were adopted by the International Maritime Organization (IMO). The proposed shipping safety fairways connecting the San Francisco and the Santa Barbara traffic separation schemes are no longer necessary since creation of the Monterey Bay National Marine Sanctuary in September 1992, and that portion of this rulemaking will be withdrawn. Due to this reduced scope, the rulemaking is no longer considered significant.

Abstract: As a result of the passage of Public Law 100-540, EPIRBs will be required on each manned uninspected vessel operating on the high seas or beyond three miles from the coast line of the Great Lakes. On August 17, 1988, the Coast Guard published a rule to require EPIRBs on certain fishing vessels. This action extended the requirements of the August 1988 rule as required by PL 100-540.

Additional Information: Although this action extended the requirements of the August 17 rule for most of this class of vessels, in a separate action the Coast Guard suspended the effective date for owners of small vessels so as to avoid the cost of a Category 1 EPIRB while alternatives are considered for them (04/19/90, 55 FR 14920). This project was divided into two parts. A final rule covered the noncontroversial aspects. An SNPRM will make alternative proposals for other vessels not covered by the final rule.

Abstract: The Shore Protection Act of 1988 (33 USC 2501 et seq.) prohibits vessels from transporting municipal and commercial waste unless they have a permit and display a number. The Act requires the permit and number 240 days after enactment. This interim rule implemented these provisions of the Act and requested comments.

Abstract: The Coast Guard conducted a study of the need for port access routes for the approaches to Chesapeake Bay, Virginia. (Notice of study results published July 13, 1989, 54 FR 29627.) The study concluded that the southern approach part of the traffic separation scheme should be

CFR Citation: 33 CFR 136

Legal Deadline: None

Abstract: This rulemaking will implement section 1013 (Claims Procedures) and section 1014 (Designation of Source and Advertisement) of the Oil Pollution Act of 1990. This rulemaking was designated significant because of anticipated public interest. However, few comments were received on the interim final rule and there has been limited claims activity. Since the final rule will consist of minor clarifications and editorial corrections, this action is now considered nonsignificant.

Abstract: This rulemaking applies to vessels constructed or adapted to carry oil in bulk or as cargo residue and requires that minimum standards for plating thickness be established. It also requires periodic gauging of the applicable vessels that are more than 30 years old. The purpose of these regulations is to prevent oil leaks from cracks in hull plating.

Abstract: This rulemaking would revise 33 CFR 117.11 to prevent unnecessary drawbridge openings and add a definitions section. This revision would prohibit a vessel owner or operator from signaling a drawbridge to open when sufficient clearance is provided for the vessel to pass safely. It would also prohibit signaling for the bridge to open when there is no intention to pass through.

Significance: Nonsignificant
Legal Authority: 33 USC 1903(b)
CFR Citation: 33 CFR 151.55

Legal Deadline: Final, Statutory, December 29, 1988.
Abstract: This regulation would require certain U.S. vessels and fixed or floating platforms to keep records of refuse discharges. This record is mandated by the Marine Plastic Pollution Research and Control Act of 1987. The regulation would require that certain information be recorded and kept on board the vessel. The regulation does not prescribe what format should be used or that a standard book be purchased to log entries. The action's potential costs should be minimal and result from recordkeeping. This rulemaking action should reduce the number of illegal discharges of garbage, provide information for enforcement, and assist the Coast Guard in its studies of the methods of disposal being used, the problems encountered in port, and the amounts of garbage being generated at sea.

Significance: Nonsignificant
Legal Authority: 46 USC 2110
CFR Citation: 33 CFR 1.30

 Statute enacted 11/05/92 made changes in the statutory applicability of the RVF, effective 10/01/92.
Abstract: The Coast Guard is changing the categories of recreational vessels subject to the recreational vessel fee (RVF). A recent legislative amendment reduces the number of recreational vessels subject to the annual fee by changing the vessel length categories in fiscal years 1993 and 1994 and by repealing the fee entirely for fiscal year 1995. This rulemaking amends the RVF regulations to reflect this phased-out repeal of the annual fee.

Abstract: The Coast Guard established a regulated navigation area in 1984 to minimize the effects of wakes on the drydock ARDM 1 OAKRIDGE. Since then, the construction of the Magnetic Silencing Facility and the related activities associated with it have increased the size of the regulated navigation area which is necessary to protect workers. The rule extends by approximately 700 yards the southern boundary of the bare steerageway regulated navigation area in the vicinity of the entrance to King's Bay, Georgia.

Significance: Nonsignificant

Legal Authority: 33 USC 1231

CFR Citation: 33 CFR 162

Abstract: The Coast Guard is proposing to amend the class of vessels to which navigation restrictions are applicable in the Blue Water Bridge area of the St. Clair River. Under these restrictions

vessels of 20 meters or more in length and commercial vessels more than 8 meters in length engaged in towing (33 CFR 162.130(b)(3)) may not overtake, come about, or meet within the traffic zone. This proposal would lift these restrictions from sailing vessels 20 meters or less in length and power-driven vessels of 55 meters or less in length without a tow. This proposal would also impose the navigation restrictions on all commercial vessels engaged in towing another vessel astern, alongside, or by pushing ahead, regardless of size.

Abstract: This action would have reemphasized the Port Security Card as an access control document rather than a personal identification document. However, the Coast Guard encourages the facility/vessel owner-operators to implement their own identification card system which the Commandant of the Coast Guard could accept under 33 CFR 6.10-7 in lieu of the requirements under 33 CFR 125.

Significance: Nonsignificant

Legal Authority: 33 USC 1225; 33 USC 1231; 50 USC 191

CFR Citation: 33 CFR 165

Legal Deadline: None

Abstract: In recent years the port of Brownsville, Texas, has experienced several casualties involving vessels to be scrapped. This proposal was to limit the possibility of future casualties by requiring advance notice of arrival and inspection for watertight integrity and the presence of hazardous gas. The proposed regulated navigation area is being considered for incorporation into a larger RNA. Therefore, this project was terminated.

Significance: Nonsignificant

Legal Authority: 33 USC 1312(j)

CFR Citation: 33 CFR 156

Legal Deadline: None

Abstract: This rulemaking action requires that lightering operations conducted from 12 to 200 nautical miles off the coast be conducted in accordance with applicable portions of the pollution prevention requirements in 33 CFR subchapter O. Lightering operations past 12 miles have increased in frequency and there is reason to believe the trend will continue. This action requires that these offshore lightering operations be conducted with at least minimal safety standards.

Omnibus Transportation Employee Act of 1991

Abstract: The Omnibus Transportation Employee Testing Act of 1991 directs the FAA Administrator to prescribe

regulations that require foreign air carriers to establish drug and alcohol testing programs for employees performing safety-sensitive aviation functions. These regulations must be consistent with the international obligations of the United States and take into consideration any applicable laws and regulations of foreign countries. This notice invites comments on a variety of issues related to the application of drug and alcohol testing requirements to employees of foreign air carriers operating within the territory of the United States. This action is being taken in lieu of a notice of proposed rulemaking to seek the public's view on a variety of issues and to obtain responses to questions that may arise in addressing drug and alcohol testing by foreign air carriers. This action is considered significant because of substantial public and congressional interest.

Omnibus Transportation Employee Testing Act of 1991

Abstract: This rulemaking would implement certain provisions of the Omnibus Transportation Employee Testing Act of 1991. Also, it would clarify employer and Medical Review Officer responsibilities and address other issues that have been identified since the antidrug rule was promulgated. This action is significant because of substantial public and congressional interest.

Abstract: This notice would ensure that airplanes used or not used in common carriage in air transportation have a comprehensive corrosion prevention program within their maintenance or inspection program. In April 1988, a commercial transport airplane experienced an in-flight decompression and separation of approximately 18 feet of the fuselage skin and structure at the top of the airplane. The airplane had been in service for 19 years and had flown almost 90,000 flights. The National Transportation Safety Board concluded that the failure of the airline to detect

skin disbonding resulted in corrosion and metal fatigue leading to separation of the airplane's skin structure. This rulemaking is considered significant because of substantial public interest.

Abstract: This action would amend the airworthiness standards for transport category airplanes to require fuel vent system protection during post-crash ground fires. This proposed rule would apply to air carriers, air taxi operators, and commercial operators of transport category airplanes, as well as the manufacturers of such airplanes. This action is considered significant because of substantial public interest and the safety implications.

Abstract: This notice would revise the medical standards and the medical certification procedures of the Federal Aviation Regulations. This action follows the completion of a comprehensive review of the medical standards which was announced in previous notices. If adopted, these revised standards for airman medical certification and associated administrative procedures will better provide for safety in the aviation system and reflect current medical knowledge, practice, and terminology. Abstract: This notice proposed to amend parts 25, 121, and 135 of the Federal Aviation Regulations to add new standards for transport category airplanes which would provide for approval of a reduced takeoff decision speed (V1) methodology for takeoff on wet and contaminated runways. As a result of extensive review and due to the increasing emphasis on harmonizing certification standards with the Joint Aviation Authorities (JAA) of Europe, the NPRM of 11/30/87 was withdrawn and a revised one published. This rulemaking is significant because of substantial public interest in both the United States and Europe.

CFR Citation: 14 CFR 121

Legal Deadline: None

Abstract: The current regulations need to be revised to account for the changed operational practices stemming from airline economic deregulation. This proposal would clarify or change the number of flight attendants required when passengers are on board an airplane, including at stops. This proposal includes two new requirements: (1) a revision of the reduced number of flight attendants which, under certain conditions, a carrier is permitted to have on board a passenger-carrying airplane during stops; and (2) a requirement for a demonstration of competency by the other authorized persons who may be permitted to be substituted for required flight attendants when passengers are on board the airplane during stops. This proposal would change the current rule by clarifying and specifying the training required to be completed by these other authorized persons. This rulemaking is considered significant because of substantial public interest.

Abstract: Current repair station rules were developed during the infancy of the aviation industry. Very few changes were made to those rules since they were adopted in 1952. This rulemaking project proposes to review foreign repair station requirements and update the rules to reflect the current international and domestic environment and needs. The FAA has held four public meetings to solicit information and views to review the existing regulations and to explore alternatives in revising the rules of this part. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice would propose revisions to the requirements for developing noise exposure maps and noise compatibility programs and submitting them for FAA approval. The revisions are intended to expedite and simplify the part 150 process. Under the revised process, the mandatory set of noise abatement measures which are presently required to be considered by each airport sponsor would be limited in scope depending on the characteristics of each airport and its surrounding community. The new process would be supported by appropriate guidance, training, review, standardization, and consultation requirements. This project is considered significant because of substantial public interest.

Abstract: This action would codify SFAR 58, which established a voluntary, alternative method for the training, evaluation, certification, and qualification requirements of flight crewmembers, flight attendants, aircraft dispatchers, instructors, evaluators and other operations personnel subject to the training and qualification requirements of 14 CFR 121 and 135. The FAA developed this alternative method in response to recommendations made by representatives from the Government, airlines, aircrew professional organizations, and airline industry organizations. The SFAR is designed to improve aircrew performance and allows certificate holders to develop innovative training programs that incorporate the most recent advances in training methods and techniques. This rulemaking is significant because it would codify a new concept in air carrier training programs. There is substantial interest in this rulemaking in the air carrier industry.

Proposed Rule Stage

2428. • +REVISED ACCESS TO TYPE III EXITS**Significance:** Agency Priority**Legal Authority:** 49 USC 1344; 49 USC 1354(a); 49 USC 1355 to 1357; 49 USC 1401; 49 USC 1421 to 1430; 49 USC 1472; 49 USC 1485; 49 USC 1502; 49 USC 106(g)**CFR Citation:** 14 CFR 25; 14 CFR 121**Legal Deadline:** None

Abstract: This action would adjust recently adopted requirements for access to type III emergency exits in transport category airplanes with 60 or more passenger seats. The adjustments would reflect new data from tests conducted at the FAA's Civil Aeromedical Institute and are intended to improve the ability of occupants to evacuate an airplane under emergency conditions. This rulemaking is considered significant because of its substantial public interest.

Abstract: This rule would amend the training and testing requirements for check airmen and flight instructors who perform their functions in training programs conducted by part 121 and

part 135 certificate holders. The proposed amendments are needed to allow check airmen and flight instructors who perform their functions only in flight simulators and flight training devices to do so without having to possess a current medical certificate. The proposed amendments are also needed to make these regulations compatible with proposed regulations for simulator training centers and with the regulations for advanced qualification training programs. This rulemaking is significant because of substantial public interest in this relieving proposal.

Abstract: This proposed amendment would require parts 125 and 135 certificate holders to provide pilot training or testing in ground deicing/anti-icing procedures and to check the airplane for contamination by frost, ice, or snow during ground icing conditions. The proposal is intended to provide an added level of safety to flight operations in adverse weather conditions under parts 125 and 135. This rulemaking is significant because it affects a substantial portion of the aviation industry.

Abstract: This notice would propose to amend the Federal Aviation Regulations to redefine the airplane reference stalling speed as the 1-g stalling speed in lieu of the minimum stalling speed. This notice would: (1) provide for a consistent, repeatable reference stalling speed; (2) ensure consistent and dependable maneuvering margins; (3) clarify the requirement for the use of 1-g stalling speeds in determining structural design speeds; (4) increase the head-on gust structural design requirement; and (5) provide for adjusted multiplying factors to maintain essentially equivalent requirements in areas where the use of minimum stalling speed has proven adequate. These changes are needed since the stalling characteristics of modern jet transports as determined by current methods can result in inconsistent reference stalling speeds. These changes may result in a higher level of safety where current methods have resulted in artificially low reference stalling speeds.

CFR Citation: 14 CFR 121

Legal Deadline: None

Abstract: This notice would propose to revise part 121 of the Federal Aviation Regulations by allowing air traffic control specialists to ride on the cockpit jumpseat in nonpassenger-carrying air carrier operations. Originally this rulemaking was considered significant. However, because there is no substantial public interest, this rulemaking is no longer significant.

The current regulation permits both type and airworthiness certification for surplus military aircraft based on the particular aircraft's safety record and condition. As military aircraft have become increasingly complex and sophisticated, that practice is no longer acceptable. This action would remove

the regulations for issuing type certificates for these surplus aircraft and eliminate references to obsolete standards. Surplus military aircraft would still be certificated in the normal, utility, acrobatic, commuter, transport, and restricted categories upon compliance with the applicable regulations.

Abstract: This action would revise the Federal Aviation Regulations for certain overwater operations for air carriers, commercial operators, and general aviation operators of large and turbine-powered multiengine airplanes. This action would authorize air carriers and commercial operators to use a single high-frequency communication system (HF) and a single LRNS for extended overwater routes detailed in their operation specifications. This proposal is needed to give the FAA greater flexibility in responding to advances in aviation technology and changes in the operational environment and to allow operators to conduct extended overwater operations without carrying unnecessary communication and navigation equipment.

CFR Citation: 14 CFR 36; 14 CFR 91

Legal Deadline: None

Abstract: This notice proposed revisions to the aircraft type certification standards and operating rules to require that future supersonic aircraft meet noise limits consistent with those required for future subsonic aircraft. Although considered significant due to substantial public interest, this project will be withdrawn from the Agenda until FAA's Regulatory Review Board reestablishes a timetable for a rulemaking procedure.

PL 100-223, Section 303, Airport and Airway Safety and Capacity Enhancement Act of 1987.

Abstract: This notice proposed new requirements for water survival equipment carried aboard airplanes and rotorcraft. The requirements would apply, after specified dates, to U.S.-certificate holders that conduct common-carriage operations with airplanes and rotorcraft. This proposal is in response to the Airport and Airway Safety and Capacity Enhancement Act of 1987 (PL 100-223) and relates to safety recommendations by the National Transportation Safety Board. The proposed requirements are intended to increase the likelihood of aircraft passengers surviving a crash landing in water and, thus, this rulemaking is significant because of the safety implications.

PL 100-223 Sec 303

Abstract: This notice proposed to require that all seats of transport category airplanes used in air carrier operations and transport category airplanes used in scheduled intrastate service comply with improved crashworthiness standards. The Airport and Airways Safety and Capacity Expansion Act of 1987 directs the Secretary of Transportation to initiate a rulemaking proceeding to consider requiring all seats onboard all air carrier aircraft to meet improved crashworthiness standards based upon the best available testing standards. The intended effect of this action is to increase passenger protection and survivability in survivable impact accidents. This rulemaking is considered significant because of its safety implications and statutory requirements.

Abstract: This notice proposed to revise the fatigue requirements for

damage-tolerant structures on transport category airplanes to require full-scale fatigue testing and to require that the thresholds for inspections be based on crack growth from initial flaws in the structure. These proposed changes are based on the service history of airplanes evaluated to the current damage tolerance requirements and are intended to ensure that, should serious fatigue damage occur within the operational life of the airplane, the remaining structure can withstand reasonable loads without failure until the damage is detected. This rulemaking is considered significant because of its safety implications and substantial public interest.

Abstract: This action proposed to revise the Federal Aviation Regulations to require the operator of an aircraft used in conducting authorized news-gathering operations in an area covered by temporary flight restrictions to be under the direction of the official in

charge of the on-scene emergency response activities. Adoption of this proposal would reduce the potential for traffic conflicts and disruption of relief operations and would increase the level of safety afforded aircraft used in conducting rescue or disaster relief operations. This action is considered significant because of substantial public interest and safety considerations.

