

the employer would need to transfer information received to a database either manually or electronically; and the employer would need to store the 13 characters of information for each applicant. Recordkeeping costs and burden are assumed to be the time cost associated with entering 13 keystrokes.

Assuming that the required recordkeeping takes 30 seconds per record, and assuming a total of 1,878,031,768 paper and electronic applications per year (as calculated above), the resulting UGESP burden hours would be 7,825,132. Based on a wage rate of \$15.21 per hour for the individuals entering the data, the collection and storage of applicant demographic data would come to approximately \$119,020,258 per year for Title VII-covered employers. We expect that the foregoing assumptions are over-inclusive, because many employers have electronic job application processes that should be able to capture applicant flow data automatically.

However, the average burden per employer is relatively small. As stated above, we estimate that UGESP applies to 961,709 employers. Therefore, the cost per covered employer is less than \$124 each (\$119,020,258 divided by 961,709 is equal to \$123.76). Additionally, UGESP allows for simplified recordkeeping for employers with more than 15 but less than 100 employees.⁸

SUPPLEMENTARY INFORMATION:

Proposal to renew the following currently approved collection of information:

- Title:* Notice of Branch Closure.
- OMB Number:* 3064-0109.
- Form Number:* None.
- Affected Public:* Insured depository institutions.
- Burden Estimate:*

SUMMARY OF ANNUAL BURDEN

	Type of burden	Obligation to respond	Estimated number of respondents	Estimated time per response (hours)	Frequency of response	Average total annual estimated burden (hours)
Adoption of Closure Policy	Recordkeeping	Mandatory	23	8	One time	184
Notice of Closure	Disclosure	Mandatory	683	2	One time	1,366
Total Estimated Annual Burden						1,550

General Description of Collection: Section 42 of the Federal Deposit Insurance Act mandates that an insured depository institution closing a branch notify its primary federal regulator not later than 90 days prior to the closing. The statute also provides that a notice be posted on the premises of the branch for the 30-day period immediately prior to the closing and that the customers be notified in a mailing at least 90 days prior to the closing. Each insured depository institution that has one or

more branches is required to adopt a written policy for branch closings.

Burden Estimate Methodology and Assumptions: There are no changes in the methodology or substance of this information collection. FDIC believes that the existing estimate of the time required to develop a written branch closure policy and to provide the required branch closure notices is accurate. The number of branch closure notifications is closely related to the number of branches closed, while the

number of closure policy adoptions equals the number newly chartered branch banking institutions and the number of existing banking institutions that transition from having no branches to having at least one branch. To derive an estimate of average annual branch closure notifications, FDIC Risk Management Supervision (RMS) staff counted the number of full-service standalone and in-store branches that closed between 2015 and 2017. In addition, FDIC staff count the number of

newly chartered branch banking institutions and the number of institutions that transitioned from having no branches to having at least one branch. FDIC records reflect that there were 683 branch closures, on average, each year between 2015 and 2017. FDIC estimates that an average of 23 institutions each year will transition from having no branches to having at least one branch.

FEDERAL RESERVE SYSTEM

Agency Information Collection Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB

AGENCY: Board of Governors of the Federal Reserve System.

SUMMARY: The Board of Governors of the Federal Reserve System (Board) is adopting a proposal to extend for three years, without revision, the Recordkeeping Requirements Associated with Limitations on Interbank Liabilities (Regulation F; OMB No. 7100-0331).

FOR FURTHER INFORMATION CONTACT: Federal Reserve Board Clearance Officer—Nuha Elmaghrabi—Office of the Chief Data Officer, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202) 452-3829. Telecommunications Device for the Deaf (TDD) users may contact (202) 263-4869, Board of Governors of the Federal Reserve System, Washington, DC 20551.

OMB Desk Officer—Shagufta Ahmed—Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-6974.

SUPPLEMENTARY INFORMATION: On June 15, 1984, the Office of Management and Budget (OMB) delegated to the Board authority under the Paperwork Reduction Act (PRA) to approve of and assign OMB control numbers to collection of information requests and requirements conducted or sponsored by the Board. Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the Paperwork Reduction Act Submission, supporting statements and approved collection of information instrument(s) are placed into OMB's public docket files. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Final approval under OMB delegated authority of the extension for three years, without revision, of the following report:

Report title: Recordkeeping Requirements Associated with Limitations on Interbank Liabilities.

Agency form number: Regulation F.

OMB control number: 7100-0331.

Frequency: On occasion.

Respondents: Depository institutions insured by the Federal Deposit Insurance Corporation (FDIC).

Estimated number of respondents: State member banks: 829; non-member banks: 3,396; national banks: 921; state savings banks: 309; federal savings banks: 228; savings & loan associations: 195; insured federal branch of foreign banking organization: 4; insured state branch of foreign banking organization: 6; non-depository trust company member: 2; cooperative banks: 33.

Estimated average hours per response: 8 hours.

Estimated annual burden hours: State member banks: 6,632; non-member banks: 27,168; national banks: 7,368; state savings banks: 2,472; federal savings banks: 1,824; savings & loan associations: 1,560; insured federal branch of foreign banking organization: 32; insured state branch of foreign banking organization: 48; non-depository trust company member: 16; cooperative banks: 264.

General description of report: Section 206.3 of the Board's Regulation F, 12

CFR 206.3, requires insured depository institutions to establish and maintain policies and procedures designed to prevent excessive exposure to "correspondents," which include non-affiliated U.S. insured depository institutions and non-affiliated foreign banks. Regulation F limits the risks that the failure of a correspondent would pose to insured depository institutions. Where exposure to a correspondent is significant, the policies and procedures shall require periodic reviews of the financial condition of the correspondent and shall take into account any deterioration in the correspondent's financial condition. Where the financial condition of the correspondent and the form or maturity of the exposure create a significant risk that payments will not be made in full or in a timely manner, the policies and procedures should limit the bank's exposure to the correspondent, either by the establishment of internal limits or by other means.

The Board has updated its burden estimate for this information collection to account for all depository institutions insured by the Federal Deposit Insurance Corporation (FDIC), all of which are potential respondents. The Board's previous burden estimate accounted only for state member banks. The increase in burden reflects the update to correct the number of potential respondents, and is not due to a change in burden for individual institutions.

Legal authorization and confidentiality: The Board's Legal Division has determined that the recordkeeping requirements of Regulation F are mandatory and authorized by section 23 of the Federal Reserve Act, as added by section 308 of the Federal Deposit Insurance Corporation Improvement Act of 1991 (FDICIA) (12 U.S.C. 371b-2). Because the Board does not collect any information, no issue of confidentiality normally arises. However, if a compliance program becomes a Board record during an examination, the information may be protected from disclosure under exemptions (b)(4) and (b)(8) of the Freedom of Information Act (5 U.S.C. 552(b)(4) and (b)(8)).

Current actions: On January 23, 2018, the Board published a notice in the **Federal Register** (83 FR 3148) requesting public comment for 60 days on the extension for three years, without revision, of the Recordkeeping Requirements Associated with Limitations on Interbank Liabilities (Regulation F). The comment period for this notice expired on March 26, 2018.
