## FIRST-QUARTER HIGHLIGHTS

- **Record Bank Earnings of \$15.9 Billion Surpass Previous Mark by \$621 Million**

For the fifth consecutive quarter, net income of insured commercial banks set a new record. Supported by strong growth in noninterest income and one-time gains from sales of securities and other assets, industry earnings were \$621 million (4.1 percent) above the previous record, set in the fourth quarter of 1997, and were \$1.5 billion (10.1 percent) higher than a year ago. The average return on assets (ROA) reached 1.26 percent in the first quarter, up from 1.24 percent in the fourth quarter of 1997 and 1.25 percent a year ago.
- **Net Interest Margins Decline to Seven-Year Low**

Net interest margins declined at commercial banks for the fifth time in the last six quarters. Average asset yields declined by 17 basis points from fourth-quarter 1997 levels, while the average cost of funding interest-earning assets fell by only 5 basis points. As a result, the average net interest margin fell by 12 basis points, from 4.18 percent to 4.06 percent. This is the lowest level for the industry's net interest margin since the first quarter of 1991, when it averaged 4.01 percent.
- **Charge-offs On Credit-Card Loans Continue to Rise**

The annualized net charge-off rate on banks' credit-card loans rose to an all-time high of 5.40 percent in the first quarter. The previous quarterly record was 5.37 percent, set in the third quarter of 1997. Credit-card charge-offs accounted for almost two-thirds – 62.3 percent – of all loan charge-offs taken by commercial banks in the first quarter. Despite the continued rise in credit losses, credit-card lending remains significantly more profitable than many other banking activities.
- **Savings Institutions Earn \$2.6 Billion In The First Quarter**

Insured savings institutions posted a 1.01-percent ROA in the first quarter, matching their second-best quarterly ROA ever. The thrift industry's all-time record is 1.03 percent, set in the second quarter of 1996. Profits were helped by reduced expenses for loan losses and increased gains from sales of securities. Assets of savings institutions increased by \$14.1 billion in the quarter, the largest quarterly increase since 1988. Equity capital set a new post-1943 high for the fourth consecutive quarter, reaching 8.79 percent of industry assets.
- **BIF Reserve Ratio Falls Slightly, to 1.37 Percent; SAIF Remains at 1.36 Percent**

Deposits insured by the Bank Insurance Fund (BIF) grew at a slightly faster pace during the first quarter than did the fund balance. As a result, the fund's reserve ratio fell by 1 basis point, from 1.38 percent of insured deposits at year-end to 1.37 percent on March 31. The reserve ratio of the Savings Association Insurance Fund (SAIF) remained at 1.36 percent. No institutions failed during the first quarter of 1998, although a BIF member failed early in the second quarter. The last failure of a SAIF member was in August, 1996. Ninety-five percent of BIF members and 91 percent of SAIF members qualify for the best ratings under the FDIC's risk-based deposit insurance premium system and currently pay no premiums.

### Consumer Loans versus Loans to Commercial Borrowers (as a % of Total Loans)

#### Loans (\$ Billions):

■ Commercial Borrowers	\$1,321	\$1,241	\$1,222	\$1,447	\$1,695	\$1,748
■ Consumer Loans	752	823	935	1,161	1,280	1,279

**Loans to Commercial Borrowers (Credit Risk Concentrated)** - These are loans that can have relatively large balances at risk to a single borrower. A single loan may represent a significant portion of an institution's capital or income. Therefore, a relatively small number of defaults could impair an institution's capital or income. These loans include commercial and industrial loans, commercial real estate, construction loans, and agricultural loans.

**Consumer Loans (Credit Risk Diversified)** - These are loans that typically have relatively small balances spread among a large number of borrowers. A number of defaults are likely but typically do not impair an institution's capital or income. These loans include consumer and credit card loans, 1-4 family residential mortgages and home equity loans.