Abstract: This action would implement
the FAA-related provisions of the
Omnibus Transportation Employee
Testing Act of 1991, which was enacted
on October 28, 1991. By amending the
Federal Aviation Act of 1958, Congress
has imposed a statutory obligation on
the Administrator of the FAA to
prescribe regulations that, among other
things, establish an alcohol testing
program for air carrier employees who
perform safety-sensitive duties.

This action would also propose to
prohibit certain alcohol-related conduct
by covered air carrier employees and
would require pre-employment,
random, reasonable suspicion, post-
accident, and follow-up testing to
detect and deter such conduct. This
rulemaking is considered significant

Abstract: This action would amend the
pilot and flight instructor certification
rules to include additional use of
aircraft, aircraft flight simulators and
flight training devices for pilot training,
testing, and checking. This notice also
would propose a new part 142 that
would govern a new concept called

Abstract: This action proposed to amend the Federal Aviation Regulations to update, clarify, and consolidate into one part, new part 119, the certification and operations specifications requirements for persons who conduct passenger-carrying or cargo-carrying air operations for compensation or hire. Significant changes included defining what must be included in operations specifications; defining "scheduled" and "domestic" operations; increasing the lead-time period for application for a certificate; defining a "wet lease" operation; including in the regulations criteria to determine who has operational control of an operation; and standardizing the requirements and qualifications for management personnel. This action is needed to establish permanent minimum safety standards following the "sunset" of the Civil Aeronautics Board on December 31, 1984, and the enactment of the Airline Deregulation Act of 1978. This action would also replace SFAR 38, as amended, which has provided interim certification and operations specifications regulation. This rulemaking is considered significant because of substantial public interest.

Abstract: This notice proposed to revise the current requirements for passenger emergency exits and to adopt two new exit types into the regulations. These proposals are intended to provide more consistent standards with respect to passenger seating allowed for each exit type, and the type and number of exits required for passenger seating configurations. This notice proposed to reduce the maximum inflation time of an escape slide to reflect the current state of the art. These proposals resulted from the Public Technical Conference on Emergency Evacuation of Transport Airplanes held in Seattle, Washington, on September 3-6, 1985. This rulemaking is considered significant because it involves an important cabin-safety issue.

Abstract: This notice proposed to require installation of an improved emergency locator transmitter (ELT) that meets the requirements of a revised Technical Standards Order (TSO) on U.S.-registered airplanes and to terminate approval to use ELTs authorized under the original TSO issued for this equipment. The new equipment would be required for future installations. This proposal was prompted by unsatisfactory performance experienced with ELTs that are manufactured under the original TSO and relates to safety recommendations by the National Transportation Safety Board and the search-and-rescue community. Although most of the unsatisfactory field experience has been with automatic ELTs, the FAA is also proposing improved standards for survival ELTs. This proposal would

Abstract: This notice proposed to amend the airworthiness standards for normal, utility, acrobatic, and commuter category airplanes by upgrading the requirements for both seat/restraint systems and for flammability standards for seat cushions used in commuter category airplanes. These amendments are needed to improve the occupant protection provisions for these types of airplanes. These new requirements would result in a level of safety commensurate with that provided by the seat/restraint requirements and the flammability standards for transport category airplanes. This rulemaking is considered significant because of substantial public interest.

Abstract: This proposed amendment would establish a requirement for part 121 certificate holders to develop an FAA-approved ground deicing/anti-icing program and to comply with that program any time conditions are such that frost, ice, or snow could adhere to the aircraft's wings, control surfaces, or propellers. This action is necessary because several accidents and the recent International Conference on Airplane Ground Deicing indicate that, under present procedures, the pilot in command may be unable to effectively determine whether critical airplane components are free of all frost, ice, or snow prior to attempting a takeoff. The proposal is intended to provide an added level of safety to flight operations in adverse weather conditions, and is considered significant because of its safety implications.

Abstract: On November 21, 1988, the Federal Aviation Administration (FAA) published a final rule requiring specified aviation employers to implement anti-drug programs for personnel performing sensitive safety- and security-related functions. That final rule includes recordkeeping and reporting requirements. In response to a Department of Transportation (DOT) Notice of Proposed Rulemaking (NPRM) that would establish a standard Management Information System for the Department's drug testing programs, this action would modify the FAA's recordkeeping and reporting requirements. This action is considered significant because of substantial public interest.

Abstract: This final rule would establish duty period scheduling limitations and rest requirements for flight attendants engaged in air transportation and air commerce. The objective of this rulemaking action is to contribute to an improved aviation safety system by ensuring that flight attendants are sufficiently rested to perform their routine and emergency safety duties. This rulemaking is significant because there is substantial public interest, and because, if adopted, it would constitute a major change in policy.

Abstract: This notice proposed to amend the airworthiness standards for transport category airplanes to require a means to alert the flight crew of potentially unsafe low fuel quantities. There have been several fuel depletion incidents involving loss of power or thrust on all engines that could have resulted in forced landings and injury or loss of life. Most of these incidents resulted from improper fuel management techniques. This proposed amendment would require new transport category airplane designs to incorporate a low fuel quantity alert system that would allow for correction of certain fuel management errors or provide the flightcrew the opportunity

to make a safe landing prior to engine fuel starvation.

Abstract: This notice responded to a petition for rulemaking from Aerospace Industries Association of America, Inc., and proposed to amend the Federal Aviation Regulations to incorporate new one-engine-inoperative (OEI) power ratings for multiengine, turbine-powered rotorcraft. If adopted, this proposal would enhance rotorcraft safety after an engine failure or precautionary shutdown by providing OEI power, when required, with the assurance that the drive system would maintain its structural integrity and allow continued safe flight while operating at the new OEI power ratings with the operable engine(s).

Abstract: This notice proposed to amend the Federal Aviation Regulations to minimize the failure hazards of high speed powerplant rotor systems used in turboshaft engines in newly designed transport category rotorcraft. Engine rotor failures have occurred resulting in the release of high energy rotor fragments or other engine component fragments. These fragments have impacted and damaged critical rotorcraft structures, systems, controls, and adjacent engines, as well as caused serious or fatal injuries to passengers and crewmembers. This proposal, if adopted, is intended to eliminate these hazards.

CFR Citation: 14 CFR 27; 14 CFR 29**Legal Deadline:** None

Abstract: This notice proposed to add comprehensive crash resistant fuel system design and test criteria to the airworthiness standards for normal and transport category rotorcraft. The proposed standards would minimize fuel (and other flammable fluid) spillage near ignition sources, minimize potential ignition sources and, therefore, improve the evacuation time needed for crew and passengers to escape a postcrash fire. These proposals, if adopted, would minimize the postcrash fire hazard, save lives, and substantially reduce the severe physiological and psychological injuries sustained from postcrash fires in otherwise survivable accidents.

CFR Citation: 14 CFR 25**Legal Deadline:** None

Abstract: This notice proposed to amend the Federal Aviation Regulations to add a new standard for transport category airplanes which would provide lightning protection requirements for installed electrical and electronic systems. This proposal was the result of increasing concern for the vulnerability of these systems to the indirect effects of lightning. This notice was issued in order to promulgate specific lightning protection requirements for electrical systems which perform essential or critical functions.

CFR Citation: 14 CFR 23

Legal Deadline: None

Abstract: This notice proposed to amend emergency egress requirements of the airworthiness standards for normal, utility, acrobatic, and commuter category airplanes. These proposed rules are necessary to improve the compatibility of the requirements for emergency exit provisions of commuter category airplanes with the corresponding requirements for similar sized transport category airplanes. These proposals provide alternative emergency exit requirements, applicable to commuter category airplanes, when additional bin safety features are included in the airplane design, and include specific requirements for flight crew emergency exits, emergency exit ditching provisions, and the size requirement of the passenger entry door for commuter

category airplanes. Originally this rulemaking was considered significant. However, because this rule would impact relatively few aircraft and would provide options in some cases, this rulemaking is no longer significant.

Abstract: This notice proposed to amend the airworthiness standards for transport category airplanes to require improved cowling retention devices. A review of a number of inflight incidents where engine cowlings were lost revealed that the largest single cause of such losses was improper latching of the cowlings. If adopted, this proposal would provide additional design standards to detect improperly latched cowlings and ensure the integrity of the latching system.

Abstract: This action would amend the exit seating rule to exclude from its applicability commuter air carrier aircraft having 9 or fewer passenger seats and on-demand air taxi aircraft having 19 or fewer passenger seats. These proposed amendments are intended to relieve air carriers and persons with disabling conditions of unnecessary burdens by allowing, on a commuter-carrier aircraft, seating in an exit-row seat a passenger who is not able, or willing without assistance, to activate an emergency exit. The revisions would eliminate unnecessary requirements for safe evacuation in an emergency, as seating configurations in such aircraft tend to differ from standard aisle-and-row seating and frequently include single units around a central open space in the cabin, couch seats, and club seating, which provide undefined, unrestricted paths to the exits.

2503. ACCELERATED STALLS IN COMMUTER CATEGORY AIRPLANES**Significance:** Nonsignificant**Legal Authority:** 49 USC 1344; 49 USC 1354(a); 49 USC 1355; 49 USC 1421; 49 USC 1423; 49 USC 1425; 49 USC 1428; 49 USC 1430; 49 USC 106(g)**CFR Citation:** 14 CFR 23**Legal Deadline:** None

Abstract: This action would eliminate the certification requirement to demonstrate an accelerated entry stall for commuter category airplanes. Such aircraft typically have high power-to-weight ratios that require the airplane to achieve extremely high angles of attack (excessive nose-high attitudes) during stall demonstrations. Recovery from accelerated entry stalls is less certain for airplanes that attain these extreme nose-high angles. The proposed change would remove a potential hazard during flight demonstrations required for type certification without compromising passenger safety. Originally this rulemaking was considered significant. However, since there is no substantial public interest or cost, this rulemaking is no longer considered significant.

Abstract: This amendment changed the airframe and flight airworthiness standards for normal, utility, acrobatic, and commuter category airplanes based on a number of recommendations discussed at the Small Airplane Airworthiness Review Conference held on October 22-26, 1984. This action arose from the recognition that updated safety standards are needed for an acceptable level of safety in the design requirements for small airplanes used in both private and commercial operations. This action included design requirements applicable to advancements in technology being incorporated in current designs and will reduce the regulatory burden in showing compliance with some requirements while maintaining an acceptable level of safety. This action was considered significant because of substantial public interest.

Abstract: This final rule amends the powerplant and equipment airworthiness standards for normal, utility, acrobatic, and commuter category airplanes that were based on certain proposals and recommendations discussed at the Small Airplane Airworthiness Review Conference held in St. Louis, Missouri, on October 22-26, 1984. These proposals arose from the recognition, by both government and industry, that updated safety standards are needed to maintain an acceptable level of safety in the design requirements for small airplanes that are used in both private and commercial operations. This action is considered significant because of substantial public interest.

Abstract: This action prescribed benefit-cost-based criteria for establishment and discontinuance of LORAN-C nonprecision approach procedures at airports. FAA will consider traffic density, passengers served, and aircraft operating efficiencies along with the cost of establishing and maintaining an approach. The criteria will provide a guide for FAA management to assure the cost-effective placement of LORAN-C approaches. This rulemaking was considered significant because of substantial public interest.

Abstract: This final rule establishes a new Special Federal Aviation Regulation (SFAR) that will allow persons to bring a noise-restricted aircraft into the United States under certain conditions without requesting an exemption. This SFAR is necessary because the former one (SFAR 47-3) expired on December 31, 1991. The new SFAR is also necessary because the Airport Noise and Capacity Act of 1990 provides for the operation of otherwise restricted Stage 2 aircraft in the United States if the aircraft are modified to meet Stage 3 noise levels. This action was significant because of substantial public interest.

Abstract: This action established criteria for the certification of explosive detection systems to screen checked baggage for international flights. These criteria establish minimum performance requirements for explosive detection systems. This action was taken to implement section 108 of the Aviation Security Improvement Act of 1990, which requires the Administrator to certify such systems prior to mandating their deployment. The 11/04/92 notice included those portions of the criteria that do not contain sensitive security information. This action was considered significant because of substantial public interest.

Abstract: This action eliminated the limits on the use of larger aircraft in commuter slots at O'Hare Airport for a temporary 2-year trial period. It also permits an air carrier to use larger aircraft in up to 50 percent of its commuter slot holdings, expands the category of aircraft that may be used in those slots, and removes restrictions on the maximum number of larger aircraft operations in commuter slots per half-hour periods. This action was significant because of substantial public and industry interest.

Abstract: This final rule establishes requirements for the certification of

electrical and electronic engine control systems. These control systems range from simple power or thrust trimming devices with full hydromechanical backup to full authority digital electronic controls with no mechanical backup. Although these types of control systems have been certificated under existing regulations, those regulations do not address specific requirements related to electrical and electronic engine controls such as engine supplied power and data, lightning protection, high energy radio frequency protection, and software verification/validation.

CFR Citation: 14 CFR 23

Legal Deadline: None

Abstract: This final rule amends the 61-knot stall speed limitation requirement applicable to normal, utility, and acrobatic category single-engine and certain multiengine small airplanes of less than 6,000 pounds maximum weight. The amendment would require additional occupant protection requirements for those airplanes with a stall speed exceeding 61 knots. This action retains the current level of airplane occupant protection and permits the design and type certification of higher performance, single-engine airplanes capable of attaining an increase in cruise speeds with better specific fuel consumption. This improvement in performance and operating economies cannot be achieved without substantial increased cost and complexity if these designs are constrained by the present 61-knot stall speed limitation.

Abstract: This rule amended certain regulations governing special visual flight rules (SVFR) operations. By omission of certain words and phrases, the Airspace Reclassification final rule inadvertently altered the applicability and scope of part 91 SVFR provisions. Abstract: The FHWA is proposing to include the certification of fitness to operate a CMV in the commercial driver's license (CDL) process. Incorporating the commercial driver fitness determination into State administered CDL procedures could allow elimination of the requirement that CMV drivers carry a separate medical certificate. The CDL would be evidence that the CMV driver is physically fit as well as operationally qualified to operate CMVs safely. This action addresses the driver's physical qualifications as they relate to the CDL process; it does not address whether those standards are correct or should be changed.

Abstract: The revision of these subparts will reduce their complexity, recognize the existence of State laws, regulations, and organizations implementing 23 USC 131, and emphasize the position of the State as the initial, primary, and principal focal point regarding the requirement of effective control. Potential costs should be reduced, albeit minimally. The principal benefit will be to give the States greater ability, in the context of the broad requirements of 23 USC 131, to respond to concepts and issues relevant to the States.

Significance: Regulatory Program

Legal Authority: PL 100-690, sec 9105

CFR Citation: 49 CFR 383

Legal Deadline: Final, Statutory, December 31, 1990.

Abstract: This action was initiated to improve identification systems for truck and bus drivers as identified by the Congress in the Truck and Bus Regulatory Reform Act of 1988. Alternatives that were considered included retinal eye scans and advanced fingerprint technologies. After (1) further review, (2) a careful analysis of public comments submitted to the ANPRM, and (3) a review of demonstration project results, the FHWA has determined that current technology has not progressed to the point where an identification system could be established nationwide in a cost-effective manner and still provide the benefits for which a system was intended. Therefore, the FHWA has published an informational notice to summarize the results of the pilot study and the comments to the ANPRM to demonstrate how the technologies studied fall short of the demands in a commercial licensing environment. When information is available that the technologies would be beneficial to the CDL program and after completing additional studies on the accuracy of the current systems, the FHWA will propose standards for the biometric

identifier. This project is considered significant because of substantial (cont)

Abstract: This action requests comments on the applicability of

Abstract: As a result of both a petition by the Delaware Department of Public Safety and an FHWA review of its regulations, the FHWA is considering an exemption from the Federal Motor Carrier Safety Regulations (FMCSRs) of vehicles with a gross vehicle weight rating (GVWR) of less than 26,001 pounds. The FHWA is also involved in a zero-base review of the FMCSRs, which is much broader in scope than the potential exemption. Because the regulatory review and the zero-base project are similar exercises, and because there is a lack of conclusive data about the relative safety risks of commercial motor vehicles in various weight categories, the FHWA will consider the proposed exemption in the broader context of the zero-base project. This action is considered significant because of its potential impact on the motor-carrier industry.

Abstract: This rulemaking would revise 49 CFR 390.21 concerning the marking of motor vehicles. The marking requirement was promulgated in part to identify the motor-carrier population subject to the regulations and to assist in maintaining a current, up-to-date census file of all those motor carriers. This action would consider the possible use of a postcard-type form for annual census purposes in lieu of Forms MCS-137 and MCS-150 and is considered significant because of substantial public and industry interest.

Legal Deadline: NPRM, Statutory, December 18, 1992. Final, Statutory, December 18, 1993. Other, Statutory, January 18, 1994.

Other deadline is for a report to Congress.

