FDIC APPROVES ASSUMPTION OF DEPOSITS OF
REAGAN STATE BANK, BIG LAKE, TEXAS

The Board of Directors of the Federal Deposit Insurance Corporation has approved the assumption of the deposits of Reagan State Bank, Big Lake, Texas, by Security State Bank, McCamey, Texas.

The failed bank's sole office will reopen on Friday, October 4, 1991, as a branch of Security State Bank, and its depositors automatically will become depositors of the assuming bank.

Reagan State Bank, with total assets of \$20.3 million, was closed on Thursday, October 3, 1991, by Kenneth W. Littlefield, Texas Banking Commissioner, and the FDIC was named receiver.

Security State Bank will assume about \$19.7 million in 2,700 deposit accounts. It also will purchase \$14.8 million of the failed bank's assets, including \$2.4 million in loans at a discount of \$100,000. To facilitate the transaction, the FDIC will advance about \$5.0 million to the assuming bank and will retain assets of the failed bank with a book value of about \$5.5 million.

The Board of Directors approved the deposit assumption under its authority to do so whenever it determines that such a transaction will reduce the potential loss to the FDIC.

The FDIC will recover a portion of its outlay through the liquidation of assets not transferred to the assuming bank. In this respect, the FDIC notes that its claim will have priority over the claims of nondepositor creditors and shareholders of the closed bank.