Abstract: This action is in response to section 4007 of the Motor Carrier Act of 1991 (title IV of the Intermodal Surface Transportation Efficiency Act of 1991). The Department must undertake a rulemaking on the need to require training of all entry-level drivers of commercial motor vehicles. If FHWA determines it is not in the public interest to issue a rule requiring such training, the Agency must submit

a report to Congress, along with results of a cost-benefit analysis, as part of the rulemaking proceeding. Legal Authority: PL 102-548

CFR Citation: 49 CFR 390

Legal Deadline: NPRM, Statutory, April 28, 1993. Final, Statutory, July 28, 1993.

Abstract: This rulemaking action is being initiated to implement the requirements of the Intermodal Safe Container Transportation Act of 1992. Motor carriers would be prohibited from accepting a loaded intermodal container or trailer having a gross cargo weight of more than 10,000 lbs. prior to receiving written certification of the gross cargo weight and a reasonable description of the contents of the container or trailer. The certification must be provided by the person tendering the container or trailer for transportation. Carriers and intermediaries would be required to forward such written certification to any subsequent carrier. It would be illegal to coerce motor carriers to transport an intermodal container or trailer covered by the Act without the certification or with a weight that would cause the tractor-trailer

combination to exceed applicable State law.

Abstract: The FHWA requested public comment on how, under section 411(h) and 416(b) of the Surface Transportation Act of 1982 (STA) (PL 97-424, 96 Stat. 2097), the Secretary may determine which safety or efficiency-enhancing devices are to be excluded when measuring the length and width of vehicles for compliance with federally mandated dimensions. The present system of employing rulemaking proceedings is too time-consuming and cumbersome to meet the needs of industry and is needlessly burdensome for FHWA. Therefore, a new approach will be proposed.

Abstract: The Commercial Vehicle Safety Alliance (CVSA) has petitioned the FHWA to replace the current static breaking strength requirement for cargo tiedown assemblies with a working load limit requirement. The FHWA is proposing to amend section 393.102(b), Securement Systems, of the Federal Motor Carrier Safety Regulations (FMCSRs). The proposed amendment would require the aggregate working load limit of the tiedown assemblies used to secure an article against movement in any direction to be at least 1/2 the weight of the article secured. In addition, a table of working load limits would be added to provide motor carriers with a means of determining the number of tiedown assemblies required.

2544. +CONTROLLED SUBSTANCES AND ALCOHOL USE AND TESTING

Significance: Regulatory Program

Legal Authority: 49 USC 2505; 49 USC 3102; 49 USC app 2717

CFR Citation: 49 CFR 382; 49 CFR 391

Legal Deadline: Final, Statutory, October 28, 1992.

Abstract: This action would create a new 49 CFR part 382 addressing controlled substances and alcohol testing. This new part would conform to the requirements of the Omnibus Transportation Employee Testing Act of 1991 by encompassing intrastate and interstate commercial vehicle operators, including governmental employees, for uniform controlled substances testing. Any resultant final rule, however, would not preempt provisions of State criminal law. This action deals with controlled substances testing only. Alcohol testing is dealt with in RIN 2125-AC85. This action is significant because of substantial public and congressional interest.

CFR Citation: 49 CFR 385

Legal Deadline: None

Abstract: This action will amend the Federal Motor Carrier Safety Regulations to implement provisions of the Motor Carrier Safety Act of 1990 (section 15 of PL 101-500). This enactment prohibits a motor carrier that receives an "unsatisfactory" safety rating from operating commercial motor vehicles to transport hazardous materials in quantities for which vehicle placarding is required or to transport more than 15 passengers, including the driver. The prohibition is effective 45 days after receipt of an unsatisfactory rating and remains in effect until a satisfactory rating is secured. This action is considered significant because of substantial public and congressional interest.

Significance: Agency Priority

Legal Authority: 49 USC app 2503; 49 USC app 2505; 49 USC 3102; 49 USC 3104

CFR Citation: 49 CFR 390.3; 49 CFR 397

Legal Deadline: Final, Statutory, November 15, 1991.

Abstract: This rulemaking will implement the statutory requirements of sections 8 and 15 of the Hazardous Materials Transportation Uniform Safety Act (HMTUSA) of 1990. Section 8 addresses the establishment of motor carrier safety permit regulations for motor carriers transporting Class A or B explosives, liquefied natural gases, hazardous materials designated as extremely toxic by inhalation, or highway route controlled quantity radioactive materials. Section 15 of the HMTUSA requires inspection of vehicles transporting those radioactive materials before each trip. The proposed rule will incorporate those provisions into the safety permit regulations. This action is considered significant because of substantial public and congressional interest and safety implications.

Final Rule Stage

2547. +RADAR DETECTORS IN COMMERCIAL MOTOR VEHICLES**Significance:** Agency Priority**Legal Authority:** 49 USC app 2503; 49 USC app 2505; 49 USC 3102; 49 USC 3104; PL 102-143, sec 342**CFR Citation:** 49 CFR 390.5; 49 CFR 392.71; 49 CFR 1.48**Legal Deadline:** NPRM, Statutory, January 15, 1992.

Abstract: This action would ban radar detectors from all commercial vehicles as defined in the Federal Motor Carrier Safety Regulations in 49 CFR 390. The proposal responds to the congressional mandate in section 342 of PL 102-143 and to a petition filed jointly on July 18, 1990, by the Insurance Institute for Highway Safety and seven other organizations. FHWA is considering whether such a ban would further highway safety by enhancing commercial motor vehicle driver compliance with speed laws. This action is considered significant because of anticipated substantial public interest and controversy involving the use of radar detectors.

Abstract: Currently, except for certain radioactive materials, DOT has not promulgated uniform, national standards for the highway routing of hazardous materials. The proposal would establish such standards and provide guidance to States and localities to minimize the promulgation of State and local routing requirements that are inconsistent with the Hazardous Materials Transportation Act. This rulemaking is significant because of the safety implications and possible federalism implications. The Hazardous Materials Uniform Safety Act of 1990 amended the HMTA to require the Secretary to issue Federal standards for highway routing.

Abstract: The FHWA is proposing to amend the recordkeeping and reporting requirements of its controlled substances testing regulation. This notice is intended to implement a DOT-wide plan to measure the effectiveness of drug testing programs of the various DOT operating administrations. The NPRM would require motor carriers to keep certain information and to report that information to the FHWA upon request. Significance: Agency Priority

Legal Authority: PL 102-240, sec 1029; Intermodal Surface Trans. Efficiency Act of 1991 (ISTEA)

CFR Citation: 23 CFR 659

Legal Deadline: NPRM, Statutory, December 18, 1992. Final, Statutory, February 18, 1993.

Abstract: As a result of section 1029 of ISTEA, speed compliance and enforcement data will have to be collected on highways with speed

limits up to 65 mph, in addition to data currently being collected on 55 mph highways. New regulations will be issued that ensure uniform monitoring programs by States, so that reliable data is submitted for use by the Secretary in determining compliance by each State with the speed limits. A compliance formula must be included which takes into account the amount by which speed limits are exceeded and differentiates between types of road on which the violations occur. Enforcement efforts and accident information must be considered in development of the compliance formula. This action is considered significant because of substantial public, State, and congressional interest.

Abstract: 23 U.S.C. 303 requires the Secretary of Transportation to issue regulations for State development, establishment, and implementation of systems for managing: highway pavement of Federal-aid highways; bridges on and off Federal-aid highways; highway safety; traffic congestion; public transportation facilities and equipment; and intermodal transportation facilities and systems. The Secretary also must issue guidelines and requirements for the State development, establishment, and implementation of a traffic monitoring system for highways and public transportation facilities and equipment. States must be implementing each management system in Federal fiscal year 1995, or the Secretary may withhold up to 10 percent of funds apportioned under title 23, U.S.C., or under the Federal Transit Act for any fiscal year beginning after September 30, 1995. The primary purpose of these systems is to improve the efficiency of, and protect the investment in, existing and future transportation infrastructure. The systems will provide additional information needed to make informed decision for optimum utilization of limited resources. (cont)

Abstract: FHWA is considering revising the driver qualification requirements to allow certain insulin-using diabetics to operate commercial motor vehicles in interstate commerce. Upon consideration of comments received to a Notice of Intent, FHWA has issued a disposition wherein it determined to accept waiver applications under certain conditions. The waiver program is being instituted to permit FHWA to compare the driving experience of a group of insulin-using drivers with a control group of drivers who do not have diabetes. The agency will use the findings as a basis to amend the diabetes requirement, if warranted.

Significance: Nonsignificant

Legal Authority: 49 USC app 2509; 49 USC 3102

CFR Citation: 49 CFR 396

Legal Deadline: None

Abstract: This action proposes amendments to the periodic inspection requirements for commercial motor vehicles contained in 49 CFR part 396. The periodic inspection final rule was published on December 7, 1988, at 53 FR 49402, and amended on December 8, 1989, at 54 FR 50722. The December 8, 1989, amendment included a request for comments. In response to the comments received and requests for interpretations from the industry, the FHWA has determined that the rule should be amended to clarify the requirements for periodic inspection decals; evidence of the inspector's qualifications; the response time for a motor carrier to transmit a copy of a self-inspection report to an authorized Federal, State, or local enforcement official; identity of the motor carrier or other entity offering a vehicle for inspection; and documentation of a State periodic inspection, including proof of inspection on vehicles. The FHWA also proposes to amend the inspection criteria to make the requirements of appendix G to subchapter B consistent with part 393 and the North American Uniform Vehicle Out-of-Service Criteria. These proposed amendments concern inspection standards for brake (cont)

Abstract: This final rule is a follow-up to the interim final rule on front-wheel brakes on Mexican vehicles. By an interim final rule published on 11/24/89, the FHWA amended 49 CFR 393, Parts and Accessories Necessary for Safe Operation, of the Federal Motor Carrier Safety Regulations (FMCSRs). The amendment allowed Mexican motor carriers operating commercial motor vehicles in border commercial zones time to comply with the requirement that every commercial motor vehicle be equipped with brakes acting on all wheels.

Legal Authority: PL 99-570; 49 USC 3102; 49 USC app 2505; 49 CFR 1.48

CFR Citation: 49 CFR 383

Abstract: To reconcile the training needs of the motor carrier industry with the requirements of the Commercial Driver's License (CDL) program and the Commercial Motor Vehicle Safety Act of 1986, the FHWA is proposing additional minimum Federal standards for State-issued learner's permits that allow drivers to be trained in the operation of commercial motor vehicles (CMVs). Among the alternatives under consideration: Applicants for Commercial Driver Instruction Permits (CDIPs) might need to possess drivers' licenses and undergo record checks analogous to those now required for CDLs; CDIP transactions might be entered in the Commercial Driver's License Information System (CDLIS); and CDIP holders might be explicitly subject to the same disqualifications as CDL holders. Since driver training is nationwide in scope, the FHWA is proposing options that would allow a State to issue a CDIP to a driver trainee.

Abstract: The FHWA is incorporating, without substantive change, the preemption determination and waiver of preemption procedures currently contained in the Research and Special Programs Administration's (RSPA) regulation 49 CFR 107.201-107.227 into the FHWA's regulation at 49 CFR 397, subpart E. This final rule also incorporates, without substantive change, the routing requirements for radioactive materials currently contained in RSPA's regulation 49 CFR 177.825 into FHWA's regulation 49 CFR 397, subpart D. This final rule is necessary due to a redelegation of authority of highway routing from RSPA to FHWA.

Abstract: In response to the President's memorandum of January 28, 1992, "Reducing the Burden of Government Regulation," the FHWA, as lead agency for implementing the Uniform Act, has made several amendments to the Governmentwide rule implementing the Uniform Act. The amendments enhanced the relocation benefits available to displaced businesses and replaced the language in subpart G, relating to the application for certification, with a simplified provision. Also, a technical amendment conformed the language of one paragraph to the two statutes cited therein. The monetary relocation assistance benefits provided in the regulation are primarily established by the Uniform Act. This action was significant because of substantial public interest.

Abstract: This action involved amendment to the design standards which apply to interstate highway construction and reconstruction projects eligible to receive funding under the Federal-aid highway program. A revised publication approved by the American Association of State Highway and Transportation Officials (AASHTO) entitled "A Policy on Design Standards -- Interstate System, AASHTO 1991" is being substituted for the previous version of these standards last revised June 20, 1967. The Federal Highway Administration is adopting the 1991 document, and the new AASHTO publication constitutes the FHWA's policy on geometric design for all federally assisted construction and reconstruction projects on the interstate highway system.

Abstract: The FHWA is amending its regulations on the Buy America provisions and the use of convict-produced materials to comply with the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). Sections 1041(a) and 1048 of the ISTEA amended and clarified the Buy America provisions. Section 1019 of the ISTEA clarifies the intent of Congress regarding convict-produced materials. Materials produced by convict labor after July 1, 1991, may not be used for Federal-aid highway construction projects unless produced at a prison facility producing convict-made materials for Federal-aid construction projects prior to July 1, 1987. This action reaffirms the requirements previously placed on the use of materials produced by convict labor on Federal-aid highway projects.

Abstract: This action amended the regulations on reimbursement for construction engineering (CE) costs to comply with the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA), which established that a State highway agency's (SHA's) obligations for CE costs will be limited, per fiscal year, to 15 percent of the total estimated costs of all projects financed within the State with Federal-aid highway funds, excluding the estimated costs of right-of-way, preliminary engineering, and construction engineering. Abstract: This standard requires the provision of automatic occupant

protection in the front outboard seats of passenger cars after September 1, 1989. Air bags and automatic safety seat belts are being installed to meet the standard. The agency will analyze the actual road experience of vehicles equipped with automatic occupant

Additional Information: Automatic occupant protection, State belt laws, and greater voluntary belt use amount to a winning combination that saves lives and reduces injury severity. Fatality risk of occupants in cars with air bags plus manual belts (at 1991 use rates) is 23 percent lower than in "baseline" cars with manual belts at 1983 use rates. Interim Evaluation Report comments reviewed and docketed 10/28/92.

Deadline is for an ANPRM.

Abstract: The NHTSA Authorization Act of 1991 directs the agency to publish an ANPRM to consider the need for additional brake performance standards for passenger cars, including antilock brake systems (ABS). The ANPRM will lay out the issues that the agency needs to resolve in order to determine whether to proceed with rulemaking on light vehicle ABS. This action is considered significant because of substantial public interest.

Abstract: Federal Motor Vehicle Safety Standard No. 208 requires passenger cars manufactured after December 11, 1989, to have Type 2 (lap-and-shoulder) belts at the rear outboard seats. The agency will analyze the actual on-the-road experience of vehicles equipped with lap-and-shoulder belts in the rear seats to measure the reduction of fatalities and injuries relative to cars equipped only with lap belts. Abstract: Petitions from R. Grabowsky and American Trucking Association (ATA) requested initiation of rulemaking concerning brake linings (all vehicles and aftermarket). Mr. Grabowsky petitioned relative to stability, friction level, fade, wear, and identification of linings. ATA petitioned relative to friction level and identification of linings for heavy vehicles only. Petitions concerned both performance levels and test procedures, and were granted.

Abstract: The Highway Safety Act of 1991 requires the agency to publish by

December 31, 1993, an ANPRM to amend Standard 105 to require antilock brake systems for passenger vehicles. The purpose of antilock brakes is to enhance the driver's control of the vehicle during emergency braking. Antilock brakes are currently available on many passenger cars and most light trucks. The accident statistics for cars and light trucks with antilock brakes are being reviewed in preparation for the proposed rulemaking and because of public interest in antilock brakes.

2586. RULEMAKING TO DELETE "DUE CARE" PROVISIONS FROM THE OCCUPANT CRASH PROTECTION STANDARD**Significance:** Nonsignificant**Legal Authority:** 15 USC 1392; 15 USC 1401**CFR Citation:** 49 CFR 571.208**Legal Deadline:** None

Abstract: In 1986, NHTSA added a provision to Standard No. 208, Occupant Crash Protection, allowing vehicles that fail one or more of the injury criteria in the standard to still be considered as complying with the standard if the manufacturer could show it had exercised "due care" in the design and construction of the vehicle. The Motor Vehicle Safety Act requires all safety standards to be expressed in "objective terms." Further, the courts have held that compliance with safety standards must be determined by objective measurements and without recourse to any subjective determinations. The inherently subjective nature of a "due care" determination precludes the use of that concept as an aspect of compliance with the safety standards. Therefore, the "due care" provisions would be proposed to be deleted from the crash protection standard.

Abstract: The agency has granted a petition from the United States Army Tank Automotive Command (ATAC) to amend Federal Motor Vehicle Safety Standard No. 106, Brake Hoses, and Federal Motor Vehicle Safety Standard No. 116, Brake Fluids. ATAC requested that Standard No. 106 be amended to require brake hose compatibility with a fluid that includes DOT 5 characteristics and that Standard No. 116 be amended to require compatibility of DOT 3, DOT 4, and DOT 5 brake fluids with elastomeric seals and cups internal to hydraulic brake system master and wheel cylinders. The agency believes that the changes suggested by ATAC warrant further consideration.

Final, Statutory, May 1995. NHTSA may issue either an ANPRM or NPRM.

Abstract: NHTSA is considering measures to improve the stability and control performance characteristics of heavy vehicles during braking. Specifically, the agency has proposed to establish additional performance requirements for improving the lateral stability of such vehicles while braking. This action is considered significant because of the level of public and congressional interest. It is necessary to prevent and reduce the severity of accidents involving heavy vehicles by providing increased accident avoidance capability.

Legal Authority: 15 USC 1392; 15 USC 1401; 15 USC 1403; 15 USC 1407

CFR Citation: 49 CFR 571.214

Legal Deadline: NPRM, Statutory, May 31, 1992. Final, Statutory, August 5, 1994.

Action must be completed within 26 months of ANPRM publication.

Abstract: On October 30, 1990 (55 FR 45722), the agency amended standard 214 to amend the current side door strength requirements in passenger cars to add dynamic side impact protection requirements. The NHTSA Authorization Act of 1991 directed the agency to initiate rulemaking to extend these requirements to light trucks and vans having a GVWR of less than 10,000 lbs. In response to this statutory mandate, the ANPRM announced that the agency is considering the issuance of this proposal. This action is considered significant because of substantial public interest.

Abstract: The Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) (Pub. L. 102-240) requires the Secretary to designate each of six areas as priorities or submit a report to Congress describing the reasons for not prioritizing these programs. These areas are Speed Control, Occupant Protection, Driving While Impaired, Motorcycle Safety, School Bus Safety, and Police Traffic Services. The existing priority programs address four of the six areas, but do not include Speed Control or School Bus Safety. The agency is considering whether to add these two areas to the list of national priority programs. This action is considered significant because of substantial public interest.

2627. • INSURER REPORTING REQUIREMENTS FOR OCTOBER 1994

Significance: Nonsignificant

Legal Authority: 15 USC 2032

CFR Citation: 49 CFR 544

Legal Deadline: None

Abstract: Title VI of the Motor Vehicle Information and Cost Savings Act requires certain passenger motor vehicle insurers to file reports with the agency (concerning total value of

premiums paid by the insurance company, number of thefts, number of recoveries, etc.), unless the agency exempts the insurer from filing such reports. The law stipulates that the agency can only exempt those insurance companies whose market share is below certain percentages for the nation as a whole and in each individual State, or for which the agency determines that (1) the cost of preparing and furnishing such reports is excessive in relation to the size of the business of the insurer or (2) the insurer's report will not significantly contribute to carrying out the purposes of title VI. This action will list those insurers required to conform to title VI requirements.

Abstract: The agency is proposing to amend the definition of "designated seating position" for school buses to specify that for purposes of determining vehicle classification, any location intended for securement of an occupied wheelchair during vehicle operation would be counted as four designated seating positions because one such location typically necessitates the removal of seating for four people. This would ensure that the vehicle would continue to be regarded as a school bus.

Significance: Regulatory Program

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571.108

Abstract: NHTSA proposes a comprehensive review of headlighting requirements of FMVSS No. 108 which may be simplified, while being consistent with motor-vehicle safety. The agency has concentrated its efforts into five principal areas. This action addresses the first of these, which is the feasibility of a standard directed toward onboard original-equipment headlighting performance rather than toward performance of individual aftermarket headlamps in a laboratory environment. This action is considered significant because of safety implications. Based on comments received, a second NPRM was issued.

Significance: Agency Priority

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 571

Legal Deadline: None

Abstract: On January 8, 1981 (46 FR 2136), the agency published a notice of proposed rulemaking on rear underride crashes relative to small vehicles colliding with the rear of a heavy vehicle (a vehicle with a gross vehicle weight rating (GVWR) greater than 10,000 pounds). Rear underride occurs when the front of the smaller vehicle slides under ("underrides") the rear end of the larger vehicle. The agency received over 100 comments on the proposal, some of which raised issues about possible alternatives to the proposal and about the burdens of the proposal on small businesses. The SNPRM sought to retain the safety benefits of the earlier proposal while meeting the concerns about potential small business impacts. This rulemaking is considered significant because of substantial public interest.

Abstract: The ANPRM proposed rulemaking concerning the possibility of proposing special fuel integrity requirements for vehicles using compressed natural gas (CNG) and liquefied petroleum gas (LPG). The NPRM proposed to establish a new standard specifying performance requirements for CNG fuel tanks and vehicles using CNG as a fuel. NHTSA also requested comment on whether vehicles using LPG as a fuel should be subject to similar requirements, and

whether the proposed requirements for CNG vehicles should be applicable to all vehicles designed to be powered by a gaseous fuel, such as liquefied natural gas or hydrogen. This action is considered significant because of substantial public and congressional interest.

Abstract: This rulemaking to establish a new standard for passenger-car brake systems grew out of NHTSA's efforts to harmonize its standards with international ones. After review of comments to the NPRM and SNPRM, a second SNPRM proposed refined and revised test procedures and performance requirements which should achieve harmonization while being fully consistent with the National Traffic and Motor Vehicle Safety Act. The new standard 135 was to replace standard 105 as it applies to passenger cars. This action was originally considered significant, but subsequent events have resulted in fewer issues to be resolved, and this project is no longer considered as such.

Additional Information: A third SNPRM proposed to establish a new Standard No. 135 to replace Standard No. 105. This SNPRM responds to an

ANPRM published December 27, 1991 (56 FR 67038) (RIN 2127-AE29), that asked for comments on the appropriateness of Standard No. 105 to braking systems of electric vehicles. However, upon consideration of comments received, NHTSA determined that any changes should be made to Standard 135 as well as existing Standard 105. Hence, both standards are proposed to be revised to incorporate definitions and test conditions deemed appropriate.

Docket No. 85-06. RIN 2127-AC63, Passenger-Car Brake Systems, was consolidated into this proceeding.

Abstract: Accidents involving heavy trucks have a higher fatality rate than all other motor vehicles. This rulemaking proposes to reinstate stopping distance performance requirements in Standard 121 so as to help improve heavy vehicle braking performance and hence reduce the number of accidents involving these vehicles. Although a court decision found that Standard 121, as it then existed, was unenforceable, additional accident data and technical review have persuaded NHTSA that the court's requirements can now be met.

Abstract: This action proposed to amend the certification requirement that applies to incomplete vehicles other than chassis-cabs. Incomplete vehicles are vehicles that include at

least a frame and chassis structure, power train, steering system, suspension system, and brake system, but need further manufacturing performed on them to become completed vehicles. This action would extend the certification requirements currently applying to chassis-cabs to all types of incomplete vehicles.

Abstract: The agency is proposing minor amendments to controls and displays and windshield defrosting and defogging systems that would make them more appropriate for electric powered motor vehicles. This proposal is based upon comments received in response to the ANPRM published in December 1991. Because the agency is modifying existing standards and not establishing new standards for battery powered vehicles, this action is no longer considered significant.

Abstract: In response to a petition for rulemaking, the agency published a proposal to change the injury criteria used to determine compliance with the occupant crash protection standard. One of the specified injury criteria is the Head Injury Criterion, or HIC, which, as its name implies, was developed to assess the likelihood of head injuries. This action proposes to substitute a neck injury criterion for the HIC in non-contact crashes.

Abstract: In response to a petition, this action would revise the requirement in the standard that a rear-facing child restraint system must not change adjustment position during dynamic compliance testing. Change in adjustment positions would be permitted subject to certain conditions to ensure such movement would not injure the child. This proposal is intended to permit new designs in rear-facing restraint systems for infants suffering from apnea or other breathing problems.

Abstract: This action would update the list of companies subject to the reporting requirements, to reflect changing market conditions. If this listing is adopted as a final rule, those insurance companies included on any list would be required to file reports for the 1991 calendar year not later than October 25, 1993. Any insurance company not on any of the final lists would not be required to file a report for the 1991 calendar year.

Abstract: In response to petitions for rulemaking, this action proposed to amend the standards by extending, for an additional 18 months, the period during which there is a choice between the two burnish procedures. An interim final rule was published at the same time to extend the period during which manufacturers may comply with either burnish requirement until September 1, 1994.

Significance: Regulatory Program
Legal Authority: 15 USC 1657; 15 USC 2002
CFR Citation: 49 CFR 533
Legal Deadline: Final, Statutory, March 31, 1993.

Abstract: In accordance with the mandatory requirements of section 502(b) of the Motor Vehicle Information and Cost Savings Act, this agency has published a final rule establishing the average fuel economy standard for light trucks manufactured in model year (MY) 1995. This action is considered significant because of the impact on manufacturers, the interest shown by consumers, and the potential significant effects on the automotive market.

Completed Actions

CFR Citation: 23 CFR 1215

Abstract: This notice proposes to implement the penalty provisions contained in section 153 of title 23, USC, Intermodal Surface Transportation Efficiency Act of 1991. That section provides that a State that fails to adopt and put into effect motorcycle helmet and safety belt use laws before the first day of FY 1994 (October 1, 1993) is subject to a penalty of having the Secretary of Transportation transfer funds from that State's Federal-aid highway programs to that State's apportionment under the section 402 safety program. This rule sets forth the criteria to be used to determine a State's compliance or noncompliance with the Act and the mechanism by which the agency will inform States of their compliance status. This action was considered significant due to substantial public interest.

Significance: Nonsignificant

Legal Authority: 15 USC 1392; 15 USC 1407

CFR Citation: 49 CFR 572

Abstract: In testing, a passenger car must provide protection to the thoracic and pelvic regions of a specified side-impact dummy (SID) in a full-scale crash test. Studies were conducted on two alternative dummies, BioSID and EuroSID. However, based on comments received, it became apparent that further research is needed before proceeding further on an alternative SID. Although the ANPRM considered this project significant, the anticipated public interest did not materialize. Therefore, this entry has been reclassified as nonsignificant and has been withdrawn pending a decision on whether to proceed to develop a prototype dummy.

Abstract: This action terminates a rulemaking proceeding concerning the applicability of the oil resistance testing requirements of the standard to coiled brake hose assemblies. After considering the public comments on a proposal to exclude those assemblies from the oil resistance testing requirements, the agency has concluded that the proposed change would not be in the interest of vehicle safety. The agency concludes that coiled air brake hoses are exposed to petroleum products at elevated temperatures while the hoses are in service, and that such exposure could cause the hoses to fail if they were not manufactured to meet the oil resistance requirement of the standard. The proposal was in response to a petition for rulemaking.

Significance: Agency Priority

Legal Authority: 45 USC 431(a), Federal Railroad Safety Act of 1970

CFR Citation: 49 CFR 214

Legal Deadline: None

Abstract: FRA believes this proceeding is necessary to determine whether exposure to silica dust in the railroad workplace is a subject matter over

which FRA should exercise its jurisdiction in the future. Recent studies indicate that railroad employees may be overexposed to silica and, although OSHA has exercised its jurisdiction over this working condition, FRA will explore the advantages of regulating this working condition itself. This action is considered significant because of substantial interest in workplace safety.

CFR Citation: 49 CFR 209 (Revision); 49 CFR 1.49

Legal Deadline: NPRM, Statutory, June 3, 1993. Final, Statutory, September 3, 1994.

Abstract: Pursuant to section 3 of the Rail Safety Enforcement and Review Act, FRA proposes to require that any responsible company that is notified by this agency both that the assessment of

a civil penalty will be recommended against that company for a failure to comply with a provision of the Federal Railroad safety laws and that a remedial actions report must be submitted, shall report to FRA, within 30 days after the end of the month in which such notification is received, actions taken to remedy that failure. The proposed rule also provides pursuant to section 3 that if appropriate remedial actions cannot be taken by a responsible company within such 30-day period, such company shall submit to FRA a written explanation of the reasons for any delay and a final report upon completion of the remedial actions. At this time, FRA is unable to quantify any direct or indirect safety benefit from this proposed rule. The potential benefit of this rule comes about by increasing the ability of the railroad industry to manage quality control as well as by improving FRA's ability to efficiently and effectively manage its inspection resources. Under the proposed regulation, railroad police officers commissioned in any State may enforce laws in every State where the employing railroad owns property, provided the railroad advises every State where those officers may operate.

Significance: Agency Priority

Legal Authority: PL 102-533, Amtrak Authorization and Development Act

CFR Citation: 49 CFR 229

Legal Deadline: Other, Statutory, December 31, 1992.

Deadline is for an interim final rule.

Abstract: This revised interim final rule identifies several auxiliary external lighting arrangements as acceptable interim locomotive conspicuity measures. This rule would encourage the installation and use of such lighting arrangements as are now widely used and available. Lighting devices installed in conformance to acceptable current practice will not be immediately rendered obsolete when FRA issues final standards in this area. This rule will help alert motorists and pedestrians of an approaching train, thus reducing the number of accidents that occur at points where highways cross railroad tracks. CFR Citation: 49 CFR 218; 49 CFR 229

Legal Deadline: Final, Statutory, December 22, 1989.

Abstract: FRA is acting to improve the safety of railroad operations and to enhance the quality of information available for post-accident

investigations by requiring event recorders on fast trains, by requiring that event recorders be effectively maintained, and by requiring that the data recorded by event recorders be preserved following a reportable accident.

Significance: Agency Priority

Legal Authority: 45 USC 431; 45 USC 438; PL 100-342

CFR Citation: 49 CFR 218

Legal Deadline: None

Abstract: FRA regulations prescribe minimum requirements for certain railroad operating rules and practices, including blue signal protection of railroad employees engaged in the inspection, testing, repair, and servicing of rolling equipment. Such activities may require employees to work on, under, or between such equipment and subject them to the danger of personal injury posed by any movement of such equipment. Train and yard crews are excluded from blue signal protection, unless assigned to perform such work on railroad rolling equipment that is not part of the train or yard movement

and that they have been called to operate. FRA has revised the exclusionary language to accommodate augmentation of a crew by using a "utility" employee which will permit increased efficient use of employees by the railroads. Alternative safety procedures were created to prevent injury. This action was considered significant because of substantial public interest for safety of railroad employees.

Additional Information: Section 12(h) of the FT Act, as amended, defines a "new bus model" as a bus model which has not been used in mass transportation service in the United States before the date of production of such model, or a bus model which has been used in such service, but which is being produced with a major change in configuration or components. A third interim final rule, published on 07/28/92, added two new categories of buses required to be tested. On 10/13/92 FTA published a notice postponing the application of the interim final rule for these vehicle types until 02/10/93. A January 7, 1993, notice reopened the comment period on this interim final rule until January 29, 1993. A notice published on 02/23/93, further postponed the effective date until 10/01/93. The FTA is postponing the effective date of the rule as it applies to small vehicles in order to receive further information. The comment period for this notice ended on 06/23/93. The agency anticipates

issuing a fourth interim final rule by 10/00/93. Meanwhile, on May 26, 1993, the FTA published a notice of availability of proposed guidelines for testing of small buses and partial testing of previously tested buses.

CFR Citation: 49 CFR 614

Legal Deadline: Final, Statutory, December 18, 1992.

Abstract: The Intermodal Surface Transportation Efficiency Act mandates the FTA and FHWA to issue regulations for State development and implementation of systems for managing: (1) highway pavement of Federal-aid highways; (2) bridges on and off Federal-aid highways; (3) highway safety; (4) traffic congestion; (5) public transportation facilities and equipment; (6) intermodal transportation facilities and systems. States must be implementing each management system in Federal fiscal year 1995 or the Secretary may withhold up to 10 percent of funds apportioned under Title 23, U.S.C., or under the Federal Transit Act, for any fiscal year beginning after September 30, 1995. The primary purpose of these systems is to improve the efficiency of, and protect the investment in, existing and future transportation infrastructure. The systems will provide additional information needed to make informed decisions for optimum utilization of limited resources. (cont)

Abstract: Section 303 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 directed the agency to issue guidelines for evaluating cost-effectiveness and local financial commitments in developing new fixed guideway projects. However, section 3010 of the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) directs the agency, in its evaluation of new fixed guideway projects, to consider a number of matters in addition to cost-effectiveness and local financial commitment--specifically, costs related to congestion, improved mobility, air and noise pollution, and energy consumption, and the degree to which a project may promote economic development and serve the needs of transit dependent population. Thus, the agency has withdrawn its April 25, 1989 NPRM. Although this action was deemed significant FTA's recent reauthorization legislation, ISTEA, has provided a new mandate to the agency, making this rulemaking obsolete.

Abstract: Historically, the source document for the Passenger Origin-Destination Survey was the auditor's coupon of the ticket. Until recently, these coupons provided all the information that was needed for the Survey. In the last few years, the carriers have begun using trip passes in conjunction with the tickets, thereby eliminating some of the data that is required to be reported in the Survey. Other innovations used by the industry, such as funnel flights and code-sharing, have impacted the Survey and obscured some of the data that is required to be reported, such as change of planes and junction points. This rulemaking will

Significance: Regulatory Program

Legal Authority: PL 101-500

CFR Citation: 49 CFR 1

Legal Deadline: Final, Statutory, August 1, 1991.

Abstract: The Sanitary Food Transportation Act of 1990 (SFTA; Pub. L. 101-500) requires the Secretary of Transportation, in consultation with the Secretaries of Agriculture and Health and Human Services and the Administrator of the Environmental Protection Agency, to issue regulations concerning the transportation of food, food additives, drugs, devices, and cosmetics in motor and rail vehicles also used to transport nonfood products that could pose an unreasonable danger to human or animal health when so transported. This rulemaking will implement the statutory requirements. This rulemaking is significant because of substantial public and congressional interest.

Significance: Agency Priority

Legal Authority: 49 USC 1802 to 1808

CFR Citation: 49 CFR 171 to 179

Abstract: ANPRM invited comments on the need for, and possible consequences of, DOT extending the application of its Hazardous Materials Regulations to all intrastate transportation of hazardous materials in commerce. This rulemaking is significant because of substantial public interest and possible federalism implications. The Hazardous Materials Transportation Uniform Safety Act of 1990 mandates that the Secretary issue regulations for the intrastate transportation of hazardous materials in commerce.

Significance: Agency Priority

Legal Authority: 49 USC 1672; 49 USC 2002

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: Final, Statutory, November 1, 1989.

Deadline pertains to pipe inventory and State agency information.

Abstract: Maintenance of appropriate information about pipelines is essential for emergency response, compliance with safety standards, and other purposes. As part of a continuing policy to adopt similar requirements for gas and hazardous liquid pipelines where appropriate for safety, this action proposes to equalize as far as possible the requirements that gas and liquid operators keep maps and records to show the location and other characteristics of pipelines. Operators would also be required to keep an inventory of pipe and annually report mileage and other facts. In addition, operators would be required to provide certain information to State agencies upon request. This is a significant action because of congressional and State concerns about the need for appropriate public officials to have pipeline information.

Abstract: This rulemaking proposes to determine methods of improving the current system of placarding vehicles transporting hazardous materials; determine the feasibility and methods for establishing a central reporting system and computerized telecommunications data center for daily hazardous materials shipments in all modes; and evaluate the need and safety benefits of requiring carriers to establish a continually monitored telephone system to provide information and assistance to emergency responders. Significance: Nonsignificant

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1374; 49 USC 1386

CFR Citation: 14 CFR 298

Abstract: Currently, commuter and small certificated air carriers providing scheduled passenger service file two quarterly traffic schedules. One schedule summarizes nine traffic elements while the other provides the origination and destination for each

carrier's on-line passengers. The Department has installed a new traffic and market data system for certificated and foreign air carriers called the T-100 system. By this rulemaking, the system would be used for commuter air carriers, providing the Department with one automated traffic and market data system for all carriers. This system would be less burdensome for the commuter air carriers and be more efficient for the user.

Significance: Regulatory Program

Legal Authority: 49 USC 2002

CFR Citation: 49 CFR 195

Legal Deadline: None

Abstract: Recent accidents involving petroleum pipelines demonstrate the potential for catastrophic losses if a large spill occurs in a populated area. Studies have shown that accidents attributable to latent material or construction defects can be prevented by restricting operation to not more than 80 percent of a prior test or operating pressure. In this regard, significant results have been achieved by imposing such an operating restriction on pipelines that carry highly volatile liquids. This rule would extend this existing safety standard to all hazardous liquid pipelines that are subject to part 195. This rulemaking is significant because of substantial public interest in the safety implications.

2747. +ALCOHOL MISUSE PREVENTION PROGRAM

Significance: Regulatory Program

Legal Authority: 49 USC 1672; 49 USC 2002

CFR Citation: 49 CFR 199

Legal Deadline: None

Abstract: This action would require pipeline operators to establish alcohol misuse prevention programs for their employees who perform safety-sensitive functions. This action is considered significant because of substantial public interest.

Significance: Agency Priority

Legal Authority: 49 USC 1672; 49 USC 1804; PL 102-508, Sec 109(b)

CFR Citation: 49 CFR 192.3

Legal Deadline: Final, Statutory,
October 24, 1994.

Abstract: The existing definition of "gathering line" would be clearly defined to eliminate confusion in distinguishing these pipelines from transmission lines in rural areas. The costs should be minimal since the definition will conform to prevailing practices in government and industry. Action is significant because the definition is of Congressional interest and is required by the Pipeline Safety Act of 1992.

Legal Authority: 49 USC 1672; 49 USC 1804; 49 USC 2002

Abstract: Adequate procedures for pipeline operation and maintenance.

DOT—RSPA

Final Rule Stage

backed up by personnel training, have proven effective in minimizing the potential for accidents. Gas operators are required to have such procedures, but the existing requirements lack the clarity and specificity needed to assure a uniform, broad-based level of safety for all pipelines. Therefore, this proposal would clarify the existing requirements, make them more comprehensive, and, where appropriate, similar to the more detailed requirements applicable to the operation and maintenance of hazardous liquid pipelines. Also, a few additions and clarifying changes would be made to the hazardous liquid pipeline requirements. This is a significant action because of the need for adequate procedures to provide a basis for training and qualifying operator personnel.

2750. +EXCAVATION DAMAGE PREVENTION PROGRAMS FOR GAS AND HAZARDOUS LIQUID PIPELINES

Significance: Agency Priority

Legal Authority: 49 USC 1672(a); 49 USC 2002(e)

CFR Citation: 49 CFR 192; 49 CFR 195

Legal Deadline: None

Abstract: Each year a large percentage of gas and hazardous liquid pipeline accidents are caused by excavation damage. Based on existing rules intended to reduce damage to gas pipelines in populated areas, this action would require hazardous liquid and carbon dioxide pipeline operators

to provide damage prevention programs, and gas operators would have to expand their programs to cover rural areas. This is a significant action because of widespread interest in the use of "one-call" programs to prevent damage to buried pipelines. Where appropriate, operators would have to participate in "one-call" programs.

Legal Authority: 49 USC 1302; 49 USC 1324; 49 USC 1374; 49 USC 1377; 49 USC 1381; 5 USC 553(e)

CFR Citation: 14 CFR 234

Legal Deadline: None

Abstract: This proposed action would amend the reporting requirements of 14 CFR 234 to require the on-time reporting performance of all flights, in response to an Inspector General's audit finding and recommendation, and to various industry comments. Under the current regulations, flights that are cancelled or late by 15 minutes or more because of a mechanical problem are not reported. The proposal would also require reporting of the aircraft tail number and wheels-up and wheels-

down time for each flight. This data would be used, among other things, to reduce airport and enroute delays. The rulemaking is considered significant because it involves important Department policy concerning reporting of flight delays.

Significance: Agency Priority

Legal Authority: 49 USC 1672; 49 USC 1804; 49 USC 2002

CFR Citation: 49 CFR 199

Legal Deadline: None

Abstract: A minimum level of standardized data regarding pipeline anti-drug programs is needed to conduct analyses of program effectiveness. Legal Authority: 49 USC 1672; PL 102-508, Sec 104

CFR Citation: 49 CFR 192

Legal Deadline: Final, Statutory, April 24, 1994.

Abstract: Service line breaks due to excavation damage and other causes continue to be a threat to public safety, despite the precautions being taken through one-call damage prevention programs and line surveys for corrosion or leaks. Excess flow valves would be required on new and renewed service lines to stop the flow of gas in the event of a line break. This rulemaking is considered significant because it involves a substantial change in regulations and concerns and concerns a matter of substantial public and congressional interest.

Significance: Nonsignificant

Legal Authority: 49 USC 1672

CFR Citation: 49 CFR 192

Legal Deadline: None

Abstract: Corrosion is a major cause of gas and hazardous liquid pipeline accidents. A safety standard applicable to liquid pipelines requires operators to examine exposed pipe for evidence of external corrosion and, if harmful corrosion is found, to investigate further to determine the extent of the corrosion. As part of a continuing policy to adopt similar requirements for gas and liquid pipelines where appropriate for safety, this action proposes that exposed gas pipelines with evidence of harmful corrosion be investigated to determine the extent of the corrosion.

Abstract: In a few reported instances, excessive amounts of hydrogen sulfide were introduced into natural gas pipelines. High concentrations of hydrogen sulfide are very detrimental to steel pipelines and extremely toxic. Significance: Nonsignificant

Legal Authority: 49 USC 2002; PL 102-508, Sec 206

Abstract: The Federal pipeline safety standards governing hazardous liquid pipelines do not apply to pipelines operated at 20 percent or less of the specified minimum yield strength of the pipe. When the standards were

DOT—RSPA

issued in 1969, these pipelines were thought not to pose an unreasonable risk to public safety because of their low operating stress levels. Since then, however, a number of accidents have been reported on low stress level pipelines, particularly involving harm to the environment. This rulemaking action would extend the Federal safety standards to cover these low stress level pipelines that transport highly volatile liquids or that cross populated areas or navigable waterways.

Part 331 was removed by this rulemaking. This rulemaking formalized MARAD's existing policy and procedure for appointing general agents and administering agency agreements by including in the regulations pertinent information that is consistent with a revised Service Agreement and Application for Appointment as General Agent, that are being adopted by MARAD, and a Ship Manager Contract that has been adopted.

Significance: Nonsignificant

Legal Authority: 46 USC app 1114; 46 USC app 1173

CFR Citation: 46 CFR 252

Legal Deadline: None

Abstract: This rule modified the methodology and procedure MARAD uses for calculating and paying maintenance and repair (M&R) subsidy to operators of bulk cargo vessels that receive M&R subsidy under their ODS agreements. Payment is subject to findings by MARAD that M&R costs submitted by the subsidized operators are fair and reasonable and is subject to audit by the Department's Office of Inspector General. The amendment is intended to eliminate delay in determining final ODS payment for M&R expenses.

Legal Authority: 31 USC 3121; 31 USC 9110; 15 USC 78o-5

CFR Citation: 17 CFR 402; 17 CFR 404

Legal Deadline: None

Abstract: The proposal would raise the minimum capital requirements for all government securities brokers and dealers subject to the requirements of 17 CFR 402.2 and establish a written notification requirement for certain withdrawals of capital. This proposal is a companion rule to Security and Exchange Commission's previously proposed revised minimum capital requirements for brokers and dealers subject to the requirements of 17 CFR 240.15c3-1 and final rules regarding the withdrawal of capital.

Significance: Regulatory Program
Legal Authority: 5 USC 5525; 12 USC 391; 31 USC 321
CFR Citation: 31 CFR 210,(Revision)
Legal Deadline: None

Abstract: Revision of 31 CFR part 210 will attempt to move Government Automated Clearing House (ACH) regulations closer to private industry rules as set forth by the National Automated Clearing House Association. The revision will broaden the use of ACH method through establishing the Government as an ACH receiver. Also, the provision will pursue a totally electronic environment by establishing a regulatory framework for automation of all related parts of the ACH process.

financial institutions may receive payment on behalf of a Federal Government payment recipient by Electronic Funds Transfer or check. The intended effect of this notice is to clarify the meaning of the rule by revising the language to comply with current operating procedures. In addition, the word "shall" is to be changes to "may" in 209.4(c) to give agencies the discretion to NOT issue Direct Deposit checks. This will make that part of the rule conform with the authorizing language. The initial agency contact for the NPRM was Donna Kotelnicki (202) 874-6871.

 Pub. L. No. 102-589 removed the deadline for promulgation of regulations.

Abstract: This regulation revises collection and deposit regulations requiring timely methods for the collection and deposit of Federal funds. The revisions, authorized by the Deficit Reduction Act of 1984 and the Cash Management Improvement Act, as amended, require executive agencies to use electronic funds transfer in the collection and disbursement of Federal funds. Noncompliance by agencies may

result in a charge equal to the cost of noncompliance to the Treasury's General Fund. By implementing the Act, the amended regulations will ensure efficient and effective collection and disbursement of Federal funds. These regulations have as a goal the electronic collection and disbursement of all Federal funds when cost effective and practicable.

Unified Agenda of Federal Regulations

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: General notice; Unified Agenda of Federal Regulations of regulatory projects under development, consideration, and review.

SUMMARY: Pursuant to section 5 of Executive Order 12291 entitled "Federal Regulation," ATF is publishing an agenda of proposed regulations that are expected to be issued and of proposed regulations that have been issued and an

agenda of existing regulations that are being reviewed under the terms of the Executive order within the next 6 months. The latter agenda also lists regulatory projects identified for review pursuant to the ATF Regulatory Reform Program. Pursuant to section 610 of the Regulatory Flexibility Act (Pub. L. 96-354; 5 U.S.C. 610), ATF is also indicating whether a regulatory project is likely to have a significant economic impact upon a substantial number of small entities.

This general notice is designed to give the public adequate notice of the regulatory activities being contemplated by ATF.

The agenda is based on information available at the present time. The next Unified Agenda of Federal Regulations

will be published in the Federal Register of April 1994.

FOR FURTHER INFORMATION CONTACT: For information about any particular regulatory project, contact the person listed in the subheading "Agency Contact" for the regulatory project.

For general information about this general notice, contact Angela Shanks, Revenue Programs Division, Bureau of Alcohol, Tobacco and Firearms, 650 Massachusetts Avenue NW., Washington, DC 20226, (202) 927-8230.

Issuance

By direction of the Secretary of the Treasury, this general notice reads as set forth below.

Dated: August 20, 1993.

Daniel R. Black,
Acting Director.

Abstract: As part of the recodification of part 250, we plan to simplify, consolidate and/or eliminate as many sections of regulations as possible by placing particular emphasis on reducing the number of recordkeeping requirements, forms, and customs responsibilities. Wherever possible, we plan to utilize proprietor's commercial records in lieu of requiring the proprietor to submit public use forms. These changes to part 250 should considerably reduce the burden hours on industry.

Abstract: ATF is considering issuing regulations relating to "Home Brew Warehouses." Under the exemption provided at 26 U.S.C. 5053(e), adults may produce beer for personal family use without payment of tax. Since there is no restriction on the place where such beer may be produced, home brew warehouses have come into existence as commercial establishments where adults may produce such beer. Regulations may require home brew warehouses to provide notice to ATF and to keep certain records.

Legal Authority: 26 USC 5301; 26 USC 7805; 27 USC 205

CFR Citation: 27 CFR 5.23(a)(3)(ii)

Legal Deadline: None

Abstract: ATF is proposing to amend 27 CFR section 5.23(a)(3)(ii) authorizing the use of a trace amount of citric acid in the production of vodka without changing its designation as vodka, because citric acid is not an essential component of vodka. Also, ATF is proposing to amend 27 CFR Section 5.23 which regulates additions of Section 5.22(a)(i) which is the standard of identity for vodka. Under this proposal, vodka made with a greater concentration of citric acid would be designated "Flavored Vodka" or labeled with a fanciful name under 27 CFR part 5.

CFR Citation: 27 CFR 24.182; 27 CFR 24.246; 27 CFR 24.248; 27 CFR 24.257

Abstract: This regulation will allow winemakers to use new wine treating materials and processes in the production, cellar treatment, and finishing of wine, if such materials and processes are found by the wine industry to be in accordance with "good commercial practice." No alternatives are being considered. No cost is associated with this action. This action will benefit winemakers by giving them more tools to produce quality wine and will benefit consumers by ensuring that more quality wine is available for purchase. This regulation will also allow a slightly more liberal alcohol label tolerance for wines under 7 percent alcohol by volume. This action is being taken because of the difficulty producers of the new light wine cooler products have in meeting the current alcohol label tolerance requirements. No other alternatives are being considered. No cost is associated with this action. This action will benefit producers of light wine cooler products by liberalizing alcohol label tolerance requirements which have been found to be too restrictive.

2828. ALCOHOLIC CONTENT LABELING FOR MALT BEVERAGES

Significance: Agency Priority

Legal Authority: 27 USC 205(e)

CFR Citation: 27 CFR 7

Legal Deadline: None

Abstract: A 10/28/92 Decision in the U.S. District Court for the District of Colorado held that the Federal Alcohol Administration Act prohibition against the statement of Alcoholic content on malt beverage labels is unconstitutional under the first amendment. ATF will issue an interim rule amending 27 CFR part 7 to permit the optional statement of alcoholic content on malt beverage labels. This rule is intended to provide guidelines on the form of statement, type size, placement and tolerances for statements of alcoholic content. Based on public comments and the outcome of future court actions, ATF will determine whether to make statements of alcoholic content mandatory on malt beverage labels.

Legal Deadline: Final, Statutory, August 1, 1993.

Abstract: This rulemaking would implement section 39 of the Federal Deposit Insurance Act, as added by section 132 of the Federal Deposit Insurance Corporation Improvement Act of 1991. Section 39 requires the OCC and other Federal banking agencies to prescribe certain safety and soundness standards for insured depository institutions and depository institution holding companies. Standards must be prescribed in three principal areas: (1) operational and managerial; (2) asset quality, earnings, and stock valuation; and (3) employee compensation. If an insured depository institution does not meet one of these standards, section 39 requires that the institution establish a plan, acceptable to its primary regulator, to achieve compliance with the standard.

Abstract: This rulemaking would amend OCC's regulations governing the exercise of fiduciary powers by national banks. The intent of the amendment is twofold: First, it would codify recent court decisions regarding collective Individual Retirement Account (IRA) funds; and second, it would make less burdensome the requirements of 12 CFR 9.18, regarding the management of collective investment funds by institutions exercising fiduciary powers. Further, the rulemaking would preserve appropriate protections for trusts and persons with interests therein. In addition to codifying court decisions that national banks are authorized to establish collective IRA funds registered with the Securities and Exchange Commission under the Investment Company Act of 1940, the rulemaking would codify administrative decisions that national banks are authorized to establish registered collective funds whose assets consist of Keogh accounts or any other retirement accounts authorized under sections 401 and 408 of the Internal Revenue Code (26 USC 401 and 408). The OCC is considering eliminating regulations detailing the contents of offering documents covering national bank securities and instead requiring that offering documents contain the information that would be required by the appropriate Securities and Exchange Commission (SEC) form for registration. Abstract: The OCC, as part of an interagency task force, has designed a

uniform multiagency criminal referral form. The form will facilitate financial institutions' compliance with criminal activity reporting requirements, and will enhance law enforcement agencies' ability to investigate the matters reported in the criminal referrals. The information from the form will also be entered into a new interagency database which will enhance the regulatory and law enforcement agencies' ability to track criminal and administrative cases. This uniform criminal referral form is intended to replace the various criminal referral forms currently used by Federal bank, thrift, and credit union regulatory agencies and by financial institutions. This rulemaking would conform OCC's regulations to the new procedures for completion and submission of the uniform criminal referral form. This action is intended to improve reporting of crimes relating to financial institutions and to serve as a basis for a new interagency computer database.

Significance: Agency Priority

Legal Authority: 12 USC 24 (Eleventh); 12 USC 93a; 12 USC 161; 12 USC 481; 12 USC 1818

CFR Citation: 12 CFR 24; 12 CFR 7.7480

Legal Deadline: None

Abstract: This rulemaking would implement section 6 of the Depository Institutions Disaster Relief Act of 1992 which clarified national bank authority to make investments in community development corporations (CDCs) and community development projects (CD projects). The proposal would allow national banks, under certain conditions, to increase the amount of their aggregate and per project investments in CDCs and CD projects above current investment limits, with OCC approval. The rule would also permit national banks without supervisory concerns to make certain CDC and CD project investments by providing a brief self-certification notice of compliance with the rule. The rulemaking is intended to promote economic growth by enabling national banks to increase their equity and special debt investments in CDCs and CD projects, consistent with safe and sound banking practices, for low- and moderate-income housing and small

and minority business development programs. Small banks without supervisory concerns could make project or aggregate investments up to 5 percent of capital and surplus without OCC prior approval, if the structures and activities planned (cont)

2859. FAIR HOUSING HOME LOAN DATA SYSTEM

Legal Authority: 12 USC 93a; 12 USC 161

CFR Citation: 12 CFR 27

Legal Deadline: None

Abstract: This rulemaking would amend the OCC's Fair Housing Home Loan Data System (FHHLDS) to reduce recordkeeping requirements on national banks. Some national banks currently must maintain duplicative information under both the FHHLDS and the Home Mortgage Disclosure Act (HMDA). This rulemaking would eliminate the FHHLDS monthly recordkeeping requirement for those banks. HMDA Loan Application Registers already maintained by national banks will be required to be maintained on a monthly basis, and the reasons for denying a home loan application must be provided. This action will reduce burden on national banks.

Legal Authority: 12 USC 24; 12 USC 92a; 12 USC 93a

CFR Citation: 12 CFR 12

Legal Deadline: None

Abstract: This rulemaking would amend OCC's recordkeeping and confirmation requirements for securities transactions undertaken by a national bank for its customers. It would broaden an exemption from requirements that banks maintain certain records and establish certain policies and procedures. The exemption for banks with an average of less than 200 securities transactions per year is expanded to 1,000 transactions per year, exclusive of

transactions in U.S. Government and Federal agency obligations. This action would reduce the regulatory burden on banks of all sizes that engage in a low number of securities transactions per year. With respect to transactions, as agent, in U.S. Government and Federal agency obligations, the amendment would make the OCC's recordkeeping and confirmation requirements consistent with requirements under the Government Securities Act of 1986 (GSA), which governs Government securities brokers and dealers. The effect of the amendment with respect to transactions, as agent, in U.S. Government and Federal agency obligations, would (cont)

2866. FIDUCIARY POWERS OF NATIONAL BANKS AND COLLECTIVE INVESTMENT FUNDS (CONFLICTS OF INTEREST)

Legal Authority: 12 USC 93a

CFR Citation: 12 CFR 9.12

Legal Deadline: None

Abstract: This rulemaking would address the conflicts of interest created when a national bank is the trustee to an issue of debt securities and enters into additional banking relationships with the issuer, including, but not limited to, the following: securities underwriter, letter of credit enhancer, originator of loans to collateralize the debt securities, or a commercial credit provider. Such multiple roles may serve to reduce the quality of disinterested services provided to both issuers and investors and further expose the bank and the depositors to significant liabilities if investors or issuers suffer losses as a result of a bank trustee's failure to act in their best interests. To the extent possible, the OCC would like to ensure that national banks do not assume conflicting roles which may become unmanageable if the security goes into default.

Abstract: This proposed rule amends the capital treatment of deferred tax assets by restricting the amount of deferred tax assets that a national bank may include in Tier 1 capital. This proposed rule is prompted by the recent change in instructions to the Consolidated Report of Condition and Income (Call Report), which generally permits national banks to report a greater amount of deferred tax assets in the Call Report. Because the Call Report is the basis for the calculation of regulatory capital, the reporting change also automatically increased the amount of deferred tax assets that could be included in capital. This proposed rule is intended to somewhat limit that effect. However, while this proposed amendment technically would restrict the amount of deferred tax assets that could be included in Tier 1 capital, the overall effect of this change, when considered in conjunction with the changed Call Report instructions, generally is to permit more deferred tax assets to be included in capital.

Proposed Rule Stage

2877. COUNTRY OF ORIGIN MARKING

Legal Authority: 5 USC 301; 19 USC 66; 19 USC 1202; 19 USC 1304; 19 USC 1624

CFR Citation: 19 CFR 134

Legal Deadline: None

Abstract: Amendment to the Customs Regulations relating to the requirement that every imported article of foreign origin, or its container, shall be legibly and conspicuously marked to indicate to an ultimate purchaser in the United States, the English name of the country of origin of the article. Proposal would require that whenever the full or abbreviated name of a country or place other than the country of origin, or a symbol readily associated with a country or place other than the country of origin, appears anywhere on a foreign article or its container, then the actual country of origin of the article must be marked on the article or its container in close proximity to each reference to the country or place not the country of origin, or a hang tag or sticker affixed to a highly conspicuous portion of the article.

Significance: Regulatory Program

Legal Authority: 19 USC 1584; 19 USC 1594; 19 USC 1595a; 21 USC 960; 21 USC 961; PL 99-570

CFR Citation: 19 CFR 162

Legal Deadline: Final, Statutory, February 17, 1989.

Required by 19 USC 1584 note.

Abstract: Amendment to the Customs Regulations relating to the liability of common carriers to penalties, seizure, and forfeiture for unmanifested narcotic drugs or marijuana. The proposed changes would add to the regulations the statutory standard for the highest degree of care and diligence on the part of common carriers in preventing unmanifested drugs and marijuana. It also sets forth specific duties and procedures by which the standard is defined and against which compliance with the standard can be determined. These duties and procedures include such security measures as background investigations of employees, access restrictions to cargo areas, use of lighting in storage areas, and similar measures.

Improving Government Regulations; Semiannual Agenda of Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: This semiannual agenda lists the regulations that the Internal Revenue Service will be developing from October 1, 1993, through September 30, 1994. Determinations with respect to the agenda were made as of July 31, 1993. The purpose of this semiannual agenda is to give the public adequate notice of regulatory activities of the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Mike Slaughter, (202) 622-7190, not a toll-free call, Regulations Unit, Assistant Chief Counsel (Corporate), Office of Chief Counsel, Internal Revenue Service, P.O. Box 7604, Ben Franklin

Station, Washington, DC 20044, Attention: CC:DOM:CORP:T:R.

SUPPLEMENTARY INFORMATION:

General

Section 5 of Executive Order 12291 and section 602 of the Regulatory Flexibility Act both require that a semiannual agenda of regulations under development and review be published in the **Federal Register**. The next semiannual agenda of the Internal Revenue Service will be published in the **Federal Register** in April of 1994.

Description

This semiannual agenda of regulations lists all projects within the Internal Revenue Service (IRS) as of July 31, 1993, for the development of regulations to appear in the Code of Federal Regulations. This agenda lists existing regulations under development by the Offices of the Assistant Chief Counsel (Corporate), Assistant Chief Counsel (Field Service), Assistant Chief Counsel (Financial Institutions and Products), Assistant Chief Counsel (Income Tax and Accounting), Assistant

Chief Counsel (Passthroughs & Special Industries), Assistant Chief Counsel (Criminal Tax), Assistant Chief Counsel (General Litigation), Associate Chief Counsel (Employee Benefits and Exempt Organizations), and Associate Chief Counsel (International) of the Office of Chief Counsel, IRS. The following information is provided for each regulation project: The title; priority status; its effect, if any, on small business; the part of the Code of Federal Regulations affected; the legal authority for issuing the regulation; a brief description of the problem to be addressed in the regulation; and a timetable of action taken and to be taken. Under Additional Information, there is provided the control number of the project within the Chief Counsel's office and the names and telephone numbers of the drafting and reviewing attorneys.

By direction of the Secretary of the Treasury.

Margaret Milner Richardson,
Commissioner of Internal Revenue.

administrative and judicial proceedings for the adjustment at the partnership level of partnership items. A TMP also may file a petition for readjustment, file an administrative adjustment, and extend the statute of limitations on behalf of all partners. A partnership may only designate a general partner as the TMP. If a partnership does not designate a TMP, a general partner will be designated as the TMP either by statute or by the Internal Revenue Service. If it is impractical to designate a general partner as the TMP, the Service will designate a limited partner as the TMP. Because a limited liability company does not have a general partner, a limited liability company cannot designate a TMP. Guidance is needed that will allow a limited liability company to designate a TMP.

Legal Authority: 26 USC 7805 Internal

 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Taxpayers want more timely
 publication of the Standard Industry
 Fare Level (SIFL) rates, preferably
 publication in the last quarter of the
 year before the year in which the rates
 will be applicable. Difficulties arising
 from the need to coordinate with the
 Department of Transportation which
 furnishes the rates make it virtually
 impossible to satisfy the request for
 timeliness under the current system.
 Therefore, the Service proposes to
 adopt a Cost of Living adjustment to
 be published in the last quarter of each
 year. The rate adjustment will be

TREAS—IRS

applied to a base SIFL rate. The Service believes that adopting a COLA adjustment will meet taxpayers needs for timely information and that it will significantly reduce the volume of telephone calls that the Service currently receives on this issue.

Abstract: In section 11322(a) of Pub. L. 101-508, Congress amended section 305(c) of the Code to modify the treatment of preferred stock issued with a redemption premium. The amendment to section 305(c) applies the economic accrual rules that are applicable to debt instruments issued with OID to certain preferred stock issued with a redemption premium if the stock will be redeemed, or it can reasonably be assumed that the stock will be redeemed, on a fixed date. The regulations under 305(c) will be amended to provide for the economic accrual, rather than the ratable inclusion, of redemption premiums, in accordance of OID principles.

Legal Authority: 26 USC 337(d) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), and corporations must recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted the Secretary authority to promulgate regulations necessary to carry out the

purposes of the Act. It has been determined that GU repeal can be circumvented by conversion of for-profit corporations to tax-exempt entities and other transactions involving tax-exempt entities. This project will develop regulations to prevent the circumvention of corporate-level gain in such transactions.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 382 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Abstract: These proposed regulations suspend the recognition of income and expenses if certain partners, such as loss corporations, accrue unpaid guaranteed payments. The partner's income as well as the partnership's expense will be recognized in the taxable year in which the partnership pays, with an unrestricted transfer of money, the accrued guaranteed payment. The proposed regulations prevent loss corporations, and other covered taxpayers not subject to U.S. tax, from structuring partnership guaranteed payment that diverts taxable income to the loss corporation or other non U.S. taxpayer which is greater than the ultimate economic benefit realized from the guaranteed payment.

Abstract: The regulation will address the issue of what constitutes real property acquired by a qualified trust. The guidance provided on this issue will determine the scope of the exception under 26 USC 514(c)(9) for such acquisitions from the term acquisition indebtedness. Under 26 USC 514, the existence of such indebtedness on income producing property gives rise to unrelated debt-financed taxable income. The regulation will also address the issue of the proper allocation method to determine fixed indirect expenses connected with the unrelated trade or business use of an exempt organization's property.

3009. ACCUMULATION TRUSTS

Legal Authority: 26 USC 667 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 provides for a new method of computing the tax on distributions of income accumulated by a trust in prior years. The new method, in effect, determines the tax attributable to an accumulation distribution by averaging the distribution over the number of years during which the income was earned by the trust. This is accomplished by including, for purposes of tentative computations, a fraction of the income received from the trust in the beneficiaries' income for 3 of the 5 preceding years. Those 3 years are determined by taking from the 5 preceding years the year with the highest taxable income and the year with the lowest. The fraction of the income included in each of the 3 years is based upon the number of years during which the income is accumulated by the trust. The average yearly additional tax determined by recomputing the tax for the 3 years is then multiplied by the number of years during which the distribution was accumulated. The resulting tax so computed may be offset by a credit for any taxes previously paid by the trust with respect to the accumulated income. (cont)

3028. TIERED PARTNERSHIP RULES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulation will address whether a foreign partner in a tiered partnership arrangement is engaged in a trade or business in the United States by virtue of membership in that tiered partnership where the second tier partnership meets the requirements of being in U.S. trade or business. The alternatives are 1) to conclude the foreign partner is engaged in U.S. trade or business because any member of the tiered partnership arrangements is; and 2) to conclude the foreign partner is not engaged in a U.S. trade of business where the first tier partnership is not so engaged. Other considerations include the meaning of "principal place of business" and whether an entity may have more than one, and attribution rules applicable to the entities. A problem with the second alternative is

that it arguably gives priority to form over substance, however, there are several methods by which the first alternative could be avoided and their appears to be no policy reason to prefer one form of doing business over another. Furthermore, no additional tax would be collected by following alternative 1.

3071. CLARIFYING DELETION OF REQUIREMENT OF SECTION 1.1502-47(D)(12)(C) THAT IN APPLYING THE TACKLING RULE, PROFIT LIFE ACTIVITIES NOT BE SEPARATED FROM LOSS LIFE ACTIVITIES

Legal Authority: 26 USC 1502 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Section 1.1502-47(d)(12)(C) restricted the separation of profitable life activities from loss life activities to prevent the gaming that otherwise could occur under the "bottom-line" consolidation rule mandated by section 818(f) as in existence prior to the Enactment of the Tax Reform Act of 1984 (TRA 1984), Public Law 98-369. As a result of the new method of taxing life insurance companies enacted in the TRA 1984, the bottom-line consolidation abuse potential is eliminated, thus eliminating the need for section 1.1502-47(d)(12)(C). Removing this provision will remove an unnecessary restraint on transactions, and a potential device to voluntarily deconsolidate.

Significance: Agency Priority

Legal Authority: 26 USC 3406 Internal Revenue Code of 1986; 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Under the regulations payors can pre-check the name/TIN combinations furnished by payees prior to their filing an information return and thereby carryout the purposes of section 3406 in obtaining correct TIN/name combinations. Accordingly, prior to filing an information return a payor may contact the Service concerning the TIN furnished by a payee. Upon receiving such an inquiry, the Service will advise the payor whether the name/TIN combination furnished matches the name/TIN combination contained in the Service's records. If the name/TIN combination does not match, then the payor has the opportunity to contact the payee for correction before filing the information return, thus reducing the likelihood of a notice to start backup withholding and of a penalty for filing an information return.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7425 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: Section 301.7425-4(b)(3)(ii), which deals with excess expenses incurred by a purchaser of property after a foreclosure sale and before redemption, provides that the Service may request a written itemized statement from the purchaser regarding excess expenses. If the purchaser does not respond within 15 days, it shall be presumed that no excess expenses are payable. However, even after the 15-day period expires, a payment for excess expenses shall be made after the redemption within a reasonable time following the verification by the district director of a written itemized statement

submitted by the purchaser. There is no specific time frame set for the purchaser to submit his claim after the redemption and after the expiration of the 15-day period. We are examining the feasibility of establishing a 30-day time limit within which a final claim for excess expenses must be submitted by the purchaser after the sale of the property. This will eliminate claims for reimbursement of expenses that may be submitted after redemption and sale of the property, where the liens were fully satisfied and released, and all surplus funds returned to the taxpayer.

3133. WRONGFUL LEVY ACTIONS INVOLVING GOVERNMENT AGENCIES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7426 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: The existing language of the regulations under IRC section 7426 is ambiguous and confusing. It has been used in at least one court case as support for the proposition that whenever the Service attempts to seize property of a delinquent taxpayer that is in the custody of a Government agency, regardless of the form of the seizure (i.e., service of a Notice of Levy or of a Request for Setoff), such a seizure is always a setoff, and any third party injured by such a seizure has no cause of action under IRC section 7426. This is not the Service's position. The regulations should be clarified to rectify this misinterpretation.

Legal Deadline: None

Abstract: Section 7520 of the Internal Revenue Code, as added by section 5031 of the Technical and Miscellaneous Review Act of 1988, requires that the value of any annuity, any interest for life or a term of years, and any remainder or reversionary interest be determined under valuation tables revised periodically by the service. Section 7520(b) of the code authorizes the service to issue regulations excepting any provision from application of section 7520 valuation. The regulations provide for deviation from use of the tables in certain areas where use of the tables would produce unreasonable results.

Proposed Rule Stage

Abstract: Under the Tax Reform Act of 1986, statutes of limitations are suspended in certain cases in which there is no resolution of a third-party recordkeeper's response to a summons. Section 7609(e)(2) was amended by the Technical and Miscellaneous Revenue Act of 1988 so that the suspension applies to all John Doe summonses, whether or not the summoned party is a third-party recordkeeper as defined in IRC section 7609(a)(3). The new regulations will make changes to 26 CFR 301.7609 to conform with the 1986 and 1988 amendments.

Legal Authority: 26 USC 336 Internal Revenue Code of 1986; 26 USC 337 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Tax Reform Act of 1986 (the "Act") repealed the last vestiges of the General Utilities doctrine ("GU repeal"), and corporations must recognize gain in most cases upon the distribution of appreciated property to their shareholders. The Act granted the Secretary authority to promulgate regulations necessary to carry out the purposes of the Act. This project addresses issues related to the operating rules of sections 311, 331, 334, 336, and 337. Additional areas related to GU repeal, such as the scope of the repeal, will be addressed in a specific project.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 367 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The Income Tax Regulations under section 367 will be amended to reflect the changes made to that section by the Tax Reform Act of 1984. Section 367 now provides generally that a foreign corporation will not be considered to be a corporation, for purposes of certain nonrecognition provisions of the Code, upon the transfer of property to such corporation by a U.S. person. The statute provides certain exceptions to that rule, exemptions to those exceptions, and special rules applicable to certain specified transfers. The regulations will provide guidance concerning the applicability of the general rule and its exceptions and special rules, including guidance concerning transfers of assets for use in the active conduct of a trade or business, stock transfers, transfers of intangible assets, and transfers of branch operations that have operated at a loss.

DATE**

Legal Authority: 26 USC 7805 Internal
Revenue Code of 1986; 26 USC 382
Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Except as provided in
regulations, sections 382(b)(3)(A) and
(d)(1) of the Internal Revenue Code of
1986 provide that income or net
operating loss for the taxable year that
includes the change date is allocated
ratably. Notice 87-79, 1987-2 C.B. 387,
states that regulations will, in certain
cases, provide taxpayers with an
election to allocate income and loss
between the periods ending with and
after the change date on the basis of
a closing of their books. This regulation
project provides a closing of the books
election.

Abstract: The section 382 segregation
rules (S. 1.382-2T(j)(2)(iii)) divide
groups of less than 5% shareholders
into separate public groups following
certain transactions. The proposed
regulations exempt certain de minimis
transfers of loss corporation stock from

This document provides the general public the opportunity to comment on the temporary and proposed regulations providing needed guidance on the changes made by the Unemployment Compensation Amendments of 1992 (UCA). The UCA expanded the types of retirement plan distributions with regard to which income tax can be deferred by a rollover to an individual retirement account, another qualified plan, or section 403(b) annuity. The UCA also requires qualified pension plans and 403(b) annuities to provide a direct rollover option. Also, the UCA imposes mandatory 20 percent income tax withholding on any eligible rollover

distribution that the employee does not elect to have transferred in a direct rollover.

3264. PARTNERSHIP TERMINATION DISTRIBUTIONS

Significance: Agency Priority

Legal Authority: 26 USC 708 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.708-1

Legal Deadline: None

Abstract: In order to prevent the shifting of the tax consequences between partners with respect to pre-contribution gain or loss Congress amended section 704(c) of the Code in the Tax Reform Act of 1984 and again in the Revenue Reconciliation Act of 1989. Treasury believes that in order to fully implement the Congressional intent, the regulations under section 708(b)(1)(B) of the Code need to be amended to insure that the pre-contribution gain or loss is properly accounted for when a partnership liquidates and is reformed. Accordingly, it has been proposed that the regulations under section 708(b)(1)(B) be amended to insure that the pre-contribution gain or loss will be preserved in the liquidation reformation process.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 861 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Proposed section 1.861-8(e) would provide new guidance regarding the allocation of charitable deductions to U.S. or foreign source income. A taxpayer would allocate such a deduction solely to U.S. source income if he designated the contribution for U.S. use and reasonably believed that it would be so used. He would allocate such a deduction solely to foreign source income if he knows or has reason to know that it would be used solely outside the United States or that it must necessarily be so used. In all other cases, he would ratably apportion such a deduction.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 964 Internal Revenue Code of 1986; 26 USC 952 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: The regulations are proposed as part of Treasury's ongoing simplification efforts. The proposed regulations would modify the computation of earnings and profits (E&P) of foreign corporations by allowing taxpayers to account for inventory costs using capitalization methods used for financial accounting purposes rather than the uniform capitalization rules required by section 263A. The proposed regulations would also permit reliance on financial accounting conventions in computing depreciation for foreign corporations deriving less than 20% of gross income from U.S. sources and maintaining assets with tax bases not materially different from financial book bases. Use of these simplified rules may result in an accounting method change which would ordinarily require the filing of Form 3115 (Application for Change in Accounting Method). However, the

proposed regulations waive this filing requirement if its conditions are met.

Abstract: These regulations concern the source, character and income tax treaty treatment of substitute interest and dividend payments made pursuant to a transfer of securities described in section 1058(a) or a substantially similar transaction between a U.S. person and a foreign person. To determine the source and character of cross-order substitute payments, a substitute payment will be treated as interest or dividend income received with respect to the transferred security. Where a treaty looks to U.S. law to define a payment subject to a withholding tax, a substitute payment will be treated as interest or dividend income with respect to the transferred security.

3307. USE OF PASSIVE ACTIVITY LOSS CARRYOVERS BY BANKRUPTCY ESTATES

Significance: Agency Priority

Legal Authority: 26 USC 1398(g)(8) Internal Revenue Code of 1986

CFR Citation: 26 CFR 1

Legal Deadline: None

Abstract: Section 1398(g) which enumerated certain attributes of individual debtors that pass to the bankruptcy estate in cases under chapter 7 of or chapter 11 of the Bankruptcy Code was enacted in 1980. Section 1398(g)(8) provides that the Secretary can designate by regulation additional attributes that pass to the bankruptcy estate to the extent necessary or appropriate to carry out the purposes of section 1398. Section 469 which created passive activity losses was enacted in 1986. Passive activity losses are not attributes that are specifically enumerated in section 1398(g). This regulation addresses whether passive activity losses should be designated as an attribute that passes to the estate under section 1398(g). This regulation will provide guidance in an area of the law that is unclear.

Abstract: Under section 6205(a)(1) of
the Code if less than the correct amount
of tax imposed under the FICA, the
RRTA, or the income tax withholding
provisions is paid with respect to any
payment of wages or compensation,
proper adjustments; with respect to
both the tax and amount to be
deducted, must be made without
interest in such manner and in such
times as the Secretary may by
regulations prescribe. The proposed
amendments would add language to
clarify that an interest-free adjustment
can be made in certain situations in
which the error is ascertained before the
appropriate return is filed. The
proposed amendments are intended to
apply only to situations in which no
return was filed because the employer

Abstract: The purpose of these regulations is to solve the problem that arose in the case of United States v. Air Florida, Inc. 56 B.R. 732 (S.D. Fla. 1985). The regulations will provide that if a State has adopted a Federal law establishing a place for the filing of liens under a national filing system, the State is not considered to have a second office for filing of the notice of lien. The regulations will also provide that the filing of a notice of Federal tax lien is governed solely by the Internal Revenue Code and is not

subject to any other Federal law establishing a national filing system.

Abstract: The regulation would provide rules for determining the period during which interest accrues on an underpayment or an overpayment of tax as provided in sections 6601 and 6611 of the Internal Revenue Code of 1954. The period would be determined, in part, by the dates the return and the claim for refund are filed and by whether they were filed in a way that they can be processed.

3359. CLARIFICATION OF PERIOD DURING WHICH INTEREST IS ALLOWED WITH RESPECT TO CERTAIN OVERPAYMENTS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986

CFR Citation: 26 CFR 301

Legal Deadline: None

Abstract: Under section 6611(b)(1), if an overpayment is credited against an underpayment, interest on the

overpayment runs from the date of the overpayment until the due date of the amount against which the credit is taken. Section 301.6611-1(h)(2)(v) of the regulations provides that in the case of a credit against assessed interest, the due date is the assessment of such interest. Section 301.6611-1(h)(2)(vi) of the regulations provides that in the case of a credit against an amount assessed as an additional amount, addition to the tax or assessable penalty, the due date is the date of assessment. A literal application of these regulations' provisions may give a taxpayer interest, where none should be paid. The proposed regulations correct this problem by changing the due dates of interest and certain additions to the tax.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 6695 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1.6695-1 (b)

Legal Deadline: None

Abstract: Section 1.6695-1 (b) currently requires that, with one exception, income tax return preparers must manually sign returns or claims for refund signed by them. The exception does allow preparers of returns and refund claims for nonresident aliens to use facsimile signatures under certain circumstances. Section 645 (a) of the Internal Revenue Code, added by section 1403 (a) of the Tax Reform Act of 1986, requires trusts, with certain limited exceptions, to use a calendar taxable year. The calendar year requirement means that, instead of being able to spread their duty to sign trust returns over the entire course of a year, preparers must now sign all trust returns before April 15 in order to present them to clients for timely filing. To alleviate this hardship, we are examining the advisability of permitting income tax return preparers of Forms 1041, U.S. Fiduciary Income Tax Returns, to use facsimile signatures and under what conditions such use would be permitted and appropriate.

Abstract: Section 7520 of the Internal Revenue Code, as added by section 5031 of the Technical and Miscellaneous Revenue Act of 1988, requires that the value of any annuity, any interest for life or a term of years, and any remainder or reversionary interest be determined under valuation tables, revised periodically and the applicable Federal interest rate for the month of the valuation of the interest. The regulations will address the use of the tables, which will be published separately, and will contain rules for making an election where charitable transfers are involved. It will also include rules for rounding the applicable interest rates. In addition, the regulations will modify the current regulations for gift, estate, and charitable transfers of annuity trusts, and unitrusts and pooled income funds.

3374. REGULATIONS ON INCOME TAX UNDER THE TAX REFORM ACT OF 1984, RELATING TO BELOW-MARKET LOANS

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 7872 Internal Revenue Code of 1986

TREAS—IRS

Final Rule Stage

CFR Citation: 26 CFR 1**Legal Deadline:** None

Abstract: These regulations provide guidance to taxpayers who enter into certain below-market interest rate loan transactions. The regulations explain what type of transactions are treated as loans and what type of loans are subject to the provisions of section 7872. If the loan is subject to section 7872, the below-market loan will be recharacterized as an arm's length market-interest rate loan coupled with a payment by the lender to the

borrower in an amount generally equal to the amount of imputed interest. The regulations provide rules for determining the amount and the character of the imputed transfers.

Significance: Agency Priority

Legal Authority: 26 USC 7805 Internal Revenue Code of 1986; 26 USC 401 Internal Revenue Code of 1986; 26 USC 402 Internal Revenue Code of 1986; 26 USC 403 Internal Revenue Code of 1986; 26 USC 3405 Internal Revenue Code of 1986

CFR Citation: 26 CFR 1; 26 CFR 31

Legal Deadline: None

Abstract: This project provides Temporary Income Tax Regulations relating to eligible rollover distributions from tax-qualified retirement plans and section 403(b) annuities. These regulations provide needed guidance reflecting the changes made by the Unemployment Compensation Amendments of 1992 (UCA). The UCA expanded the types of retirement plan distributions with regard to which income tax can be deferred by a rollover to an individual retirement account, another qualified plan, or section 403(b) annuity. The UCA also requires qualified pension plans and 403(b) annuities to provide a direct rollover option. Also, the UCA imposes mandatory 20 percent income tax withholding on any eligible rollover distribution that the employee does not elect to have transferred in a direct rollover.

guidance as to what is reasonable under the circumstances in the case-by-case determination as to the time and place of examination. The regulations balance the convenience of the taxpayer with the requirements of sound and efficient tax administration. The regulations provide that it is generally not reasonable for the IRS to require a taxpayer to attend an examination at an IRS office other than the office located closest to the taxpayer's home in that district. They also provide that it is generally not reasonable for the IRS to audit a taxpayer at his or her place of business if the business is so small that so doing will eventually require the taxpayer to close the business.

3411. • CRIMINAL REFERRAL REPORT
Significance: Agency Priority

Legal Authority: 12 USC 1462; 12 USC 1462a; 12 USC 1463; 12 USC 1464; 12 USC 1467a; 12 USC 1468; 12 USC 1817; 12 USC 1828; 12 USC 3806; 42 USC 4106

CFR Citation: 12 CFR 563

Legal Deadline: None

Abstract: The OTS is taking under consideration the adoption of a notice of proposed rulemaking that will conform its regulations to new procedures for completion and submission of the uniform criminal referral form designed in conjunction with an interagency task force. The multi-agency form will improve compliance with criminal activity reporting requirements and better enable law enforcement agencies to investigate matters reported in criminal referrals.

3412. • ACQUISITION OF CONTROL OF SAVINGS ASSOCIATIONS
Significance: Agency Priority

Legal Authority: 12 USC 1467a; 12 USC 1817

CFR Citation: 12 CFR 574

Legal Deadline: None

Abstract: The OTS has taken under consideration the adoption of a notice of proposed rulemaking to implement the provisions of section 211 of FDICIA. The rule would require OTS to consider the competence, experience and integrity of the officers, directors, and principal shareholders of a company or savings association that files a holding company application.

The rule would also implement FDICIA provisions that require the OTS to deny a holding company application (i) if the applicant fails to provide adequate assurances that the company will make available to the OTS information on the

operations or activities of the company, as the OTS deems appropriate to determine and enforce compliance with the Home Owners' Loan Act; and (ii) in the case of a holding company application submitted by a foreign bank, if the foreign bank is not subject to comprehensive supervision or regulation on a consolidated basis by the appropriate authorities in the home country of the foreign bank.

Significance: Agency Priority

Legal Authority: 12 USC 1462a; 12 USC 1463; 12 USC 1464; 12 USC 1828

CFR Citation: 12 CFR 545

Legal Deadline: None

Abstract: The OTS has taken under consideration the adoption of a proposed rule that would amend its regulation governing real estate lending to clarify its intention to pre-empt state laws insofar as they directly or indirectly restrict the ability of Federal savings associations to engage in alternative mortgage transactions, including home equity conversion lending. The rule would also preempt state laws that directly or indirectly restrict the ability of Federal savings associations to engage in traditional home equity lending.

Abstract: The OTS has taken under consideration the adoption of a notice of proposed rulemaking that would eliminate the mandatory annual independent audit requirement for all savings associations. The OTS would rely on the requirements in the FDIC's rule on annual independent audits for savings associations with assets of \$500 million or more and retain the regulatory language allowing the OTS to require an independent audit of any savings association with assets of less than \$500 million, if deemed advisable

Abstract: The OTS has issued a notice of proposed rulemaking to amend its minimum regulatory capital regulations by revising the leverage ratio requirement that applies to savings associations to comport with the leverage ratio adopted by the Office of the Comptroller of the Currency.

This proposal was adopted pursuant to section 5(t) of the Home Owners' Loan Act, which requires that OTS promulgate capital standards that are uniformly applicable to all savings associations. 12 U.S.C. 1464(t).

The proposal establishes a 3.0% leverage ratio for savings associations in the strongest financial and managerial condition. All other savings associations would be required to maintain additional leverage capital of 100 to 200 basis points.

CFR Citation: 12 CFR 552; 12 CFR 563

Legal Deadline: Final, Statutory, March 18, 1992.

Abstract: The OTS has proposed amendments to its regulations governing mergers and other combinations involving Federal stock savings associations to implement sections 501 and 502 of FDICIA. In general, the FDICIA amendments to the insurance conversion provisions of the Federal Deposit Insurance Act and to the Savings and Loan Holding Company Act provisions of the Home Owners' Loan Act ease previous restrictions on conversion transactions to permit all insured depository institutions to merge, assume each other's deposits, and transfer assets to each other in exchange for assuming deposit liabilities, provided the applicable Federal banking agency approves the transaction and the resulting institution continues to pay proportionate assessments to the appropriate Federal deposit insurance fund. The OTS is amending its regulations to effect these changes.

Abstract: As predecessor to the OTS, the Federal Home Loan Bank Board issued an advance supplemental notice of proposed rulemaking addressing interest rate risk generally. In December, 1990, the OTS issued an extensive notice of proposed rulemaking setting forth a description of methodologies to be used in calculating the interest rate risk component of the capital rule. A supplemental NPRM was issued in September 1992 seeking further comment on how to incorporate an interest rate risk component into the risk-based capital rule. The interest rate risk component, now adopted in final form, is intended to ensure that savings associations maintain adequate capital based upon their level of interest rate risk exposure. It implements the requirement in section 305 of FDICIA that the OTS revise its risk-based capital rules to ensure that those rules take adequate account of interest rate risk.

Semiannual Regulatory Agenda

DEPARTMENT OF VETERANS AFFAIRS (VA)

DEPARTMENT OF VETERANS
AFFAIRS

38 CFR Ch. I

Agenda of Federal Regulations

AGENCY: Department of Veterans Affairs.

ACTION: Publication of agenda of regulations.

SUMMARY: This agenda announces the regulations that the Department of Veterans Affairs will have under review, development, or revision during the 12-month period from October 1993 to October 1994. The purpose in publishing the Department's regulatory development activities is to allow all interested persons the opportunity to participate in the rulemaking process.

ADDRESSES: Interested persons are invited to comment on the regulations listed in the agenda by contacting the individual agency contact listed for each regulation or by writing to: Director, Records Management Service (723), Department of Veterans Affairs, 810 Vermont Avenue NW., Washington, DC 20420.

FOR FURTHER INFORMATION CONTACT: Cliff Slay, (202) 233-4251.

SUPPLEMENTARY INFORMATION: Executive Order 12291 "Federal Regulation" and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the Federal Register, in April and October of each year, an agenda of regulations under development and review.

The Department of Veterans Affairs has no regulations considered major

under the terms of Executive Order 12291; however, all of this Department's proposed rules and current rules under review, except those considered to be internal Department policy management or routine regulations, have been listed in accordance with section 5(a) of the Executive order.

This agenda incorporates those categories of information required pursuant to 5 U.S.C. 602(a) and 610(c) of the Regulatory Flexibility Act.

This agenda has been prepared in accordance with OMB memorandum dated June 14, 1993.

Dated: August 25, 1993.

Robert J. Woods,

Deputy Assistant Secretary for Information Resources Management.

Abstract: Several laws have been enacted since the last revision and

update of the regulations governing the State Home Per Diem Program. Among them is Public Law 100-322 which provided the Secretary, Department of Veterans Affairs, to evaluate per diem rates annually and increase as appropriate; the rates may not exceed the percentage increase in VA general hospitals. Numerous other changes and updates are needed to assist the States in recognition of State homes, various options for operating State homes such as contracting or leasing and clarification of States' responsibilities for providing financial support for the operation, opening of beds, after completing construction in which VA provided up to 65 percent of the cost. Timeframes for opening beds and clarification of assurance of financial support needs to be documented.

Current regulations will be updated and revised to accomplish these purposes. Additionally updates are necessary for the State Home Construction Program. Public Law 102-585 amended the time for conditional grant approvals, prohibits obligation of funds for rescinded projects during the same fiscal year, defined the date the recapture period (cont)

Legal Authority: 38 USC 210(c)
CFR Citation: 38 CFR 12.0 to 12.24
Legal Deadline: None

Abstract: Section 208 of Public Law 94-581 provides that unclaimed property or funds and effects left by a dependent or survivor of a veteran receiving medical care at a Department of Veterans Affairs facility as a CHAMPVA beneficiary will be disposed of in the same or similar manner as such property left by a veteran. Also, estates of dependents or survivors of a veteran who dies intestate and without legal heirs while

a patient in any Department of Veterans Affairs facility or any hospital, while being furnished care or treatment therein by VA will escheat to the U.S. Government. Some of these regulations have not been updated since 1948, therefore, editorial changes will be made which will not affect policy.

VETERANS BENEFITS ADMINISTRATION

3443. 1. VETERANS SERVICES OFFICER (VSO) TO SELECT AND APPOINT OR RECOMMEND FOR APPOINTMENT THE PERSON OR LEGAL ENTITY TO RECEIVE BENEFITS IN A FIDUCIARY CAPACITY 2. DIRECT PAYMENT

Legal Authority: 38 USC 5502

CFR Citation: 38 CFR 13.55; 38 CFR 13.56

Legal Deadline: None

Abstract: 38 CFR 13.55 authorizes the VSO to select and appoint a fiduciary and defines the types of payees authorized to receive payments in fiduciary cases. The intended change updates the authority language to more closely reflect changes to 38 USC 3202; removes language to more closely reflect changes to 38 USC 5502; removes gender specific terminology and reference to mental illness; and, further clarifies the types of payees available for selection. 38 CFR 13.56 defines classes of beneficiaries who may be paid directly. The intended change clarifies the conditions for direct payment.

CFR Citation: 38 CFR 13.70; 38 CFR 13.71; 38 CFR 13.74

Legal Deadline: None

Abstract: 38 CFR 13.70 defines the conditions under which the Veterans Services Officer may recommend an apportionment of benefits to dependents. The proposed amendment will clarify these conditions. The amendment will also remove a reference to mental illness as the sole criterion for a rating of incompetency.

38 CFR 13.71 is to be amended to make clear that the signing of an institutional award agreement does not waive an institution's right to claim payments under 38 USC 641. This action is the result of an unpublished General Counsel opinion.

38 CFR 13.74 is based on the provisions of 38 USC sec. 3203(b)(1)(A); however, where the law refers to more than one type of institutional care, the regulation refers only to instances of hospitalization. This would seem to preclude application of the regulation when veterans are in State

run nursing homes or other institutions operated by the United States or a political subdivision. The Department of Veterans Affairs, therefore, proposes to correct this defect by substituting the terms "institution" and "institutionalization" where appropriate.

Abstract: Federally appointed fiduciaries are not required, except under very specific circumstances, to divulge non-VA income and assets belonging to the incompetent beneficiary. It is difficult to assess whether the fiduciary is using the beneficiary's VA assets appropriately unless placed in the context of total income and assets available. The purpose of these changes is to lessen the potential for fraud, waste and abuse. 38 CFR 13.58(b)(2) and 13.59(a) detail the responsibilities of legal custodians and court-appointed guardians respectively. They would be amended to require the reporting of non-VA assets. 38 CFR 13.100(a)(1) defines the authority of the Veterans Services Officer to supervise fiduciaries. The intended change would permit the Veterans Services Officer to request non-VA financial information from fiduciaries. 38 CFR 13.102(b) and 13.104(b) define the accountability of legal custodians and court-appointed guardians respectively. The intended change requires disclosure of non-VA financial information.

Abstract: The Department of Defense Authorization Act for Fiscal Years 1990 and 1991 greatly expands the types of training permitted under the Montgomery GI Bill—Selected Reserve. The Veterans Education and Employment Amendments of 1989 also add a new type of training, flight training, to this program. Furthermore, the amendments also allow participants to receive a work-study allowance. The regulations which govern the Montgomery GI Bill—Selected Reserve must be amended to implement these new provisions of law.

Abstract: Public Law 101-237, the Veterans Home Loan Indemnity and Restructuring Act of 1989, amended 38 USC 1832(a) to require holders of VA guaranteed loans that are in default to notify VA if they refuse a partial payment of the amount owed when submitted by the veteran borrower. Notification may include a statement as to the circumstances of the default and the reason for the holder's refusal; these regulations will also set out the changed requirements with regard to establishing a veteran's liability to the Government in the event of foreclosure of a VA guaranteed loan. In the past veterans were liable if their VA loan foreclosed. Under Public Law 101-237 liability will only be established in the

Abstract: There is a section of PL 102-16 which is designed to eliminate some VA debts. The Secretary of Veterans Affairs is given the authority to enter into an agreement with an individual who has incurred an overpayment of VA educational or rehabilitation benefits. Pursuant to the agreement the individual may reduce the resulting debt through performance of work-study services. The law gives VA considerable latitude in administering this program. The regulation will state the way in which VA will implement this provision of law.

Abstract: Under certain conditions VA can suspend or discontinue payments of educational assistance to individuals even though the course in which they are enrolled is approved for VA training. Current regulations provide for a review of the circumstances at the local VA facility and another de novo review at VA Central Office. The proposal would gather in one place the procedures which VA follows in deciding whether to suspend or discontinue payments; would make a part of the Code of Federal Regulations the rules at the hearing which may be conducted in making this decision; and would eliminate the de novo Central Office review.

Legal Authority: PL 102-484; PL 102-568

CFR Citation: 38 CFR 21.5023

Legal Deadline: None

Abstract: The Veterans' Benefits Act of 1992 contains many provisions which affect the educational programs VA administers. Among these is a change in the rate of payment made to individuals who are pursuing independent study, a change in the eligibility rules for veterans and servicemembers receiving educational assistance under the Montgomery GI Bill - Active Duty. The National Defense Authorization Act for Fiscal Year 1993 also contains provisions which affect the Montgomery GI Bill - Active Duty. For example, certain individuals who have voluntarily separated from the military are given an opportunity to become eligible for the Montgomery GI Bill - Active Duty. These regulations will implement these Acts with respect to the Montgomery GI Bill - Active Duty and Dependents' Educational Assistance.

Abstract: VA will propose rescinding all rules and regulations relating to or implementing the Veterans Job Training Act. The Veteran's Job Training Act was enacted in 1983. It provided payments to employers who provided job training for certain Korean Conflict and Vietnam Era veterans. Payments were made when employers submitted periodic certifications of training. New funding is not being provided for this program. VA will not accept any employer's certifications after September 30, 1993. Thus, there is no longer any need for these regulations.

Abstract: These amended regulations will standardize the rules concerning submission of mitigating circumstances surrounding a withdrawal from a course or courses or receipt of a nonpunitive grade. This submission is required of eligible persons receiving Dependents' Educational Assistance and veterans and servicemembers receiving educational assistance under VEAP and the Montgomery GI Bill - Active Duty, but the rules for doing this differ. Having different rules concerning an identical action required of VA beneficiaries is confusing not only to those beneficiaries, but also to the other users of the regulations. This may result in erroneous awards. The proposed regulations will also make additional miscellaneous amendments.

Abstract: VA is proposing to amend its regulations that specifically address the rate setting methodology and the billing rates for the costs of providing care associated with ambulatory surgical procedures. VA wishes to amend the present regulations to utilize the rates already established and published by Health Care Financing Administration (HCFA). The intended effect of utilizing HCFA rates and methodology is to enable VA to expedite the rate setting process and bill for medical care services at a reasonable cost for providing care.

Legal Authority: 38 USC 210(c)(1)

CFR Citation: 38 CFR 2.1

Legal Deadline: None

Abstract: Cases have held that the head of an agency may not lawfully delegate to, or expand the authority to subpoena documents of, the Offices of Inspector General established under the Inspector General Act. (The VA Inspector General was established under that Act.) Thus, the delegation of subpoena authority under 38 CFR 2.1 does not comport with law and should be changed. Current regulations do not specify the method of service. This amendment would rescind this delegation and incorporate into 38 CFR 2.1 information on methods of service of administrative subpoenas, as other agencies do on exercising subpoena power. It would provide needed guidance to VA officials and the public on proper service of subpoenas.

Abstract: VA has been reviewing regulations for the purpose of standardizing procedures whenever possible. In the course of the review rules governing time limits provided veterans training under the Montgomery GI Bill-Active Duty is not exactly the same as that provided eligible persons training under the Dependents' Educational Assistance Program with regard to perfecting a claim. Furthermore, rules governing notification which had been provided to those receiving benefits under the now-expired Vietnam Era GI Bill with regard to a loss of dependent had not been extended to the Montgomery GI Bill-Active Duty Beneficiaries in similar circumstances. These regulations will standardize these rules.

Abstract: The law prohibits the payment of educational assistance to a person who would otherwise be eligible for benefits under the Montgomery GI Bill when he or she is on active duty with the Armed Forces and the Armed Forces are paying for the courses in which he or she is enrolled. This regulation is intended to implement this provision of law. However, users of the regulation have complained that the regulation appears to contradict the law. This proposal will eliminate this unintended appearance. In addition, some minor amendments to the wording of a similar Montgomery GI Bill-Active Duty when he or she is on active duty with the Armed Forces and the Armed Forces are paying for the course in which he or she is enrolled. Since this provision occurs in the law, but not in the regulation, users of the regulations have occasionally been confused. In order to eliminate that confusion, this regulation would include that prohibition.

Legal Authority: 10 USC 2143

CFR Citation: 38 CFR 21.5820; 38 CFR 21.5822

Legal Deadline: None

Abstract: The law provides that rates of subsistence allowance and educational assistance payable under the Educational Assistance Test Program shall be adjusted annually based upon the average actual cost of attendance at public institutions of higher education in the twelve-month period since the rates were last adjusted. After consultation with the Department of Education, the Department of Defense has concluded that these rates should be adjusted by 6 percent for the 1990-91 school year. The regulations dealing with these rates must be adjusted accordingly.

Abstract: The Department of Veterans Affairs is proposing to revise criteria under which a veteran may be found rehabilitated. The proposed changes broaden the conditions under which a veteran who becomes employed in an occupation consistent with his or her abilities, aptitudes and interests may be declared rehabilitated when he or she has not completed all of the training prescribed by VA. The main effect of the change places greater emphasis on the achievement of suitable employment than completing all elements of the program of training and services.

Abstract: The Department of Veterans Affairs Nurse Pay Act of 1990 contains a section which affects most of the educational programs VA administers. The section revises the rules for determining whether an individual can change programs of education. The regulation governing changes of programs of education for veterans receiving benefits under VEAP (Post-Vietnam Era Veterans' Educational Assistance Program) must be changed in order to bring it into agreement with the law. 3541. NONDISCRIMINATION ON THE BASIS OF SEX UNDER FEDERALLY ASSISTED EDUCATION PROGRAMS AND ACTIVITIES

Significance: Regulatory Program

Legal Authority: 20 USC 1681 et seq; 38 USC 210(a); EO 12250; EO 12067

CFR Citation: 38 CFR 18

Legal Deadline: None

Abstract: To establish standards and procedures for enforcing title IX of the Education Amendments of 1972 in educational programs and activities receiving Federal financial assistance

from VA. Title IX prohibits discrimination on the basis of sex. There are no alternatives to the issuance of the regulations. Participants, potential participants and the public in general will benefit from Federally assisted programs provided free from prohibited discrimination based on sex.

This originally appeared as a proposed rule in the Federal Register of April 25, 1979 (44 FR 24320). Because of the extended time frame due to internal agency consultation with the Department of Justice, the Department is planning to repropose these regulations.

3542. OPERATION OF CHILD CARE CENTERS AT VA FACILITIES

Legal Authority: 38 USC 4209

CFR Citation: 38 CFR 17.182

Legal Deadline: None

Abstract: Section 4209 of title 38 authorizes the Veterans Canteen Service to operate child care centers at VA facilities. The centers will be established based on the demand for care and to the extent that such operation is practical and in the best interest of VA. The centers will be available for the children of VA employees and, to the extent space is available, the children of other Federal and Department of Veterans Affairs affiliated employees. Also, these centers should provide an incentive for personnel recruitment. The regulations will prescribe the requirements and standards for the operation of VA child care centers.

Legal Deadline: None

Abstract: Agencies are authorized to restrict the testimony of their employees and production of their records in private litigation. The Department of Veterans Affairs needs to conserve Government resources in the same manner as other agencies which have regulations to restrict their employees from testifying and producing their records in private litigation. This regulation would provide the authority to do this and would further the Department's mission of assisting all veterans by conserving personnel resources for official duties and controlling utilization of Government personnel in purely private controversies.

CFR Citation: 38 CFR 0

Legal Deadline: None

Abstract: Pursuant to part I of
Executive Order 12674 of April 12,
1989 (as modified by E.O. 12731), we
are amending subpart A "General
Provisions" of the "Standards of Ethical
Conduct and Related Responsibilities"
in part 0.735 of title 38, CFR. We are
also rescinding subpart B of part 0.735
with the exception of four provisions
sections: 0.735-21(e) (safety), -21(f)
(furnishing testimony), -20(e)(4)
(intoxicants and drugs), and -20(e)(5)
(patient abuse), which will be
repromulgated under the authority in
38 USC 501. We are removing Subparts
C and D in their entirety.

3545. RELEASE OF VA LISTS OF NAMES AND ADDRESSES AND PENALTY PROCEDURES FOR UNAUTHORIZED USE

Legal Authority: 38 USC 5701(f)

CFR Citation: 38 CFR 1.519

Legal Deadline: None

Abstract: VA is amending the existing
regulations concerning VA lists of
names and addresses and is also
proposing administrative procedures to

use when these lists are used for
purposes not authorized by law. This
action results from the need to amend
the regulations to reflect current
procedures, organizational changes, and
concern expressed by veterans and
some service organizations regarding
unsolicited mail. The proposed
regulatory amendments will allow VA
to enforce its statutory duty to protect
the privacy of information concerning
veterans and their dependents,
establish procedures to suspend
recipients who misuse VA name and
address lists of veterans/dependents,
and give advance notice to recipients
of what constitutes an
authorized/unauthorized use of
veterans/dependents names and
address lists, thereby protecting the due
process rights of any recipient before
penalties are enforced.

Abstract: This regulation implements
section 319 of Public Law 101-121.
Section 319 generally prohibits
recipients of Federal contracts, grants,
and loans from using appropriated
funds for lobbying the executive or
legislative branches of the Federal
Government in connection with a
specific contract, grant or loan. Section
319 also requires that each person who
requests or receives a Federal contract,
grant, cooperative agreement, loan, or
a Federal commitment to insure or
guaranty a loan, must disclose
lobbying.

Abstract: VA is amending its
information access regulations to: (1)
clarify procedures for initial requests
and appeals received under FOIA and
38 USC 5701 which are received by
facsimile, (2) view a "no record"
response to FOIA requests as an
adverse determination requiring
notification of appeal rights; and (3)
establish a time limit on the right of
appeal of initial denial under FOIA.
Technical amendments are being made
to update the organizational titles
contained in regulation 38 CFR 1.519
to reflect the current organization and
to update references to citations in 38
USC to reflect changes made by Pub.
